LOCAL NOTICE TO MARINERS

District: 14  Week: 33/19

August 14, 2019

ISSUED BY:
Commander (dpw)
Fourteenth Coast Guard District
300 Ala Moana Boulevard Room 9-220
Honolulu, HI 96850-4982
Telephone: (808) 535-3408
Email: D14-DG-PJ-dpw@uscg.mil
Website: https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=14

Note:
Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity, possibly beneath the surface. Any life threatening or hazardous conditions including off station, missing, or inoperative aids to navigation should be reported immediately to U.S. Coast Guard Sector Honolulu at (808) 842-2600 and U.S. Coast Guard Sector Guam at (671) 355-4822. Mariners should proceed with caution.

References:
Light List, Volume VI, Pacific Coast and Pacific Islands, 2019 Edition (COMDTCPUB P16502.6).

Navigation information having been of immediate concern to the mariner, and promulgated by the following broadcasts, have been incorporated in this notice when still significant:
COMCOGARD SECTOR HONOLULU HI BNMs: 116-19 to 119-19
COMCOGARD SECTOR GUAM BNMs: 327-19 to 342-19

ABBREVIATIONS

A through H

ADrift - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
AI - Alternating
B - Buoy
BKw - Breakwater
Blt - Blast
Bnm - Broadcast Notice to Mariner
Bu - Blue
C - Canadian
Chan - Channel
CGD - Coast Guard District
C/O - Cut Off
Cont - Contour
CRK - Creek
Const - Construction
Daymk/DayMk - Daymark
Dbn/Dbn - Daybeacon
DbD/DbD - Dayboard
Defac - Defaced
Dest - Destroyed
Discon - Discontinued
Dmgd/Damgd - Damaged
e - eclipse
Est - Established Aid
ev - every
Eval - Evaluation
Ext - Extinguished
F - Fixed
Fl - flash
Flt - Flight
H through N

I - Interrupted
ICW - Intracoastal Waterway
Imch - Improper Characteristic
In - Inlet
Inop - Not Operating
Int - Intensity
Islet - Island
Iso - Isophase
KHz - Kilohertz
Lat - Latitude
Lbh - Lighted Buoy
Lbb - Lighted Bell Buoy
Lhb - Lighted Horn Buoy
Lgb - Lighted Gong Buoy
Ltr - Letter
Lwr - Low Water
Lwt - Low Water Table
M - Mile
Mch - Marked Channel
Mchl - Marked Channel
Mhd - Mahogany
Mls - Miles
Mo - Morse Code
Mrass - Marine Radio Activated Sound Signal
Msld - Misleading
N/C - Not Charted
Nga - National Geospatial-Intelligence Agency
No/nm - Number

P through Z

Priv - Private Aid
Q - Quick
R - Red
Racon - Radar Transponder Beacon
Ra ref - Radar reflector
Rbn - Radio Beacon
Rebuilt - Aid Rebuilt
Recovered - Aid Recovered
Red - Red Buoy
Ref - Reflective
Rrl - Range Rear Light
Relighted - Aid Relit
Reloc - Relocated
Reset on Station - Aid Reset on Station
Rfl - Range Front Light
Riv - River
Rrass - Remote Radio Activated Sound Signal
S - Seconds
Sec - Section
Shl - Shoaling
Sld - Silent
Sig - Signal
SnD - Sound
SpM - Single Point Mooring Buoy
SS - Sound Signal
Sta - Station
Struct - Structure
St M - Statute Mile
Temp - Temporary Aid Change
FEDERAL COMMUNICATIONS COMMISSION ISSUES ENFORCEMENT ADVISORY ON NON-COMPLIANT AIS DEVICES (25/19)

Automatic Identification System (AIS) is designed to mitigate collisions and enhance situational awareness by exchanging real-time vessel navigation information autonomously and continuously. AIS is required to be properly installed, maintained, and used – but foremost, users should ensure they are buying a true AIS and not a knock-off sold on the internet. AIS equipment that is noncompliant and nonCertified to adopted international standards can confuse, degrade or even disrupt other users’ systems; and is illegal to be marketed, sold or used in the U.S.

On November 28, 2018, the Federal Communication Commission (FCC) issued an enforcement advisory https://docs.fcc.gov/public/attachments/DA-18-1211A1.pdf reiterating this to sellers, advertisers, and operators of noncertified Automatic Identification Systems devices like those used for fish net buoys. Violators may be subject to FCC penalties, including but not limited to, substantial monetary fines of up to $19,639 per day for marketing violations and up to $147,290 for an ongoing violation.

Given the potential harm these devices may have on navigation safety and the Coast Guard’s interest in all AIS devices being operated and maintained in proper order, the Coast Guard will assist the FCC in enforcement.

U.S. Coast Guard type-approved devices are labeled as such and numbered, either as USCG 165.155.xxxx or 165.156.xxxx. Similarly, they will also be labeled with a FCC type-certification number. A listing of these devices can also be found on their respective authorized equipment web pages, of USCG CGMIX at https://cgmix.uscg.mil/ and of FCC OET at https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm.

For more information on AIS, how to properly install and operate it, and the Nation’s AIS Network, visit the Coast Guard Navigation Center (NAVCEN) website at www.uscg.navcen.gov.

VHF-DSC RADIO EQUIPMENT INSTALLATION REQUIREMENT FOR INSPECTED PASSENGER AND COMMERCIAL FISHING VESSELS (51/15)

On January 20, 2015, the Coast Guard notified the Federal Communications Commission (FCC) that it had published a Federal Register notice declaring Sea Area A11 to be within twenty nautical miles seaward of the territorial baseline along the East, West, and Gulf coasts of the United States, excluding Alaska, but including Hawaii, Puerto Rico, Guam, the Virgin Islands of the United States, and the Northern Mariana Islands of Saipan, Tinian, and Rota. This determination was made because the Coast Guard now has service, in Sea Area A1, under its Rescue 21 Distress System coverage. Consequently, and in accordance with the requirements of Title 47 Code of Federal Regulations (CFR) 80.905(a)(1), inspected passenger vessels that carry more than six passengers, with at least one for hire, and commercial fishing vessels of 300 gross tons and upward, operating in those waters, must upgrade to VHF-DSC3 radio equipment beginning one year after notification or not later than January 20, 2016.

In accordance with references 46 CFR 121.502, 46 CFR 184.502 and 28 CFR 28.245, a vessel must comply with the applicable requirements for any radio installation, including the requirements for a station license and installation certificates to be issued by the FCC as set forth in 47 CFR Part 80. Vessels that operate solely within twenty nautical miles of land must be equipped with a radiotelephone installation that conform to the appropriate performance standards in § 80.1101(c)(2).

The FCC released a Public Notice (DA 15-466) on April 16, 2015 announcing this new requirement and questions concerning that notice may be directed to Mr. Tim Maguire of the Mobility Division, Wireless Telecommunications Bureau at (202) 418-2155, or Tim.Maguire@FCC.gov.

Questions concerning this notice may be directed to the Office of Commercial Vessel Compliance, Commandant (CG-CVC) at 202-372-1251 or CG-CVC-1@uscg.mil.

2019 LIGHT LIST (04/19)
2019 Light Lists are available on the USCG Navigation Center's website at: http://www.navcen.uscg.gov/?pageName=lightLists. Coast Guard Light Lists are a means for communicating aids to navigation information to the maritime public. The last government printed Light Lists were the 2014 editions. While the Light Lists will no longer be available in government printed form, commercial reproductions may be available for purchase from maritime service providers. Local Notice to Mariners will continue to advise Light List corrections and NAVCEN will continue to publish a compilation of corrections. Complete versions of the 2019 Light Lists are updated weekly on the NAVCEN website and mariners should download applicable copies and updates as needed at: http://www.navcen.uscg.gov/?pageName=lightListWeeklyUpdates. NOTE: Due to the lapse in federal funding, the weekly updates may not be up-to-date. We cannot guarantee this service until after appropriations are enacted. A summary of 2019 Light List corrections are available at: https://www.navcen.uscg.gov/?pageName=lightListCorrections. Guidance for use of electronic navigation publications onboard U.S. vessels can be found at: https://www.dco.uscg.mil/Portals/9/DCO%20Documents/5p/5ps/NVIC/2016/NVIC_01-16_electronic_charts_and_publications.pdf

U.S. COAST GUARD TO TEST AUTOMATIC IDENTIFICATION SYSTEM (AIS) AIDS TO NAVIGATION (04/14)

In the near future, the U.S. Coast Guard and other authorized agencies and organizations (i.e., U.S. Army Corps of Engineers, Marine Exchange of Alaska) will begin transmitting AIS ATON messages and marine safety information via AIS for testing and evaluation. The exact content, location, and times of these broadcasts will be announced in future Local Notices to Mariners.

AIS is an internationally adopted radio communication protocol that enables the autonomous and continuous exchange of navigation safety related messages amongst vessels, lifeboats, aircraft, shore stations, and aids to navigation (AIS ATON). AIS ATON stations broadcast their presence, identity (9-digit Marine Mobile Service Identity (MMSI) number), position, and status at least every three minutes or as needed. These broadcasts can originate from an AIS station located on an existing physical aid to navigation (Real AIS ATON) or from another location (i.e., AIS Base Station). An AIS Base Station signal broadcasted to coincide with an existing physical aid to navigation is known as a Synthetic AIS ATON. An electronically charted, but non-existent as a physical aid to navigation, is identified as a Virtual AIS ATON. The latter two can be used to depict an existing aid to navigation that is off station or not watching properly or to convey an aid to navigation that has yet to be charted. All three variants can be received by any existing AIS mobile device, but they would require an external system for their portrayal (i.e., AIS message 21 capable ECDIS, ECS, radar, PC). How they are portrayed currently varies by manufacturer, but the future intention is for the portrayal to be in accordance with forthcoming International Standards (i.e., IEC 62288 (Ed. 2), IHO S-4 (Ed. 4.4.0)).

Mariners capable of receiving and displaying these test AIS messages are encouraged to provide feedback and report any anomalies to the USCG NAVCEN Website: https://www.navcen.uscg.gov | Contact Us Tab | Subject: AIS | Category: AIS Testing.

USCG NATION-WIDE - AUTOMATIC IDENTIFICATION SYSTEM (NAIS) NETWORK TESTING (31/15)

On August 10, 2015, the U.S. Coast Guard will begin AIS Application Specific Message (AIS-ASM) testing. The test transmissions will occur between 0001-2359Z, 7 days/week. The test messages can be identified by their Maritime Mobile Service number: 300669139 or 00366613 and by the words “USCG TEST” within the contents of the message. Mariners are requested to contact the USCG Navigation Center at 1-703-313-5900 or TIS-PF-NISWS@uscg.mil with any questions, comments, or to report any safety and/or operational impacts caused by this testing.

Application Specific Messages to be tested include: messages 6, 8, 25, and 26, DAC=367, FI’s=22, 29, 33, 35; AIS Safety Related Text (SRM) messages: 8 (DAC=001, FI=0) and 14. The messages will be of various lengths, using repetitions of the text “USCG TEST”. For further information on AIS messages, DACs, and FI’s visit https://www.navcen.uscg.gov/?pageName=AISMessages.

USCG NATION-WIDE - SCHEDULED REALIGNMENT OF BROADCAST SERVICES (31/15)

U.S. Coast Guard Communication Stations Chesapeake, Boston, New Orleans, Charleston, Miami, Pt Reyes, Honolulu, Cambria, Astoria, Kodiak, San Juan and Guam MF and HF broadcast services may be impacted commencing August 3, 2015 by scheduled realignment of system infrastructure. The Coast Guard is realigning technical service delivery to enhance information assurance and increase cybersecurity. Mariners are advised that this realignment may impact broadcast services including search and rescue information, weather forecasts, and notice to mariners that are delivered via NAVTEX, SITOR, and HF automated voice broadcast. While the Coast Guard has made significant efforts to ensure continued service delivery, we are advising mariners of potential service disruptions in order to enable reporting by mariners of any suspected loss that is experienced by a mariner. Report suspected instances of non-receipt to the nearest Coast Guard Communications Station.

PACIFIC OCEAN - HAZARD TO NAVIGATION - MARINE DEBRIS (07/12)

With the increase in ocean debris sightings along the coastlines of the Pacific Ocean, mariners are reminded to submit debris sighting reports to the National Oceanic and Atmospheric Administration (NOAA) Marine Debris Program at DisasterDebris@noaa.gov, and the University of Hawaii oceanographic research center at marinedebris@soest.hawaii.edu. For inshore sightings, please use the State of Hawaii https://dlnr.hawaii.gov/dobor/reportmarinedebris/hawaii/.
The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

**HI ISLANDS - NOAA HYDROGRAPHIC SURVEY OPERATIONS (28/19)**

NOAA will be conducting hydrographic survey operations to improve nautical charts along the coasts of Oahu, Molokai, and Maui, from approximately July 8 through September 7, 2019. Regions of operations in Oahu include: Pearl Harbor and approaches, Barbers Point Harbor and vicinity, Honolulu Harbor, and Kewalo Basin to Maunalua Bay. Operations in Molokai include: Kanakakai Harbor to Kamalo Harbor, and Lono Harbor and vicinity. Operations in Maui include: Kahului Harbor and Kahului Bay, Honokowai Point to Mokolea Point, and Lahaina Harbor and vicinity.

The NOAA survey launches are 29 feet long and have grey hulls. They will be monitoring VHF-FM channels 13 and 16 and are identified on AIS as “RAINIER Launch”. Their operations consist of survey lines run at 7-10 knots, generally parallel to shore. Mariners are requested to transit the survey areas with caution and maintain a 0.25 nm CPA for all survey launches.

For more details or comments, contact NOAA Ship RAINIER at 541-867-8921, 808-659-0049, Ops.rainier@noaa.gov, or the NOAA Marine Operations Center – Pacific Islands, at 808-725-5761.

NOAA Chart Number 19340

See Enclosure 2

**HI ISLANDS - HAWAII - HILO HARBOR (15/19)**

Hilo Harbor Range Rear Light (LLNR 28065) will be temporarily discontinued while under construction from July 15, 2019 until on or about September 30, 2019. Mariners are advised to proceed with caution during the maintenance period.

**HI ISLANDS - HAWAII - HILO HARBOR - AIS TEMPORARY DEACTIVATION (07/19)**

All mariners be advised the Coast Guard has temporarily deactivated AIS broadcasting for the following aids to navigation in the Hilo, HI area:

- 28035 Hilo Harbor Entrance Lighted Buoy 1 AIS: MMSI 993699986
- 28040 Hilo Harbor Breakwater Light AIS: MMSI 993699987
- 28055 Hilo Harbor Lighted Buoy 3 AIS: MMSI 993699985
- 28070 Hilo Harbor Lighted Buoy 4 AIS: MMSI 993699984

**HI ISLANDS - HAWAII - ISAAC HALE PARK (02/19)**

The waterway leading to Pohoiki Bay boat ramp at Isaac Hale Park is un-navigable due to shoaling and sand accumulation. The light and day boards have been temporarily removed from Pohoiki Bay Breakwater Light 2 (LLNR 28135).

**HI ISLANDS - HAWAII - AUTONOMOUS WATERCRAFT TESTING (46/18)**

Jupiter Research Foundation will be conducting unattended sea trials of their Wave Glider (TM) vessels for several weeks at a time periodically throughout 2019. The Wave Gliders are approximately 10'x3' (surfboard sized), copper, purple or yellow in color, with a small mast extending three feet above the water surface and “submarine” components attached via a 26 foot cable. The mast will have an orange flag with a white all around light. Generally, sea trials take place along a designated track off the Kohala Coast, between Anaehoomalu Point and Opulu Point, within the following coordinates:

- 19-55-02N/ 155-55-10W
- 19-58-17N/ 155-51-14W
- 20-00-01N/ 155-50-48W
- 20-07-32N/ 156-09-53W
- 20-27-57N/ 155-53-17W
20-09-24N/ 156-45-37W

Operations will consist of scientific ocean data collection. Wave Glider carries no fuel or hydrocarbons, is wave powered, remotely attended from our Wave Glider Operations Center (WGOC), moving at speeds of typically 1kt. In the interest of safety, all vessels are to exercise caution when transiting the area. For more details contact Jupiter Research Foundation 24/7 by email at admin@jupiterfoundation.org with your inquiries.

HI ISLANDS - OAHU - KANEHOE - WAVE ENERGY TEST SITE REPAIRS (18/19)
Healy Tibbitts Builders, INC. will be conducting Wave Energy Test Site buoy and chain repairs north of Kaneohe, Pyramid Rock. Operations will commence May 6, 2019 through September 30, 2019. Construction tender call sign is WY 2931. VHF Channel 16 will be monitored. Mariners are requested to use extreme caution while transiting the work area.

HI ISLANDS - OAHU - HAWAII KAI DREDGING (29/18)
American Marine Corp. will be dredging in Hawaii Kai, June 2018 through April 2020 from 0700W - 1800W. The project will include two 20'x40' Flexi-float modular barge sections, one 30'x40' digging barge with spuds, and one 82' spudded barge for west arm area only. American Marine Corp. can be contacted 24-hours a day at (808) 545-5190.

American Marine Corporation will be dredging approximately 4,500 cubic yards of material from the Kihei Boat Ramp area to restore the channel to the original design depth of six feet below MLLW. All dredged material will be placed in an upland location in the Kihei Boat Ramp parking lot for drying before being hauled offshore. The Kihei Boat Ramp and entrance channel will remain open throughout the project duration, however there may be delays in accessing the boat ramp area as equipment will be operating in the area. There will be floating silt curtain deployed at various locations inside the breakwater. Boaters should be vigilant in looking for hazards in the area, and are encouraged to communicate with on-site supervisors. Working hours on the project will be 0700 to 1800 hours Monday through Thursday, excluding holidays, August 2019 through September 2019.

Additional plans, drawings, and other contract information are available upon request from Taylor Caster at taylor@amarinecorp.com.

HI ISLANDS - OAHU - DREDGE (31/19)
Healy Tibbitts Builders, Inc. will be conducting dredge operations Monday through Friday at Upper Middle Loch, Pearl Harbor commencing on July 15, 2019 and continuing until January 2020. Vessels on scene will consist of

- Crane Barge Weeks 544 (160' x 65')
- Dump Scow Weeks 260 (197' x 45')
- Weeks Tug Carolyn (59' x 22')
- Weeks Tug Roberta G (46' x 16')
- Miscellaneous Picket boats and work skiffs

Vessels will be transiting offshore to the EPA dump site south of Pearl Harbor. The call sign is WY 2931 and VHF channel 16 will be monitored at all times. Mariners are requested to use extreme caution while transiting the area.

For questions contact project manager Don Dimaya at 808-398-5031.

HI ISLANDS - OAHU - SHOALING (25/17)
There has been a report of increased shoaling in Maunalua Bay, between Maunalua Bay Daybeacon 1A (LLNR 28935) and Maunalua Bay Daybeacon 2 (LLNR 28940) when transiting to and from Hawaii Kai. The depth of the water is being estimated around 2-3 feet at low tide. All vessels are requested to remain vigilant regarding water depth when operating in and out of this channel.

HI ISLANDS - OAHU - KEWALO BASIN HARBOUR CONSTRUCTION REPAIRS (35/17)
Sea Engineering, Inc. will be conducting pier repairs in Kewalo Basin Harbor on September 1, 2017 through September 1, 2019. Several vessels will be working on site, VHF Channel 16 will be monitored. Call sign is SEI workboat. Work is scheduled to be conducted in phases with no more than 2 piers affected by construction efforts at any time. Mariners are requested to use extreme caution while transiting around the work site. Mariners are requested to adhere to “No Wake” / “Divers Flag” / “Alpha Flag” when posted. If you have any questions they can be directed to Sea Engineering, Inc. main office: 808-536-3603.
HI ISLANDS - OFFSHORE - HAZARDOUS OPERATIONS (33/19)
Hazardous operations will be conducted on August 13, 2019 and August 14, 2019 from 1500W - 2200W in an area bound by the following coordinates:

20-41N/ 157-46W
20-42N/ 157-41W
20-42N/ 157-25W
20-19N/ 157-06W
20-05N/ 157-36W
Return to origin.

In the interest of safety, all vessels not involved in the above event are requested to remain clear of this area.

HI ISLANDS - OAHU - HAZARDOUS OPERATIONS (33/19)
SBX-1 high powered radar operations will be conducted from August 3, 2019 until September 8, 2019. A 10 NM surface radar hazard zone will be in effect around position 20 30N/ 159W.

In the interest of safety, all nonparticipating pilots are advised to avoid the above area. IFR traffic under ATC jurisdiction should anticipate reroute around the test area.

If there are any questions, please call or email the project POC Dave Lynch at Ext-dlynch@gryphonlc.com (951) 928-3133.

MARIANA ISLANDS - GUAM - APRA OUTER HARBOR - SAFETY ZONE (23/15)
Apra Harbor Outer Harbor Safety Zone Alpha is designated as the waters encompassed within an arc of 1000 yard radius centered at Naval Wharf Kilo located in the following coordinates:

13-26-44.5N/ 144-37-50.7E

Safety Zone Alpha applies when Wharf Kilo or a vessel moored at Wharf Kilo is displaying a red Bravo flag by day or a red light at night accompanied by a Safety Zone Alpha Sign. When Safety Zone Alpha applies entry into the zone is prohibited unless authorized by Captain of the port, Guam. Reference Safety Zone 165.1401 as marked on Apra Harbor Chart 81054.

Apra Harbor Outer Harbor Safety Zone Bravo is designated as the waters encompassed within an arc of 1400 yard radius centered at Naval Wharf Kilo located in the following coordinates:

13-26-44.5N/ 144-37-50.7E

Safety Zone Bravo applies when Wharf Kilo or a vessel moored at Wharf Kilo is displaying a red Bravo flag by day or a red light at night accompanied by a Safety Zone Bravo Sign. When Safety Zone Bravo applies entry into the zone is prohibited unless authorized by Captain of the port, Guam. Reference Safety Zone 165.1401 as marked on Apra Harbor Chart 81054.

MARIANA ISLANDS - GUAM - APRA HARBOR SECURITY ZONE CHARLIE (01/16)
Apra Harbor Security Zone Charlie is designated as the waters surrounding naval moorings buoy number 702, located in the following coordinates:

13-27-30N/ 144-38-13E

While a vessel is moored the security zone will extend 100 yards in all directions around the vessel and its mooring. A 50 yard security zone will remain in effect in all directions around buoy number 702 while there is no vessel moored. Entry into security zone Charlie is prohibited unless authorized by the Captain of the Port, Guam. Reference Security Zone Charlie 165.1404 as marked on Apra Harbor chart (81054). For any questions contact USCG Sector Guam at (671) 355-4910.
SECTION II - DISCREPANCIES
This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

Advance Notice(s)

**DISCONTINUANCE OF THE NATIONWIDE DIFFERENTIAL GLOBAL POSITIONING SYSTEM (NDGPS) (28/19)**

The U.S. Coast Guard (USCG) announces the discontinuance of its remaining 38 maritime Differential Global Positioning System (DGPS) sites. The USCG will implement the closures through a phased reduction in service, which will commence in September of 2018, and conclude by September of 2020. These closures will culminate in the complete cessation of the Nationwide Differential Global Positioning System (NDGPS) service. This notice provides the general schedule for the discontinuance of the remaining maritime DGPS sites. Kokole Point, HI and Upolu Point, HI are expected to be discontinued by the end of 2019.

The Maritime Differential GPS system was established in the late 1980s to augment the existing GPS signal with accuracy corrections and integrity monitoring. This augmentation signal was broadcast over Medium Frequency from terrestrial broadcast sites. At the time, the publicly available GPS signal was intentionally degraded through Selective Availability (SA), and thus augmentation was necessary to meet minimum requirements for maritime positioning and navigation. Selective Availability was permanently discontinued in 2000, and as system technology has improved, observed positional accuracy for un-augmented GPS consistently meets requirements for harbor/harbor-approach navigation on modern GPS receivers.

On July 5, 2016, the USCG, the U.S. Department of Transportation (DOT), and the U.S. Army Corps of Engineers (USACE) published a notice in the Federal Register (81 FR 43613), which announced that the Nationwide Differential Global Positioning System (NDGPS) would remain operational with a total of 46 USCG and USACE sites available to users in the maritime and coastal regions. Since 2016, the USACE has discontinued 7 sites, and the USCG has discontinued 1 site in Aransas, TX due to storm damage from Hurricane Harvey. Currently, there are only 38 remaining NDGPS sites, all of which are maritime sites.

General information regarding the NDGPS Service and graphics depicting the proposed changes to NDGPS coverage are available at the USCG's NDGPS General Information website at: [http://www.navcen.uscg.gov/?pageName=dgpsMain](http://www.navcen.uscg.gov/?pageName=dgpsMain).

For more information on the NDGPS outages and broadcast termination dates, visit the USCG's website at [https://www.navcen.uscg.gov/?pageName=dgpsSiteInfo&currentOutages](https://www.navcen.uscg.gov/?pageName=dgpsSiteInfo&currentOutages).

Additional information on GPS, NDGPS, and other GPS augmentation systems is also available in the 2017 Federal Radionavigation Plan, which is published by the Department of Defense, Department of Homeland Security, and U.S. DOT, and is also available at the USCG's website at [http://www.navcen.uscg.gov/?pageName=pubsMain](http://www.navcen.uscg.gov/?pageName=pubsMain).

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).
SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

DEPARTMENT OF HOMELAND SECURITY - REPORTS OF SUSPICIOUS ACTIVITIES (33/05)
The Department of Homeland Security (DHS) encourages the maritime public to report information concerning suspicious activity to their local Federal Bureau of Investigation (FBI) Joint Terrorism Task Force (JTTF) office, http://www.fbi.gov/contact/fo/fo.htm, or to other appropriate authorities. Individuals can contact the DHS watch and warning unit at (202) 323-3205, toll free at 1-888-585-9078, or by e-mail to nipc.watch@fbi.gov. The U.S. Coast Guard reminds the maritime industry that they may also report information concerning suspicious activity to the National Response Center (NRC) at 1-800-424-8802.

PUBLICATION - U.S. COAST PILOT 7 - NEW EDITION (50/18)

Only Print-on-Demand (POD) bound copies are available for purchase; visit www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot

PRINTABLE DIGITAL FILES OF UP-TO-DATE NOAA NAUTICAL CHARTS (25/11)
NOAA’s Office of Coast Survey provides up-to-date digital files of the NOAA nautical charts for federal agencies to use in performing the nation’s business. Agencies may download the files and plot them or have them plotted under agency control. Send an e-mail from an official government address with a .gov or .mil extension to NauticalCharts@NOAA.gov for details. NOTE: Use of these files is limited to federal government agencies.

All other users of NOAA charting products should continue to receive them from their regular suppliers. See www.NauticalCharts.NOAA.gov for information.

NOAA - RASTER NAVIGATIONAL CHARTS SERVICE RESUMES (24/08)
NOAA has resumed its full service of providing free weekly updates and new editions of RNCs via the Internet at http://www.nauticalcharts.noaa.gov. A list of certified RNC distributors is also available at the above Internet site. Address questions to NOAA at http://ocsdata.ncd.noaa.gov/idrs/inquiry.aspx.

LOCAL NOTICE TO MARINERS - AUTOMATIC NOTIFICATION SERVICE (34/08)
The USCG publishes the Local Notice to Mariners (LN) exclusively over the internet in order to improve service and reduce costs. The LN can be found at https://www.navcen.uscg.gov/?pageName=lnmMain.

Users may now sign up to receive automatic notices via email when current information pertaining to the Local Notice to Mariners, Light List, Summary of Corrections, and other maritime related information is posted. To sign up for this automatic notification service, please visit https://www.navcen.uscg.gov/index.php?pageName=LNMessageRegistration. Registration is free.

HI ISLANDS - DGPS STATUS (33/05)
To obtain status updates of the Differential GPS broadcast sites at Upolu Point, and Kokole Point, HI, contact the Navigation Information Services Watchstander at (703) 313-5900 or via email at email: tis-pf-nisws@uscg.mil.

ELECTRONIC CHART DISPLAY INFORMATION SYSTEM (ECDIS) - ERROR (18/10)
Mariners are advised that ELECTRONIC CHART DISPLAY INFORMATION SYSTEM (ECDIS) may not display some isolated shoal depths when operating in "Base or Standard Display" mode. Route planning and monitoring alarms for these shoal depths may not always be activated. To ensure safe navigation and to confirm that a planned route is clear of such dangers, mariners should visually inspect the planned route and any deviations from it using ECDIS configured to display “ALL DATA”. The automated voyage planning check function should not be solely relied upon.

NOAA has updated the following ENC’s to resolve this issue:
PRIVATE AIDS TO NAVIGATION (01/08)

The term private aids to navigation (ATON) includes all marine aids to navigation operated in the navigable waters of the United States other than those operated by the Federal Government. Private ATON includes lighted structures and day beacons, lighted and unlighted buoys, RACONs and fog signals. Almost half of the aids to navigation established in the Fourteenth District are operated and maintained by private interests. These interests include private citizens, marina and yacht clubs, municipal and state governments, construction and dredging companies, research and non-profit organizations, beachfront associations, and large industrial concerns.

No person, public body or instrumentality not under the control of the Commandant, exclusive of the Armed Forces, shall establish and maintain, discontinue, change or transfer ownership of any aid to maritime navigation, without first obtaining permission to do so from the Commandant and the Army Corps of Engineers.

Owners contemplating establishing such buoys should review CFR 33 Part 66 and contact the appropriate authority, usually the Army Corps of Engineers, to determine what additional requirements may exist. Additionally, private aids on navigable waters regulated by the federal government require either a Coast Guard permit or Coast Guard letter of no objection. The application for a letter of no objection or for a permit, form CG-2554, can be obtained by writing or faxing the Private ATON Manager at the address and phone number given below, or via the website at http://www.uscg.mil/d14/cmd/dp/dpw/.

The Private ATON Manager provides applicants assistance in processing their paperwork. Federal regulations governing aids to navigation, copies of permits previously issued to the applicant, illustrations of standard markings, and lists of commercial ATON manufacturers are available. Questions and requests should be directed to:

Commander (dpw)
Fourteenth Coast Guard District
300 Ala Moana Boulevard, 9-216
Honolulu, HI 96850-4982
Attn: Private ATON Manager
Tel: (808) 535-3408
Fax: (808) 535-3404

U.S. Army Corps of Engineers
Honolulu District
Building 230
Ft. Shafter, HI 96858-5440
Attn: CEPOH-EC-R
Phone: (808)-835-4004

Mariners are reminded that they have a responsibility to report discrepant private aids to the nearest Coast Guard unit. The failure of a mariner to report a discrepant aid to navigation may result in casualties to others. All aids to navigation in the Fourteenth District, both private and federally maintained, are user monitored. When owners receive discrepancy reports from the Coast Guard, they are obligated to take immediate action to correct the discrepancy. Owners are reminded of their responsibility for the proper operation and maintenance of their private aids to navigation. All classes of private aids to navigation shall be maintained in proper operating condition. They are subject to inspection by the Coast Guard at any time and without prior notice. The Coast Guard issues broadcast notice to mariners for reported discrepancies that remain in effect until the discrepancy is corrected or is published in the Local Notice to Mariners.

FISH AGGREGATING DEVICE (FAD) BUOY INFORMATION AND DISCREPANCIES (33/05)

The State of Hawaii has placed Fish Aggregating Devices (FADs) in the waters surrounding the main Hawaiian Islands. These buoys attract schools of tuna and other important pelagic fishes, such as dolphinfish (Mahimahi), wahoo (Ono) and billfish. FADs allow fishermen to easily locate and catch these species. The buoys are anchored using approximately 2.5 miles of mooring line which creates a very large swing circle. Mariners are advised that these buoys may maneuver anywhere from three to five miles from their charted positions.

Mariners requesting up to date information concerning Hawaiian Island's FAD Buoy's, or reports of discrepancies, may either visit the Hawaii FAD web site at http://www.himb.hawaii.edu/fads, contact Mr. Warren Cortez at (808) 956-0684, or send written correspondence to:

Mr. Warren Cortez
Fish Aggregating Devices Program
965 N. Nimitz Hwy
Honolulu, HI 96817

Mariners requesting up to date information concerning Guam's FAD Buoy's, or reports of discrepancies, may either visit the Guam FAD web site at www.dawr.guam.gov, contact Mr. Brent Tibbatts at Brent.Tibbatts@gmail.com 671.735.3955/56, or send written correspondence to:

Mr. Brent Tibbatts
Guam Department of Agriculture
Division of Aquatics and Wildlife Resources
FISH AGGREGATING DEVICE (FAD) BUOY INFORMATION AND DISCREPANCIES (33/05)
163 Dairy Road
Mangilao, Guam 96913

Hawaii Weather: http://www.prh.noaa.gov/pr/hnl/
Online Chart Viewer: http://www.nauticalcharts.noaa.gov/mcd/OnLineViewer

(For NOAA Print-on-Demand (POD) charts only)
NOAA and Coast Survey, in partnership with OceanGrafix, LLC, offer mariners official nautical charts that are continuously updated by NOAA cartographers up to the latest Notice to Mariners and to all Critical Safety Information known to the Coast Survey in advance of its publication in a Notice. From NOAA digital files, OceanGrafix prints corrected charts, to order, for sale to mariners through the OceanGrafix retail network. Produced and distributed by authority of NOAA, these charts meet all U.S. Coast Guard chart carriage requirements, including the requirements for updating (Titles 33 & 46 CFR). New Editions are available 2-8 weeks before their release as a traditional NOAA chart.

These new charts feature operational information for the commercial mariner, and education and safety information for the recreational boater. They have brighter colors and a higher contrast for better readability in various light conditions. They come either laminated or on water resistant paper.

POD charts are available through a POD chart agents at http://OceanGrafix.com/, 1-877-56CHART, or contact NOAA at http://nauticalcharts.noaa.gov/pod/Pod.htm. For questions contact NOAA at help@nauticalcharts.gov.

QUARTERLY UPDATES TO THE NOAA TIDE PREDICTIONS SERVICE (26/12)
NOAA, National Ocean Service’s and Center for Operational Oceanographic Products and Services (CO-OPS) provides electronic tide predictions for more than 3000 locations around the United States, Caribbean and the Pacific Islands as part of the NOAA Tide Predictions service of the CO-OPS Tides & Currents website.

http://tidesandcurrents.noaa.gov

NOAA Tide Predictions service uses the most up-to-date information available in order to provide accurate tide predictions. Updates to the predictions provided by NOAA Tide Predictions service, based on newly obtained or analyzed data, are released quarterly.

Previous quarterly updates, are available through the NOAA Tide Predictions service of the CO-OPS Tide & Currents website. For additional information, please contact CO-OPS via e-mail at Tide.Predictions@noaa.gov or (301)713-2815.

HI ISLANDS - U.S. DEPARTMENT OF HOMELAND SECURITY - DIVER SAFETY ADVISORY (25/09)
This advisory is issued to increase the safety of all open water and waterway users throughout the Hawaiian Islands and is issued in conjunction with the Department of Land and natural Resources (DLNR) pilot program focusing on diver safety.

Over the years there have been an increased number of reports of near misses between divers and waterborne crafts in Oahu, Maui and Hawaii. In most cases, these near misses have happened in near coastal waters and often when conditions were choppy.

The following suggested measures can help avoid near misses:
Become familiar with your transit route and destination area before heading out.
Remain vigilant of your surroundings and post extra lookouts in choppy waters and inclement weather.
Stay clear of federal Aids to Navigation and commercial delineated channels.
Use all appropriate sound and visual signals.
Postpone trips until the weather and sea conditions improve.

All open water and waterway users are also highly encouraged to visit the Coast Guard Sector Honolulu Homeport website for Safety and Security Zone information for the Hawaiian Islands at: http://homeport.uscg.mil/ under the Honolulu Port Directory tab and Safety and Security section.

The most updated charts for the Hawaiian Islands can be found on the National Oceanic and Atmospheric Administration (NOAA) website: http://www.prh.noaa.gov/pr/hnl or http://www.nauticalcharts.noaa.gov/mcd/OnLineViewer.html.

Any and all life threatening or hazardous conditions including off station or missing buoys should be reported immediately to the U.S. Coast Guard at (808) 842-2600.

PACIFIC OCEAN - NATIONAL WILDLIFE REFUGE - RESTRICTED FOR ENTRY (22/11)
The U.S. Department of the Interior, Fish and Wildlife Service, National Wildlife Refuge System, Pacific Reefs National Wildlife Refuge Complex manages ten National Wildlife Refuges within the Fourteenth Coast Guard District. Eight of these Refuges, described below, consist of waters and submerged and emergent lands. The remaining two Refuges, the Marianas Arc of Fire and the Mariana Trench National Wildlife Refuges, consist only of submerged lands.

The waters and submerged and emergent lands of National Wildlife Refuges are subject to the regulations governing the National Wildlife Refuge System found in Parts 25-32 of Title 50, Code of Federal Regulations. Therefore, except as provided by international law, these areas are closed to all forms of entry, other than innocent passage, unless specifically authorized by a Special Use Permit issued by the U.S. Fish and Wildlife Service. Should you have any questions, please contact the Pacific Reefs National Wildlife Refuge Complex by emailing the Project Leader at Pacific_Reefs@fws.gov or by calling 808-792-9560.

**Baker Island National Wildlife Refuge.** This Refuge includes all of Baker Island approximately at Latitude 0-11-45 North and Longitude 176-28-45 West, together with its territorial waters extending outward 12 nautical miles (13.8 mi; 22.2 km) from the mean low water line of the island.

**Howland Island National Wildlife Refuge.** This Refuge includes all of Howland Island approximately at Latitude 0-48-30 North and Longitude 176-37 West, together with its territorial waters extending outward 12 nautical miles (13.8 mi; 22.2 km) from the mean low water line of the island.

**Jarvis Island National Wildlife Refuge.** This Refuge includes all of Jarvis Island approximately at Latitude 0-22-20 South and Longitude 160-00 West, together with its territorial waters extending outward 12 nautical miles (13.8 mi; 22.2 km) from the mean low water line of the island.

**Johnston Atoll National Wildlife Refuge.** This Refuge includes all of Johnston Atoll approximately at Latitude 16-44 North and Longitude 169-31 West, together with its territorial waters extending outward 12 nautical miles (13.8 mi; 22.2 km) from the mean low water line of the atoll. However, portions of the emergent land at Johnston Atoll are currently under the administrative jurisdiction of the Department of the Air Force, which controls all access to areas under its administrative jurisdiction.

**Kingman Reef National Wildlife Refuge.** This Refuge includes all of Kingman Reef approximately at Latitude 6-24-30 North and Longitude 162-23-30 West, together with its territorial waters extending outward 12 nautical miles (13.8 mi; 22.2 km) from the mean low water line of the reef.

**Palmyra Atoll National Wildlife Refuge.** This Refuge includes all of Palmyra Atoll approximately at Latitude 05-53 North and Longitude 162-05 West, together with its territorial waters extending outward 12 nautical miles (13.8 mi; 22.2 km) from the mean low water line of the atoll. However, portions of the emergent land at Palmyra Atoll are currently owned and managed as a nature preserve by The Nature Conservancy, which controls all access to areas under its ownership.

**Wake Atoll National Wildlife Refuge.** This Refuge includes all of Wake Atoll approximately at Latitude 19-18 North and Longitude 166-38 East, together with its territorial waters extending outward 12 nautical miles (13.8 mi; 22.2 km) from the mean low water line of the atoll. However, in accordance with Presidential Proclamation No. 8336, the emergent land at Wake Atoll is currently under the management of the Department of the Air Force, which controls all access to areas under its management.

**Notice to Trollers:** The dates below mark the Open Waters Trolling Schedule for January 2019 through December 2019. Should you have any questions, please contact the Ocean Resources Program at the Kaho'olawe Island Reserve Commission (KIRC) by emailing the Ocean Resources Specialist at dtokishi@kirc.hawaii.gov or by calling 808-243-5889. This information is also posted on the KIRC website at http://kahoolawe.hawaii.gov.

- **January 12 - 13; 26 - 27**
- **February 09 - 10; 23 - 24**
- **March 19 - 20; 23 - 24**
- **April 13 - 14; 27 - 28**
- **May 11 - 12; 18 - 19**
- **June 08 - 09; 22 - 23**
- **July 13 - 14; 27 - 28**
- **August 10 - 11; 24 - 25**
- **September 14 - 15; 28 - 29**
- **October 12 - 13; 26 - 27**
- **November 02 - 03; 23 - 24**
- **December 07 - 08; 21 - 22**

The Kaho‘olawe Island Reserve (defined as the submerged lands and waters within two nautical miles of the island) is divided into two zones; Zones A and B. These zones are defined as:

**Zone A:** Includes the island of Kaho‘olawe and all the submerged lands and waters between the shoreline of Kaho‘olawe and the 30-fathom
isobath surrounding Kaho'olawe (HAR 13-261). Unauthorized entry into Zone A is prohibited at all times except in case of emergency. Zone B: All waters and submerged lands between the 30-fathom isobath surrounding Kaho'olawe and two nautical miles from the shoreline of the island. Unauthorized entry into Zone B is prohibited at all times except for trolling as authorized by KIRC on the days stipulated by the Open Waters Schedule as listed above or in case of emergency. Trollers must remain underway, making way at all times while in Zone B. All lures or live bait must remain on the water surface. All other fishing, ocean recreation, and any other activities are strictly prohibited. All vessels fishing in the Kaho'olawe Island Reserve during the open trolling weekends are required by state law (H.A.R. 13-261) to register and submit catch reports to the KIRC. KIRC will be implementing its new registration and catch report system beginning January 2007. For more information on how to register and where to submit your catch reports, call 808-243-5889. Warning: Kaho'olawe and its surrounding submerged lands and waters contain unknown quantities of unexploded ordnance that are hazardous to public health and safety. Authority: (H.R.S. §6K, H.A.R. §13-261).

HI ISLANDS - OAHU - MILITARY OPERATIONS (09/09)
Military amphibious and search and rescue operations may be underway at any time, day or night, within Kaneohe Bay in the vicinity of 21-26-06.83N/157-46-11.00W and 21-26-45.00N/157-46-55.00W (approximately .5 NM south of Mokapu Peninsula). Support surface craft will be equipped with appropriate day/night signals and markings and can be reached on VHF-Ch 82. In the interest of safety, it is requested that all vessels that use Sonar contact Water Front Operations on VHF-Ch 82A or by phone at (808) 257-2941 to avoid injury to divers that may be in the area.

HI ISLANDS - SOUTH COAST OAHU - HAZARDOUS OPERATIONS - HOT AREAS (50/07)
FACSFAC Pearl Harbor established Special Operating Areas Four (SOA-4) as a permanent "HOT AREA" named "KAPU" on April 15, 1995. FACSFAC effective hours are 0700W to 2300W (Monday - Saturday from 1700Z - 0900Z) Monday - Friday, and on weekend's 0800W - 1600W (Weekends from 1800Z - 0200Z) or by request. Activities include intermittent naval gunnery exercises and airborne ordnance drops. "KAPU" is also designated as the emergency jetssion area for aircraft with hung stores, etc. Hot area "KAPU" is bounded by the following coordinates 20-46N/158-16W, 20-42N/158-04W, 20-13N/158-36W and 20-04N/158-11W. Scheduling authority is FACSFAC Pearl Harbor call-sign "HULA DANCER". "HULA DANCER" can be reached on primary 266.4/127.0 MHz, or secondary 336.8/132.4 MHZ or telephone (808) 472-7333/7337 and may authorize transits through these areas on a case by-case basis.

HI ISLANDS - OAHU - KANEHOE BAY - ULUPAU CRATER WEAPONS DANGER ZONE - HAZARDOUS OPERATIONS (18/07)
The Ulupau Crater Weapons Training Range Danger Zone encompasses a sector extending seaward for 3.8 nautical miles between radial lines bearing 001 and 129 degrees true, from a point on Mokapu Peninsula at 21-27-10N/157-43-45W. Whenever live firing is scheduled and in progress during daylight hours, two large red triangular warning pennants will be flown on the shore at Ulupau Crater. Whenever any weapons firing is scheduled and in progress during periods of darkness, flashing red warning beacons will be displayed on the shore at Ulupau Crater. Boaters will have complete access to the Danger Zone whenever weapons firing is not scheduled, which will be indicated by the absence of any warning flags, pennants, or beacons displayed ashore. The danger zone is considered unsafe for mariners whenever live firing is in progress; in such cases boaters shall vacate the zone at best speed and by the most direct route. However, vessels are permitted to expeditiously pass through the danger zone when live firing is in progress; all firing would be temporarily suspended until the vessel has cleared the zone. Additional information may be obtained by calling the MCBH Range Manager (AC/S G-3) at (808) 257-8816/17.

The following are hazardous operations to mariners for August 14, 2019 through August 20, 2019:

Zone 1 (NE Range)
Aug 14 0600W - 2300W
Aug 15 0600W - 2300W
Aug 16 N/A
Aug 17 N/A
Aug 18 N/A
Aug 19 0800W - 2300W
Aug 20 0800W - 2200W

Zone 2 (E Range)
Aug 14 N/A
Aug 15 N/A
Aug 16 N/A
Aug 17 N/A
Aug 18 N/A
Aug 19 N/A
Aug 20 N/A
See enclosure 1

HI ISLANDS - OAHU - KEAHI POINT - HAZARDOUS OPERATIONS (18/07)
The Puuloa Danger Zone is located in ocean waters as described by the below coordinates and is closed at all times to surface craft, swimmers, and divers, with the exception of authorized personnel. Additional information may be obtained by contacting Daniel Geltmacher at daniel.geltmacher@usmc.mil.
The Danger Zone is bounded by the following coordinates:

21-18-21N/157-59-14W  
21-18-11N/158-00-17W  
21-17-11N/158-00-06W  
21-17-22N/157-59-03W

The following are hazardous operations to mariners for August 14, 2019 through August 20, 2019:

Aug 14 0800W - 1700W  
Aug 15 0700W - 1700W  
Aug 16 0800W - 1700W  
Aug 17 N/A  
Aug 18 0900W - 1500W  
Aug 19 0700W - 1700W  
Aug 20 0700W - 1700W

HI ISLANDS - KAUAI - BARKING SANDS - PACIFIC MISSILE RANGE FACILITY HI AREA - HAZARDous OPERATIONS (06/13)

Intermittent missile firing operations are conducted by the Pacific Missile Range Facility (PMRF), Barking Sands, Kauai, in the Whiskey 188 (W-188) operating area. Operations are conducted periodically throughout each week in an area bound by the following coordinates:

22:21N/159:30W, 22:13N/159:42W, 22:00N/159:51W

Intermittent high power radar operations are conducted by PMRF at the following position: 22:03N/159:47W

Request all mariners remain at least one mile off the coastline between Kokole Point and Nohili Point.

Vessels may be requested to alter course due to firing operations and are requested to contact "Pacific Missile Range Facility" on HF 2182 KHz or VHF-Ch 16 prior to entering the above boundaries. If unable to contact the PMRF prior to entering or while in the warning area, relay messages through U.S. Coast Guard Honolulu. Vessels inbound and outbound for Hawaiian ports will create the least interference to firing operations as well as enhance vessel safety by passing South of the Islands of Kauai and Niihau during the specified times. Federal law provides for civil penalties of $40,000 and/or criminal penalties of 6 years in prison for each violation of the PMRF safety zone during the schedule of designated activity (33CFR 165.1406).

The following are hazardous operations to mariners for August 14, 2019 through August 21, 2019:

Aug 14 No hazardous operations scheduled.  
Aug 15 No hazardous operations scheduled.  
Aug 16 No hazardous operations scheduled.  
Aug 17 No hazardous operations scheduled.  
Aug 18 No hazardous operations scheduled.  
Aug 19 No hazardous operations scheduled.  
Aug 20 No hazardous operations scheduled.  
Aug 21 No hazardous operations scheduled.

MARINE EVENTS

This section contains information of general concern to the mariner. All event forms must be received no later than noon on Tuesday a week prior to the event. Mariners are advised to use caution while transiting these areas:

HI ISLANDS - OAHU - FIREWORKS (36/12)

Hilton Hawaiian Village will be conducting the Hilton Hawaiian Village Fireworks Display in Waikiki, Oahu, on August 16, 2019 from 1915W - 2015W. In the interest of safety, all vessels must maintain a safe distance of 210 feet from the discharge site.

SECTION VIII - LIGHT LIST CORRECTIONS

Danger Zone - Hawaii-Ulupau Crater Weapons Training (Kaneohe Bay)

Mariners are reminded that the Marine Corps Base Hawaii (MCBH) conducts intermittent weapons firing at the Ulupau Crater Weapons Training Range between 6 a.m. and 11 p.m. throughout the week & weekends. Caution transiting the waters off of Mokapu Peninsula is imperative at all times, including the 500 yard prohibited area surrounding MCBH. Periods of live firing will be indicated on shore at Ulapau crater either by two large red triangular warning pennants during the day or flashing red warning beacons at night. When these signals are present, the danger zone is not considered safe for boaters. Information on weapons firing schedules may be obtained by calling the MCBH Range Manager at 808-257-8816/17.

The 33 CFR 334.1380 Army Corp of Engineers established Danger Zone includes the area within a pie-shaped sector extending seaward a distance of 3.8 nautical miles between radial lines bearing 357.1° true and 124.9° true, respectively, from a starting point on Mokapu Peninsula at 21°27′11.84″ N, 157°43′53.83″ W. The danger zone is bounded by a landward starting point and three seaward points forming an arc with a 3.8 nautical-mile radius at its center (Point B) with a radial line bearing 56.9° true. The three seaward points have the following coordinates:

Point A: Latitude 21°30′59.66″ N, Longitude 157°44′05.97″ W
Point B: Latitude 21°29′16.58″ N, Longitude 157°40′30.19″ W
Point C: Latitude 21°25′01.79″ N, Longitude 157°40′33.70″ W
