Los Angeles Main Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Los Angeles Approach Channel - Los Angeles Main Channel/General/Bridges/Maintenance	Bridges	VINCENT THOMAS BRIDGE-A 180 ft temporary maintenance platform continues to move west from the east tower. The platform reduces vertical clearance of the bridge by 5.5 ft. The upstream and downstream corners and every 50' along the upstream and downstream side of the platform is lighted at night with steady burning red lights. Work will take place during daylight hours, Monday through Friday. For conditions at the bridge mariners can contact 213-479-4138, 213-479-1144 or 310-261-9552. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516. To request a depiction of the temporary impacts to navigation at this site email D11Bridges@uscg.mil.	Lat: 33° 44' 59" Lon: -118° 16' 17"
Los Angeles Approach Channel - Los Angeles Main Channel/General/Bridges/Inspection	Bridges	COLORADO RIVER-TOPOCK HIGHWAY (I-40) BRIDGE-Caltrans' contractor, Furgo, will be conducting geotechnical assessments of soil and groundwater at the bridge in positions 34.71733, -114.48748; 34.71737, -114.48687; 34.71741, -114.48632 from 0630 to 1730, 20 November, 2024 through 17 December, 2024. A medium size modular spud leg barge with a skid mounted CME55 drilling rig, will be used to conduct the exploration. During the work, the barge will encroach into various navigation spans of the bridge by 40 feet. The barge will be left on-scene unmanned over-night. The four corners of the spudded barge will be lighted at night with steady burning all-round white lights, seen at 2,000 yards by approaching vessels. In the event of a breakaway barge, crew can be on-scene within 45-60 to retrieve the barge. For on-site conditions, mariners can contact Furgo at 858-337-8273 or 310-344-7978 or can contact the barge via VHF-FM CH 16. For further information contact the Coast Guard Bridge Office at 510-219-4366.	Lat: 34° 43' 02" Lon: -114° 29' 13"
Los Angeles Approach Channel - Los Angeles Main Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Jilk Heavy Construction will be conducting marine construction from 18 November, 2024 until 1 January, 2025 in San Pedro at Berths 118-119 at 33.75611N -118.28138W. Jilk Heaby Construction's 60'x70' Flexi-float mounted crane barge will be located at various points and moored with the use of spuds. Alongside there will be several 18' work skiffs that will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Safety Zones/Space Launches & Recovery	Safety Zones	Hazardous operations will be conducted for Space X Starlink g9-12 from 9:47pm on 18 November, 2024 until 11:51pm on 23 November, 2024. Hazardous operation areas are bounded by the following coordinates: Hazard Area A: 34.66667N -120.63333W 34.66667N -120.40000W 34.23333N -120.03333W 32.61667N -118.51000W 32.58333N -118.86667W 34.50000N -120.25000W 34.56667N -120.63333W (CLOSING THE FIRST POINT) Mariners are advised to remain clear of these areas for the duration of operations. For more details or comments contact Space X at rc@spacex.com or on VHF-FM Chan. 05, 06 or 16.	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Manson Construction will be conducting dredging operations of a borrow area located offshore of Seaside at 33.70701N 118.10213W with pump-out operations onto San Clemente Beach at 33.41427N 117.62591W from 6-30 November, 2024. Dredging and disposal operations to be conducted 7 days per week, 24 hours per day. Heavy beach equipment use is limited to daylight hours. DREDGE BAYPORT, M/V JOHN M, M/V AGGIE, and T/B TERRI L. BRUSCO will be monitoring VHF-FM Chan. 13, 16, 66 & 67. To complete pump-off operations, the Bayport will sail to a pump ashore buoy located offshore of the beach, hookup, and pump the load onto the beach. Adjacent to the San Clemente Pier, the pump ashore buoy is attached to approximately 400 feet of floating pipe, which is then, in turn, attached to 2,200 feet of submerged steel pipeline. Stand-up danger buoys are attached to the submerged pipeline at 150' intervals from the first 750' of pipeline, extending offshore. The Bayport will be transiting between the Borrow Site and the Pump Ashore Buoy, multiple times per day. The dredge will be maneuvering back and forth within the borrow site area during dredging operations. Mariners are urged to maintain a 300 ft buffer from the dredge and pump ashore buoy. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been. For more details or comments contact Benjamin Herbay at 904-716-4154.	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Associated Pacific Constructors, Inc. will be conducting marine construction from 18 November, 2024 until 23 December, 2024 in Newport Beach Harbor at 33.61222N -117.90889. T/B BALANA and C/B MERI will be monitoring VHF-FM Chan. 10 & 16. Mariners are requested to transit the area with caution. For more details or comments, contact Paul Gillen at paul@associatedpacific.com, 805-772-7472 or 805-234-5055.

Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Rehabilitation	Bridges	ISLETON BRIDGE-From 18 November, 2024 through 16 May, 2025 the double leaf bascule bridge will be operating a single leaf during rehabilitation work. One leaf of the bridge will open on signal if at least 4-hours notice is given to the drawtender at the Rio Vista bridge across the Sacramento River at mile 12.8. During single leaf operations, from the end of the closed leaf to the tip of the open leaf, the bridge provides approximately 88 feet of horizontal clearance. For further information contact the Coast Guard Bridge Office at 510-219-4366.	Lat: 38° 10' 19" Lon: -121° 35' 38"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	STEAMBOAT SLOUGH BRIDGE-The drawspan of the bridge is secured in the closed-to-navigation position from 6:00am on 15 July, 2024 through 6:00pm on 30 December, 2024, for rehabilitation work. When closed, the bridge provides 20 feet of vertical clearance at mean high water. Vessels able to pass through the bridge while closed can continue to do so at any time. Vessels that cannot pass the bridge when closed can take an alternate route to reach either side of the bridge. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil.	Lat: 38° 18' 17" Lon: -121° 34' 28"

Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group with U.S. Army Corps of Engineers Project #456852 will be conducting marine operations for the levee construction from 8 July, 2024 until 30 November, 2024 occurring along the Sacramento River between the Tower Bridge and Freepoint Bridge. The work consists of furnishing all labor, materials, equipment, and all incidental related work to complete the levee rehabilitation. C/B TM20, C/B #12, along with a work boat, tugboat and rotation of flat deck barges will be monitoring VHF-FM Chan. 9, 16 & 68A. The crane barge, as well as the workboats will mobilize from Dutra's Rio Vista Yard to Sacramento. The flat deck barges will be in-transit between the job site and the San Rafael Rock Quarry and will be moored at pre-existing moorings along the Sacramento River during mobilization. This rotation will persist for most of the duration of the project. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Mariners are requested to transit the area with caution. For more details or comments, contact Scott Brooks at 707-333-5029.

Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation	Bridges	RIO VISTA BRIDGE-Continuing rehabilitation of the bridge will require an advance notice from vessels for openings. Therefore, the lift span of the bridge will open on signal if at least 4-hour notice is given to the drawtender at 707-374-2134. For further information contact the Coast Guard Bridge Office at 510-437-3516 or D11Bridges@uscg.mil.	Lat: 38° 09' 32" Lon: -121° 41' 03"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation	Bridges	AMERICAN RIVER- CAPITAL CITY HWY (Route 51) BRIDGE-Caltrans is conducting rehabilitation of the bridge until 27 June, 2025. Work will be conducted during daylight hours, 7am to 5:30pm, Monday through Friday, and will include the use of barges, work boats, tugboats, turbidity curtains, and access piers. During the workday, barges can be moved for the safety of navigation with one hour notice to the contractor via VHF-FM CH 16 or by cell at 916-532-8208. Mariners should contact the contractor before transiting the bridge to determine location of turbidity curtains. Barges will be unmanned and moored at their work locations overnight. Each corner of each barge will be lighted at night with steady burning red lights. At least 25 feet of horizontal clearance for navigation will be available at all times. Mariners are requested to transit the area with caution. For further information, contact the Coast Guard Bridge Office at 510-774-1204 or to request a depiction of the temporary impacts to navigation at the bridge email D11Bridges@uscg.mil.	Lat: 38° 35' 15" Lon: -121° 26' 50"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Construction	Bridges	SACRAMENTO RIVER- REPLACEMENT BUTTE CITY BRIDGE- Replacement bridge construction continues Monday through Friday during daylight hours until 25 September, 2026. A temporary trestle, along with falsework, has been installed at the bridge site. High flood waters have caused damaged to the temporary trestle. The alternate navigation span during construction has moved from the center of the trestle to the east bank of the river. Mariners are requested to use extreme caution when transiting the construction site. The alternate navigation span will be moved back to its original position once water flows recede, and the trestle can be repaired. For on-scene conditions contact Golden State Bridge, Inc, at 415-720-6577 or 925-260-0403 or Caltrans at 530-941-8272 or 530-682-3931. Golden Gate Bridge - San Francisco Bay/General/Bridges/Modification	Bridges	GOLDEN GATE BRIDGE-Three 54' temporary under deck platforms; one 125' and one 1725' north of the south tower; and one 2125' south of the north tower have been installed at the bridge. Temporary platforms reduce vertical clearance at the bridge by no more than 14'. The bridge's maintenance travelers are in use during the project and will remain outboard of the furthest north and furthest south temporary platforms. The temporary platforms and maintenance travelers are lighted at night with all-round red lights. For navigational safety the maintenance travelers can be moved by contacting the Golden Gate Bridge at 415-923-2220. Work is being conducted Monday through Saturday, 0700-1700 and 2100-0500. For conditions at the bridge, mariners can contact the contractor at 415-716-0384. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516.To request a depiction of the temporary impacts to navigation at this site email D11Bridges@uscg.mil.	Lat: 37° 49' 10" Lon: -122° 28' 42"
Golden Gate Bridge - San Francisco Bay/General/Bridges/Construction	Bridges	GALLINAS CREEK -TEMPORARY FLOATING BRIDGE-PG&E will be installing a temporary floating bridge at the mouth of the creek in position 38-00-59N 122-30-06W to facilitate the reconstruction of electrical transmission towers on the north side of the creek. Installation of the temporary bridge will begin on 16 Sep, 2024 and will completely cross the creek on 12 Oct, 2024. The center of the bridge will have a removable span to allow the passage of vessels. The span will provide 24 feet of horizontal clearance and will remain open at all times unless equipment is being transported across the bridge. The upstream and downstream edges of the bridge will be lighted at night with steady burning red lights. When open, the upstream and downstream corners of the navigation span will be lighted at night with steady burning green lights. The temporary floating bridge will be removed by 15 Jan, 2025. For further information, contact the Coast Guard Bridge Office via email at D11Bridges@uscg.mil or by phone at 571-607-2207. To request a depiction of the temporary impacts to navigation at this site, email D11Bridges@uscg.mil.

Point Conception To Point Sur/General/Miscellaneous	Miscellaneous	Equinor Wind US LLC, leaseholder for the Bureau of Ocean Energy Management Lease Area OCS-P 0563, has developed a Fisheries Communication Plan (FCP) which is available for public comment. The FCP overviews the plan for engagement with the region's fishing community during development of the Equinor California Offshore Wind Project. The FCP is available at www.equinorcalifornia.com . Comments on the plan, and any questions about the project, can be sent to Elizabeth Marchetti at emarc@equinor.com or 401-954-2902.	Lat: 35° 20' 39" Lon: -120° 54' 01"

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Furgo USA Marine Inc. will be conducting bathymetric and geophysical survey operations from 20 October, 2024 until 30 November, 2024 offshore Carpinteria outlined in the following coordinates: 34.39248417 -119.5275461 34.38423386 -119.5003626 34.32921169 -119.5250365 34.33745288 -119.5570941 M/V JULIE ANN will have limited maneuverability during operations and will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Cindy Pratt at 805-289-3807.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Aqueos will be conducting underwater pipeline and platform inspection work with an ROV from 10 October, 2024 until 5 December, 2024 at Sable SYU State Pipelines to shore, Platform Heritage, Platform Harmony and Platform Hondo at positions: 34.348378N -120.048390W 34.454815N -120.033068W 34.378208N -120.111897W 34.397993N -120.142616W 34.339351N -120.290816W 34.358780N -120.290236W M/V LAUREN C, a 225' LOA, red hull and white superstructure with a typical supply boat configuration will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Jason Smith at 805-676-4330 or 805-205-3156.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CPS Coastal Permits, Inc. will be conducting marine construction from 16 November, 2024 until 30 December, 2025 near Long Beach at position 33.764379N 118.11991W. Removal of 21,360 square feet of existing floating docks and installation of approximately 21,151 square feet of new floating docks at approximately the same location and configuration as the existing structures. All existing gangways and pilings are to be reused. A 35 ft. work boat, (4) 24 ft. barges, (1) 16x2 barge, and (2) 14 ft. boats will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Greg Buchanan at 714-822-5214.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	West Coast Hopper Maintenance Dredging along with U.S. Army Corp or Engineers will be conducting dredging operations from 6-30 November, 2024 at offshore Seaside 33.7070011N -118.1021324W with pump out operations onto San Clemente Pump Ashore Buoy at 33.4142723N -117.6259141W. D/B HOPPER DREDGE, M/V JOHN M, M/V AGGIE, T/B TERRI L. BRUSCO will be monitoring VHF-FM Chan. 13, 16, 66 & 67. To complete pump-off operations, the Bayport will sail to a pump ashore buoy located offshore of the beach, hookup, and pump the load onto the beach. Adjacent to the San Clemente Pier, the pump ashore buoy is attached to approximately 400 feet of floating pipe, which is then, in turn, attached to 2,200 feet of submerged steel pipeline. Stand-up danger buoys are attached to the submerged pipeline at 150' intervals from the first 750' of pipeline, extending offshore. The Bayport will be transiting between the Borrow Site and the Pump Ashore Buoy, multiple times per day, 24 hours per day. The dredge will be maneuvering back and forth within the borrow site area during dredging operations. Mariners are requested to transit the area with caution. For more details or comments, contact Benjamin Herbay at 904-716-4154.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Aqueos will be conducting underwater pipeline inspection work from 18 November, 2024 until 5 December, 2024 in the Pt. Pedernales Unit Field at positions: 34.69952N -120.60357W 34.71198N -120.60562W 34.61105N -120.73685W 34.60387N -120.7304W M/V LAUREN C, a 225' LOA with a red hull and white superstructure and typical supply boat configuration will include live boat ROV of pipeline inspections and will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Jason Smith at 805-676-4330.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	IDE Americas, INC in partnership with Rincon Consultants will be conducting dive operations from 18-29 November, 2024 offshore Santa Barbara at 34.40802N -119.6794W on the Charles E. Meyer Desalination Plat submerged infrastructure components including the replacement of one of the seawater intake pumps. The inspection and maintenance dives will require a team of four divers to be supported by the S/V DANNY C that is 77 feet in length. The vessel will anchor at a depth of approximately 35 feet just east of Stearns Wharf within the pre-approved anchoring plan. A separate contingency of vessels 18-32 feet in length will provide support for anchor tending, required mitigation monitoring efforts and transport of personnel from Santa Barbara Harbor. Movement of the vessel can be accomplished within one to two hours of notification. Vessels will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Josh Caito at 760-277-1558 or Adam Sachs at 805-801-1362.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Furgo USA Marine Inc. will be conducting AUV Survey operations from 16-26 November, 2024 offshore Santa Barbara Coast at positions: 34.37222N -120.29222W 34.46056N -120.05889W 34.32111N -120.28167W 34.43972N -120.03250W Vessel GO ADVENTURER will be monitoring VHF-FM Chan. 16. The average vessel speed will be 3.7-4.5 knots during survey operations, maximum vessel speed is 10 knots during transits. Survey vessel GO ADVENTURER will be restricted in ability to maneuver during survey operations. Mariners are requested to transit the area with caution. Sector San Francisco, Territorial Sea/General/Miscellaneous	Miscellaneous	Golden State Wind LLC will be deploying two temporary Metocean buoys in the BOEM Lease Area (OCS-0564), approximately 30 miles from shore at the closest point and 53 miles northwest of Morro Bay at 35.60444N -121.86027W and 35.53389N -121.81333W. The buoys will be lit with yellow flashing lights (Fl (5) Y 20s for the northern buoy and Fl (4) Y 20s for the southern buoy), radar reflectors, and retroreflective coatings. The northern LiDAR buoy is equipped with AIS. The vessel MICHAEL UHL, Official Number 544092, will be towing the buoys to the site and deploying them in the above locations as weather allows between 8 and 30 November. The MICHAEL UHL will be broadcasting AIS while on these deployment operations and will be monitoring VHF-FM Chan. 13 and 16. Mariners are requested to transit at their slowest safe speed, to minimize wake, and proceed with caution after passing arrangements have been made. For more details or comments contact Rachel Mahler at 805-680-8138 or Rachel.Mahler@oceanwinds.com.

Spud Point Marina

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Bodega Harbor - Spud Point Marina/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	NOAA, U.S. Coast Guard and the Environmental Protection Agency request that all vessels 300 gross registered tons (GRT) or larger reduce speeds to 10 knots or less when transiting in the Vessel Speed Reduction zones off of San Francisco and Monterey from 1 May, 2024 until 31 December, 2024, and off Southern California from 1 May, 2024 until 15 December, 2024 to protect endangered whales. See 2024 NOAA USCG EPA VSR Announcement pdf in the enclosure section. These areas contain populations of endangered blue, humpback, and fin whales that are federally protected under the Federal Endangered Species Act (16 USC 1538 et seq.), the Marine Mammal Protection Act (16 USC 1361 et seq.), and the National Marine Sanctuaries Act (16 USC 1431 et seq.). Please report any collisions with whales or any observed injured or dead whales to the U.S. Coast Guard on VHF Channel 16. NOAA is asking for the public's help in tracking whales. Please report sightings through Whale Alert, a free application available at https://www.whalealert.org/ . For more information, contact Sean Hastings at 805-705-1790 or email at sean.hastings@noaa.gov .	

Stockton Channel
