Sector Anchorage, Submerged Land	Hazards To	General/Hazards To Navigation/Hazards From: 2024-10-28 To: 2029-10-27 Location: 61.17206° N / 148.475° W 61.17074° N / 148.05752°	
Act (SLA) - Prince William	Navigation	W 61.03802° N / 148.05752° W 60.93011° N / 148.48324° W 61.17206° N / 148.475° W The State of Alaka is issuing routine updates on the	
Sound/General/Hazards To		Barry Arm Landslide Tsunami risk. This threat is located in Barry Arm and has the potential to create a tsunami if/when a landslide is	
Navigation/Hazards		generated that impacts the water in Barry Arm. If/when this occurs localized wave heights will be very hazardous in Barry Arm and	
		Harriman Fjord. Port Wells and Passage Canal will also see inundation and strong, unusual currents for hours following an event. The	
		geologic makeup of the area is similar to Alaskan locations where two previous landslide caused tsunamis occurred, in Lituya Bay (1958)	
		and Icy Bay (2015), both causing extremely large but localized tsunamis. Mariners should maintain vigilance when in the vicinity of Barry	
		Arm or nearby waters and be prepared to depart the area if any unusual geologic activity is observed. Studies are being conducted and the	
		situation is being monitored to allow for a better understanding of the potential results of a slide. Additional information is available at	
		https://dggs.alaska.gov/hazards/barry-arm-landslide.html.	
Sector Anchorage, Submerged Land	Miscellaneous	General/Miscellaneous From: 2025-03-18 To: 2025-03-31 RFF Outage The USCG Naked Island VHF/FM site, located at 60-39N, 147-21W, is	
Act (SLA) - Prince William		currently inoperative. Mariners are requested to relay any unanswered distress calls to the Sector Western Alaska and U.S. Arctic Command	
Sound/General/Miscellaneous		Center at 907-428-4100. The USCG Naked Island VHF/FM site covers the area around Prince William Sound including Naked Island, Port	
		Fidalgo, Southern Culross Passage, Hinchinbrook Island, Northern Montague Island, and Knight Island.
