LOCAL NOTICE TO MARINERS

District: 7

Week: 01/16

LITTLE RIVER, SOUTH CAROLINA TO ECONFINA RIVER, FLORIDA (INCLUDES PUERTO RICO AND THE U.S. VIRGIN ISLANDS)

Commander, Seventh Coast Guard District (dpw)
Brickell Plaza Federal Building
909 SE 1st Avenue, Room 406
Miami, Florida 33131-3028
Telephone (305) 415-6750
Fax (305) 415-6757

Proposed Changes Comments: D07-SMB-DPWPublicComments@uscg.mil

Report any Aids to Navigation discrepancies, shoaling, hazard to navigation and bridge discrepancies including lighting to the nearest Coast Guard unit. After business hours, emergencies or holidays contact one of the 24 hour Command Centers listed below:

DISTRICT 7 (305) 415-6800
SECTOR CHARLESTON (843) 740-7050
SECTOR JACKSONVILLE (904) 564-7511/7513
SECTOR MIAMI (305) 535-4472
SECTOR KEY WEST (305) 292-8727
SECTOR ST PETERSBURG (727) 824-7506
SECTOR SAN JUAN (787) 729-2041

BROADCAST NOTICE TO MARINERS

Navigation information having been of immediate concern to the Mariner, and promulgated by the following broadcasts, has been incorporated in this notice when still effective:

- CCGD7 (D7) BNM 466-15 to 015-16
- SECTOR CHARLESTON (CHA) BNM 403-15 to 001-16
- SECTOR JACKSONVILLE (JAX) BNM 295-15 to 005-16
- SECTOR MIAMI (MIA) BNM 360-15 to 007-16
- SECTOR KEY WEST (KWT) BNM 096-15 to 098-15
- SECTOR ST PETERSBURG (STP) BNM 1339-15 to 019-16
- SECTOR SAN JUAN (SJM) BNM 230-15 to 002-16

NOTES:

- (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position, mariners should proceed with caution
- (2) The Local Notice to Mariners is updated each Tuesday on the U.S. Coast Guard Navigation Center website at <http://www.navcen.uscg.gov/?pageName=lnmDistrict®ion=7>
- (3) Inquiries or information regarding the Local Notice to Mariner: Lee.Dragon@uscg.mil
- (4) The U.S. Coast Pilot supplements navigational information shown on charts
- (5) The U.S. Coast Pilot corrections <http://www.nauticalcharts.noaa.gov/nsd/cpdownload.htm>
- (6) Bridge Public Notice <http://www.navcen.uscg.gov/?pageName=pnBridges>

Online 2015 Light List <http://www.navcen.uscg.gov/index.php?pageName=lightLists>

Full updates to electronic editions of these volumes <http://www.navcen.uscg.gov/?pageName=lightListWeeklyUpdates>

NTM Special Notice Section: http://msi.nga.mil/MSISiteContent/StaticFiles/NAV_PUBS/UNTM/201601/Special_Notice.pdf

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center <http://cgls.uscg.mil/mailman/listinfo/nanu> in addition; the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: (703) 313-5900, email: tis-sg-nisws@uscg.mil or <http://www.navcen.uscg.gov>

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
AI - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
Fl - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - KiloHertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon

RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition: None

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

1.4 NORTH ATLANTIC RIGHT WHALES WARNING

ENDANGERED NORTH ATLANTIC RIGHT WHALES

From November to April the coastal waters between Altamaha Sound, GA, and Sebastian Inlet, FL, are used as calving grounds by the critically endangered right whale. Critically endangered right whales, including females with very young calves, may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. east coast during times when right whales are likely to be present. See enclosed compliance guide for the right whale ship strike reduction rule for specific times, areas, and exceptions to this law. Intentionally approaching within 500 yards of right whales is prohibited and is a violation of U.S. law. A minimum distance of 500 yards must be maintained from a sighted right whale unless hazardous to the vessel or its occupants. The National Oceanic and Atmospheric Administration (NOAA) recommends that operators assume that any whale sighting is a right whale unless confirmed otherwise. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. NOAA also recommends operators use two-way whale avoidance routes within the WHALESSOUTH MSR area. Please report all right whale sightings and collisions to 877-WHALE-HELP, or to the Coast Guard via channel 16. WHALESSOUTH Mandatory Ship Reporting Area is active from November 15 to April 16. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr@noaa.gov. NOAA recommends operators use two-way whale avoidance routes within the WHALESSOUTH MSR area.

LNM: 44/15

1.5 **NORTH ATLANTIC RIGHT WHALES SURVEY**

If you are a mariner operating or working on a vessel 300GT or greater on the east coast of the United States, or who has operated in this area in the past, NMFS is seeking your input on a short nine-question survey. The survey asks for mariner's opinions and feedback on the Right Whale Mandatory Ship Reporting system so that NMFS can improve the system to better suit mariner's needs. Completing the survey is voluntary and expected to take less than 10 minutes. All responses are anonymous and confidential.

To take the survey, log on to: <http://marinerrightwhaleopinionsurvey.com/Survey/NMFSMarinerSurvey.aspx> - See more at: <http://mariners.coastguard.dodlive.mil/2015/11/06/1162015-mandatory-ship-reporting-system-for-north-atlantic-right-whales-survey/#sthash.oxZ7O2wT.dpuf>

Information about the Right Whale Mandatory Ship Reporting System is available at: <http://www.fisheries.noaa.gov/pr/shipstrike/msr.htm>

LNM: 47/15

2 **USCG NATION-WIDE AUTOMATIC IDENTIFICATION SYSTEM (NAIS) NETWORK TESTING**

On August 10, 2015, the U.S. Coast Guard will begin AIS Application Specific Message (AIS-ASM) testing. The test transmissions will occur between 0001-2359Z, 7 days/week. The test messages can be identified by their Maritime Mobile Service (MMSI) number: 300669139 or 00366613 and by the words "USCG TEST" within the contents of the message. Mariners are requested to contact the USCG Navigation Center at 1-703-313-5900 or TIS-PF-NISWS@uscg.mil with any questions, comments, or to report any safety and/or operational impacts caused by this testing.

Application Specific Messages to be tested include: messages 6, 8, 25, and 26, DAC=367, FI's=22, 29, 33, 35; AIS Safety Related Text (SRM) messages: 8 (DAC=001, FI=0) and 14. The messages will be of various lengths, using repetitions of the text "USCG TEST". For further information on AIS messages, DACs, and FI's visit <http://www.navcen.uscg.gov/?pageName=AIMessages>.

LNM: 31/15

3 **ATLANTIC OCEAN - GEORGIA - FLORIDA - JACKSONVILLE: U.S. NAVY EXERCISES HAZARDOUS TO SURFACE VESSELS**

The following areas will contain exercises hazardous to surface vessels in the Jax/Chasnoa during 04-07 JANUARY, 2016. Mariners are advised to avoid these areas.

7 **ATLANTIC OCEAN - FLORIDA - LAKE WORTH INLET: OFFSHORE TESTING AND DIVE OPS**

Lockheed Martin - Palm Beach in conjunction with the United States Navy will be conducting offshore operations from 04 JANUARY, 2016

through 31 JUNE, with a manned submersible vehicle. Offshore operations will occur between the hours of 0700 to 1900 daily, in an area from Lake Worth Inlet south for 6 miles and up to 5 miles offshore. The manned submersible will be escorted by two (2) Rhib's with flashing amber lights and can be reached on VHF channel 16 for any concerned traffic. Mariners are asked to use caution while transiting through the operational area and maintain a distance of 500 yards from the support vessels. Further information contact Donny Jones at (561) 262-3833. MANDATORY DIVE OPERATIONS WILL TAKE PLACE AROUND THE SUBMERISBLE VEHICLE. MARINERS ARE ADVISED TO STAY CLEAR OF THE RHIB BOATS, SUBMERSIBLE VEHICLE, DIVE FLAGS AND FLOAT BALLS BY 500 YARDS.

NE 26 45.138N, 80 00.170W
NW 26 45.139N, 80 01.703W
SE 26 43.262N, 80 00.170W
SW 26 43.262N, 80 01.650W

LNM: 01/16

8 **FLORIDA – LAKE WORTH INLET TO WEST PALM BEACH: U.S. NAVY OFFSHORE TESTING AND DIVE OPERATIONS**

Lockheed Martin - Palm Beach in conjunction with General Dynamics Electric Boat Corporation, MOBRO Marine Tug Boat: LOU ANNA GUIDRY, along with a 150' MOBRO: 1700 Barge USCG Document #1136162 and Crane American 9353, will conduct off shore testing from 05 JANUARY, 2016 - 31 DECEMBER, 2016 with (1) Manned and piloted submersible vehicle. Testing will occur 24 hours daily 1-5 miles off shore from Lake Worth Inlet to the Breakers. A Lockheed Martin RHIB Boat and Tug Boat LOU ANNA will be supporting the Manned and piloted submersible vehicle, with support from Sea Tow Palm Beach, and or Tow Boat U.S. who will supply (1) additional RHIB Boat to support with the manned submersible vehicle, all support boats can be reached on VHF-Channel 16.

MANDATORY DIVE OPERATIONS WILL TAKE PLACE AROUND THE SUBMERISBLE VEHICLE. MARINERS ARE ADVISED TO STAY CLEAR OF THE RHIB BOATS, SUBMERSIBLE VEHICLE, DIVE FLAGS AND FLOAT BALLS BY 200 YARDS.

LNM: 01/16

8.5 **ATLANTIC OCEAN – FLORIDA – LAKE WORTH INLET TO BOYTON BEACH: U.S. NAVY OFFSHORE TESTING AND DIVE OPERATIONS**

Lockheed Martin - Palm Beach in conjunction with the United States Navy will be conducting offshore testing of two unmanned, remotely piloted, Semi-submersible vehicles. The testing will range from 1-5 miles off shore from Lake Worth Inlet to Boynton Beach Inlet. Operations will take place beginning 05 JANUARY, 2016 and ending 31 DECEMBER, 2016. Hours of operations will mostly be during daylight hours but at various times throughout the year they will be operating during the evening hours. The Lockheed Martin RHIB Boats, Tow Boat U.S., and Sea Tow Palm Beach RHIB Boats will support the semisubmersibles. In all operations, both RHIB boats will be in constant radio contact with the Operations crew, and will be equipped with a remote kill switch. The RHIB Boats will be monitoring VHF-FM Channel 16.

MARINERS ARE ADVISED TO STAY CLEAR OF THE RHIB BOATS, THE SEMI-SUBMERSIBLE VEHICLE AND DIVE OPERATIONS/DIVE FLAGS AND FLOAT BALLS BY 200 YARDS.

LNM: 01/16

10 **ATLANTIC OCEAN - FLORIDA - FORT LAUDERDALE - PORT EVERGLADES: U.S. NAVY (SFOMF) OPERATIONS**

The United States Navy, South Florida Ocean Measurement Facility (SFOMF) will conduct maneuvers with a Naval asset offshore Fort Lauderdale south and east of Port Everglades Inlet. The operations are scheduled within a period beginning on 1200Z 14 JAN 2016 to 2200Z 20 JAN 2016. The asset will work between 60ft and 600ft of water approximately $\frac{3}{4}$ NM to 4 NM off shore, and from $\frac{1}{2}$ NM south to 2.5 miles south of Port Everglades Inlet. The asset will be restricted in maneuverability.

Mariners are advised to stay well clear of the naval vessel. Broward Sheriff's Office and Tow Boat US small craft will provide escort for the naval ship while operating on the surface. Ships entering PEV are requested to enter from the northeast thereby avoiding the waters south of the channel. To allow for safe vessel operations, all vessel traffic transiting the area is requested to stay 5 NM east of PEV.

LNM: 51/15

10.4 **ATLANTIC OCEAN - FLORIDA - FORT LAUDERDALE - PORT EVERGLADES: U.S. NAVY (SFOMF) OPERATIONS**

The United States Navy, South Florida Ocean Measurement Facility (SFOMF) and the R/V BASELINE EXPLORER operated by Brownies Global Logistics will deploy and recover subsurface buoys in the water immediately southeast of Port Everglades Inlet, offshore Fort Lauderdale. The operations are scheduled within a period beginning on 1200Z 15 JAN 2016 to 2200Z 20 JAN 2016. The R/V BASELINE EXPLORER will deploy submerged buoys approximately 200ft from surface. The buoys will be moored in 450ft of water approximately 2.1 NM off shore, and 1 NM south of Port Everglades Inlet. The submerged buoys will be left in the water overnight and recovered NLT 2200Z JAN 20, 2016.

Mariners are advised to stay well clear of the R/V BASELINE EXPLORER and Tow Boat US RHIB boats during deployment and recovery operations.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01	
(Temp)	ADD	NATIONAL DOCK CHANNEL BUOY 3			at 40-41-09.001N	074-02-48.001W
		Green can				
	Corrective Action	Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true.

Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

None

Advance Notice(s)

4 SEACOAST – FLORIDA – JUPITER INLET TO FOWEY ROCKS

The following change has been approved to the Aids to Navigation system in the Straits of Florida:

Fowey Rocks Light (LLNR 920) the optic will be upgraded to a more reliable LED (Light-emitting diode) lantern. The sector light will be changed to an all around white light with the same flash characteristics and the nominal range reduced to 7NM. The RACON will be discontinued.

11 SOUTH CAROLINA – WINYAH BAY

The U. S. Coast Guard identified the below aids as critical aids and added a Synthetic AIS signals to the following aids to navigation. An AIS Signal will help mark essential AtoN even if the physical aid is destroyed or not watching properly.

- Winyah Bay Range A Front Light (LLNR 1875) MMSI # 993672112
 - Winyah Bay Range A Rear Light (LLNR 1880) MMSI # 993672113
 - Winyah Bay Channel Lighted Bell Buoy 4 (LLNR 1885) MMSI # 993672127
 - Winyah Bay Channel Lighted Buoy 7 (LLNR 1900) MMSI# 993672128
 - Winyah Bay Channel Lighted Buoy 8 (LLNR 1905) MMSI# 993672129
 - Winyah Bay Range B Front Light (LLNR 1910) MMSI # 993672114
 - Winyah Bay Range B Rear Light (LLNR 1915) MMSI # 993672115
 - Winyah Bay Channel Lighted Buoy 11 (LLNR 1930) MMSI# 993672130
 - Winyah Bay Channel Lighted Buoy 12 (LLNR 1935) MMSI # 993672131
 - Winyah Bay Range C Front Light (LLNR 1940) MMSI # 993672116
 - Winyah Bay Range C Rear Light (LLNR 1945) MMSI # 993672117
 - Winyah Bay Channel Lighted Buoy 16 (LLNR 1965) MMSI # 993672132
 - Winyah Bay Range D Front Light (LLNR 1970) MMSI# 993672118
 - Winyah Bay Range D Rear Light (LLNR 1975) MMSI# 993672119
 - Winyah Bay Channel Lighted Buoy 18 (LLNR 1990) MMSI# 993672133
 - Winyah Bay Lower Range E Front Light (LLNR 2000) MMSI# 993672120
 - Winyah Bay Lower Range E Rear Light (LLNR 2005) MMSI # 993672121
 - Winyah Bay Upper Range E Front Light (LLNR 2045) MMSI # 993672122
 - Winyah Bay Upper Range E Rear Light (LLNR 2050) MMSI# 993672123
 - Winyah Bay Channel Lighted Buoy 30 (LLNR 2100/34095) MMSI# 993672134

19 FLORIDA – WEST COAST - CHARLOTTE HARBOR TO TAMPA BAY – NEW PASS

The following change has been approved to the Aids to Navigation system in New Pass:

New Pass Channel Daybeacon 8 (LLNR 21635) will be permanently discontinued.

Chart 11425

LNM: 51/14

23 WEST INDIES – PUERTO RICO – PUNTA PENON TO PUNTA TALEGA

The following change has been approved to the Aids to Navigation system in Puerto Rico:

Arecibo Light (LLNR 30720) will have an optic upgrade to a more reliable LED (Light-emitting diode) lantern. The light will display the published characteristics with a reduction in nominal range to 11NM.

Chart 25668 LNM: 40/15

24 **WEST INDIES – PUERTO RICO – BAHIA DE SAN JUAN**

The following change has been approved to the Aids to Navigation system in Puerto Rico:

Puerto San Juan Light (LLNR 30735) will have an optic upgrade to a more reliable LED (Light-emitting diode) lantern. The light will display the published characteristics with a reduction in nominal range to 11NM.

Chart 25670 LNM: 49/13

25 **WEST INDIES – PUERTO RICO – BAHIA DE FAJARDO AND APPROACHES**

The following change has been approved to the Aids to Navigation system in Puerto Rico:

Cabo San Juan Light (LLNR 31155) will have an optic upgrade to a more reliable LED (Light-emitting diode) lantern. The light will display the published characteristics with a reduction in nominal range to 11NM.

Chart 25667 LNM: 49/13

26 **WEST INDIES – PUERTO RICO – GUANICA LIGHT TO PUNTA TUNA LIGHT**

The following change has been approved to the Aids to Navigation system in Puerto Rico:

Punta Tuna Light (LLNR 31800) will have an optic upgrade to a more reliable LED (Light-emitting diode) lantern. The light will display the published characteristics with a reduction in nominal range to 11NM.

Chart 25677 LNM: 40/15

27 **WEST INDIES – PUERTO RICO – BAHIA DE PONCE AND APPROACHES (CHANGE: October 22, 2015)**

The following change has been approved to the Aids to Navigation system in Puerto Rico:

Isla Caja De Muertos Light (LLNR 31925) will have an optic upgrade to a more reliable LED (Light-emitting diode) lantern. The light will display the published characteristics with an no change in the nominal range of 10NM. (Ref: LNM 43/15)

Chart 25683 LNM: 40/15

29 **WEST INDIES – PUERTO RICO – WEST COAST OF PUERTO RICO**

The following change has been approved to the Aids to Navigation system in Puerto Rico:

Punta Higuero Light (LLNR 32400) will have an optic upgrade to a more reliable LED (Light-emitting diode) lantern. The light will display the published characteristics with no change in nominal range of 9NM.

Chart 25671 LNM: 40/15

30 **WEST INDIES – ST. THOMAS – PILLSBURY SOUND**

The following change has been approved to the Aids to Navigation system in St. Thomas:

Buck Island Light (LLNR 32565) will have an optic upgrade to a more reliable LED (Light-emitting diode) lantern. The light will display the published characteristics with no change in nominal range of 8NM.

Chart 25641 LNM: 40/15

31 **WEST INDIES – ST. CROIX – CHRISTIANSTED HARBOR**

The following change has been approved to the Aids to Navigation system in Christiansted Harbor Channel.

Lighted Buoy 12 (LLNR 32925) will be relocated 25 yards WNW to position 17-45-16.9N, 064-42-01.9W. This change is based on waterway user needs to better mark edge of the channel.

Chart 25645 LNM: 42/15

31.3 **FLORIDA – GIWW – ST. LUCIE INLET TO FORT MYERS – OKEECHOBEE WATERWAY – ST. LUCIE RIVER**

The following change has been approved to the Aids to Navigation system in the St Lucie River:

St Lucie River Daybeacon 5 (LLNR 50675) will be permanently discontinued

St Lucie River Buoy 5 (LLNR 50675) will be established

Chart 11428

32 **FLORIDA – GIWW - TAMPA BAY TO PORT RICHEY – BOCA CIEGA BAY TO ANCLOTE ANCHORAGE**

The following changes have been approved to the Aids to Navigation system in Boca Ciega Bay to Anclote Anchorage:

The Narrows Daybeacon 3 (LLNR 61485) will be permanently discontinued

The Narrows Daybeacon 4 (LLNR 61490) will be permanently discontinued
 Chart 11411

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

3 STRAITS OF FLORIDA - FOWEY ROCKS TO ALLIGATOR REEF: Hazard to Navigation (UPDATE: September 10, 2015)

The U.S. Coast Guard received a report in 2013 of a S/V allision with Pacific Reef Light (LLNR 935). **The vessel was located approximately 250 yards west of the structure and has 6ft of mast protruding above the water. **The area surrounding the structure is a hazard to navigation. Mariners are urged to avoid the area. (Ref: LNM 50/13, 37/15)

Pacific Reef Light (LLNR 935) is extinguished. The aid was deemed unsafe to climb due to severe deterioration to the structure and ladder. A Temporary Light (TRLT) with FI Q W characteristics, with a 4NM range was placed on the NE corner of the aid approximately 8ft above the waterline. The TRLT may not be visible from certain angles depending on the mariners approach. Mariners are advised to use extreme caution while transiting the area. Ref: LNM 32/15

Chart 11462

LNM: 50/13

6 STRAITS OF FLORIDA AND APPROACHES-STRAITS OF FLORIDA: Flows through the Straits of Florida, (7) Underwater Research Mooring Buoys, 2012-2015 (Hazard to Navigation) UPDATE: Recovery/Redeployment - 7/16/2015

The U.S. Department of State Bureau of Oceans and International Environmental and Scientific Affairs have approved the install of (7) Research Mooring Buoys stretching roughly from the Florida Keys to Cuba. Moorings labeled EFL5, EFL6 and EFL7 fall within the US Exclusive Economic Zone. The program aimed at measuring the flows between Cuba and Florida. The Research Vessel B/O Justo Sierra will be conducting marine scientific research studying the measurement of inflows/outflows of the Gulf and currents/temperatures. The research apparatus is anchored by a 2000lb weight and held vertical by a flotation balloon at 130ft below the surface. The buoys will remain in position through 2015. Mariners are to avoid close proximity, or any other interference of these buoy's data gathering function.

All (7) EFL Research Instrumented Mooring Buoys are listed below with updated position information as of July 2015.

Mooring Name/Position:

(EFL1) 23-18.988N 081-05.951W
 (EFL2) 23-30.008N 081-08.873W
 (EFL3) 23-40.284N 081-11.741W
 (EFL4) 23-50.047N 081-14.562W
 (EFL5) 24-01.391N 081-17.619W
 (EFL6) 24-13.059N 081-21.980W
 (EFL7) 24-24.111N 081-23.776W

LNM: 43/12

9 STRAITS OF FLORIDA-FOWEY ROCKS TO ALLIGATOR REEF-THE ELBOW: Missing Daymark.

ELBOW REEF LIGHT 6 (LLNR 950) is missing the south daymark. The structure is considered unsafe due to severe deterioration. Mariners are advised to exercise extreme caution while transiting the area.

Chart 11462

LNM: 09/14

12 SOUTH CAROLINA - CHARLESTON HARBOR - MOUNT PLEASANT CHANNEL: Hazard to Navigation (UPDATE: July 1, 2015).

Mount Pleasant Channel Daybeacon 1 (LLNR 3510) is destroyed. The remains of the steel pile pose a hazard to navigation. Wreckage has been marked with a TRLB WR1, FI Q G characteristics. Mariners are advised to transit the area with extreme caution.

Charts: 11518 11524 11528

LNM: 26/15

15 SOUTH CAROLINA - CHARLESTON HARBOR - ASHLEY RIVER: Hazard to Navigation.

Ashley River Daybeacon 22 (LLNR 3665) is missing. The remains of the pile are below the waterline and are a hazard to navigation. Wreckage has been marked with a TRLB WR 22, FI Q R. Mariners are advised to exercise extreme caution while transiting the area.

Chart 11524

- 18 **GEORGIA - SAVANNAH RIVER - ELBA ISLAND: Dredge Operations (UPDATE: December 7, 2015)**
 Marinex Construction will commence dredge operations with Dredge HAMPTON ROADS on or about 01 DECEMBER, 2015 until approximately 16 DECEMBER, 2015 at the Kinder Morgan LNG Terminal, Elba Island, Savannah, GA. Dredge HAMPTON ROADS will then move upriver and will work in the vicinity of Marsh Island Turning Basin to Fig Island Turning Basin. The Dredge will continue on a 24 hour per day, 7 days per week basis until approximately 15 JANUARY, 2016. The Dredge will monitor VHF radio channels 13 & 16. Mariners are urged to exercise caution and transit at their slowest safe speed while transiting this area. For further information, contact Marinex Construction at (843) 722-9083. Ref: LNM 35/15, 46/15, 49/15.
 Chart 11512 LNM: 24/15
- 21 **GEORGIA - SAVANNAH RIVER - KINGS ISLAND TURNING BASIN: Hazard to Navigation.**
 Kings Island Turning Basin Light 14 (LLNR 5060) is missing. The remains of the steel pile pose a hazard to navigation. Kings Island Turning Basin Light 16 (LLNR 5065) is destroyed. Mariners are advised to transit the area with extreme caution.
 Charts: 11512 11514 LNM: 31/15
- 24 **GEORGIA - ALTAMAHA SOUND - HAMPTON RIVER: Hazard to Navigation.**
 -Hampton River Daybeacon 11 (LLNR 5970) is destroyed. Wreckage has been marked with a TRLB, FI Q G in position 31-14-13.411N/081-19-24.131W.
 -Hampton River Daybeacon 23 (LLNR 6015) is destroyed. Wreckage has been marked with a TRLB, FI Q G in position 31-18-00.631N/081-22-24.397W (Ref: LNM 52/15)
 The piles may pose a hazard to navigation. Mariners are advised to transit the area with extreme caution.
 Chart 11508 LNM: 44/15
- 28 **FLORIDA – ST JOHNS RIVER - JACKSONVILLE HARBOR: Mile Point Training Wall Reconfiguration.**
 Manson Construction will commence dredge operations on or about November 30, 2015 adjacent to the intersection of the St. Johns River and the Intracostal Waterway. Initially, marine excavation and construction will be taking place with a barge mounted excavator and a crane barge at Great Marsh Island. In February 2016, the Dredge BECHTOLT will commence dredging the main dredge area located next to the little jetties and Helen Cooper Floyd Park. This work will last until September 2016 where material will be transported into the Great Marsh Island Placement Area across the Intracostal Waterway. All of these plants will be working on VHF channel 60 and monitoring channel 13. Further information contact: Charles Markham – Project Engineer – (904) 524-7646, Patrick Kenning - General Superintendent – (904) 504-5426, Cole Reardon – Asst. Superintendent – (904) 576-1996. For any Coast Guard related issues contact USCG Sector Jacksonville (904) 657-9381.
 Chart 11491 LNM: 47/15
- 31 **FLORIDA – ST JOHNS RIVER – JACKSONVILLE - Blount Island: Berth Demolition and Construction.**
 Mariners are advised to use caution when transiting in vicinity of JAXPORT's Blount Island Berths 34 and 35 on the St Johns River, Jacksonville beginning February 2015 through October 2016. These berths are currently undergoing reconstruction and will have construction barges alongside to complete this project. For the safety of the construction personnel working on these berths, caution and safe speed is requested while transiting the area. For Coast Guard related issues contact Sector Jacksonville Waterways Management Division at (904) 564-7500.
 Chart 11491 LNM: 09/15
- 38 **FLORIDA – CAPE CANAVERAL – PORT CANAVERAL: Dredge Operations.**
 Dutra Dredging will continue dredge operations in Cape Canaveral. Operations will be 24 hours/7 days a week in various areas of the Canaveral Harbor and Entrance Channel located at around 28-24-36.79N and 80-36'-25.15W and disposal site at ODMDS. Clamshell dredges DB PAULA LEE will carry out dredging operations and 2 split hull scows. The scows will be utilized for all Disposal Operations to ODMDS. Tender Tug TROJAN and other equipment will also be supplied. All vessels will monitor Channels 12, 14, and 82. The tow tug AMERICAN CHAMPION will use the call sign KX7468. Operations will continue until on or about December 31, 2016. Further information contact Brad Shoffit (415)-519- 4262 or Joe Dunlap (415) 302-8709. Mariners are advised to use extreme caution while transiting the dredge area.
 Chart 11478 LNM: 52/15
- 40 **FLORIDA – CAPE CANAVERAL – PORT CANAVERAL: Dredge Operations.**
 Dutra Dredging will continue dredge operations in Cape Canaveral. Operations will be 24 hours/7 days a week in various areas of the Canaveral Harbor and Entrance Channel located at around 28-24-36.79N and 80-36-25.15W and disposal site at ODMDS.
 Clamshell dredges DB PAULA LEE will carry out dredging operations and 2 split hull scows. The scows will be utilized for all Disposal Operations to ODMDS. Tender Tug TROJAN and other equipment will also be supplied. All vessels will monitor Channels 12, 14, and 82. The tow tug AMERICAN CHAMPION will use the call sign KX7468.

- 42 **FLORIDA – JUPITER ISLAND – HOBE SOUND: Hopper Dredging with Beach Fill Placement.**
 Manson Construction will commence mobilization activities on or about 24 November 2015 in the St. Lucie Inlet Staging Area. Activities will include the anchoring of marine equipment and the assembly of dredge submerged pipelines. Submerged line placement at Jupiter Island will commence on

42 **FLORIDA – JUPITER ISLAND – HOBE SOUND: Hopper Dredging with Beach Fill Placement.**

or about 30 November. Installation of the first submerged pipeline will take approximately 3-5 days, weather dependent. These operations will include transit of submerged pipeline assemblies from the Staging Area inside St. Lucie Inlet to the beach fill areas along Jupiter Island. Additional submerged pipelines will be installed as the beach fill progresses.

Dredging operations at Borrow Area B and beach fill placement along Jupiter Island beach will commence on, or about 12 December. Dredging and beach fill placement should be completed by 18 February 2016 at which time demobilization will commence. Demobilization operations will include removal of the submerged pipeline assemblies from Jupiter Island beach areas and transit of the pipelines to the Staging Area at St Lucie Inlet. Demobilization operations should be completed by mid-March 2016.

The Dredge GLENN EDWARDS will monitor VHF channels 13, 16 and 66.

A staging area for anchoring of equipment and assembly of submerged dredge pipeline will be established along the south side of St. Lucie Inlet at the north end of Long Island (see enclosure section for project layout). Dredging operations will take place in Borrow Site B located approximately 2 miles offshore of the southern end of the Town of Jupiter Island (see enclosure section for project layout drawings). Beach fill placement will take place from the south end to the north end of the Town of Jupiter Island (see enclosure section). The Dredge will moor to 4 separate submerged pipeline (sub line) installations to perform the beach fill placement (see enclosure section for BEACHFILL – sequencing drawing).

Further information contact the Project Contacts listed:

46 **FLORIDA – PALM SHORES TO WEST PALM BEACH – SAILFISH CHANNEL: Dredge Operations.**

Ferreira Construction will commence dredge operations on or about November 16, 2015 until approximately March 16, 2016. Dredging will take place 1.25 to 2 miles NW of the mouth of St Lucie Inlet in the channel to Sailfish Point respectively. The Dredge MIMI will work from sunrise to sunset, Monday through Sunday (7-days per/week). The Dredge and pipeline will be marked as per Coast Guard regulations. All vessels will monitor VHF channel 16 and working channel 10. The POC for the project is Cebrone Atkins 772-925-9910 catkins@ferreiraconstruction.com and/or Buddy Frazier 772-919-1794. For any Coast Guard related issues contact the Waterways Management Division, Sector Miami (305) 535-4317.

49 **ATLANTIC OCEAN - FLORIDA – PALM BEACH – LAKE WORTH INLET: Mobilization Activities (UPDATE: December 14, 2015)**

Great Lakes Dredge & Dock Company will continue mobilization activities including submerged pipeline assembly, just outside of the south and east sides of the Port of Palm Beach Turning Basin. During assembly, pipe strings are floating on the water's surface in sections of approximately 1,500ft. Pipe is being towed in section of 1,500ft to a borrow area approximately 9 miles south of Lake Worth Inlet. The pipe is submerged from the beach to the borrow area. The pipe line is marked with flashing yellow lights and orange buoys. Boaters are advised to avoid this area. There will be approximately 1,600ft of floating pipe connecting to the Dredge ALASKA. Dredging and beach fill placement is expected to commence on or after 17 December, 2015 for the Phipps Ocean Park Beach Nourishment Project.

The Dredge ALASKA, Tugs LADY THEO, MARY VIRGINIA, MISS EMILY, FREESTATE, Crew Vessel SHIRLEY MAE and Survey Vessel COOPER RIVER will all be on scene and monitoring VHF Channels 1, 13 and 16. Approximate completion date is March 2016. Mariners are advised to transit the area with extreme caution. Further information contact Project Manager, Chris Pomfret (239) 250-0974, CPomfret@gldd.com, or Site Manager, James Towner (630) 247-0107, JTowner@gldd.com. (Ref: LNM 50/15)

63 **FLORIDA-MIAMI HARBOR-MIAMI MAIN CHANNEL ENTRANCE & GOVERNMENT CUT: Range Structures Replacement Project.**

Shoreline Foundation, Inc. has completed demolishing the old structures and rebuilt Miami Main Entrance Channel Range Front & Rear Lights and Government Cut Front & Rear Ranges.

-MIAMI MAIN CHANNEL ENTRANCE RANGE FRONT LIGHT (LLNR 10460) in position 25-45-06.159N/080-07-38.683W, displaying FI Q W (Day/Night) with an all around Passing Light displaying FI Q W (Night)

-MIAMI MAIN CHANNEL ENTRANCE RANGE REAR LIGHT (LLNR 10465) in position 25-44-59.259N/080-07-59.244W, Displaying ISO W 6s (Day/Night)

-MIAMI MAIN CHANNEL ENTRANCE RANGE REAR PASSING LIGHT (LLNR 10466) located on the NW and SE corners of the RR platform displaying FI W 4s (Night)

The old Miami Main Channel Entrance Temporary lights have been discontinued, however the Miami Main Channel Range Rear Light (TRLT) structure remains and is marked by a Passing Light displaying FI W 4s.

-GOVERNMENT CUT RANGE FRONT LIGHT (LLNR 10505) in position 25-45-11.048N/080-06-28.821W, displaying FI W 2.5s (Day) and FI G 2.5s (Night) with an all around Passing Light FI G 2.5s (Night)

-GOVERNMENT CUT RANGE REAR LIGHT (LLNR 10510) in position 25-45-01.289N/ 080-06-05.380W, displaying ISO W 6s (Day) and ISO G 6s (Night) with an all around Passing Light FI W 2.5s (Night)

-GOVERNMENT CUT RANGE REAR PASSING LIGHT (LLNR 10511) located on the NW and SE corners of the lower RR platform displaying FI W 2.5s (Night)

The old Government Cut Range Rear Light has been discontinued however the structure remains and is marked by a passing light displaying FI W 4s. The old Government Cut Range Front Light has been discontinued. The structure has been designated as a Private Aid to Navigation named Bent Range and is displaying four non-lateral red dayboards marked with the letter B with FI W 4s light. Mariners are advised to use caution while transiting the area. (Ref: LNM 06/15, 18/15, 20/15, 31/15)

- 111 **FLORIDA - CHARLOTTE HARBOR TO TAMPA BAY - LONG BOAT KEY PASS – BRADENTON BEACH: : Concrete Groin Removal Operations (UPDATE: December 22, 2016)**
CAYO, LLC will begin construction on the concrete groins at Bradenton Beach. Tug EMMA D and barge GRANITE II will arrive approximately 30 March. The work will include removal and reconstruction of the concrete structures. Hours of operations will be conducted Monday through Friday from 7:00am to 5:00pm daily. The work area will be located between 27.4514 N, 82.6948 W and 27.4455 N, 82.6926 W. Both vessels will monitor VHF FM Channel 16 while in the area. There will also be a temporary anchor buoy approximately ¼ mile off shore of the work area. The buoy will be painted high visibility yellow and will be equipped with a solar powered light mounted on top. During holidays and rough seas the Tug EMMA D and barge GRANITE II will be spudded down with proper lighting in Long Boat Key Inlet south of the channel. The approximate completion date is April 2016.
Mariners are advised to use caution when transiting the area. Contact Jeff Boyd, Project Manager at 903-360-5176, or Captain David Wiseman, Marine Superintendent at 386-566-2823 with any questions or concerns. Ref: LNM 51/15

Chart 11415 LNM: 51/14
- 121 **FLORIDA - TAMPA BAY: Tampa Harbor Dredging (UPDATE: December 1, 2015)**
Cashman Dredging and Marine Contracting Company, LLC will begin dredge operations in Tampa Bay, Hillsborough County, Florida on or about December 2, 2015 and plan to start in A-Cut and work their way north. Operations will be conducted within the Federal Navigation Channel encompassing the entire Tampa Bay from Mullet Key Channel Lighted Buoy 26 (LLNR 22395/60290) west of the Sunshine Skyway Bridge extending the entire length of the Tampa Bay Channel. See enclosure section for project vicinity map. Ref: LNM 47, 48/15.
The Dredge "ATCHAFALAYA" will actively be working in Tampa Bay: Cut-A, Cut-B, Cut-C, Cut-D, Cut-E, Cut-F, Cut-G, Cut-J, Cut J-2, Cut-K and Gadsden Point Cut.
The scope of the project will be removing shoaled material from the Federal Channel and then transiting to a booster barge in Hillsborough Bay. The booster barge will be secured with spuds outside of the navigable channel along the south side of Disposal Island 3. Approximately 1,500 linear feet of floating and submerged pipeline will be placed in line with the booster barge to the shoreline. The pipeline will be marked with lighted buoys, for local traffic. The Dredge will be supported by the survey vessel "SURVEY 2" and various other support vessels. All vessels will monitor VHF channels 16, 13, 12, and use 74 as the working channel. The Dredge will operate 7 days a week, 24 hours a day. The work is scheduled to be completed on or about May 6, 2016. The project POC for Cashman is Aaron Barton and can be reached at (617) 890-0600.

The U.S. Coast Guard received a report of an unlit steel piling in the vicinity of Private aids Snell Isle Daybeacon 7 (LLNR 25020.4) and Daybeacon 8 (LLNR 25020.5). The hazard is in approximate position 27-47.386N/082-36.686W. Mariners are advised to exercise extreme caution while transiting the area.
Chart 11416 LNM: 41/15
- 134 **FLORIDA – TAMPA BAY – ALAFIA RIVER: Dredge Operations.**
Matthews Marine Inc. will commence dredge operations on or about 19 December and run 24/7 including weekends through 01 March 1, 2016. Equipment spread will consist of the following: Bucket Dredge MBI 05, Tug MISS NICOLE, 2 regulation inland hopper barges and a discharge barge BEAN 20 (permanently moored at disposal area DMMA-3D). Tug MISS NICOLE will be tending the bucket dredge and monitoring VHF channels 16, 12, 05 in addition, the Tug is also equipped with AIS. The project will take place along the entire length of Alafia River Channel. At various times the dredge and hopper barges will obstruct the channel but will move on demand when instructed by USCG for Tampa Bay Pilots Association.
Project 24 hour POC: Trey Taylor (504)256-8222; Shaw Matthews (228)323-1346; Tom Matthews (228)323-1348 Nic Martin (253)820-5009. Operations will shut down 22 December, 2015 and resume 03 January 2016. Mariners are urged to transit at their slowest safe speed to minimize wake and exercise caution while transiting the area.
Chart 11416 LNM: 50/15
- 137 **FLORIDA – TAMPA BAY - IVO HILLSBOROUGH CUT C CHANNEL WITHIN PORT TAMPA BAY: Dredge Operations (UPDATE: September 17, 2015)**
Orion Marine will commence dredge operations within the Port of Tampa in the following locations:
Miscellaneous Berths within Port Tampa Bay to Disposal Island 2D. Mechanical Clamshell Dredging will be performed within Port Tampa Bay (also inclusive of Port Sutton, Port Redwing, and Big Bend Channel). Loaded scow barges will be transported from Port Berths to the North side of Disposal Island 2D. Material from scow barges will be slurried and hydraulically pumped to the North Cell of Disposal Island 2D via submerged high density polyethylene pipeline.
Type of Operation: Mechanical Clamshell Dredging with Hydraulic Offloading of Scow Barges and Pumping Dredge Slurry to Disposal Island 2D
Commence Date: September, 2015
Completion Date: March 31, 2016 (anticipated)
Hours of Operation: Approximately 12 hours per day (day shift only)
Days of Operation: Monday through Sunday (7 days per week)
Name of Contact Vessel: DRAVO
VHF – FM Channels Monitored: Channels 13, 16 and Working Channel 1
Land Contact: Justin Chorlog (Project Manager) Cellular Phone: (904) 712-7971
Lisa Porter (Safety Representative) Cellular Phone: (813) 476-9951
Mariners are urged to use extreme caution in the area, transit at their slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made. Floating rubber and submerged polyethylene pipeline associated with the hydraulic unloading operation near Disposal Island 2D will be utilized. Pipeline, vessels, and mooring piles, and buoys will be visibly lighted. A submerged pipeline will be utilized from the offloading barge to Disposal Island 2D. The area utilized by the hydraulic offloading operation (including barge, mooring piles, and all pipeline) will be outside of the navigation channel. Ref: LNM 32/15, 38/15

212 **FLORIDA - OKEECHOBEE WATERWAY ROUTE 2: Culvert Construction Restricting Navigation.**

The U.S. Army Corps of Engineers has multiple contracted companies in the process of replacing culverts along Route 2 of the Okeechobee Waterway from Port Mayaca to Moore Haven as part of the Herbert Hoover Dike Rehabilitation Project. Construction consists of steel and earthen cofferdams on the lakeside and landside of the dike to create a self-contained work area. The waterway will be obstructed during installation and removal of the cofferdams and during the process of replacing culverts. Recreational and commercial boaters are asked to use caution when navigating through these sections of waterway. Buoys, lights and reflectorized hazard signs will be placed at each cofferdam to delineate its location and assist boaters through the work zone. Once culvert replacements are complete, the cofferdams will be removed and waterway restored. Construction will occur 5 to 6 days a week with the possibility of night time work. The projects are anticipated to be completed in 2017. Point of contact is Carl Williams at 863-983-8101.

Chart 11428

213 **FLORIDA - OKEECHOBEE WATERWAY: Herbert Hoover Dike Rehabilitation Project CULVERTS 10 and 12 (UPDATE: June 17, 2015)**

Thalle Construction Company, Inc. is replacing two culverts along the Okeechobee Waterway near Belle Glade, FL (Culverts 12) and Pahokee, FL (Culvert 10) as part of the overall Herbert Hoover Dike Rehabilitation Project sponsored by the U.S. Army Corps of Engineers. Construction consists of the steel and earthen cofferdams on both the lakeside and landside of the dike to create a self-contained work area. The waterway will be obstructed during the installation and removal of the cofferdams and during the process of replacing the culverts. Recreational and commercial boaters are asked to use caution when navigating through this section of the waterway between the Paul Rardin park boat ramps location (26-44-57.01N/080-41-04.84W) and just north of Palm Beach Glades Airport location (26-47-53.58N/080-41.46.38W). Four (4) obstruction buoys with solar powered lights, reflectorized hazard warning and symbol will be placed at the outermost edge of cofferdams obstructing the waterway to delineate the cofferdam location and guide boaters through the work zone area. Also, two (2) obstruction buoys will be placed in the vicinity of boat ramps. Once the culvert replacements are complete, the cofferdams will be removed and waterway restored. Construction will occur 5 to 6 days a week, with the possibility of night time work. The project is anticipated to be completed in 2017. The Project point of contact is Tim Pernsteiner at 919-282-4674 or tpernsteiner@thalle.com.

Chart 11428

LNM: 28/14

214 **FLORIDA - OKEECHOBEE WATERWAY: Herbert Hoover Dike Rehabilitation Project CULVERT C-3 Replacement Adjacent to the Okeechobee Waterway.**

Mariners transiting the Okeechobee Waterway (OWW) are advised of water based construction activity on the Herbert Hoover Dike. The C3 location is 870,313.9N, 704,735.5E to 870,494.6N, 704,418.6E or from 26° 43' 40.66"N, 80° 51' 4.31"W to 26° 43' 42.45"N, 80° 51' 7.81"W.

Archer Western Construction will be replacing one culvert along the Okeechobee Waterway near Clewiston (Culvert C-3) as part of the overall Herbert Hoover Dike Rehabilitation Project sponsored by the U.S. Army Corps of Engineers. Work is scheduled to be completed September 1, 2016. A 'No Wake Zone' has been established extending 1000 feet either side of the projects to ensure safe management of bi-directional traffic throughout the construction period. Mariners are advised they transit at their own risk. Transiting vessels are restricted to a controlling width of 20-ft minimum through Culvert C-3 project area, limited by a controlling depth of 6ft when the lake is at elevation +11.0-ft Mean Sea Level. Once culvert replacement is complete, the cofferdam will be removed and waterway restored. Construction will occur 5 to 6 days a week, with the possibility of night time work. Reports of vessel grounding have been received. Mariners should be aware of and diligently follow the instructions of signage located along the shoreline. Flagmen will be present as needed to signal vessels to stop or to proceed with caution. Mariners should be prepared to stop their vessel or proceed with caution as directed by flagmen.

Construction consists of steel and earthen cofferdams on both the lakeside and landside of the dike to create a self-contained work area. The waterway will be restricted and may be intermittently obstructed during the installation and removal of the cofferdams and during the process of replacing the culverts.

Recreational and commercial boaters are asked to use caution and be prepared to stop when navigating through this section of the waterway. Additional information concerning Lake Okeechobee, the Okeechobee Waterway and related navigation bulletins including controlling depths may be obtained on Jacksonville District's website at <http://www.saj.usace.army.mil/>

Chart 11428

LNM: 14/15

215 **FLORIDA - OKEECHOBEE WATERWAY: Herbert Hoover Dike Rehabilitation Project CULVERTS 1 and 1A (UPDATE: 02/17/2015)**

Odebrecht Construction, Inc. is replacing two culverts along the Okeechobee Waterway near Moore Haven (Culverts 1 and 1A) as part of the overall Herbert Hoover Dike Rehabilitation Project sponsored by the U.S. Army Corps of Engineers. Construction consists of the steel and earthen cofferdams on both the lakeside and landside of the dike to create a self contained work area. The waterway will be restricted and may be intermittently obstructed during the installation and removal of the cofferdams and during the process of replacing the culverts. Recreational and commercial boaters are asked to use caution and be prepared to stop when navigating through this section of the waterway between the Alvin L Ward park boat ramps and Uncle Joe's Fish Camp boat ramps. Flagmen will be present as needed to signal vessels to stop or to proceed with caution. The controlling width through Culvert 1A project area is 20ft minimum, limited by a controlling depth of 6ft when the lake is at elevation +11.0ft Mean Sea Level.

Due to the orientation of Culvert C1, construction activities for the western half of the cofferdam will be completed landward of the proposed cofferdam; however it is expected that all the equipment will stay within the limits of the construction, resulting in a navigable channel of approximately 45ft. Once the culvert replacements are complete, the cofferdams will be removed and waterway restored. Construction will occur 5 to 6 days a week, with the possibility of night time work. Signs and navigational markers are in place before the construction area to advise

- 215 **FLORIDA - OKEECHOBEE WATERWAY: Herbert Hoover Dike Rehabilitation Project CULVERTS 1 and 1A (UPDATE: 02/17/2015)**
 mariners to reduce speed and use caution. The project is anticipated to be completed in August, 2016. The Project point of contact is Christopher Conerly at 225-936-8806 or cconerly@odebrecht.com.
 Chart 11428 LNM: 09/12
- 216 **FLORIDA - OKEECHOBEE WATERWAY: Herbert Hoover Dike Rehabilitation Project Culvert 2 – CLEWISTON**
 Harry Pepper & Associates, Inc. will be replacing one culvert along the Okeechobee Waterway near Clewiston (Culvert C-2) as part of the overall Herbert Hoover Dike Rehabilitation Project sponsored by the U.S. Army Corps of Engineers. Construction will occur 5 to 6 days a week, with the possibility of night time work. Construction consists of steel and earthen cofferdams on both the lakeside and landside of the dike to create a self-contained work area. The coordinates for the work site are as follows; 26°45'51"N, 80°55'32"W. Recreational and commercial boaters are asked to use caution when navigating through this section of the waterway west and adjacent to the Hoover Dike Road City Boat Ramp and Clewiston City Marina and Boat Ramp. All vessels should operate as slow to idle speeds with only enough forward movement to maintain control of the vessel. Boaters are responsible for any damage from boat wakes they create. Two (2) obstruction buoys with solar powered lights, reflectorized hazard warning and symbol will be placed at the outermost edge of cofferdams obstructing the waterway to delineate the cofferdam location and guide boaters through the work zone area. Once the culvert replacements are complete, the cofferdams will be removed and waterway restored. The project is anticipated to be completed in November 2017. For further information contact Mike Nelson, 863-902-1303 or mnelson@hpepper.com
 Chart 11428 LNM: 37/15
- 217 **FLORIDA - OKEECHOBEE WATERWAY - HARNEY POND CANAL: Replacement of Culverts (Herbert Hoover Dike Rehabilitation Project)**
 Thalle Construction Company, Inc. is replacing two culverts along the Harney Pond Canal waterway near Lakeport, FL, located on the Seminole Tribe of Florida property, Culverts HP-2 and Culvert HP-3 as part of the overall Herbert Hoover Dike Rehabilitation Project sponsored by the U.S. Army Corps of Engineers.
 Construction consists of the steel cofferdams on both the lakeside and landside of the dike to create a self-contained work area. The waterway will be obstructed during the installation and removal of the cofferdams and during the process of replacing the culverts. Recreational and commercial boaters are asked to use caution when navigating through this section of the waterway between 27-00-43.522N 081-04-12.738W and 27-00-43.523N 081-04-10.204W.
 Nine (9) obstruction buoys with reflectorized hazard warning and symbols will be placed at the outermost edges of the buoys obstructing the waterway to delineate the construction location and guide boaters away from the work zone area. Once the culvert replacements are complete, the cofferdams will be removed and waterway restored. Construction will occur 5 days a week, with the possibility of night time work. The project is anticipated to be completed in January 2019. The Project point of contact is Bill Miller at 336-212-2422 or bmiller@thalle.com.

B. DRAWBRIDGE STATUS SUMMARY

The following is a list of known drawbridge discrepancies, restrictions, and closures in navigable waters of the Seventh Coast Guard District. Additional information regarding bridges can be found in Volume 4 (Cape Henry to Key West) or Volume 5 (Gulf of Mexico, Puerto Rico and Virgin Islands) of the U.S. Coast Pilot, 33 CFR 117, or by calling (305) 415-6744. Unless otherwise noted in the date column, the described status will be in effect until further notice. Mariners knowing of bridge activities not listed below are urged to notify the Seventh Coast Guard District Bridge Branch.

BRIDGE	LOCATION	DATE	STATUS	REF
Ashley Riv	Ashley Riv, Char, SC	Until Feb 28, 2016	Single-leaf Ops	33-14/04-15
CSX – Kingsley Cr	AICS, Fernandina, FL	Jan 25 – 29, 2016	Special Regs	51-15

C. BRIDGE INFORMATION.

SOUTH CAROLINA – CHARLESTON HARBOR – ASHLEY RIVER – ASHLEY RIVER (SC 17) BRIDGE: Bridge Repairs.

South Carolina Department of Transportation has advised the Coast Guard that they need to make emergency repairs to the Old Ashley River (SC 17) Bridges across Ashley River, Charleston, South Carolina. The work is planned to start on August 18, 2014 and should be completed by February 28, 2016.

Mariners should be aware that a major safety concern has developed during the repairs to the Old Ashley River Bridge. The vehicle control gates no longer operate properly; therefore in order to open the bridge the contractor will need to physically block to roadway in order to provide a single-leaf opening. For this reason, the Coast Guard has agreed to allow for a 12 hour single-leaf opening request during daylight hours only. All mariners that need an opening of the Old Ashley River Bridge should contact the bridge tender and schedule an opening during daylight hours by providing at least 12 hours advance notice to allow the time necessary to schedule a roadway blockage.

These repairs are estimated to take at least 30-days, as the part will need to be fabricated. Mariners are requested to proceed with caution through this area.

Ref: LNM 33-14 through 52-15

Chart: 11524

SOUTH CAROLINA – CHARLESTON HARBOR – WANDO RIVER – WANDO RIVER (SC 41) BRIDGE: Bridge Construction.

The South Carolina Department of Transportation has advised the Coast Guard that their contractors PCL Civil Constructors Inc are currently working on building the new Wando River(SC 41) Bridge, South Carolina. The contractor will have floating equipment in the waterway during this project. This project is expected to be completed in March 2017.

SOUTH CAROLINA AND GEORGIA – SAVANNAH RIVER – BACK RIVER – US 17 (BACK RIVER) BRIDGE: Bridge Construction.

The South Carolina Department of Transportation has advised the Coast Guard that they have hired Balfour Beatty Infrastructure to build the new US 17/Back River Bridge across the Back River, Savannah, Chatham County, Georgia. This company will build a new bridge adjacent to the old bridge and then remove the old bridge once this structure is complete. This project is anticipated to be complete by January 2016. This work may cause minor disruptions for the people that fish in this area.

FLORIDA – ST JOHNS RIVER – BUCKMAN BRIDGE: Bridge Repairs/Reduced Vertical Clearance.

Orion Marine Construction advises that main channel work at the Buckman Bridge St. Johns River will occur approximately from June 15, 2015 through February 28, 2016. The work includes coating center span steel beams. During this time horizontal clearance in the channel will be maintained, minimum vertical clearance will be impacted and shall be no less than 60'-6" on one-half of the channel and the existing 64'-2" minimum vertical clearance will remain on the other half of the channel at all times. Once completed, vertical clearance will be restored.

FLORIDA – MIAMI TO MARATHON AND FLORIDA BAY – HAWK CHANNEL – SNAKE CREEK BRIDGE: Test Deviation.

The Coast Guard has initiated a Interim Rule with this same docket number which has extended the temporary bridge operating schedule of the Snake Creek Bridge until May 10, 2016. This extension will allow the Coast Guard and other local officials to gather the necessary information to determine whether this temporary regulation should be made permanent.

The Coast Guard is temporarily changing the regulations governing the Snake Creek Bridge across Snake Creek, Islamorada, Florida. From 8:00 a.m. on March 16, 2015 until 6:00 p.m. on May 10, 2016, the Snake Creek Bridge will be allowed to open on signal, except that from 8:00 a.m. to 6:00 p.m. this bridge will open at the top of the hour, seven days-a-week.

If you would like to comment on this test deviation, please use one of the follow methods:

If you submit a comment, please include the docket number for this rulemaking (USCG-2015-0046), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online (<http://www.regulations.gov>), or by fax, mail or hand delivery, but please use only one of these means. If you submit a comment online via <http://www.regulations.gov>, it will be considered received by the Coast Guard when you successfully transmit the comment. If you fax, hand deliver, or mail your comment, it will be considered as having been received by the Coast Guard when it is received at the Docket Management Facility. We recommend that you include your name and a mailing address, an e-mail address, or a phone number in the body of your document so that we can contact you if we have questions regarding your submission. To submit your comment online, type the docket number [USCG-2015-0046] in the "SEARCH" box and click "SEARCH." Click on "Submit a Comment" on the line associated with this rulemaking. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit them by mail and would like to know that they reached the Facility, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period and may change the rule based on your comments.

Chart: 11485

FLORIDA – ATLANTIC INTRACOASTAL WATERWAY – PALM SHORES TO WEST PALM BEACH – FLAGLER MEMORIAL/ROYAL PARK/SOUTHERN BOULEVARD BRIDGES: [Bridge Construction/Waterway Restriction/Temporary Bridge Regulation Changes/Update](#).

The Florida Department of Transportation has requested that the Flagler Memorial Bridge be placed on a restricted opening schedule until the new Flagler Memorial Bridge construction can be completed.

Mariners are reminded that the horizontal clearance at the Flagler Memorial Bridge is currently set at 70 feet and will remain until the new bridge is built and this bridge is removed.

UPDATE:

The Atlantic Intracoastal Waterway channel south of the Flagler Memorial Bridge will be closed to navigation from 10:00 p.m. to 6:00 a.m. nightly from October 19 through November 4, 2015 for this installation of the new submarine cable.

Half of the Atlantic Intracoastal Waterway channel south of the Flagler Memorial Bridge will be closed to navigation from 10:00 p.m. to 6:00 a.m. nightly from November 5 through December 23, 2015 for this installation of the new fender system.

The contractor has advised the Coast Guard that due to construction of the new Flagler Memorial Bridge (placement of the new bascule leafs), the waterway may need to remain closed for up to eight hour on four different occasions in the November/December time frame. The exact dates will be provided in a future Local Notice to Mariners.

The existing Flagler Memorial Bridge will remain on the following opening schedule - once an hour on the quarter-hour, with no openings at 8:15 a.m. or 4:15 p.m., Monday through Friday, except Federal holiday to allow for rush hour traffic.
Per 33 CFR §117.31 Drawbridge operations for emergency vehicles and emergency vessels.

(a) Upon receiving notification that an emergency vehicle is responding to an emergency situation, a drawtender must make all reasonable efforts to have the drawspan closed at the time the emergency vehicle arrives.

(b) When a drawtender receives notice, or a proper signal as provided in §117.15 of this part, the drawtender shall take all reasonable measures to have the draw opened, regardless of the operating schedule of the draw, for passage of the following, provided this opening does not conflict with local emergency management procedures which have been approved by the cognizant Coast Guard Captain of the Port:

- (1) Federal, State, and local government vessels used for public safety;
- (2) Vessels in distress where a delay would endanger life or property;
- (3) Commercial vessels engaged in rescue or emergency salvage operations; and
- (4) Vessels seeking shelter from severe weather.

FLORIDA – ATLANTIC INTRACOASTAL WATERWAY – WEST PALM BEACH TO MIAMI – NEW RIVER – FEC RAILROAD BRIDGE: Test Deviation.

The following information has been extracted from the Test Deviation, please view www.regulations.gov USCG-2015-0271 for the complete text.

The Coast Guard is issuing a temporary deviation from the operating schedule that governs the Florida East Coast Railway (FEC) Railroad Bridge across the New River, mile 2.5, at Fort Lauderdale, FL. This test deviation is from April 19 through 6:00 a.m. on October 16, 2015.

During the test deviation period, the draw of the FEC Railroad bridge across the New River, mile 2.5, at Fort Lauderdale, FL, will operate as follows:

The bridge is constantly tended.

The bridge tender will utilize a VHF-FM radio to communicate on channels 9 and 16 and may be contacted by telephone at 305-889-5572. Signage will be posted displaying VHF radio contact information and the bridge tender and dispatch telephone number. A countdown clock for bridge closure shall be posted at the bridge site and visible for maritime traffic.

A bridge log will be maintained including, at a minimum, bridge opening and closing times.

(e) When the draw is in the fully open position, green lights will be displayed to indicate that vessels may pass.

(f) When a train approaches, the lights go to flashing red and a horn starts four blasts, pauses, and then continues four blasts then the draw lowers and locks.

(g) After the train has cleared the bridge, the draw opens and the lights return to green.

(h) The bridge shall not be closed more than 60 minutes combined for any 120 minute time period beginning at 12:01 a.m.

You may submit comments identified by docket number USCG-2015-0271 using any one of the following methods:

FLORIDA – ATLANTIC INTRACOASTAL WATERWAY – WEST PALM BEACH TO MIAMI – MIAMI – BROAD CAUSEWAY BRIDGE: Bridge Discrepancy.

M&J Construction has advised the Coast Guard that starting January 12, 2015, they will begin repairing the Broad Causeway Bridge across the Atlantic Intracoastal Waterway, Bal Harbor, Miami-Dade County, Florida. In order to complete these repairs, the Coast Guard has agreed to allow this bridge to operate on single-leaf operations with a four hour notice for a double-leaf opening to the bridge tender at 305-891-2221. This bridge provides a horizontal clearance of 33 feet with one leaf in the closed position. The vertical clearance of the down span will be reduced by 3 feet due to the containment system. Mariners are advised that during this 480 day operation, M&J Construction will be requesting permission to block the navigation channel at night to install the fender system under the bridge. This nighttime work will minimize disruptions to marine traffic.

FLORIDA – GULF INTRACOASTAL WATERWAY – CHARLOTTE HARBOR – TAMPA BAY – GASPARILLA SWINGBRIDGE: Bridge Construction/Channel Closure.

GLF USA Corporation has advised the Coast Guard that they will be continuing construction of the new Gasparilla Island Swingbridge across the Gulf Intracoastal Waterway, Gasparilla, Florida. This work will restrict one of the two channels available to the mariner. The contractor will be placing a sign on the bridge so that mariners will be aware of which channel will be available and which channel will have the barge blocking the other. Mariners requesting an opening should be advised by the bridge tender on which side is available to safely pass through this area. With both bridges in operation the existing bridge will only be able to open to provide a 46 foot horizontal clearance. Mariners should proceed with caution.

Update:

The tug/barge will monitor VHF channel 9. The Construction Manager, Bob Fitzgerald's phone number is (786) 999-3411. The Project Manager, Rick Alexander's phone number is (954) 317-6130. The Project Engineer, John Kipp's phone number is (954) 317-6169.

D7 SUMMARY OF MARINE EVENTS

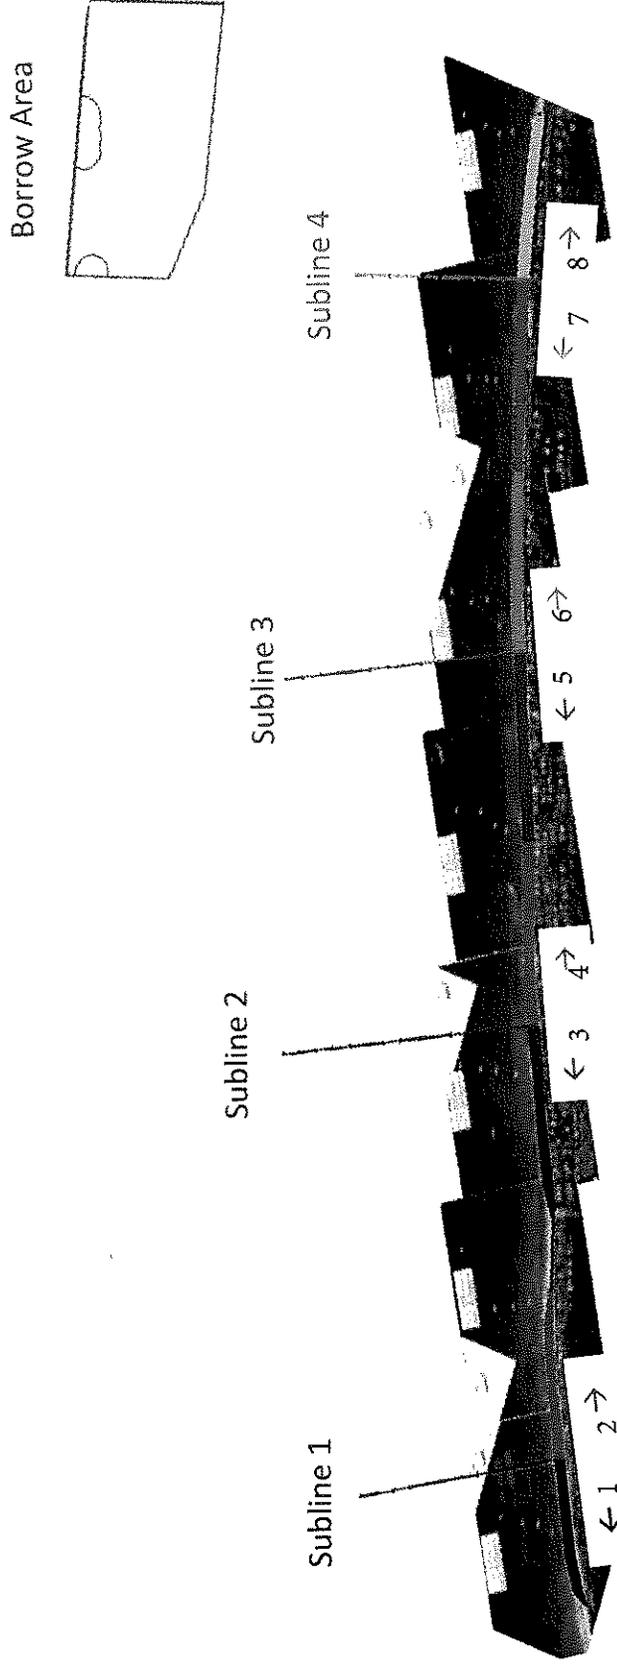

FLORIDA-TAMPA BAY-ST. PETERSBURG: Safety Zone

A Safety Zone will be enforced for the St. Petersburg Public Pier, St. Petersburg, FL Starting on October 01, 2015 and will continue thru February 01, 2016. The pier will undergo demolition of the pier head and pier approach during this time. Boaters are advised to remain outside the 450ft Safety Zone around the pier. For questions contact Mr. Mike Ryle, Assistant Engineering Director, City of St. Petersburg at 727-893-7400. Ref: LNM 40/15

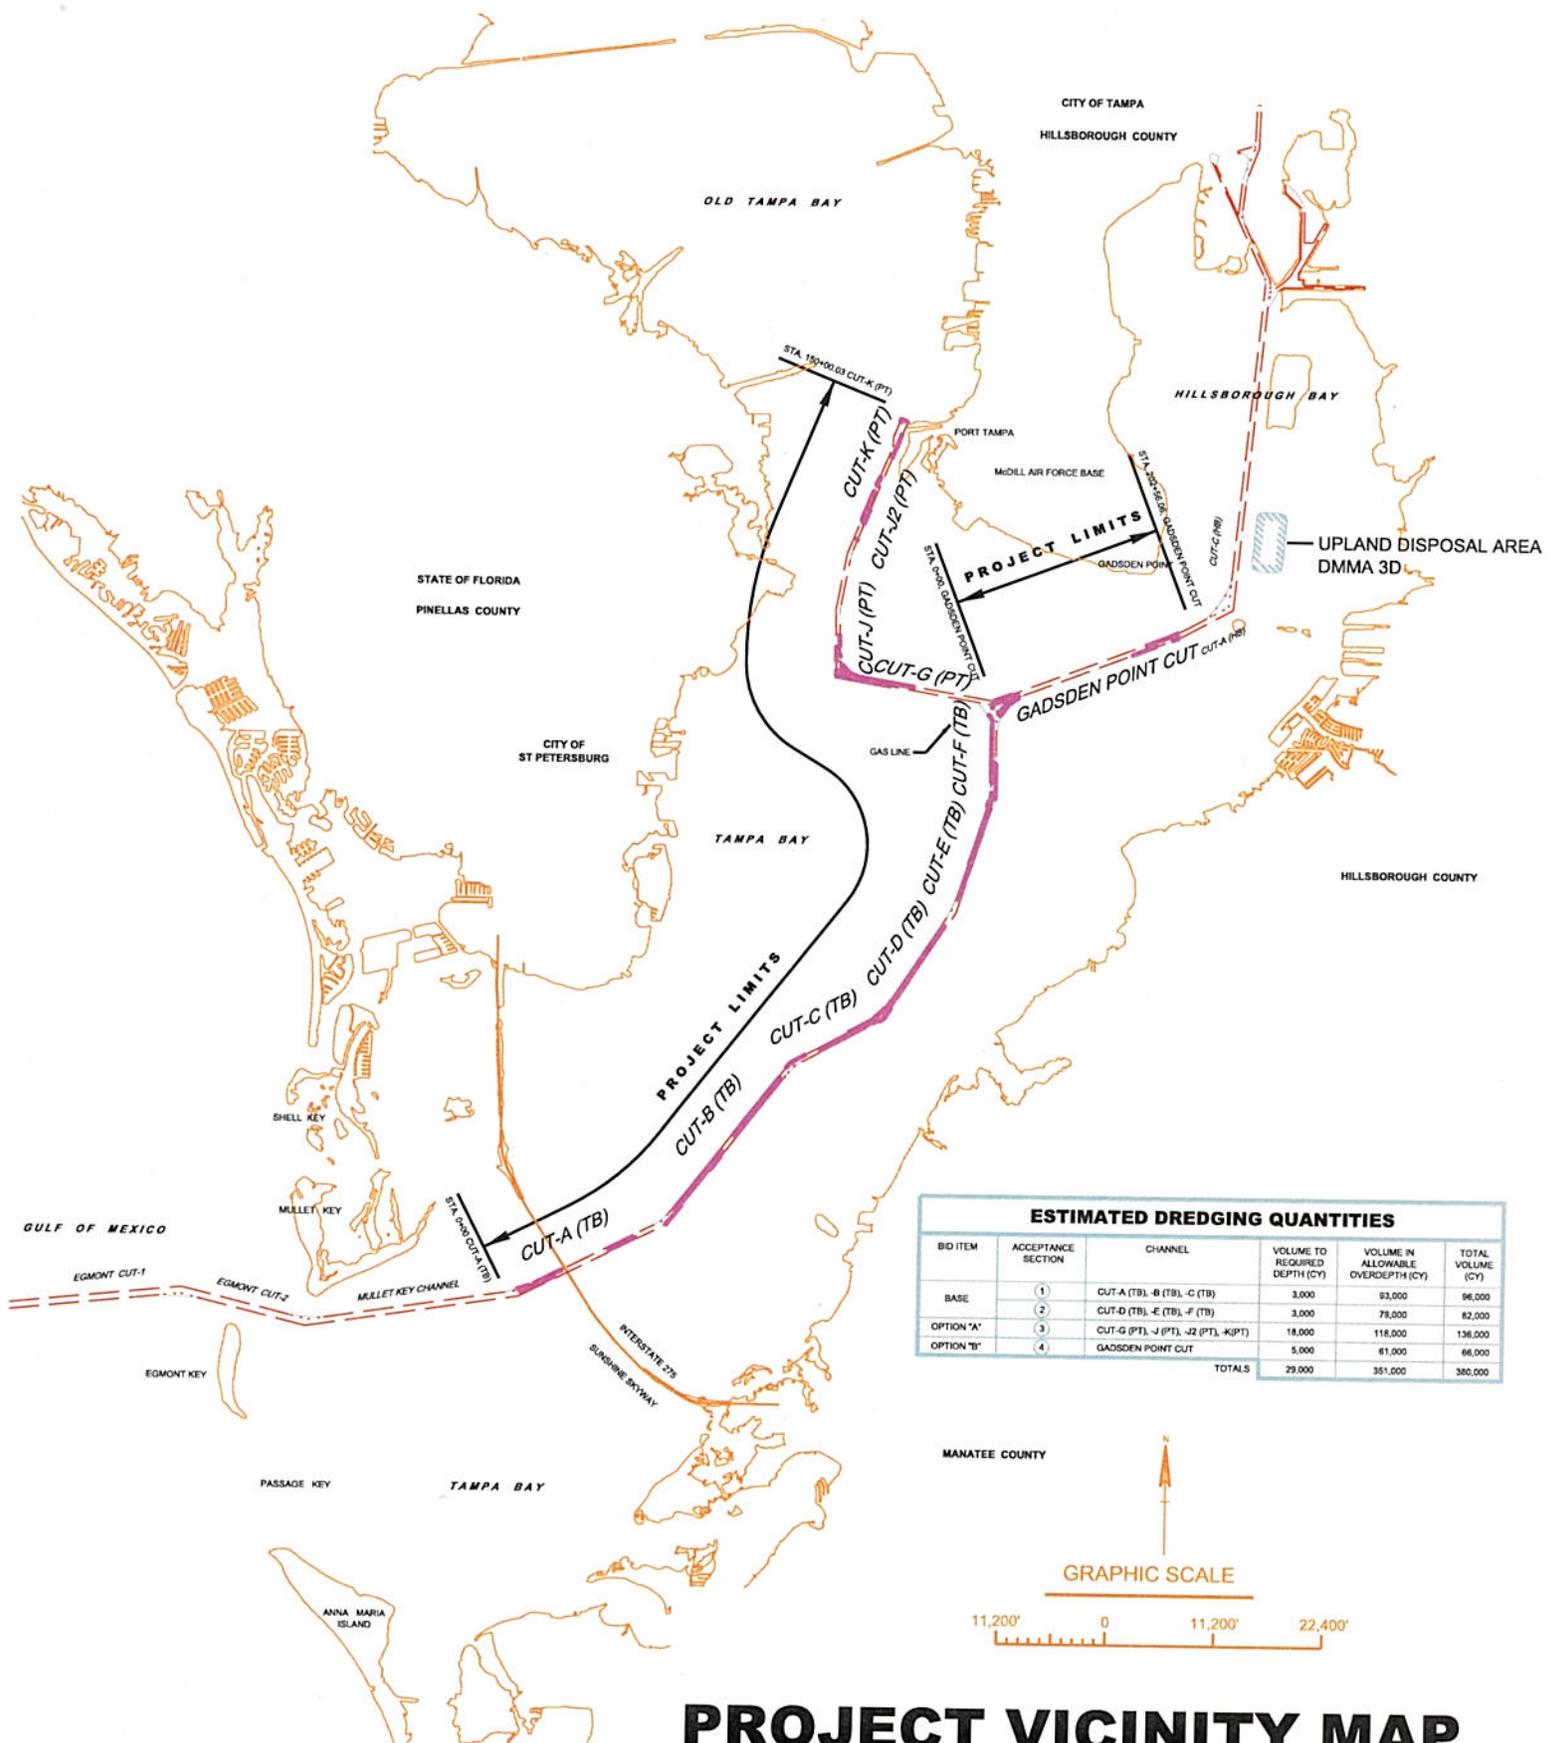

Jupiter Island Be Renourishment Project Layout

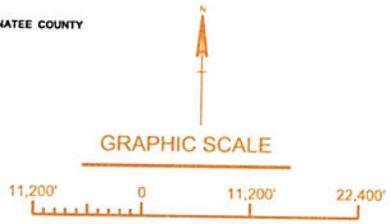

BEACHFILL – Sequencing

Beachfill will start on subline 1 filling north first. Once the template is filled to the north, pumping will continue south from subline 1. Once the maximum pumping distance is reached, beachfill will switch to subline 2. The sequence will continue according to the drawing above.

ESTIMATED DREDGING QUANTITIES					
BID ITEM	ACCEPTANCE SECTION	CHANNEL	VOLUME TO REQUIRED DEPTH (CY)	VOLUME IN ALLOWABLE OVERDEPTH (CY)	TOTAL VOLUME (CY)
BASE	(1)	CUT-A (TB), -B (TB), -C (TB)	3,000	93,000	96,000
	(2)	CUT-D (TB), -E (TB), -F (TB)	3,000	79,000	82,000
OPTION 'A'	(3)	CUT-G (PT), -J (PT), -J2 (PT), -K (PT)	18,000	116,000	134,000
OPTION 'B'	(4)	GADSDEN POINT CUT	5,000	61,000	66,000
TOTALS			29,000	351,000	380,000
