**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

---

**DEPARTMENT OF HOMELAND SECURITY SUSPICIOUS ACTIVITY**

The Department of Homeland Security (DHS) encourages the maritime public to report information concerning suspicious activity to the local Federal Bureau of Investigation Joint Terrorism Task Force (JTTF) Office, [http://www.fbi.gov/about-us/investigate/terrorism/terrorism\\_jtfts](http://www.fbi.gov/about-us/investigate/terrorism/terrorism_jtfts), or to other appropriate authorities. The U.S. Coast Guard reminds the maritime industry that they may also report information concerning suspicious activity to the [www.AmericasWaterwayWatch.org](http://www.AmericasWaterwayWatch.org), the National Response Center (NRC) 1-800-424-8802 or 1-877-24WATCH.

LNM: 02-19

**GPS TESTING**

At times, throughout our area of responsibility, multiple U.S. Government Agencies conduct GPS testing. These tests vary in duration, affected range from the test site and potential impact to the maritime user as they may affect systems that rely on GPS such as E-911, AIS and DSC. More information is available at the U.S. Coast Guard Navigation Center Website, <https://www.navcen.uscg.gov>. During these periods, GPS users are encouraged to report any GPS outages that they may experience, to the Navigation Information Service (NIS) by calling (703) 313-5900 or by using the NAVCEN Website to submit a GPS problem report.

LNM: 07-19

**USACE - NEW REGULATORY REQUEST SYSTEM (RRS) ONLINE PERMIT APPLICATION PORTAL**

The U.S. Army Corps of Engineers announced that the new national online application portal and management platform, known as the Regulatory Request System (RRS), now includes an electronic submission option for permit applications. This platform has been introduced to modernize the USACE permit application process and to address users' expectations by providing a straightforward and transparent process for the submittal of permit requests. For additional information or to provide feedback on RRS, please contact the USACE using the following email: <mailto:rrs@usace.army.mil>

LNM: 21-24

**HIGH/LOW WATER FLOW CONDITIONS**

During periods of high/low water flow conditions on the Mississippi River System, Captains of the Port, will issue Safety Advisories for their specific areas of responsibility via Broadcast Notice to Mariners. Mariners are encouraged to monitor the Sector Broadcast Notice to Mariners to ensure they are receiving the most up-to-date information.

**SUNSET OF NOAA PRINTED CHARTS**

\*\*\*\* Cancellation of NOAA Paper and Raster Nautical Charts \*\*\*\*

The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, BookletChart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and

the online RNC viewer.

Six months notice of the intent to cancel a specific chart is provided in a "Last Edition" notice. The final cancellation of a chart is made in a "Canceled" notice. Both types of notices will appear in LNM Section IV, "Chart Correction". Canceled charts do not meet U.S. Coast Guard carriage requirements. A comprehensive list of all canceled NOAA charts is available at: <http://www.charts.noaa.gov/MCD/Dole.shtml>. Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA's electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA's program to sunset traditional paper charts is on the NOAA Coast Survey website at: <https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html>. An online NOAA Custom Chart application at: <https://devgis.charttools.noaa.gov/pod> is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

b. Weekly short-term (less than 3-hours) navigation closures of L/D Nr. 3 are expected while additional sections of the dam undergo controlled demolition.

The Elizabeth Land Chamber lock is open for commercial traffic. The lock remains closed to recreational traffic.
