

U.S. Department of Homeland Security
United States Coast Guard

LOCAL NOTICE TO MARINERS

District: 13

Week: 26/24

ISSUED BY: COMMANDER, THIRTEENTH COAST GUARD DISTRICT (dpw)
915 Second Avenue, 35th Floor, Rm 3510, Seattle, Washington 98174-1067
Telephone: (206) 220-7280
Email: D13-SMB-D13-LNM@uscg.mil
https://www.pacificarea.uscg.mil/Our-Organization/District-13/District-Staff/-dpw/
https://www.navcen.uscg.gov/local-notice-to-mariners?district=13+0&subdistrict=1

For all Notice to Mariner submissions:
Call (206) 220-7280 or email D13-SMB-D13-LNM@uscg.mil at least two weeks prior to the start of your event or work.

COMDTPUB P16502.6, Light List Volume VI, Pacific Coast and Pacific Islands, 2024 Edition, is available at
https://www.navcen.uscg.gov/sites/default/files/pdf/lightLists/LightList\_V6\_2024.pdf
Coast Pilot Volume 10, Oregon, Washington, Hawaii and Pacific Islands, 2024 (5th) Edition, is available at
https://www.nauticalcharts.noaa.gov/publications/coast-pilot/files/cp10/CPB10\_WEB.pdf

Coast Pilots, along with corrections, are available at: www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html. Print on Demand (POD) copies are available for purchase at: www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot.

UNITED STATES COAST GUARD NAVIGATION INFORMATION SERVICE (NIS)

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts / Broadcast Notice to Mariners (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). LNM, BNMs and other navigation notices can be obtained via e-mail subscription through the USCG Navigation Center website: https://www.navcen.uscg.gov/subscribe-email-rss-feeds

In addition, the NIS investigates all reports of degradation or loss of GPS service and discrepancies to Aids to Navigation. Mariners are encouraged to report all degradation of radio navigation services, or Aids to Navigation discrepancies to the NIS via phone: (703) 313-5900 or online at: https://www.navcen.uscg.gov/report-a-problem

BROADCAST NOTICE TO MARINERS

Urgent marine navigational and weather information is broadcast over VHF channel 22A (157.1 MHz). Broadcasts are initially announced over the distress, safety and calling channel 16 before they are made on channel 22A. All ships in U.S. waters over 20 meters in length are required to monitor VHF channel 16, and must have radios capable of tuning to the VHF simplex channel 22A. BNM are now available online as well. To view or download District 13 BNMs visit https://www.navcen.uscg.gov/broadcast-notice-to-mariners-search?district=13

This section contains a range of all the significant Broadcast Notice to Mariners (BNM's) on the date of this edition.

Table with 3 columns: Originating Unit (CGD THIRTEEN), Beginning BNM (D13-0441-24), Ending BNM (D13-0470-24)

ABBREVIATIONS

A through H

- ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
AI - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard

I through O

- I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous

P through Z

- PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds

DEFAC - Defaced  
DEST - Destroyed  
DISCON - Discontinued  
DMGD/DAMGD - Damaged  
ec - eclipse  
EST - Established Aid  
ev - every  
EVAL - Evaluation  
EXT - Extinguished  
F - Fixed  
fl - flash  
Fl - Flashing  
G - Green  
GIWW - Gulf Intracoastal Waterway  
HAZ - Hazard to Navigation  
HBR - Harbor  
HOR - Horizontal Clearance  
HT - Height

LTR - Letter  
LWB - Lighted Whistle Buoy  
LWP - Left Watching Properly  
MHz - Megahertz  
MISS/MSNG - Missing  
Mo - Morse Code  
MRASS - Marine Radio Activated Sound Signal  
MSLD - Misleading  
N/C - Not Charted  
NGA - National Geospatial-Intelligence Agency  
NO/NUM - Number  
NOS - National Ocean Service  
NW - Notice Writer  
OBSCU - Obscured  
OBST - Obstruction  
OBSTR - Obstruction  
Oc - Occulting  
ODAS - Anchored Oceanographic Data Buoy

SEC - Section  
SHL - Shoaling  
si - silent  
SIG - Signal  
SND - Sound  
SPM - Single Point Mooring Buoy  
SS - Sound Signal  
STA - Station  
STRUCT - Structure  
St M - Statute Mile  
TEMP - Temporary Aid Change  
TMK - Topmark  
TRLB - Temporarily Replaced by Lighted Buoy  
TRLT - Temporarily Replaced by Light  
TRUB - Temporarily Replaced by Unlighted Buoy  
USACE - Army Corps of Engineers  
W - White  
Y - Yellow

**Additional Abbreviations Specific to this LNM Edition:**

AtoN - Aids to Navigation  
COTP - Captain of the Port  
CPA - Closest Point of Approach  
LLNR - Light List Number

NAVCEN - U.S. Coast Guard Navigation Center  
NM - Nautical Miles  
ODOT - Oregon Department of Transportation  
RM - River Mile Marker

S-AIS - Synthetic AIS  
V-AIS - Virtual AIS  
VTS - Vessel Traffic Service  
WSDOT - Washington State Department of Transportation

---

**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

---

**OREGON – WASHINGTON – U.S. Coast Pilot 10, 5th Edition release**

U.S. Coast Pilot 10, Pacific Coast: Oregon, Washington, Hawaii and Pacific Islands, 5th Edition, 2024, has been issued and is ready for free download and weekly updates at [www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html](http://www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html). The 2024 Edition cancels the preceding 2023 Edition and incorporates all previous corrections. Only Print-on-Demand (POD) bound copies are available for purchase; visit [www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot](http://www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot).

LNM: 26/24

**OREGON – COOS BAY – COOS RIVER – Bridge notice**

The Coast Guard has approved a temporary closure of the Chandler Bridge draw (LLNR 9125) from 0600 on 22 Jul 2024 to 2359 on 02 Aug 2024. The Chandler Bridge crosses the Coos River at waterway mile 2.2 near Eastside, OR. This draw closure supports draw cable replacements. Once the replacement begins, the draw of the subject bridge cannot be opened for navigation until the new cables have been installed and tested. The draw in the closed-to-navigation position provides 25 feet of vertical clearance at high tide. Vessels that do not need a draw opening may transit under the Chandler Bridge at any time. For more information contact Bryan Mast at [bryan.k.mast@odot.oregon.gov](mailto:bryan.k.mast@odot.oregon.gov).

Chart 18587

LNM: 26/24

**WASHINGTON – COLUMBIA RIVER – LAKE CELILO – Bridge Inspection**

The WSDOT Bridge Preservation Office will be performing a regular scheduled biannual inspection of the Biggs Maryhill Highway Bridge (LLNR 12333) which crosses the Columbia River at RM 209.2. The inspection will occur between the hours of 0700 – 1700 between 22 – 25 Jul 2024 using two under-bridge inspection trucks (UBITs) from top of bridge deck closing one lane at a time of two-lane highway on northbound (east side) and southbound (west side) SR-97. There is no fixed impact to navigational clearance from this operation (~10 ft. reduction to clearance while bucket is under the bridge, however UBIT will promptly give way to tall marine vessels). UBITs have a flashing amber strobe light mounted to the bottom of each bucket. For more information, contact David Vichitthavong, P.E., at (206) 883-8814 or email [vichitd@wsdot.wa.gov](mailto:vichitd@wsdot.wa.gov).

Chart 18533

LNM: 26/24

**OREGON – PORT OF PORTLAND – WILLAMETTE RIVER – Marine construction**

Foss Maritime will conduct in-water construction to replace their floats at their tug terminal at Willamette River mile 5.5 in approximate location 45-35-14.28 N, 122-46-12.72 W. The project is scheduled to begin on 24 Jul 2024. Mariners are requested to reduce wake while transiting by this location. For more information, please contact Syd Gebers at (509) 640-3291 or email [sydg@gretteassociates.com](mailto:sydg@gretteassociates.com).

Chart 18526

LNM: 26/24

**OREGON – PORT OF PORTLAND – WILLAMETTE RIVER – Bridge deviation**

The Coast Guard has approved a temporary deviation to the operating schedule that governs the Morrison Highway Bridge (LLNR 14955.5), mile 12.8, and Hawthorne Highway Bridge (LLNR 14955.6), mile 13.1, crossing the Willamette River at Portland, Oregon. This deviation is necessary to accommodate the Providence Bridge Pedal event. This deviation allows the bridges to remain in the closed-to-navigation position to allow safe and timely movement of event participants from 0630 until 1130 on 11 Aug 2024. The vertical clearances for these bridges in the closed-to-navigation position are: 69 feet for the Morrison Highway Bridge and 49 feet for the Hawthorne Highway Bridge (all clearances are referenced to the vertical clearance above Columbia River Datum 0.0.) Vessels that do not require a bridge opening may continue to transit beneath the bridge during this closure period. The bridges will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. In

accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the effective period of this temporary deviation. For additional information contact Matt Studer at matt.studer@multco.us.

Chart 18526

LNM: 26/24

**WASHINGTON – PUGET SOUND – HOOD CANAL – Bridge deviation**

The Coast Guard has approved a temporary deviation closure of the Hood Canal Highway Bridge draw (LLNR 17769) from 0600 on 05 Aug through 2359 on 09 Aug 2024. The Hood Canal Bridge crosses Hood Canal at waterway mile 5.0 near Port Gamble, WA. Once repairs begin, the draw of the subject bridge cannot be opened for navigation until the repairs have been completed. The east and west spans are fixed spans and will be available for marine vessel use, but the vertical clearances are limited. Please review the chart for vertical clearance information. For more information contact Paul Gahr at (360) 697-4194 or Gahrp@wsdot.wa.gov.

Chart 18441

LNM: 26/24

**WASHINGTON – LAKE WASHINGTON SHIP CANAL – Bridge notice**

The Coast Guard has approved a temporary deviation for the operating schedule that governs the Fremont Bridge (LLNR 18182), mile 2.6, and the University Bridge (LLNR 18235), mile 4.3, both crossing the Lake Washington Ship Canal in Seattle, WA. The deviation accommodates the Lake Union 10K running event. To facilitate this event, the draws of the subject bridges are authorized to be maintained in the closed-to-navigation position from 0730 – 1030 on 11 Aug 2024. Vessels that do not require bridge openings may continue to transit beneath these bridges during the closure periods. The draws will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. For more information contact Kit Loo at (206) 684-3669 or kit.loo@seattle.gov.

Chart 18447

LNM: 26/24

**WASHINGTON – LAKE WASHINGTON SHIP CANAL – Bridge notice**

The Coast Guard has approved a temporary deviation from the normal operating schedule that governs the Montlake Street Bridge (LLNR 18240) across the Lake Washington Ship Canal, mile 5.2. The Montlake Street Bridge need not open the draw for marine vessels during heavy road traffic for the 2024 University of Washington football games on the following dates and times:

31 Aug 2024 – from 1730 to 2000 and from 2300 to 0130 (on 01 Sep 2024.)

07 Sep 2024 – from 1000 to 1230 and from 1530 to 1800.

21 Sep 2024 – TBD.

05 Oct 2024 – TBD.

02 Nov 2024 – TBD.

15 Nov 2024 – from 1530 to 1800 and from 2100 to 2330.

This deviation will allow the Montlake Bridge to remain in the closed-to-navigation position before and after each game. The Montlake Bridge in the closed-to-navigation position provides 30 feet of vertical clearance throughout the navigation channel, and 46 feet of vertical clearance throughout the center 60 feet of the bridge; vertical clearance references to the Mean Water Level of Lake Washington. Vessels which do not require a bridge opening may continue to transit beneath this bridge during the closure. The bridge will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. The Coast Guard will publish any updates or changes to this operating schedule in future LNM publications once game times are announced. For more information on these events contact Colleen Kelly at kellyc@wsdot.wa.gov.

Chart 18447

LNM: 26/24

**WASHINGTON – STRAIT OF JUAN DE FUCA – CANADIAN EXERCISE AREA WQ – Demolition exercises**

Canadian Military Exercise Areas WQ will be active for demolition exercises from 0800 – 1600 local time from 25 Jun to 23 Jul 2024. During operations Military Exercise Areas WQ is extremely hazardous and closed to marine traffic. Mariners are required to remain well clear of naval vessels. WQ, also called the Bentinck Island demolition range, is a circular operation area centered at 48-18-42 N, 123-32-36 W, with a radius of 1750 yards.

Chart 18465

LNM: 26/24

**WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – GUEMES CHANNEL AND CAP SANTE WATERWAY – Sewer outfall installation**

Pacific Pile and Marine will be replacing the sewer outfall pipe for the city of Anacortes from 08 Jul – 18 Aug 2024. The 1100-foot long outfall pipe will be assembled in the temporary moorage location at the City of Anacortes near the Cap Sante Waterway in Fidalgo Bay commencing on 08 Jul 24. The outfall pipe will be assembled on shore and stored in-water alongside anchored barges for up to one month in preparation for transport to its final location. This site is between the two access channels to the marinas and runs approximately from 48-30-26N, 122-36-16W, to 48-30-26N, 122-36-02W. Site work at the final outfall location will begin on 01 August with dredging and other site preparation. The final outfall location is on the Guemes Channel shoreline just to the east of the Port of Anacortes Pier 2 starting in approximate location 48-31-15.7N, 122-36-16.9W, and extending north toward the channel. The planned timeline is for the pipeline to be towed from the temporary assembly location to the final Guemes Channel location by Boyer Towing and Pacific Pile tugs on approximately 12 Aug and sunk in place on 13 Aug, although these times are weather and operations dependent. Boyer and Pacific Pile vessels will monitor VHF-FM channel 16 and 13 for passing arrangements. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For additional information, please contact Matt Huston at (206) 331-3873 or (206) 678-2618 or email MattH@pacificpile.com.

Chart 18421

LNM: 26/24

**WASHINGTON – PUGET SOUND – SEATTLE TO BREMERTON – ELLIOTT BAY – Diving operations**

Diving operations in support of the Seattle Waterfront Seawall monitoring work will be conducted in the vicinity of the Seattle Aquarium and the

Olympic Sculpture Park on 26 Jun 2024, from 1000 – 1600. Vessels involved may include Washington State Patrol, and mariners should use caution when transiting these operations, and reduce wake to a minimum. Vessels involved in supporting the divers can be reached on VHF-FM channel 16. For more information, contact Calvin Douglas at calvin.douglas@confenv.com or (206) 498-5398.

Chart 18450

LNM: 25/24

**OREGON – TILLAMOOK BAY – Tillamook South Jetty repairs (Revised from LNM 22/24)**

Trade West Construction has begun moving material to a material offloading facility for use on the Tillamook Bay South Jetty repairs. Jetty stone will be transported from the Port of Garibaldi, approximate location 45-33-14 N, 123-54-54 W, to Kincheloe Point on the Bay Ocean Peninsula in approximate location 45-33-07 N, 123-56-09 W. The tugboat and support vessel involved in this operation will monitor VHF-FM channels 8 and 10. Mariners are strongly advised to keep a safe distance from the tug and barge operations and the repair work. For more information, contact Keyanee Faught at (435) 669-7976 or email keyaneef@gmail.com.

Chart 18558

LNM: 24/24

**WASHINGTON – COWLITZ RIVER – Bridge notice**

Utility work is being performed on State Route 411 Castle Rock Bridge located in Castle Rock, WA, across the Cowlitz River at river mile 17.4. Deck replacement will take place Monday through Friday between 0700 – 1700 from 08 Apr 2024 until 21 Jun 2024. The project requires six feet of containment to be installed below the subject bridge's middle 50 feet section. The SR-411 Bridge has a vertical clearance of 8.6 feet at high tide. The subject bridge provides 28 feet of vertical clearance at low tide. A UBIT will be used to assist work efforts under the bridge. The UBIT can lower the vertical clearance to 18 feet at low tide. The UBIT and containment will be equipped with flashing amber lights. For additional information, contact Mark Guz at (360) 518-4464 or mark.guz@lumen.com.

LNM: 24/24

**OREGON – WILLAMETTE RIVER – PORT OF PORTLAND – Bridge notice**

The Coast Guard intends to approve a temporary deviation to the operating schedule that governs the Morrison Highway Bridge (LLNR 14955.5), mile 12.8, and Hawthorne Highway Bridge (LLNR 14955.6), mile 13.1, crossing the Willamette River at Portland, Oregon. This deviation is necessary to accommodate the Providence Bridge Pedal event. This deviation allows the bridges to remain in the closed-to-navigation position to allow safe and timely movement of event participants from 0630 until 1130 on 11 Aug 2024. The vertical clearances for these bridges in the closed-to-navigation position are: 69 feet for the Morrison Highway Bridge and 49 feet for the Hawthorne Highway Bridge (all clearances are referenced to the vertical clearance above Columbia River Datum 0.0.) Vessels that do not require a bridge opening may continue to transit beneath the bridge during this closure period. The bridges will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the effective period of this temporary deviation. Please submit comments or objections if this event cannot be supported by any mariner by 21 Jun 2024. For additional information contact Matt Studer at matt.studer@multco.us.

Chart 18526

LNM: 24/24

**PUGET SOUND – SEATTLE TO BREMERTON – ELLIOTT BAY – Marine construction**

Orion Marine Construction (Orion) will conduct marine construction activities around the Washington State Ferry Slip 3 at the Colman Dock in approximate location 47-36-11.5 N, 122-20-22.5 W, from 08 Jul 2024 – 15 Feb 2025. The work involves the removal of the existing vehicle transfer span (VTS) and associated structures and installation of a new hydraulic controlled VTS and apron. Work will normally be conducted Monday through Friday 0700 – 1730 utilizing the crane barge St Helens and Barges KP1 and 152. Ferry operations will continue at Ferry Slips 1 and 2. A floating debris boom will encircle the footprint of the project work area, although some underwater hazards may exist. Mariners should operate with caution and reduce wake while in transition around the project area. For more information contact the Project Manager, Bradley Morlock, at (206) 786-3483 or bmorlock@orionmarinegroup.com.

Chart 18450

LNM: 24/24

**WASHINGTON – LAKE WASHINGTON SHIP CANAL – Bridge notice**

The Coast Guard intends to approve a temporary deviation for the operating schedule that governs the Fremont Bridge (LLNR 18182), mile 2.6, and the University Bridge (LLNR 18235), mile 4.3, both crossing the Lake Washington Ship Canal in Seattle, WA. The deviation will accommodate the Lake Union 10K running event. To facilitate this event, the draws of the subject bridges will be authorized to be maintained in the closed-to-navigation position from 0730 to 1030 on 11 Aug 2024. Vessels that do not require bridge openings may continue to transit beneath these bridges during the closure periods. The draws will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. For more information contact Kit Loo at (206) 684-3669 or kit.loo@seattle.gov. Please submit comments or objections before 21 Jun 2024 at d13-smb-d13-bridges@uscg.mil.

Chart 18447

LNM: 24/24

**WASHINGTON – LAKE WASHINGTON SHIP CANAL – Montlake Bridge notice**

The Coast Guard intends to approve a temporary deviation from the normal operating schedule that governs the Montlake Street Bridge (LLNR 18240) across the Lake Washington Ship Canal, mile 5.2. The Montlake Street Bridge need not open the draw for marine vessels during heavy road traffic for the 2024 University of Washington football games on the following dates and times:

31 Aug 24 – from 1730 to 2000 and from 2300 to 0130 (on 01 Sep 24).

07 Sep 24 – from 1000 to 1230 and from 1530 to 1800.

21 Sep 24 – TBD.

05 Oct 24 – TBD.

02 Nov 24 – TBD.

15 Nov 24 – from 1530 to 1800 and from 2100 to 2330.

This deviation will allow the Montlake Bridge to remain in the closed-to-navigation position before and after each game. The Montlake Bridge in the closed-to-navigation position provides 30 feet of vertical clearance throughout the navigation channel, and 46 feet of vertical clearance throughout the center 60 feet of the bridge; vertical clearance references to the Mean Water Level of Lake Washington. Vessels which do not require a bridge opening may continue to transit beneath this bridge during the closure. The bridge will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. The Coast Guard will publish any updates or changes to this operating schedule in future LNM publications once additional game times are announced. For more information on these events contact Colleen Kelly at [kellyc@wsdot.wa.gov](mailto:kellyc@wsdot.wa.gov). Please submit a comment if these closures cannot be supported by 21 Jun 2024 at [d13-smb-d13-bridges@uscg.mil](mailto:d13-smb-d13-bridges@uscg.mil).

Chart 18447

LNM: 24/24

**WASHINGTON – EVERETT HARBOR– SNOHOMISH RIVER – SR 529 Twin Highway Bridge Notice (revised from LNM 21/24)**

The Coast Guard has changed a previously approved temporary bridge deviation from the operating schedule that governs the SR 529 Twin Highway Bridges both northbound and southbound, across the Snohomish River. This revised deviation supports needed bridge repairs. SR 529 Highway Bridge (NB) (LLNR 18591.3) crosses the Snohomish River, mile 3.6, at Everett, WA, and is authorized to lock open the draw at 15 feet and install 5 feet of containment under the bridge. The vertical clearance of the open draw with containment will be 48 feet at high tide. Mariners must give a two-hour notice to open the SR 529 Bridge (SB) (LLNR 18591.2). This deviation will be from 0600 on 02 Jun until 2359 on 28 Nov 2024. Working hours may vary, but the planned hours will be 10 to 12 hours per day. Expect work to be during the daytime but can be extended to nighttime work. Fall hazards may be present during working hours. Mariners may transit under the subject bridges at any time. An alternate route for vessels to use during this deviation period is via Union Slough. For more information on this event contact Rich Strickling at (330) 207-2100, or [rs@libertymaintenanceinc.com](mailto:rs@libertymaintenanceinc.com). Information may also be via Jeff Franklin at (330) 261-3609, or [jfranklin@libertymaintenanceinc.com](mailto:jfranklin@libertymaintenanceinc.com).

12 Jun 2024 update: In support of the bridge repairs, Pacific Pile and Marine will conduct floating crane operations on 26 Jun 2024 which will impact the navigation under the bridge from 0530 – 1600 hours. The construction barge will be assisted by two tugboats, the Carolyn H. and the Halle H. Construction crew and tugs will be monitoring VHF-FM channels 13, 16 and 19. Mariners are requested to use caution and reduce wake when transiting the area. For additional information, contact Pacific Pile and Marine at (253) 303-2768.

Chart 18444

LNM: 24/24

**WASHINGTON – GRAYS HARBOR – ABERDEEN – WHISKAH RIVER – Bridge notice**

The Coast Guard has approved a temporary deviation to the operating regulations for the Whiskah Street Bridge (LLNR 16072.3) across the Whiskah River at mile 0.4 in Aberdeen, WA. This deviation is needed due to a roadway accident damaging the traffic control barrier. Mariners that require an opening of the Whiskah Street Bridge shall give notice at least two hours prior to arriving at the subject bridge. Vessels that do not require a draw opening may navigate under the subject bridge at any time. For more information contact David Reibel at [david.reibel@wsdot.wa.gov](mailto:david.reibel@wsdot.wa.gov) or (360) 538-8530.

Chart 18502

LNM: 23/24

**WASHINGTON – PUGET SOUND – HOOD CANAL – Bridge deviation**

The Coast Guard intends to approve a temporary deviation closure of the Hood Canal Highway Bridge draw (LLNR 17769) from 0600 on 05 Aug through 2359 on 09 Aug 2024. The Hood Canal Bridge crosses Hood Canal at waterway mile 5.0 near Port Gamble, WA. Once repairs begin, the draw of the subject bridge cannot be opened for navigation until the repairs have been completed. The east and west spans are fixed spans and will be available for marine vessel use, but the vertical clearances are limited. Please review the chart for vertical clearance information. The Coast Guard is requesting comments/objections for this closure and/or dates; please send all comments or objections to [d13-smb-d13-bridges@uscg.mil](mailto:d13-smb-d13-bridges@uscg.mil) by 20 Jun 2024.

Chart 18441

LNM: 23/24

**WASHINGTON – HARO STRAIT AND BOUNDARY PASS – ECHO Program 2024 Voluntary Ship Slowdown**

Effective 01 Jun 2024, the Enhancing Cetacean Habitat and Observation (ECHO) Program voluntary ship slowdown through Haro Strait and Boundary Pass is in effect for all inbound and outbound commercial and government vessels. If it is safe and operationally feasible to do so, commercial and government vessels are requested to not exceed the following speeds through the water:

- 11 knots – Bulk carriers, tankers, general cargo vessels, and government vessels; and,
- 14.5 knots – Vehicle carriers, cruise ships, and container vessels.

This voluntary slowdown takes place between 48-24-22.78 N, 123-12-15.26 W, and 48-46-39.28 N 123-01-36.84 W. Speed transition zones are in place within the established traffic system at both approaches to the slowdown area. The north transition zone are those waters between north of Boat Pass, Saturna Island and Rosenfeld Rock and the south transition zone are those waters between buoy VH at the Victoria pilot station, and Sea Bird Point at the southeast corner of Discovery Island. There are also two optional slow down areas, one rounding turn point and the other between Turn Point, Saturna Island and Alden Point, Patos Island. The ECHO Program ship slowdown in Haro Strait and Boundary Pass aims to reduce underwater noise in known southern resident killer whale feeding areas. This initiative will remain in effect 24 hours per day until 2359 Pacific on 30 Nov 2024, depending on whale presence in the area. The voluntary slowdowns at Swiftsure Bank and in Haro Strait and Boundary Pass are led by the Vancouver Fraser Port Authority's ECHO (Enhancing Cetacean Habitat and Observation) program, in cooperation with government agencies, Indigenous communities, industry partners and environmental groups. For more detailed information related to this slowdown and the ECHO program, refer to the following internet web address: <https://www.portvancouver.com/environmental-protection-at-the-port-of-vancouver/maintaining-healthy-ecosystems-throughout-our-jurisdiction/echo-program/projects/haro-slowdown/>

LNM: 23/24

**WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – SWINOMISH CHANNEL NORTH ENTRANCE – Shoaling**

Mariners are advised that significant shoaling exists in Swinomish Channel, especially the North Entrance between Swinomish Channel North Entrance Buoy 30 (LLNR 19155) and the Burlington Northern Santa Fe Railroad Bridge 7.6 (LLNR 19155.1). While the project depth of Swinomish Channel is 12 feet, the controlling depth of Swinomish Channel is 5.9 feet based upon the latest available hydrographic data (a survey dated March of 2024.) This controlling depth of 5.9 feet / 1.8 meters is reflected on NOAA ENC products. Raster products do not reflect this sounding information, as they are no longer being updated with most routine corrections. Mariners should consult ENC cells for the most up-to-date information. Mariners should transit the Swinomish Channel waterway with caution, especially at low tidal conditions. To view the survey data, visit the following link: [https://ehydroprod.blob.core.usgovcloudapi.net/ehydro-surveys-pdf/CENWS/CENWS\\_DIS\\_SW\\_01\\_SWC\\_20240305\\_CS\\_E\\_6\\_3\\_353.PDF](https://ehydroprod.blob.core.usgovcloudapi.net/ehydro-surveys-pdf/CENWS/CENWS_DIS_SW_01_SWC_20240305_CS_E_6_3_353.PDF)

LNМ: 23/24

**OREGON – WASHINGTON – IDAHO – NOAA’s ongoing cancellation of Paper and Raster nautical charts (Revised from LNM 10/21)**

The National Oceanic and Atmospheric Administration (NOAA) is in the middle of a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, BookletChart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six months prior to cancelation, a notice of the intent to cancel a specific chart will be provided via a “Last Edition” notice. The final cancelation of a chart will be made via a “Canceled” notice. Both types of notices will appear in LNM Section IV, “Chart Correction.” A comprehensive list of all cancelled NOAA charts is available at: <http://www.charts.noaa.gov/MCD/Dole.shtml>.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA’s electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA’s program to sunset traditional paper charts is on the NOAA Coast Survey website at: <https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html>. An online NOAA Custom Chart application at: <https://devgis.charttools.noaa.gov/pod> is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

Mariners are warned that even prior to traditional chart production ending, users may notice differences between paper charts and ENCs. There are two broad categories of data that are applied onto NOAA ENCs and paper / raster nautical charts – “Critical Corrections” and “Routine” data. Critical Corrections may be newly discovered shoals or other dangers to navigation, as well as changes in the positions or characteristics of aids to navigation (buoys, beacons, and lights). These are typically changes that are published by the Coast Guard in the weekly LNM. Critical corrections are applied to ENCs first, then applied to paper and raster nautical charts. These changes generally appear on both product types (raster and ENC) within a week of each other. However, new Routine source data are now ONLY applied to NOAA ENCs and not to traditional paper / raster nautical charts. Routine data includes the results of ordinary hydrographic and shoreline surveys, which could be extensive. Any specific dangers revealed during routine surveys are extracted from the data and classified as Critical Corrections to be applied to all products. For more information visit NOAA’s website: <https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html>.

---

**SECTION II - DISCREPANCIES**

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

**SECTION IV - CHART CORRECTIONS**

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

| Chart Number                                       | Chart Edition                | Edition Date                | Last Local Notice to Mariners | Horizontal Datum Reference | Source of Correction | Current Local Notice to Mariners |

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

## SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

---

### SUMMARY OF ADVANCED APPROVED PROJECTS

**Approved Project(s)**  
None

**Project Date**

**Ref. LNM**

**Advance Notice(s)**

**OREGON – COOS BAY – Temporary discontinuance of Coos Bay North Jetty Sound Signal (Revised from LNM 19/24)**

The Coos Bay North Jetty is under repair during the summer of 2024. During the repair period Coos Bay North Jetty Sound Signal (LLNR 8762) has been temporarily discontinued until repairs are complete. Upon completion of the Jetty repairs the sound signal will be reestablished for the remainder of the season. During construction Coos Bay North Jetty Light 3A (LLNR 8760) may be intermittently obstructed by construction equipment. The return of the sound signal will be announced via a Broadcast Notice to Mariners.

Mariners are encouraged to share comments on this and the performance and operation of these aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

Chart 18587

LNM: 26/24

**OREGON – TILLAMOOK BAY – Changes to the Aids to Navigation at the entrance to Tillamook Bay (Revised from LNM 42/23)**

The U.S. Coast Guard is changing the aids to navigation that mark the entrance into Tillamook Bay:

Tillamook Bay Approach Lighted Whistle Buoy T (LLNR 680-9810) will be disestablished, and a virtual AIS signal will be broadcast in approximate position 45-34-08.600N 123-59-16.900W.

Tillamook Bay Entrance Lighted Buoy TN (LLNR 9813) has been established at approximate position 45-34-15.833N 123-58-23.466W as a yellow lighted buoy displaying a yellow light flashing every 2.5 seconds with a nominal range of 3 NM. A synthetic AIS signal will broadcast at this position in the future.

Tillamook Bay Entrance Lighted Buoy TS (LLNR 9815) has been established at approximate position 45-34-01.082N 123-58-23.728W as a yellow lighted buoy displaying a yellow light flashing every 4 seconds (FI Y 4s) with a nominal range of 3 NM. A synthetic AIS signal will broadcast at this position in the future.

Mariners are encouraged to share comments on this proposed change and the performance and operation of these aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

Charts: 18520 18558

LNM: 26/24

**COLUMBIA RIVER – HARRINGTON POINT TO CRIMS ISLAND – Change in the arc of visibility for Skamokawa Range Rear Light**

The US Coast Guard is changing the lighting equipment for Skamokawa Range Rear Light (LLNR 10360). The current lighting is becoming obsolete and subject to failure. To facilitate the replacement of this light, the replacement equipment will reduce the arc of visibility from 14° each side of the range line to 9°. The overall intensity of the light will increase to match the characteristic of Skamokawa Range Front Light (LLNR 10355). This reduction in the spread of the light will prevent it from being seen when transiting towards the shoal water to the south of the channel. This change is expected to occur during the summer of 2024 and will be announced via a Broadcast Notice to Mariners.

Mariners are encouraged to share comments on the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

Chart 18523

LNM: 17/24

**COLUMBIA RIVER – ST. HELENS TO VANCOUVER – Change in the light characteristic for Vancouver Direction Light**

The lighting equipment for Vancouver Direction Light (LLNR 11210) has become obsolete and is currently failing. To facilitate the replacement of this light with a LED lantern, the characteristic of the light will change from an Isophase 6 second white light (Iso W 6s) with red and green sectors shown over an arc of 4° to an Occulting 4 second red light (Oc R 4s) shown over an arc of 3°, with an increased intensity to combat increased background lighting. This change is expected to occur during the summer of 2024 and will be announced via a Broadcast Notice to Mariners.

Mariners are encouraged to share comments on the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

Chart 18526

LNM: 17/24

**WASHINGTON – WILLAPA BAY - Disestablishment of Willapa Bay Lighted Buoy "C" and Buoy "D" (Revised from LNM 16/22)**

The U.S. Coast Guard has permanently disestablished Willapa Bay Entrance Lighted Buoy "C" (LLNR 15186) and Willapa Bay Entrance Buoy "D" (LLNR 15167) as the constantly shifting bar at the entrance to Willapa Bay prevents these buoys from marking the navigable channel, and surf conditions make the placement, retrieval and servicing of these buoys hazardous. There are currently no plans by the US Army Corps of Engineers to dredge or maintain the entrance channel into Willapa Bay. Virtual AIS (V-AIS) signals will be established in place of these buoys. The projected approximate locations are:

Willapa Bay V-AIS "A", a special purpose AIS marking good water at 46-44-18.4N 124-06-21.9W  
Willapa Bay V-AIS "B", a special purpose AIS marking good water at 46-43-34.4N 124-03-52.7W

Mariners are encouraged to share comments on the performance and operation of aids to navigation. All comments should be sent to the email address of D13-SMB-D13-LNM@uscg.mil. Any discrepancy for Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

LNM: 18/22

**WASHINGTON – PUGET SOUND – SEATTLE TO OLYMPIA – Change in the arc of visibility for Olympia Inner Range Front Light**

The US Coast Guard is changing the lighting equipment for Olympia Inner Range Front Light (LLNR 17480). The current lighting is becoming obsolete and subject to failure. To facilitate the replacement of this light, the replacement equipment will reduce the arc of visibility from 14° each side of the range line to 9°. The overall intensity of the light will increase to match the characteristic of Olympia Inner 4 Range Rear Light (LLNR 17485). This reduction in the spread of the light will prevent it from being seen when transiting towards the shoal water to the west of the channel. This change is expected to occur during the summer of 2024 and will be announced via a Broadcast Notice to Mariners.

Mariners are encouraged to share comments on the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for Aids to Navigation should continue to be reported to US Coast Guard Sector Puget Sound.

**SECTION VI - PROPOSED CHANGES**

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

**SECTION VII - GENERAL**

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

**SUMMARY OF BRIDGE LIGHTING DISCREPANCIES AND CORRECTIONS**

The summary of Bridge Lighting Discrepancies and Corrections is listed as Enclosure (1) of this Local Notice to Mariners.

LNM: 26/24

**SUMMARY OF DREDGING OPERATIONS**

The summary of Dredging Operations is listed as Enclosure (2) of this Local Notice to Mariners.

LNM: 26/24

**SUMMARY OF MARINE EVENTS**

The summary of Marine Events is listed as Enclosure (3) of this Local Notice to Mariners.

LNM: 26/24

**OREGON – UMPQUA RIVER – REEDSPORT – Central Oregon and Pacific Railroad Bridge deviation**

The Coast Guard has approved a temporary deviation for the Central Oregon and Pacific Railroad Bridge (LLNR 9369), which spans the Umpqua River at mile 11.5. This deviation will allow the Coos Bay Rail Line to complete rail replacements. The subject bridge will need to be placed in the closed-to-navigation position on every Friday at 0700 through Saturday at 1700 beginning on 19 Jan through 13 Jul 2024. The subject bridge provides 16 feet of vertical clearance in the closed-to-navigation position above high water. Vessels able to pass through the subject bridge in the closed-to-navigation position may do so at any time. No alternate route is available on this part of the Umpqua River for tall vessels. For more information on this bridge deviation contact Brian Early at (541) 266-3718 or bearly@coosbayrailline.com.

Chart 18584

LNM: 02/24

**OREGON – APPROACHES TO YAQUINA AND DEPOE BAY – Bridge construction notice (Revised from LNM 06/21)**

ODOT is conducting cathodic protection upgrades and bridge concrete repairs to the Yaquina Bay Highway 101 Bridge (LLNR 9627) in Newport, OR, at Yaquina Bay mile 0.7. A low-level access walkway system has been constructed across the 4 concrete arch spans from the south bank heading north. While erected, the vertical navigation clearance will be reduced to a minimum of 16 feet at MHHW. The low level walkway system spans from the south bank to the North approx. 880 feet. This system will be functional until approximately the summer of 2024. The main navigational channel will not be impeded by the project as that section is made of steel. Mariners are requested not to loiter under the construction area due to fall hazards. For more information, contact Dan Lutze, the project superintendent, at (503) 519-5408.

The project is taking actions to prevent conflicts with birds. ODOT has contracted with the US Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) to perform bird-hazing activities with an aim to prevent nesting in certain sections of the bridge until scaffolding and containment can be installed. Hazing activities may include noise cannons, laser lights, and pyrotechnics. The activities may happen at any time of

**OREGON – APPROACHES TO YAQUINA AND DEPOE BAY – Bridge construction notice (Revised from LNM 06/21)**

day, however, the noise cannons will primarily be used for the few hours surrounding sunset each evening. These efforts will have no effect on marine navigation. Hazing activities are expected to begin at the end of March and continue well into June. For more information on the APHIS activities, contact Steven Schultz at (541) 757-4158 or Steven.Schultz@ODOT.Oregon.gov.

Chart 18561

LNM: 12/22

**COLUMBIA RIVER – BLALOCK ISLAND TO MCNARY DAM – LAKE UMATILLA – Bridge Notice (Revised from LNM 30/23)**

WSDOT will be painting and making repairs on the I-82 Highway Bridge (LLNR 12752) across the Columbia River at river mile 290.5. Construction will occur from Apr of 2024 to 31 Oct 25, with working hours 24 hours a day, 7 days a week, Monday through Sunday. A containment system will be attached to the bridge 24-hours a day, 7 days per week. The containment structure for painting the existing steel portion below the deck will be installed and will reduce the vertical clearance by 10 feet, however, only half the bridge span will have containment at any given time. The I-82 Highway Bridge provides 85.0 feet of clearance at midspan. The containment system will prevent any falling debris once it is constructed. The traveler support system repairs will be above the bridge deck and all paint work will be underneath the bridge deck. Mariners are advised to use caution while transiting the area. For additional information, please contact Alex Sanguino at (509) 222-2403, email sanguina@wsdot.wa.gov, or Andres Mendoza at (509) 222-2440, email mendoza@wsdot.wa.gov.

Chart 18539

LNM: 30/23

**COLUMBIA RIVER – PASCO TO RICHLAND – LAKE WALLULA – Bridge maintenance**

A bridge rehabilitation project will be conducted from 19 Feb – 30 Nov 2024 on the US-395 12 Blue Highway Bridge (LLNR 13057) across the Columbia River at RM 330, between Pasco and Kennewick. There will be a temporary platform system installed under the bridge deck from pier 2 to pier 7 and then again from pier 10 to pier 13, which will reduce the vertical clearance by approximately 5 feet after the platform is installed. The 3 truss spans in the middle bridge (between piers 7 and 10) will not have a working platform beneath the bridge, and therefore will not be impacted. We advise mariners to use caution while in the area. For additional information please contact Tanya Pilarinos, Project Coordinator, at (727) 916-2708 or tpilarinos@southernrb.com.

Chart 18543

LNM: 51/23

**IDAHO – LOWER GRANITE LAKE – CLEARWATER RIVER – Bridge construction notice**

Wadsworth Brothers Construction Company will conduct partial demolition and reconstruction of the US-12 Memorial Bridge, AKA the Clearwater Memorial Highway Bridge (LLNR 14072), from 10 Jul 2023 until 11 Sep 2024. The bridge is located at the City of Lewiston, Idaho at river mile 2.0 of the Clearwater River. Work will occur 7 days per week, up to 24 hours per day. Work includes partially demolishing and reconstruction of the existing bridge in two phases, with one half of the bridge affected in each phase. Temporary navigation channels will be marked with red and green buoys with red or green flashing lights, respectively. Depending on the phase of work, the temporary navigation channel will either be between piers 2 and 3 (span 3) or between piers 3 and 4 (span 4). At least one temporary navigation channel will be available at all times, with some short-term closures required for not longer than three hours per day. Any closures will be approved by the Coast Guard. Each temporary navigation channel will have minimum navigation clearances of 23.06' vertical and 107.79' horizontal. Directional signage and a "no wake" zone will also be placed on both the upstream and downstream locations to direct and advise mariners of the designated navigation channels. The work will be aided by one or more work skiffs and barges. Barges will be marked by white lights on all four corners. Mariners are advised to use caution while transiting the area. For additional information contact Linn Bogart, Project Manager, at (801) 509-8808 or lbogart@wadsbro.com.

Chart 18548

LNM: 17/23

**WASHINGTON – COLUMBIA RIVER – Bridge maintenance**

WSDOT and Garco Construction will be replacing the decking and repairing piers and crossbeams of the I-90 Highway Bridge across the Columbia River at RM 420 at Vantage WA. Work will start on 04 Mar 2024 and is anticipated to be complete in Nov of 2027. Typical work schedule will be Monday – Friday, 0700 – 1730 with occasional night work. A containment system will be installed on the east span reducing the vertical navigation clearance by 10ft. With all construction projects there is a hazard of falling debris; the containment system is designed to prevent any debris from falling into the water. However, mariners are advised to use caution while transiting the area. For the initial phase the main navigation channel will not have containment installed and provides 73.5 feet of vertical navigation clearance at High Pool Elevation of 571.5 feet. Subsequent phases will have containment installed over the main navigation channel, and updates will be posted in future editions of the LNM. For additional information, contact Justin Ludwig at (208) 704-0122 and email JustinL@garco.com.

LNM: 06/24

**OREGON – WILLAMETTE RIVER – PORTLAND TO WALNUT EDDY – Bridge construction notice (Revised from LNM 21/22)**

Kiewit Construction will begin a seismic upgrade construction project on the I-205 Highway Bridge (LLNR 15078) AKA, Abernethy Bridge across the Willamette River at RM 25.6, from 20 Jun 22 to 01 Oct 25. The construction activity will take place across the entire river at the bridge. Construction personnel will be working 24 hours a day Monday through Saturday. Bridge construction work will include the installation of multiple temporary work platforms across sections of the river. All river traffic will be restricted to a temporary navigational channel with horizontal clearance of 150 feet wide and vertical clearance of 51.8 feet high at ordinary high water (OHW), or 76.0 feet high at Columbia River Datum (CRD). The temporary navigation channel will be marked with floating buoys with flashing lights to match buoy type ( red nun and green can navigational buoys and white can informational buoys, each with matching color lights flashing at 4-second intervals). Crews will be using floating cranes and barges, attended by tugs throughout the site. All vessels will monitor VHF channels 13 and 16. Barges will be marked on each corner with a white light flashing at 6-second intervals. Each corner of the multiple trestles will also be marked at each corner with a white light flashing at 6-second intervals. Signage on the trestles will communicate the safe distance from the work zone. For an overview of the work site and navigation channel, see Enclosure (4) of LNM 24/22. For more information contact Kiewit Construction, Christopher Locke at (503) 591-5508 or email christopher.locke@kiewit.com.

LNM: 42/23

**OREGON – WILLAMETTE RIVER – Bridge construction (Revised from LNM 48/23)**

ODOT and the Hamilton Construction Company will conduct the complete demolition and reconstruction of the Van Buren Bridge (Oregon Highway 34), across the Willamette River at river mile 131.7 in Corvallis, OR, between Jun 2023 and Dec 2026. Construction activity will take place across the entire river at the bridge location. Construction activities will take place primarily from the hours of 0700 to 1800, Monday through Saturday. Bridge construction work will include geotechnical drilling, removal and replacement of the existing bridge, the installation of a temporary work bridge spanning the river just upstream of the existing bridge, and the installation a temporary diversion bridge just downstream of the existing bridge spanning the river and carrying vehicular traffic.

Jan 2024 update:

Due to river levels and the abundance of debris in the water, there is a high probability of debris building up on the bridge pilings and structure.

**OREGON – WILLAMETTE RIVER – Bridge construction (Revised from LNM 48/23)**

Mariners are advised that boating conditions in the vicinity of the bridge are very dangerous during high water levels and there may not be a safe passage under the bridge due to the presence of logjams. Additionally, the buoys that mark the temporary navigation channel described below have been removed for the remainder of the winter and spring due to high water / strong water flow. The buoys will be reset once the conditions allow, approximately in May or early June.

A temporary navigable channel for mariners will be maintained with reduced horizontal and vertical clearances for the duration of the project. The temporary channel will provide a horizontal clearance of at least 40 feet and vertical clearance of at least 17.4 feet from the ordinary high-water elevation (OHW). A temporary river clearance gauge will be mounted to the bridge adjacent to the navigable channel at the upstream side of the temporary work bridge and at the downstream side of the diversion bridge. The river clearance gauge will be white with black letters and will show the actual vertical clearance between the water line and overhead obstructions above the navigable channel. Buoy lines, lighting, and signage will direct mariners through the temporary navigable channel and away from "no-entry" construction areas. The temporary navigable channel will be marked with a floating buoy line consisting of orange floating buoys fitted with white colored reflective tape and white flashing lights (FI W 4s) mounted at 100-foot intervals along the buoy line. Flashing yellow lights (FI Y 4s) will be installed on both the temporary diversion bridge and the temporary work bridge trestle at 100-foot intervals along the outside edge of each structure with one centered over the navigable channel at the upstream edge of the temporary work bridge and the downstream edge of the diversion bridge. Red (FI R 4s) and green (FI G 4s) lights will be mounted on the upstream edge of the temporary work bridge and the downstream edge of the diversion bridge, marking the reduced navigable channel limits. Informational signs (white with black lettering) will be mounted on the upstream side of the temporary work bridge and the downstream side of the temporary diversion bridge. Mariners are advised to use caution while transiting the area. A diagram of the placement of warning signs and buoys was included as enclosure (4) of LNM 22/23. For more information contact Markus Schaaf, at (541) 757-4280 or email markus.schaaf@odot.oregon.gov.

LNM: 04/24

**WASHINGTON – PUGET SOUND - EVERETT HARBOR – SNOHOMISH RIVER – SR-529 Bridge (South bound) Notice**

The Coast Guard has approved a temporary deviation for the SR-529 Bridge (South bound) (LLNR 18594.9) across Steamboat Slough, mile 1.1, near Marysville, WA. The deviation will allow personnel to safely conduct maintenance and repair to the subject bridge from 0700 on 01 Jan to 2359 on 28 Jun 2024. The draw span will open on signal Tuesday and Friday afternoons from 1200 to 1700 when mariners request 24 hours in advance via marine radio VHF channel 13 or telephone. Work will occur 24 hours per day seven days a week. Three feet of containment will be installed at multiple locations on the bridge that will reduce the vertical clearance from 10 feet above mean high water to 7 feet above mean high water. Containment will be marked with amber flashing lights. Alternate routes into and out of Steamboat Slough can be via Union Slough or Snohomish River. Vessels that do not require a draw opening at the south bound SR-529 Bridge may transit under the bridge at any time but be aware of fall hazards. For more information contact Amelia Scharrer at (425) 225-8703.

Chart 18443

LNM: 51/23

**WASHINGTON – PUGET SOUND – EVERETT HARBOR – SNOHOMISH RIVER – The Interstate 5 Highway Bridge maintenance**

The Interstate 5 Highway Bridge (LLNR 18594.1) across the Snohomish River, mile 5.4, in Everett, WA, will be preserved and painted from 12 Jun 2023 to 31 Oct 2024. Containment up to 4 feet will be installed and reduce the vertical clearance of the subject bridge from 66 feet to 62 feet above high water. Containment will be marked with amber flashing lights on the bottom with flashing amber lights (FL Y 6s). The working hours will be Monday through Saturday 0800 – 1800 and some night work 2100 – 0800. No service barges will be on site. Mariners are free to transit under the subject bridge at any time. For more information contact Michael Xipolitas at (330) 550-7192 or at Mikex@vimaspainting.com

Chart 18444

**WASHINGTON – SPOKANE RIVER – POST FALLS – Spokane Street River Bridge notice**

Post Falls Highway District and contractors will perform bridge repair work from 06 May – 31 Oct 2024 on the Spokane Street River Bridge in Post Falls, Idaho. The work will consist of boats, barges, and dive crews working on the bridge piers above and below water. All construction activity, including dive crews and support vessels, will be within a delineated construction zone immediately adjacent to the bridge piers. The zone will be delineated by a system of buoys, cables, and signage to divert vessels around the construction zone. Vessels will be able to navigate under the bridge at all times. Mariners are advised to use caution while transiting the area. For more information, call Jeff Sorenson, PE, at (208) 758-8601.

LNM: 17/24

**WASHINGTON – LEWIS RIVER – Bridge repair (Revised from LNM 27/23)**

MJ Hughes Construction will be performing bridge deck repair and Under Bridge Inspections on the I-5 Highway Bridge across the Lewis River at RM 5.5. Work will be done on the eastbound bridge from 07 Aug to 30 Sep 23. Work will be done on the westbound bridge from 26 Jul – 18 Sep 24. The bridge deck repair work and under bridge inspection truck will take place Monday – Saturday, 1 or 2 shifts of 10 hours each per day both day and night depending on scope of work. Under bridge work nets will be marked by flashing yellow lights and warning signs posted on the bridge piers up and down river. Mariners are advised to use caution while transiting area. For additional information, contact William Hill at (971) 240-7310 email bill.h@mjhughes.com.

Chart 18524

LNM: 29/23

**SNAKE RIVER – USACE Walla Walla District 2024 Minimum Operating Pool (MOP) operations and spring spill operations**

From April through August 2024, the lower Snake River reservoirs will operate within the Minimum Operating Pool (MOP) ranges. During this time, all lower Snake and lower Columbia River dams will spill for fish passage in accordance with the 2024 Fish Operations Plan. The Fish Operations Plan is posted on the following website: <https://pweb.crohms.org/tmt/documents/fpp/2024/> MOP ranges for each Snake River pool are listed below. (Elevations are in feet using NGVD 29 datum):

Ice Harbor, Lake Sacajawea – 437-438.5

Lower Monumental, Lake Herbert G. West – 537-538.5

Little Goose, Lake Bryan – 633-634.5

Lower Granite, Lower Granite Lake – 733-734.5

Due to recent changes in fish passage spill requirements, USACE anticipates a higher rate of discharge through the spillways compared to previous years, and river navigators may experience strong currents and eddies in the dam tailraces and forebays. If navigators believe river conditions inhibit safe navigation to or from a lock, they may request a temporary adjustment to spill using the contact information below. Contact with lock and dam shift operators should be initiated no later than 30 minutes prior to arriving at the lock, as a requested redistribution or reduction of spill may take as long as 30 minutes to attenuate. Additionally, downstream departures may be delayed for the requested spill change to be implemented and take effect.

McNary Operator at (541) 922-2231. Call Sign WUJ41 McNary.

**SNAKE RIVER – USACE Walla Walla District 2024 Minimum Operating Pool (MOP) operations and spring spill operations**

Ice Harbor Operator at (509) 543-3231. Call Sign WUJ42 Ice Harbor.  
Lower Monumental Operator at (509) 282-7231. Call Sign WUJ43 Lower Monumental.  
Little Goose Operator at (509) 399-2233 x231. Call Sign WUJ44 Little Goose.  
Lower Granite Operator at (509) 843-2231. Call Sign WUJ45 Lower Granite.

Navigators are encouraged to contact dam operators and report any unsafe navigation conditions. District staff will evaluate the effects of this year’s operations in conjunction with feedback from river users and coordinate adjustments to spillway gate positioning as appropriate. For additional information contact the NWW Operations Division at (509) 527-7364.

LNM: 13/24

**COLUMBIA RIVER AND SNAKE RIVER – 2024 summer lockage schedule for recreational vessels**

As of 13 May 2024, the USACE Portland and Walla Walla Districts have implemented the 2024 summer lockage schedule for the passage of recreational vessels through the following navigation locks:

| Lock Name                    | Location                  | Phone Number   | Radio Call Sign (VHF-FM channel 14) |
|------------------------------|---------------------------|----------------|-------------------------------------|
| <b>Portland District:</b>    |                           |                |                                     |
| Bonneville Lock              | Columbia River Mile 145.5 | (541) 374-8323 | WUJ 33                              |
| The Dalles Lock              | Columbia River Mile 191.5 | (541) 506-8211 | WUJ 34                              |
| John Day Lock                | Columbia River Mile 215.6 | (541) 739-1050 | WUJ 35                              |
| <b>Walla Walla District:</b> |                           |                |                                     |
| McNary Lock                  | Columbia River Mile 292   | (541) 922-2231 | WUJ 41                              |
| Ice Harbor Lock              | Snake River Mile 9.7      | (509) 543-3231 | WUJ 42                              |
| Lower Monumental Lock        | Snake River Mile 41.6     | (509) 282-7231 | WUJ 43                              |
| Little Goose Lock            | Snake River Mile 70.3     | (509) 404-2231 | WUJ 44                              |
| Lower Granite Lock           | Snake River Mile 107.5    | (509) 843-2231 | WUJ 45                              |

The following annual recreational craft lockage schedules will be implemented for all the locks beginning 13 May through 13 Sep 2024:

Upstream Direction Times: 0900, 1200, 1500, 1800, 2100  
Downstream Direction Times: 0930, 1230, 1530, 1830, 2130

When a recreational vessel lockage schedule is in effect, recreational vessels will only be allowed to lock through at the times designated for such lockages and they will take precedence over commercial vessels. Commercial vessels will continue to be locked through upon arrival except during the times specified for recreational vessel lockages. At the discretion of the lock operator, recreational vessels may be allowed to lock through with commercial craft. USACE will consider special lockages, outside the above scheduled lockage times, for flotillas or other unique activities sponsored by yacht clubs, marinas, and other groups, provided advance (at least 24-hours) arrangements have been made with the appropriate control room operator. A personal flotation device is required for every member on board the recreational vessel and shall be worn throughout the duration of the lockage. All vessel owner/operators lock through at their own risk and must follow the directions of the lock operator when using the locks or operating in the vicinity of the locks. The lock operator has final authority on the suitability of a craft for lockage. Information on the locks, including how to safely lock a recreational vessel is available at <https://www.nww.usace.army.mil/Missions/Navigation>. For more information on this matter please call the Walla Walla Operations Division, at telephone (509) 527-7364.

LNM: 20/24

**WASHINGTON – PUGET SOUND – LAKE WASHINGTON SHIP CANAL – Hiram M. Chittenden Locks Center Miter Gates replacement project (Revised from LNM 02/24)**

USACE is in the middle of a multi-phase maintenance project to replace the center miter gates on the Large Lock chamber. The major project will require several 30-day closures to facilitate demolition, concrete construction, and installation and commissioning of the new miter gates, respectively. There will be at least 15 days between closures to accommodate marine traffic. Additionally, the Small Lock will remain open during these periods and can pass vessels up to 123 feet long and 28 feet wide. While the Large Lock chamber is in service, please note that the center miter gates have been removed, and a temporary marine fender has been installed in the recess where the gates were previously. Mariners are reminded to exercise extreme caution while entering and exiting the large lock chamber, because the center gate recess and the surrounding (demolition) area around the center gate will be fully exposed. Please operate your vessel at a slow speed – 2 ½ knots or lower – and follow the guidance and instructions of the Tower and lock operators.

Currently, the large locks are scheduled to be closed to all vessel traffic during the following periods,

Closure 4: 15 Oct 2024 to 13 Nov 2024  
Closure 5: 29 Nov 2024 to 28 Dec 2024

The large lock is expected to be fully operational on 29 Dec 2024.

For current information about activities at the Locks, visit the Locks’ website at <https://www.nws.usace.army.mil/Missions/Civil-Works/Locks-and-Dams/Chittenden-Locks/Closures/> and/or like them on Facebook [www.facebook.com/chittendenlocks](http://www.facebook.com/chittendenlocks). For specific questions, mariners may contact the lockmasters at (206) 297-9821.

**OREGON – COOS BAY – North Jetty repair project**

Trade West Construction has resumed work for the season on the Coos Bay North Jetty Repair Contract. All work is taking place with equipment on the jetty. There is no in-water work, however, the movement and placement of extremely large and heavy material poses a significant risk to boaters approaching close to the jetty. Mariners are strongly advised to keep a safe distance from the repair work. For more information, contact Randy Guymon at (435) 703-3462.

Chart 18587

LNM: 15/24

**OREGON – CAPE BLANCO TO YAQUINA HEAD – Subsurface research mooring deployment (Revised from LNM 17/24)**

NOAA has deployed a subsurface instrument mooring off the Oregon coast, approximately 53 NM due west of the Umpqua River entrance. The mooring is in approximate position 43-38-42 N, 125-33-06 W in 3050 meters of water, with a mooring float 900 meters below the surface. The equipment is anticipated to remain onsite until October of 2024. For more information, contact Bob Dziak at [robert.p.dziak@noaa.gov](mailto:robert.p.dziak@noaa.gov).

**OREGON – CAPE BLANCO TO YAQUINA HEAD – PacWave South Submarine Cable Operations**

R.T. Casey will be performing submarine cable installation and burial operations as part of the PacWave Wave Energy project off the Oregon coast in the vicinity of Driftwood Beach State Recreation Site near Seal Rock, Oregon, and out to 13 miles offshore. Operations are scheduled from 20 Jun – 15 Oct 2024, and will take place in the PacWave Sough site centered on approximate position 44-30-42 N, 124-10-30 W. Operations will be

**OREGON – CAPE BLANCO TO YAQUINA HEAD – PacWave South Submarine Cable Operations**

conducted 24 hours a day, 7 days a week, and staged from the following platforms: HOS Innovator, M/V Liberty, and OSV Nautilus, all of which can be reached on VHF-FM Channels 13 & 16. Mariners are requested to contact the above listed vessel and maintain a minimum 500-yard distance when transiting in the vicinity. For additional information contact Zachary Casey at (504) 491-2288.

**COLUMBIA RIVER SYSTEM AND WASHINGTON - Testing of prototype plastic buoys**

The U.S. Coast Guard is testing various prototype plastic buoys to observe their station keeping ability and visual and radar detection capabilities. Buoys have been placed at the following locations for evaluation:

- On the Columbia, Snake and Willamette Rivers:
  - Desdemona Sands Lighted Buoy 22 (LLNR 9990)
  - Hood River Lighted Buoy 36 (LLNR 11932)
  - Bonneville Pool Lighted Buoy 69 (LLNR 12130)
  - Lake Celilo Buoy 45 (LLNR 12360)
  - Lake Wallula Lighted Buoy 2 (LLNR 12815)
  - Snake River Buoy 14 (LLNR 13195)
  - Elk Rock Buoy 10 (LLNR 15005)

In Grays Harbor and Admiralty Inlet Washington:

- Point Chehalis Lighted Buoy 4 (LLNR 15990)
- Point Wilson Lighted Buoy 6 (LLNR 16470)

While the buoys performance is being studied, the US Coast Guard is soliciting comments from the maritime community transiting this waterway. Mariners are requested to respond in writing to the Coast Guard District office with any comments on this change at D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River and US Coast Guard Sector Puget Sound.

Charts: 18502 18533 18545

LNM: 52/22

**COLUMBIA RIVER – PACIFIC OCEAN TO HARRINGTON POINT – JOHN DAY CHANNEL – Marine Construction**

Bergerson Construction will be performing pier demolition and construction operations on the John Day Channel off the Columbia River on the eastern side of Tongue Point in approximate location 46-12-12.860 N, 123-45-31.200 W. Work is anticipated to begin on or about 14 Aug and continue through December of 2024, Monday through Friday, from 0700 to 1800 daily. A 60' x 120' crane barge Betsy Ross, a 45' x 112' deck barge, various sectional barges and assist vessel Olaf J will be on site. Personnel on the Betsy Ross and Olaf J will be monitoring VHF-FM channel 17. A yellow, floating turbidity boom/curtain will be used to surround and identify the work area and white flashing lights will be used to demarcate the barges. Mariners are requested to use caution and reduce wake when transiting the area. For additional information, contact site superintendent Mike Puckett at (503) 440-7344, or Bergerson Construction office at (503) 325-7130.

Chart 18521

LNM: 31/23

**COLUMBIA RIVER – CRIMS ISLAND TO SAINT HELENS – LONGVIEW – Potential Federal Channel change at Lewis and Clark Highway Bridge**

USACE is evaluating a request from the Columbia River Pilots to change the alignment of the Columbia River Federal Navigation Channel (FNC) between RM 65 to RM 67 to improve navigational safety by increasing distances between the FNC and the north pier of the Lewis and Clark Highway Bridge (LLNR 10812.5) and the U.S. Gypsum dock. The existing Cottonwood Island Lower Range would be extended from 68+40 downstream to the Lewis and Clark Highway Bridge at RM 66+00 and then the channel would turn to reconnect to the existing centerline downstream near RM 65+09. A graphical depiction of the potential change was included as Enclosure (4) to LNM 23/24. The existing Longview Designated Anchorage would be revised to remove the portion that overlaps with the realigned channel. Mariners are encouraged to share comments on the potential FNC realignment. A ship simulation will be used to validate the change prior to a final decision. Please direct your comments to USACE Project Manager Jessica Stokke by 01 Jul 2024 at (503) 808-4352 or Jessica.B.Stokke@usace.army.mil.

Chart 18524

LNM: 20/24

**COLUMBIA RIVER – PORT OF PORTLAND – OREGON SLOUGH**

The overhead power cables crossing Oregon Slough between Hayden Island and North Portland in approximate position 45-37-32.5 N, 122-43-31.0 W, were damaged due to a collision. The cables have been raised, but their height above the waterway has not been verified, and mariners should assume that the cables are not at their charted clearance of 160 feet.

Chart 18526

LNM: 19/24

**WASHINGTON – GRAYS HARBOR – Underwater obstruction**

On 19 Nov 2023, a large concrete sinker with a significant amount of chain attached was dredged up by a deep draft vessel anchor. The sinker and chain was cut free in approximate location 46-55-19.506 N, 124-06-19.950 W. This location is in the Grays Harbor Channel near the western end of the South Reach. This obstruction may pose a danger to deep draft vessels transiting this portion of the waterway.

**WASHINGTON – APPROACHES TO STRAIT OF JUAN DE FUCA – Olympic Coast National Marine Sanctuary research buoys**

Olympic Coast National Marine Sanctuary will be conducting oceanographic research between Makah Bay and Cape Elizabeth from 15 May until 01 Oct 2024. The R/V Storm Petrel has deployed 10 moorings and identified one un-recoverable mooring at the locations listed below. On these moorings, surface gear consists of a 12-inch low-drag surface float (Polyform LD-2) with three trailing yellow seine net floats, and an 8-meter-long Amsteel line attached to sub-surface gear. The unrecoverable mooring CE015 does have a surface expression, which consists of a buoy and partial halibut pole. The halibut pole is only visible in negative tides and does not have a radar reflector. Olympic Coast will be making an attempt to recover mooring CE015 in July 2024. For additional information, please contact the Vessel Operations Coordinator, LTJG Haley Wilson, at (360) 406-2085.

**WASHINGTON – STRAIT OF JUAN DE FUCA – SWIFTSURE BANK – ECHO Program 2024 Voluntary Ship Slowdown**

Effective 01 Jun 2024, the Enhancing Cetacean Habitat and Observation (ECHO) Program voluntary ship slowdown in the vicinity of Swiftsure Bank is in effect for all inbound and outbound commercial and government vessels. If it is safe and operationally feasible to do so, commercial and government vessels are requested to not exceed the following speeds through the water:

- 11 knots – Bulk carriers, tankers, general cargo vessels, and government vessels; and,
- 14.5 knots – Vehicle carriers, cruise ships, and container vessels.

The voluntary ship slowdown takes place in the inbound and outbound lanes of the vessel traffic separation scheme between the start or end of the traffic separation scheme on the western or southern side, and the 124-40-00 W longitudinal line (radio call in point 1) on the eastern side. Speed transition zones are in place about 5 nautical miles prior to entering the slowdown area. The ECHO Program ship slowdown at Swiftsure Bank aims to reduce underwater noise in known southern resident killer whale feeding areas. This initiative will remain in effect 24 hours per day until 2359 PDT on 31 Oct 2024. The voluntary slowdowns at Swiftsure Bank and in Haro Strait and Boundary Pass are led by the Vancouver Fraser Port Authority's ECHO (Enhancing Cetacean Habitat and Observation) program, in cooperation with government agencies, Indigenous communities, industry partners and environmental groups. For more detailed information related to this slowdown and the ECHO program, refer to the following internet address: <https://www.portvancouver.com/environmental-protection-at-the-port-of-vancouver/maintaining-healthy-ecosystems-throughout-our-jurisdiction/echo-program/projects/swiftsure-bank-slowdown/>.

**WASHINGTON – STRAIT OF JUAN DE FUCA – ECHO Program 2024 Voluntary Tug Lateral Displacement**

As of 01 Jun 2024, the Enhancing Cetacean Habitat and Observation (ECHO) Program voluntary inshore lateral displacement is in effect for all tugs transiting the Canadian inshore area of the Strait of Juan de Fuca. If it is safe and operationally feasible to do so, tugs are requested to move south of the known killer whale feeding area and navigate either through the outbound shipping lane or the inshore lateral displacement zone, while maintaining a buffer distance of 1,000 meters from the traffic separation scheme (TSS). The inshore lateral displacement zone is 1,500 meters wide and occurs in the area between 123-52-21.192 W, 48-18-37.332 N and 124-31-33.378 W, 48-28-53.316 N, covering a distance of approximately 28 NM. The ECHO Program voluntary lateral displacement initiative aims to reduce underwater noise in known southern resident killer whale feeding areas along the northern edge of the Strait of Juan de Fuca. This initiative will remain in effect 24 hours a day through 31 Oct 2024. For more detailed information related to lateral displacement and the ECHO program, visit the following internet address:

<https://www.portvancouver.com/environmental-protection-at-the-port-of-vancouver/maintaining-healthy-ecosystems-throughout-our-jurisdiction/echo-program/projects/lateraldisplacement/>.

**WASHINGTON – PUGET SOUND – APPLE COVE TO KEYPORT – Temporary lighted buoy**

NOAA's Pacific Marine Environmental Laboratory deployed a temporary research lighted buoy on 23 Feb 2024, approximately 1700 yards offshore from Spring Beach between Point Wells and Meadow Point, in approximate position 47-43-56.940 N, 122-23-41.820 W. This buoy is expected to remain on station until approximately 01 Sep 2024. The buoy is yellow and grey, round and marked with a flashing yellow four seconds (FL Y 4s) light. For more information, contact Nick Delich at (206) 526-6181 or email at nicholas.delich@noaa.gov.

**WASHINGTON – PUGET SOUND – APPLE COVE TO KEYPORT – SEATTLE TO BREMERTON – Environmental monitoring buoys**

Puget Sound Restoration Fund is installing research buoys with environmental monitoring instruments at 3 locations in the central Puget Sound:

- Tyee Shoal/Wing Point (off Bainbridge Island), 47-37-03.000 N, 122-29-29.040 W.
- Point Jefferson (off Indianola), 47-44-30.840 N, 122-29-16.440 W.
- Edmonds (north of dive park, Shell Creek) 47-49-13.440 N, 122-22-41.160 W.

Each site will have one surface buoy, yellow in color, 2 ft diameter, with flashing yellow light (FL Y (5) 20s). Buoys will be installed on or about 09 Jan 2023 and remain in place until 31 Dec 2024. Mariners are requested to avoid approaching or tying off to the research buoys. For more information, please contact the Restoration Fund at (206) 780-6947 or email [info@restorationfund.org](mailto:info@restorationfund.org).

**WASHINGTON – PUGET SOUND – APPLE COVE TO KEYPORT – Submersible Vehicle testing (Revised from LNM 49/22)**

The Naval Undersea Warfare Center (NUWC) at Keyport, WA is continuing operations in the vicinity of NUWC between University Point, the Brownsville Marina and Keyport through 23 Dec 2024. Operations will normally be conducted Monday through Friday during daylight hours. Operations will involve semisubmersible and submersible vehicles escorted by a small naval craft with a flashing red light. The call sign for the small craft will be "Keyport Range Control" and will monitor VHF-FM channels 12 & 16. All craft transiting the area are requested to exercise caution and maintain a sharp lookout for possible semi-submerged vehicles while the range is in operation. For more information contact Keyport Range Control on VHF-FM channels 12 and 16 or by phone at (360) 396-2313.

Chart 18446

LNM: 49/23

**WASHINGTON – PUGET SOUND – SEATTLE TO BREMERTON – ELLIOTT BAY – Marine construction (Revised from LNM 37/22)**

Pacific Pile & Marine's ongoing marine construction project for the City of Seattle at Pier 58 will be continuing until 31 Dec 2024. The in-water work includes timber pier demolition and pile removal, new piling placement, new concrete construction, habitat improvements and cathodic protection systems. There will also be some demolition work conducted just north of pier 62 near the entrance to Bell Harbor Marina. Work hours are typically 0700 – 1900 daily. Pacific Pile will have multiple assets on scene including multiple barges and cranes. Crews will use VHF-FM channels 18 / 19 for communications with assist tugs and 68 / 69 for mariners with any questions. For more information, contact Andrea Harwood at (206) 817-5624, or email at [andrea@pacificpile.com](mailto:andrea@pacificpile.com).

**WASHINGTON – PUGET SOUND – SEATTLE TO BREMERTON – ELLIOTT BAY – Tribal Fisheries**

The Muckleshoot Tribe will conduct gillnet fishing operations for summer steelhead in catch area 10A (Elliott Bay east of a line drawn from Pier 91 to Duwamish Head Light (LLNR 16910), and catch area 80B (the Duwamish River), from 0600 on 31 May 2024 until further notice. These fisheries may cause significant congestion on the waterway, and mariners are advised to use caution while transiting the area. For more information, contact Coast Guard Sector Puget Sound Waterways at (206) 217-6051 or the Muckleshoot Tribal Enforcement at (253) 876-2927.

Chart 18450 LNM: 22/24

**WASHINGTON – PUGET SOUND – HOOD CANAL – Fisheries Research**

NOAA Fisheries (Northwest Fisheries Science Center) has deployed acoustic receivers in the vicinity of the Hood Canal Bridge (LLNR 17769) during the week of 17 Mar 24. Receivers will listen for, and record detections of salmonids implanted with acoustic transmitters. Deployment locations fall between Twin Spits and 300 meters south of the Hood Canal Bridge, but mostly within 100 meters of the bridge. Moorings will remain in place through September of 2024, and it is requested that mariners avoid disturbance to the seafloor in these areas so as not to dislodge or damage receivers. For additional information, contact the Chief Scientist at (206) 949-7723.

Charts: 18458 18473 LNM: 12/24

**SAFETY NOTICE – Navigational Range and Sector Light displays on electronic charts**

The U.S. Coast Guard has become aware that the Range and Sector Light Characteristic labels are not displayed on Electronic Navigational Charts (ENCs) when used in an Electronic Chart Display and Information System (ECDIS) due to limitations of the S-52 ECDIS display specification. Mariners may query the ENC data directly within ECDIS or refer to the Light List for complete information on Range and Sector Light Characteristics.

LNM: 39/22

**OREGON – WASHINGTON – IDAHO – New and improved Merchant Mariner Credential**

The U.S. Coast Guard announced a new merchant mariner credential (MMC) set to launch on 01 Mar 2024. This milestone marks the first comprehensive revision of the mariner credential in nearly a decade and is strategically designed to enhance both quality of service and security within the Marine Transportation System (MTS). U.S. Coast Guard Marine Safety Information Bulletin (MSIB) 01-24, New Merchant Mariner Credential Passport Booklet Replacement, contains details of this new credential, and was included as Enclosure (4) of LNM 12/24. Additionally, the new MMC is announced at the National Maritime Center's Home Page: [https://www.dco.uscg.mil/national\\_maritime\\_center/](https://www.dco.uscg.mil/national_maritime_center/). Mariners are encouraged to visit NMC's website for more information on the credential.
