SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Coast Guard enforces Safety Zones along Mississippi river during Major League Baseball (MLB) All Star Week 2009.

ST. LOUIS —Coast Guard Sector Upper Mississippi River (SUMR) will be enforcing a safety zone in the downtown St. Louis area between the MacArthur Railroad Bridge, Mile Marker (MM) 179, and the Eads Bridge, MM 180 from 11 July through 14 July 2009 from 4:00 p.m. till 12:00 a.m. daily. Commercial vessels transiting the Safety Zone are required to contact the SUMR Command Center at the following check in points.

- Down - Bound - MM 168.8, Lock and Dam 27 (Chain of Rocks)
- Up – Bound - MM 185.5 (Jefferson Barracks Bridge).

Vessels can contact the SUMR Command Center via Channel 16 VHF or by phone at 314-269-2332. All recreational and commercial vessels desiring to transit the safety zone will be screened by SUMR response boats prior to entry.

Additionally, SUMR will close the river within the Safety Zone on 11 July 2009 from 10:00 p.m. till 11:00 p.m. to allow a safe distance for everyone to enjoy the fireworks show that will take place following the evening concert on the ARCH grounds.

“The Coast Guard is looking forward to working along side state and local agencies to provide a safe environment for everyone to enjoy the week’s activities,” said Capt. Steve Hudson, Commanding Officer of Coast Guard Sector Upper Mississippi River.

Safe boating practices can be found at <http://www.uscgboating.org/>.

Marine Safety Information Bulletin #03-09

This bulletin is used purely for informational purposes to assist the maritime community within the Sector Upper Mississippi River Area of Responsibility. Its purpose is to advise relevant parties of emerging information & situations that may impact our Marine Transportation System as well as facilitates cooperation among the involved parties regarding actions that we may be taking and/or that you may need to employ in the interest of safety/security.

**Safety Zone in Support of the 2009 Major League Baseball (MLB) All Star
Week in St. Louis, MO
July 11 - 14, 2009**

The City of St. Louis, MO will be hosting the 2009 Major League Baseball All Star Game which includes a week of activities around the city. Some of these activities will take place adjacent to or near the Mississippi River. In an effort to ensure the safety and security of event attendees, maritime industry, and the infrastructure surrounding the city during the celebration, USCG Sector Upper Mississippi River (UMR) will be establishing a Safety Zone along the Mississippi River near the City of St. Louis.

The Safety Zone will be in effect from 11 July 2009 through 14 July 2009 during the hours of 4:00 p.m. till 12:00 a.m. each evening. During these times the Safety Zone boundaries will be established between the MacArthur Railroad Bridge, Mile Marker (MM) 179, and the Eads Bridge, MM 180. All mariners are required to report in to the USCG Sector UMR Command Center via marine radio, VHF channel 16, or by phone at 314-269-2332 for guidance prior to entering the Safety Zone. Up-Bound traffic shall report nearing the Safety Zone upon reaching the Jefferson Barracks Bridge, MM 168.6, and Down-Bound traffic shall report nearing the Safety Zone upon reaching Lock and Dam 27 (Chain of Rocks), MM 185.5. Commercial vessels are to report tow configuration and confirm Certain Dangerous Cargos (CDC) and Extremely Hazardous Cargos (EHC) if applicable. USCG Sector UMR response boats will be present in the Safety Zone during the enforcement hours and will screen both commercial and recreational traffic before allowing passage of the zone. Detailed control measures are as follows:

- EHC & CDC cargos will not be allowed to transit the zone from 7:30 p.m. to 10:00 p.m., on 11 July 2009 due to waterfront activities.
- **NO** recreational or commercial traffic will be allowed to transit the Safety Zone from 10:00 p.m. till 11:00 p.m. due to the presence of fireworks.

Companies are encouraged to be proactive in offsetting transit times to avoid possible delays during Safety Zone enforcement, especially during the evening of 11 July.

Companies operating fleeting areas containing EHCs shall ensure appropriate security measures are in place in accordance with their Facility Security Plan. Facilities shall notify the Captain of the Port of the expected presence of EHC's at their facilities during the times established for the Safety Zone.

Any questions regarding this information bulletin may be addressed to the USCG Sector Command Center at 314-269-2332.

PILE DRIVING AND EXCAVATION 2009

OLMSTED DAM PROJECT

OHIO RIVER MILE 964.4

1. The Olmsted Dam Project located at Ohio River Mile 964.4 will be performing river construction activities from July 1 through December 31, 2009. Work hours will typically be from approximately 0600 to 1600 - a second 10 hour shift could be added later in the season if needed.
2. Vessels to be used for this activity will consist of several flat deck crane barges (nominal 175'x 54'), bin material barges and M/V's. Construction activities will occur within 800' of the river lock wall on the Illinois side and within 600' of the fixed weir on the Kentucky side of the river with a minimum navigation lane of 700' provided. If needed, an assist M/V will be provided when the navigation lane is less than 900' wide. Equipment will remain moored in the river in working positions during non-work hours - typically 1600 to 0600 Monday through Friday and all day on weekends and holidays unless a 900' clear channel can't be maintained. If a 900' clear channel can not be maintained, the equipment will be moored along the river wall of the existing locks along the Illinois shoreline. The in-charge M/V OLM 32 (Kallie C) can be contacted by marine radio on Channel 13 VHF for passing instructions. The M/V's Genie C and Gordon Stevens will be the backup contact vessels if the M/V OLM 32 (Kallie C) is out of commission.
3. Navigators should exercise extreme caution while transiting this area of the river. This activity will involve both stationary vessels and mobile cross-river work. Also, be advised that barge anchor lines and associated buoys may be deployed, anchor wires may be difficult to see and mariners are advised for their own safety to be alert and pass the construction activity at a safe distance. From dusk to dawn the barges will be marked with navigational lights.
