TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation.	Lat: 40° 38' 15" Lon: -074° 11' 45"
Raritan River Cutoff Channel - Arthur Kill/General/Bridges/Maintenance	Bridges	General/Bridges/Maintenance On February 16, 2026, between 7:00 am and 3:30 pm on weekdays, bridge maintenance will be performed on the New Jersey Turnpike (99.70ANI) IVO Interchange 13) over Elizabeth River, mile .61 to the mouth of Elizabeth Reach, in Elizabeth, Union County, New Jersey. This work will be completed in 5 non-consecutive days. A 15 ft skip and a 60 ft X 160 ft platform will be in the waterway intermittently. Mariners requiring full horizontal clearance can contact Matt Becker at (201) 304-3045. The project is to be completed by December 31, 2026. Mariners are advised to exercise caution when transiting the area. From: 2026-02-12 To: 2027-01-01 Location: 40-38-44.052N/074-12-14.508W Bridge Name: 99 67 Interstate95 Expressway Southbound Bridge	Lat: 40° 38' 44" Lon: -074° 12' 15"

DISTRICT 1 - CGD-NE MSI/Raritan Bay - Cheesequake Creek/General/Bridges/Temp Deviation	Bridges	DISTRICT 1 - CGD-NE MSI/General/Bridges/Temp Deviation From: 2026-05-17 To: 2026-05-19 Location: 40-27-45.893N/074-15-31.705W Bridge Name: SR 35 Bridge The Coast Guard has issued a temporary deviation from the regulation governing the operation of the SR 35 Bridge over Cheesequake Creek at mile 0.0 at Morgan, New Jersey. This deviation is needed to accommodate the placement of wires on steel poles in the vicinity of the bridge. Under this deviation, the bridge will not be able to open for marine traffic from 7 a.m. to 6 p.m. on May 18, 2026. Vessels that can pass under the span without a bridge opening may do so at any times. Any questions regarding this temporary deviation can contact Jason Zielenbach 215-356-2740 or by a VHF-FM marine radio channels 13/16 during hours of operation. Mariners are advised to exercise caution when transiting the area and plan accordingly.	Lat: 40° 27' 46" Lon: -074° 15' 32"

North Channel Saybrook To New Haven - Connecticut River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2025-05-08 To: 2029-12-31 Location: 41.31087778° N / 72.34920833° W Bridge Name: Amtrak Railroad Bridge CONNECTICUT – CONNECTICUT RIVER – From July 7, 2025, through December 30, 2029, AMTRAK will have moored barges in place during the construction and demolition of the Amtrak Connecticut River Bridge. Due to the placement of a temporary fendering system, the horizontal clearance of the bridge in the navigation channel will be reduced to 115 feet. Similarly, the placement of temporary signal cables overhead of the navigation channel will reduce vertical clearance to 100 feet above MHW when the bridge is in the open position. From October 1, 2025 to November 15, 2025, contractors will be performing dive operations to remove submarine cables from 0630-1830 Monday through Friday. From October 30, 2025 through October 31, 2025, dive operations are scheduled to take place in the navigational channel. Barges will be placed along the bridge fenders blocking the channel. Mariners are encouraged to avoid the channel while dive operations are taking place. However, mariners requiring passage must contact Michael King at (617) 653-7987 with a 2 hour advance notice to arrange transit through the work area. Mariners are advised to exercise caution and reduce wake when transiting the area. Mariners with questions or concerns can contact the contractor via marine radio VHF-FM Ch 13/16 or call Patrick Finley at (860) 806-2365 or Bob Nardi at (203) 496-7353. Main Channel - East River Main Channel/General/Bridges/Rehabilitation	Bridges	Structural repairs to the Brooklyn Bridge, over the East River at mile 0.8, have commenced and will be ongoing through at least June 30, 2026, using the bridge traveler over the navigable channel. Active work will occur between 8:00 a.m. and 2:00 p.m., Monday through Friday. The traveler will reduce the vertical clearance of the bridge by 17 feet. During work hours the traveler can move with 2 hours' notice for vessels requiring full vertical clearance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call the VTS-NY watch supervisor at (718) 354-4088. The traveler platform will be moved out of the navigable channel each week from 2:00 p.m. on Friday until 8:00 a.m. on Monday. During the work week, the traveler may remain staged over the navigable channel outside of work hours. Mariners requiring full vertical clearance for transits between 2:00 p.m. and 8:00 a.m. on Monday through Thursday are strongly advised to contact the VTS-NY watch supervisor prior to 12:00 p.m. to arrange for the traveler to be located outside the navigable channel. Mariners with general questions about this construction project can contact NYC DOT at (917) 842-3753 or (212) 839-3740. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 42' 22" Lon: -073° 59' 48"
Main Channel - East River Main Channel/General/Bridges/Repairs, Painting, Or Fender Replacement	Bridges	Fender repairs are ongoing to the 145th Street Bridge across the Harlem River, mile 2.8, in New York City. From March 25, 2026 through June 26, 2026, barges will be staged 24/7 in the East Channel of the bridge opening, leaving 25 feet of vertical clearance. The West Channel of the bridge opening will not be obstructed. Active work on the fender system will occur 6:00 a.m. to 2:30 p.m. Monday through Friday. Mariners requiring additional information on this project may contact the project manager at (201) 417-4115. Mariners are advised to exercise caution when transiting the area. Main Channel - East River Main Channel/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Boring and Core Samples From: 2026-04-27 To: 2026-06-05 Aquifer Drilling & Testing will be conducting marine soil borings on the East River from May 1, 2026, to June 5, 2026, 24 hours a day, seven days a week. Equipment on scene will be the NORTHSTAR VOYAGER, monitoring VHF-FM CH 13 & 16. The VOYAGER is approximately 65 feet wide. Channel widths are approximately 800 feet, which provides ample room for vessel transits on either side, even when the VOYAGER is positioned near the center of the channel. Exact clearance will vary depending on the vessel's position at the time. Conservative estimate is two slack tide cycles (approximately 6 hours). The first slack tide would be used to pull pipe, and the second to move the VOYAGER. In shallower locations, it may be possible to complete both within a single slack tide, depending on current conditions (particularly if the current is moving away from the bridge).	
Main Channel - East River Main Channel/General/Marine Events/Fireworks	Marine Events	General/Marine Events/Fireworks From: 2026-05-02 To: 2026-05-10 Location: 40-42-57.240N/073-58-14.520W 40-42-55.368N/073-58-06.852W 40-42-50.112N/073-58-08.328W 40-42-52.020N/073-58-18.300W 40-42-57.240N/073-58-14.520W NEW YORK, BROOKLYN, NY – EAST RIVER – SAFETY ZONE - FIREWORKS Mariners are advised that a safety zone will be enforced for a barge based fireworks display, scheduled to be held on the East River, May 9, 2026, from 10:00 p.m. until 11:30 p.m. The fireworks barge will be in approximate position 40° 42' 55.00" N, 73° 58' 13.57" W (NAD 83) and the Safety Zone encompass all waters within a 500-foot radius from the barge. Vessels may not enter, remain in, or transit through the Safety Zone during the enforcement period unless authorized by the Coast Guard Captain of the Port. Other Federal, State and local agencies may assist these personnel in the enforcement of the Safety Zone.

Hours of operation are from 6 a.m. to 4 p.m. weekdays. There will be a safety boat operating IVO the bridge. A 84ft navigation channel free of obstruction will be maintained at all times. For construction details please contact Jed Fitz, superintendent at 267-907-5932 or via marine radio VHF-FM 13/16. This project is to be completed by February 8, 2027. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 47' 60" Lon: -074° 04' 33"

Newark Bay - Hackensack River/General/Bridges/Construction	Bridges	<p>General/Bridges/Construction From: 2024-05-24 To: 2027-10-22 Location: 40.75346° N / 74.095153° W Bridge Name: Portal (N) Bridge</p> <p>Portal (N) Bridge Bridge replacement to the Portal Bridge North, across Hackensack River at mile 5.04 is in progress. Hours of operations are from Monday to Friday between 6:30 a.m. to midnight. There will be waterborne equipment blocking one draw of a swing bridge at a time and the other draw will be free and clear of any equipment for the passage of vessels. Mariners can contact one of the three (3) provided telephone numbers/emails or via marine radio VHF-FM CH 13/16 advising of travel through the channel (including possible return trips): 1. Martir Ortez – Main Span Project Manager – (562) 307- 4916, mortez@traylor.com 2. Jack Phillips – Main Span Superintendent – (347) 924- 5635, john.h.phillips@skanska.com 3. Jim Hummel – Main Span Area Lead - (917) 417- 4885, Jim.Hummel@skanska.com Skanska Traylor PNB JV has been awarded the construction of the New Portal North Bridge Project (NJT Contract No. 20-083X, WBS No. GC.02) with a Notice to Proceed of April 7, 2022. Specific to the Hackensack River work, mile 5.0, the project consists of constructing two bridge piers, demolition of the existing center pier north fender, erecting three tied-arch spans of approximately 400 LF (1,200 LF overall), and demolition of the existing bridge once railroad traffic is switched to the new bridge. The current status of the channels: East Channel – Open West Channel – Close The Coast Guard is modifying the operating schedule that governs the Amtrak Portal Bridge across the Hackensack River, mile 5.0, at Little Snake Hill, New Jersey. This action is necessary to facilitate the construction of the new replacement Portal Bridge North, as designed by Amtrak as the owner of the bridge, adjacent to the current Amtrak Portal Bridge. This final rulemaking limits the extent of the opening of the Amtrak Portal Bridge in the horizontal position to prevent the swing span from striking the new Portal Bridge North during construction as follows: The draw shall only open to 55 feet horizontal clearance in the east channel and the west channel will be closed to all navigation while the draw is open. Whenever any bridge opening is needed, contact one of the three (3) provided telephone numbers/emails above with 24-hour advance notice to allow the removal of any waterborne equipment from the East Channel that restricts the horizontal clearance to less than 55 feet. The draw need not open for the passage of vessel traffic from 5 a.m. to 10 a.m. and from 3 p.m. to 8 p.m. Additional bridge openings shall be provided for tide restricted commercial vessels between 7 a.m. and 8 a.m. and between 5 p.m. and 6 p.m., if at least a two-hour advance notice is given by calling the number posted at the bridge. At all other times the bridge shall open on signal if at least a 2-hour advance notice is given. Please be advised that the existing Portal Bridge east channel horizontal clearance (temporary fender) will be maintained at approx. 55ft and west channel horizontal clearance at 91ft until it's demolished, both with a closed swing bridge vertical clearance of 23ft. With a swing bridge opening, the vertical clearance increases to 50ft with the existing Portal Bridge east channel horizontal clearance (temporary fender) being maintained at approx. 55ft and west channel being closed. Mariners are advised to exercise caution when transiting the area. This project will be completed by October 22, 2027.</p>	<p>Lat: 40° 45' 12" Lon: -074° 05' 43"</p>
General/Bridges/Temp Deviation	Bridges	<p>The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation.</p>	<p>Lat: 40° 44' 36" Lon: -074° 04' 37"</p>

Hampton Harbor

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Northern New England, Submerged Lands Act (SLA) - Hampton Harbor/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	General/LAA/RNA/Temporary Regulated Navigation Zone From: 2025-07-08 To: 2030-12-31 The Coast Guard is establishing a temporary regulated navigation area (RNA) and a safety zone on the Hampton River at the inlet to Hampton Harbor, Hampton, NH, in response to hazardous conditions created by construction activities for the Neil R. Underwood Seabrook-Hampton Harbor Bridge replacement project. This rule is necessary to provide for the safety of life in the areas undergoing demolition and construction. The RNA will be enforced from July 1, 2025, through December 31, 2030, and will establish the following operating restrictions on vessels: Nothing in this regulation relieves any vessel, owner, operator, charterer, master, or person directing the movement of a vessel, from the consequences of any neglect to comply with this part or any other applicable law or regulation (i.e. the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) or 33 CFR part 84—Subchapter E, Inland Navigation Rules) or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case. Entry and movement within the RNA is subject to a "Slow-No Wake" speed limit. All vessels may not produce a wake and may not attain speeds greater than five (5) knots unless a higher minimum speed is necessary to maintain bare steerageway. Any vessel transiting through the RNA must make a direct passage. No vessel may stop, fish, moor, anchor, or loiter within the RNA at any time. Vessels may not pass (overtake) another vessel within the RNA. Only one vessel is permitted to pass through the center span navigational channel at any given time. Except when transiting through the center span navigation channel, no vessel or craft may operate within 20 feet of the bridge(s). The operator of any vessel transiting in the RNA must comply with all lawful directions given to them by the COTP or the COTP's on-scene representative. viii) One-way traffic will flow northbound between the eastern side of the shallow waters and the Seabrook-Hampton Harbor Bridge. The northern side of the shallow area will accommodate one-way traffic moving west. The Safety Zone, includes all navigable waters within a 50-yard radius of the center point of the bridge, will be effective from July 1, 2025, through Decmber 31, 2030, but will only be enforced during active construction within the main span navigational channel or other instances which may cause a hazard to navigation as determined by the COTP. The COTP will make notification of the exact dates and times in advance of each closure period of the safety zone to the local maritime community through the Local Notice to Mariners and will issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency. The complete rulemaking is available under Federal Register docket number USCG-2025-0389 and can be accessed through the federal portal at https://www.regulations.gov/document/USCG-2025-0389-0001 We invite your comments on this rulemaking. To submit your comment online, go to https://www.regulations.gov , and insert "USCG-2025-0389" in the "search box". Click "Search" and then click "Comment." We will consider all comments received on or before October 6, 2025. If the project is completed before December 31, 2030, enforcement of the safety zones will be suspended, and notice given via Local Notice to Mariners. The First Coast Guard District Local Notice to Mariners can be found at: https://www.navcen.uscg.gov/msi . For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapiejko, Waterways Management at First Coast Guard District, telephone (571) 607-6314, e-mail: craig.d.lapiejko@uscg.mil . Main Channel - Hudson River/General/Bridges/Rehabilitation	Bridges	General/Bridges/Rehabilitation From: 2024-09-03 To: 2026-06-30 Location: 42.5094° N / 73.77315° W Bridge Name: Castleton Highway Bridge Rehabilitation – Construction to the Castleton on Hudson Bridge across Hudson River at mile 135.7 will commence on September 3, 2024. Hours of operation are from 7 a.m. and 7 p.m. Temporary safe span platforms will be installed under the tram rail steel (over navigation channel) which will reduce vertical clearance by approximately 6 feet. A minimum of 210 feet east side of navigation channel (between L24' and L17') will be cleared of obstruction at all times for safe passage of vessels. In addition, a 25 feet of buffer will be maintained each side of the channel marker. A safety boat will be operated IVO the bridge. Hot work will be performed during construction. Mariners requiring full horizontal clearance can contact the contractor/operator via marine radio VHF-FM CH 13 or call 518-857-9215. For all construction related questions, please contact Tim Mastro at 518-337-7231. This project is to be completed by June 30, 2026. Mariners are advised to exercise caution when transiting the area. Main Channel - Hudson River/General/Bridges/Rehabilitation	Bridges	General/Bridges/Rehabilitation From: 2024-05-01 To: 2029-12-31 Location: 40.851559° N / 73.9522° W Bridge Name: George Washington Bridge Rehabilitation of Lower Level Structural Steel, Painting and Replacement of Maintenance Travelers – Construction to the rehabilitation at the George Washington Bridge across the Hudson River at mile 11.0 will commence on May 1, 2024. Temporary work platform will be installed under the entire length of the bridge. The temporary work platform will reduce the vertical clearance by 3ft 9in plus 2ft sag max. below the low steel. Welding (hot work) may be performed during working hours. A 26 ft safety boat will be operating in the vicinity of the bridge. Mariners requiring full horizontal clearance can contact Michael Androsiglio 914-447-7513 or via marine radio. The resident engineer or contractor will be equipped with a VHF-FM marine radio and will be monitoring Channel 13/16 during hours of operation. Mariners can contact Marc Helman at 212-435-6112 or 551-220-8853 or Henry Chiang at 201-346-8921 for construction details. This project is to be completed by December 31, 2029. Mariners are advised to exercise extreme caution when transiting the area.	Lat: 40° 51' 06" Lon: -073° 57' 08"
Main Channel - Hudson River/General/Bridges/Construction	Bridges	General/Bridges From: 2025-08-18 To: 2029-02-29 Location: 42.65434° N / 73.74177° W Bridge Name: Livingston Avenue Railroad Bridge Bridge Replacement – Construction and demolition of existing railroad structures and facilities of the Livingston Avenue Railroad Bridge over the Hudson River at mile 146.2 between Albany and Rensselaer commenced on 18 August 2025. Work hours are Monday through Saturday between 6a.m. and 6 p.m. through June 30, 2026. There will be a safety boat operating IVO the bridge. There will 3-4 occasions in April through mid-May when the bridge will not be able to open for marine traffic due to construction activity in the navigable channel. These will be single day closures. There will remain 70 feet of horizontal clearance available in the east channel for vessels that can transit under the bridge in the closed position. Substructure construction scheduled from November 2025 - December 2026, 4-5 closures, each lasting 1 day. Tower erection scheduled from September 2026 - February 2027, 5-6 closures, each lasting 1 day. Float in Lift Span scheduled January 2027 - February 2027, 5 closures of 1 day each and 1 closure of 2-3 days. Float in East Flanking Span scheduled March 2027, 2-3 closures of 1 day each and 1 closure of 2-3 days. Float in West Flanking Span scheduled August 2027- September 2027, 1 closure of 14 days and 5 closures of 1 day each. Demolition of Existing Bridge scheduled October 2027 - February 2029. A 30 to 60-day period of reduced navigation opening (84-foot-wide channel) around October 2027. This Local Notice to Mariners will be updated with specific closure dates once known. For construction details please contact Jack Phillips at 347 924-5635 or via marine radio VHF-FM 13/16. Mariners are advised to exercise caution when transiting the area.	Lat: 42° 39' 16" Lon: -073° 44' 30"
General/Bridges/Closure (Scheduled Or Emergency)	Bridges	The Broadway Bridge at mile 6.8 in the Harlem River is unable to open for marine traffic until further notice, due to ongoing rehabilitation of its electrical and mechanical systems. The vertical clearance of the bridge in the closed position is 24 feet above MHW. Vessels that under the bridge in the closed position may do so at any time. Mariners are advised to use caution when transiting the area.	Lat: 40° 52' 25" Lon: -073° 54' 40"

Main Channel - Hudson River/General/Bridges/Construction	Bridges	Cable anchorage retrofits of the Governor Mario M. Cuomo Bridge across the Hudson River at mile 27.0 will commence on March 15, 2026. Temporary work platform will be installed in four locations underneath the bridge. The temporary work platform will extend 6 feet beneath the deck girders but remain above the traveler handrails, not impacting the vertical clearance of the bridge. Welding (hot work) may be performed during working hours. Work hours are 7:00 a.m. to 5:30 p.m. Monday through Friday. A safety boat will be operating in the vicinity of the bridge. The resident engineer or contractor will be equipped with a VHF-FM marine radio and will be monitoring Channel 13/16 during hours of operation. Mariners can contact Phillip Mirabella at 732-306-4135 or Rafik Moawad at 848-235-1281 for construction details. This project is scheduled to be completed by September 27, 2027. Mariners are advised to exercise caution when transiting the area.	Lat: 41° 04' 13" Lon: -073° 54' 27"

In Esopus Creek, shoaling has occurred faster than anticipated at the mouth of the creek when passing between Saugerties Lighthouse and Hudson River Lighted Buoy 93. In Roundout Creek, there is shoaling at the mouth of the creek. Mariners should exercise caution when navigating these areas.	
Main Channel - Hudson River/General/LAA/RNA/Safety Zone	LAA/RNA	General/LAA/RNA/Safety Zone § 165.T01-0336 Safety Zone; Hudson River, Manhattan, NY (a) Location. The following area is a safety zone: All waters of the Hudson River from surface to bottom, encompassed by a line connecting the following points beginning at 40°45'20.32" N, 074°00'23.84" W; thence to 40°45'23.34" N, 074°00'30.60" W; thence to 40°45'24.03" N, 074°00'40.85" W; thence to 40°45'18.89" N, 074°00'48.18" W; thence to 40°45'13.80" N, 074°00'48.64" W; thence to 40°45'08.03" N, 074°00'46.44" W; thence to 40°45'07.51" N, 074°00'37.61" W; thence to 40°45'09.18" N, 074°00'36.37" W; thence to 40°45'06.70" N, 074°00'30.78" W; thence returning along the Manhattan shoreline to the beginning point. These coordinates are based on the World Geodetic System (WGS 84) / North American Datum 83 (NAD 83). (b) Definitions. As used in this section, designated representative means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer with law enforcement authority designated by or assisting the Captain of the Port New York (COTP) in the enforcement of the safety zone. (c) Regulations. (1) Under the general safety zone regulations in subpart C of this part, you may not enter the safety zone described in paragraph (a) of this section unless authorized by the COTP or the COTP's designated representative. (2) To seek permission to enter, contact the COTP or the COTP's representative on VHF-FM channel 16 or by telephone at (718) 354-4353. Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP's designated representative. (3) Hudson River Community Sailing Vessels and Human Powered Vessels transiting directly to or from the Pier 66 area may transit through the southern area of the safety zone to the east of the Hudson River Cofferdam Lighted Hazard Buoy D (LLNR 37663.3) unless otherwise directed by the COTP or the COTPs designated representative. (d) Enforcement period. This section will be subject to enforcement from 12:01 a.m. on May 1, 2026, to 11:59 p.m. on January 20, 2029. If the project is completed before January 20, 2029, enforcement of the safety zone will be suspended, and notice given via Local Notice to Mariners. The Coast Guard Northeast District Local Notice to Mariners can be found at: https://www.navcen.uscg.gov/maritime-safety-information .

Equipment on scene will be multiple floating barges, crane barges, and material barges.	Lat: 40° 42' 25" Lon: -074° 02' 01"
Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2026-02-17 To: 2031-01-29 Location: 41-59-01.284N/073-57-06.408W Bank Stabilization operations will be conducted north of the Kingston Rhinediff Bridge off the west side of the Hudson River in position 41-59-1.240N, 073-57-9.794W, from February 17, 2026, to January 28, 2031. Work will be conducted withing the Town of Ulster allowable work hours between 7:00 am to 10:00 pm. Equipment on scene will be, Long reach excavators from upland at first and possibly on a barge if necessary. All work will be within the existing cove. The work will be within the existing cove off the Hudson River and will not interfere with the channel. The installation of a 44-foot by 8-foot floating pier, attached to a bulkhead by a 36-foot by 4-foot gangway. Three (3) finger piers, approximately 36-feet by 6-feet each, will extend from the main floating pier. The entire pier assembly will be held in place by five (5) plastic, 16-inch-diameter piles, each installed by vibratory hammer. The dredging of a total of approximately 1,429 cubic yards of material, over an area of approximately 12,500 square feet. All dredged material will be disposed of within a contained upland disposal area on the property.	Lat: 41° 59' 01" Lon: -073° 57' 06"
Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Dredging From: 2026-04-27 To: 2026-05-23 Location: 40-45-57.924N/073-59-57.012W Donjon Marine will be conducting a maintenance dredging project located at the Manhattan Cruise Terminal, Manhattan, NY, in position 40-45-57.938N, 073-59-57.03W. This project is scheduled to start on, or about April 27, 2026, with a completion date of approximately May 22, 2026. This dredge project is a "Move On Demand" dredge project, Donjon will have a tending tug on site should our vessels need to be moved for vessel traffic, monitoring VHF-FM CH 13 and 16.	Lat: 40° 45' 58" Lon: -073° 59' 57"

Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2026-01-06 To: 2027-01-21 From November 24, 2024, through January 20, 2027, contractors Weeks Marine and Posillico Civil will conduct marine construction in the Hudson River on behalf of the Hudson Tunnel Project. The construction zone is bounded by the following positions off the Manhattan bulkhead: 40-45-20.32N 074-00-23.84W; 40-45-18.89N, 074-00-48.18W; 40-45-13.80N 074-00-48.64W; 40-45-12.40N. 074-00-28.47W. Mariners are advised to transit west of the construction area. Vessels transiting near the work zone should proceed with extreme caution, operate at their slowest safe speed, and maintain a minimum 200 ft buffer from all structures and barges. There are two distinct jobsites within the construction area. The first jobsite, which is operated by Weeks Marine, is west of Pier 66. Within this jobsite, Weeks Marine is conducting soil mixing within a 110' wide x 600' long cofferdam for the Hudson River Ground Stabilization (HRGS) Project. Work hours are approximately 7AM – 7PM, Monday through Saturday. The cofferdam is marked with FL W 4s lights at each corner and at 30 ft intervals, and with White retro-reflective tape 6"high and at least 4' long is installed above the MHHW mark every 50 feet on the cofferdam. The Weeks 263 barge (AIS- WEEKS 263) and material barges will be on the southern side outside of the cofferdam to support drilling operations within the cofferdam. The Weeks 263 barge monitors VHF-FM channels 13 / 16 / 67. The Weeks 61 barge (AIS - WEEKS 61 Barge) will move between the south and north sides of the cofferdam to excavate spoils from within the cofferdam. Two dump scows and a deck barge will also be on site. The Weeks 61 barge monitors VHF-FM Channel 13 / 16 / 82. The second jobsite, which is north of Pier 66 in close proximity to the Manhattan bulkhead and near position 40-45-15.270N, 074-0-28.007W, is operated by Posillico Civil. Within this jobsite, Posillico Civil is conducting marine construction for the Manhattan Tunnel Project to stabilize the ground beneath the Manhattan bulkhead in preparation for tunnel boring. Work hours are approximately 7AM – 7PM, Monday through Sunday. Equipment on scene includes an aluminum Work Skiffs, 155' x 40' Scow "Angela," and a 150' x 69' Work Barge "JFB 4550" with Liebherr LR1300 Crane. VHF-FM Channel 13 / 16 / 64. Within both jobsites, all barges require tug assistance for a movement and a minimum notice of 24 hours via VHF radio is required for any barge relocation. All moored barges display fixed white lights in accordance with the Inland Navigation Rules. Four seasonal white lighted buoys have been reset. Two (LLNR 37663, 37663.1) are upriver of the construction area, and two (LLNR 37663.2, 37663.3) are downriver. All four buoys exhibit FL W 2.5s characteristics.

Portland Harbor - Lighthouse Channel/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	The U.S. Coast Guard has issued a temporary deviation from the regulation governing the Casco Bay Bridge at mile 1.5 over the Fore River (Casco Bay) between Portland and South Portland ME. Under this deviation, the bridge will remain in the closed position during the following tomes to rehabilitate the span lock power feeds: From 9:00 a.m. to 3:00 p.m. on April 29, 2026 (backup date on April 30, 2026). From 9:00 a.m. to 3:00 p.m. on May 19, 2026 (backup date on May 20, 2026). Vessels able to pass beneath the bridge in the closed position may do so. Mariners can contact the bridge operator via marine radio channel 13, or the bridge supervisor at 207-592-2846 with questions or concerns.	Lat: 43° 38' 42" Lon: -070° 15' 29"

Little Bay

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Piscataqua River - Little Bay/General/Bridges/Removal	Bridges	Demolition activities have commenced to the General Sullivan Bridge across Little Bay, mile 0.1, between Newington and Dover NH and will continue through March 31, 2027. Work trestles have been constructed adjacent to the bridge from both banks, reducing the navigable channel to a width of 160 feet. A temporary work platform will be suspended from the bridge over the navigable channel on or about April 1, 2026. This work platform will not reduce the vertical clearance of the General Sullivan Bridge further than the clearance of the adjacent Spaulding Turnpike Bridge. Between April 1, 2026, and August 28, 2026, there will be short duration navigable channel closures to facilitate the removal of the bridge deck and superstructure over the navigable channel. The Coast Guard will announce these closures via Broadcast Notice to Mariners and updates to the Local Notice Mariners. Work hours for this project are 6:00 a.m. to 6:00 p.m. Monday through Friday. Mariners can contact on-scene project managers via VHF-FM channels 13/16 or by calling (207) 841-1902. Mariners are advised to exercise caution when transiting this area.	Lat: 43° 07' 05" Lon: -070° 49' 35"
Piscataqua River - Little Bay/General/Bridges/Rehabilitation	Bridges	General/Bridges/Rehabilitation From: 2026-06-05 To: 2026-11-20 Location: 43-07-05.196N/070-49-34.608W Bridge Name: General Sullivan Bridge Reed & Reed Inc. will be conducting bridge removal and temporary trestle construction operations in Little Bay, between Dover and Newington, NH, in position 43-07-04.56N, 070-49-34.59W. Construction will run from June 5, 2026, to November 20, 2026, Monday through Saturday, between 6:30am to 6:30 pm, local time. Equipment on scene will be (2) 250-ton cranes, (1) 90-ton Rough Terrian Crane, (2) forklifts, (1) dump truck, (1) excavator, (1) loader, (2) safety boats, (2) 90' manlifts, monitoring VHF-FM CH 13 & 16. Vessels will be directed through a temporarily reduced 160-foot-wide navigational channel marked by tow temporary red and two temporary green buoys. Navigation through the work zone will be maintained during normal operations whenever safe to do so. The channel is expected to be restricted from June 5, 2026, through November 20, 2026, due to construction of the final Newington trestle span. In addition, short-term channel closures of up to 4 hours will be required during Span 5 superstructure removal, currently scheduled between August 3, 2026, and August 31, 2026. Outside of active closure periods, passage through the work zone will be accommodated subject to site conditions and construction activity.	Lat: 43° 07' 05" Lon: -070° 49' 35"

New Rochelle Harbor North Approach - Middle Channel/General/Bridges/Temp Deviation	Bridges	General/Bridges/Temp Deviation From: 2025-10-01 To: 2026-06-26 Location: 40.88902778° N / 73.78247222° W Bridge Name: Glen Island Bridge NEW YORK – NEW ROCHELLE HARBOR - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation for the Glen Island Temporary Bridge. Under this temporary deviation, the Glen Island Temporary Bridge will remain in the closed position from October 2, 2025 through June 26, 2026. Mariners that can pass without a bridge opening may do so and are advised to exercise caution when transiting the area.	Lat: 40° 53' 21" Lon: -073° 46' 57"
New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	New Rochelle, NY - Long Island Sound – Safety Zone – Bridge Construction Mariners are advised that a safety zone will be enforced for construction work on the Glen Island Approach Bridge. The safety zone will be enforced from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The Safety Zone encompasses all waters within a line beginning at 40° 53' 18.58"N 73° 46' 56.26"W; thence to 40° 53' 22.08"N 73° 46' 59.39"W; thence north along the shore to 40° 53' 23.8"N 73°46' 57.51"W; thence to 40° 53' 19.15"N 73° 46' 52.54"W and thence south along the shore back to the point of origin (WGS 84). You may not enter, remain in, or transit through the Safety Zone during the enforcement period unless authorized by the Coast Guard Captain of the Port. Other Federal, State and local agencies may assist these personnel in the enforcement of the Safety Zone. Mariners are urged to exercise caution while in the area. The anticipated dates for the windows of full channel closures: Date December 2, 2024, through December 20, 2024 February 3, 2025, through May 22, 2025 October 2, 2025 through 12 p.m. on May 22, 2026; from 7 a.m. on May 26, 2026, through 5 p.m. on May 29, 2026; and from 7 a.m. on June 22, 2026, through 5 p.m. on June 26, 2026.	
New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/COTP Restriction	LAA/RNA	General/LAA/RNA/COTP Restriction From: 2024-12-16 To: 2027-05-31 The Coast Guard is establishing a temporary safety zone for certain waters of Long Island Sound in the vicinity of the Glen Island Approach Bridge, New Rochelle, NY, for construction vessels and machinery involved in the rehabilitation project of the bridge. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards associated with the bridge construction between December 2, 2024, through May 27, 2027. When enforced, this regulation prohibits persons and vessels from being in the safety zone unless authorized by the Captain of the Port New York or a designated representative. DATES: This rule is effective without notice from December 3, 2024, through 5 p.m. on May 27, 2027. For the purposes of enforcement, actual notice will be used from midnight on December 2, 2024, until December 3, 2024. This rule will only be enforced during periods when construction operations at the bridge are in progress. Comments and related material must be received by the Coast Guard on or before March 3, 2025. ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to https://www.regulations.gov , type USCG-2024-0956 in the search box and click "Search." Next, in the Document Type column, select "Supporting & Related Material." FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email Jeffrey Yunker, Waterways Management Division, U.S. Coast Guard Sector New York; telephone 718-354-4195, email Jeffrey.M.Yunker@uscg.mil . IV. Discussion of the Rule This rule establishes a safety zone from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The anticipated dates for the windows of full channel closures are from 7 a.m. on December 2, 2024, through 5 p.m. on December 20, 2024; from 7 a.m. on February 3, 2025, through 5 p.m. on May 22, 2025; and from 7 a.m. on October 2, 2025, through 5 p.m. on April 29, 2026. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in advance of these scheduled closures. All these dates are tentative and subject to change due to weather, supply chain delays, or other unforeseen circumstances. This rule remains effective through May 27, 2027, in case the project is delayed due to unforeseen circumstances. The area regulated by the safety zone will encompass the waters around the Glen Island Bridge and will cover all navigable waters, from surface to bottom, within the area formed by connecting the following latitude and longitude points in the following order: 40°53'18.58" N 73°46'56.26" W; thence to 40°53'22.08" N 73°46'59.39" W; thence north along the shore to 40°53'23.8" N 73°46'57.51" W; thence to 40°53'19.15" N 73°46'52.54" W and thence south along the shore back to the point of origin. This area is intended for the vessels and machinery being used by personnel for the Glen Island Bridge rehabilitation project. The duration of the zone is intended to ensure the safety of personnel, vessels, and these navigable waters during the bridge construction. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency or hazardous condition.

New Jersey Pierhead

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Main Channel - New Jersey Pierhead/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	General/Hazards To Navigation/Shoaling Reported From: 2025-02-13 To: 2027-02-28 Claremont Terminal Channel Shoaling – The Harbor Safety, Operations and Navigation Committee of the Port of NY and NJ – Deep Draft Working Group: The need to immediately restrict the deep draft of vessels transiting Claremont Terminal Channel has come to our attention. Based on the latest available surveys conducted by the Army Corps of Engineers, November 4, 2024, shoaling has occurred in the channel. The shoaling has minimized the available depth of water to 15 feet near the centerline of the channel. Based on this data, vessels will be restricted to a draft of 13 feet, plus the rise in tide, with a maximum draft of 18 feet. On 11/04/2024, the shoal area was bound by the following approximate coordinates: 40° 41'11"N, 074° 04' 41"W; thence to 40° 41' 17"N, 074° 04' 33"W; thence to 40° 40' 14"N, 074° 03' 06"W; thence to 40° 40' 10"N, 074° 03' 13"W.

General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation. Portsmouth To Cape Ann - Plum Island Sound/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Shoaling exists in Plum Island Sound between Plum Island Sound Entrance buoy 4 (LLNR 9310) and Plum Island Sound Entrance buoy 6 (LLNR 9320), aids are not properly marking best water. Mariners are advised to use caution while navigating this area. All of Plum Island is particularly susceptible to shoaling, the area between 4 and 6 being the worst at the mouth of the channel. Last year the unit partnered with the harbor Master moving the aids to mark the best water. Even though the aids are in the best possible locations that water is still shallow at low tide and mariners should use caution while navigating in this area	
Portsmouth To Cape Ann - Plum Island Sound/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Newburyport Harbor and Plum Island Sound – Plum Island Sound Entrance has experienced an increase in shoaling between Plum Island Sound Entrance Buoy 6 and 8. The shoaling was observed in approx. position 42-41.365N /070-45.169W and extends 100 yards west following the channel. Mariners are advised that at MLLW depths of 3' could be seen. Mariners without local knowledge are advised to transit with extreme caution and monitor tidal stations prior to transiting.

(OSI) is expecting to perform a nautical charting survey in Cape Cod Bay, in support of NOAA's Office of Coast Survey. The modern bathymetric and feature data acquired during this project will be used to update nautical charting products and services. The survey data will supersede all prior survey data. This survey project is not related to offshore wind development, fisheries regulation or research, or marine mammal research. To complete this project, OSI plans to mobilize three survey vessels (R/V NORTH COVE, R/V SOUTH COVE, and R/V TWISTER) in March of 2026. The survey vessels will operate 7 days per week (weather permitting) until data acquisition is complete in June of 2026. All vessels will operate 12 hours per day and will be operating from harbors situated near or within the survey area. Each vessel will be equipped with 350 kHz multibeam echosounders on fixed pole mounts and manually deployed and hauled sound speed profilers and will monitoring VHF-FM CG 13 & 16. No towed gear will be utilized. All vessels will be equipped with AIS.

Sector Southeastern New England, Submerged Lands Act (SLA) - Provincetown Harbor Approach/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Survey Operations From: 2026-03-06 To: 2026-07-01 Ocean Surveys, Inc. (OSI) is expecting to perform a nautical charting survey in Cape Cod Bay, in support of NOAA's Office of Coast Survey. The modern bathymetric and feature data acquired during this project will be used to update nautical charting products and services. The survey data will supersede all prior survey data. This survey project is not related to offshore wind development, fisheries regulation or research, or marine mammal research. To complete this project, OSI plans to mobilize three survey vessels (R/V NORTH COVE, R/V SOUTH COVE, and R/V TWISTER) in March of 2026. The survey vessels will operate 7 days per week (weather permitting) until data acquisition is complete in June of 2026. All vessels will operate 12 hours per day and will be operating from harbors situated near or within the survey area. Each vessel will be equipped with 350 kHz multibeam echosounders on fixed pole mounts and manually deployed and hauled sound speed profilers and will monitoring VHF-FM CG 13 & 16. No towed gear will be utilized. All vessels will be equipped with AIS.

Raritan River Cutoff Channel - Raritan River/General/Bridges/Public Notice	Bridges	The TIR published in the Federal Register at https://www.govinfo.gov/content/pkg/FR-2026-05-05/pdf/2026-08733.pdf . Comments and related material must be received by the Coast Guard on or before August 3, 2026. This establishes a RNA from 12:01 a.m. on April 15, 2026, until 11:59 p.m. on June 30, 2030. ADDRESSES: You may submit comments at https://www.regulations.gov . See the "Public Participation and Request for Comments" portion of the SUPPLEMENTARY INFORMATION section for further instructions on submitting comments. To view available documents go to https://www.regulations.gov and search for USCG-2026-0149. -- 165.T01-0149 Regulated Navigation Area (RNA); (a) Location. See MSI LNM Layer. (c) In addition to the general RNA regs in § 165.13, the following regs apply to the RNA. (1) Nothing in this regulation relieves any vessel, owner, operator, charterer, master, or person directing the movement of a vessel, from the consequences of any neglect to comply with this part or any other applicable law or regulation (i.e. the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) or 33 CFR part 84-Subchapter E, Inland Navigation Rules) or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case. (2) Entry and movement within the RNA is subject to a "Slow-No Wake" speed limit. All vessels may not produce a wake and may not attain speeds greater than five (5) knots unless a higher minimum speed is necessary to maintain bare steerageway. (3) No vessel is permitted to transit through the south span navigational channel of the bridge(s) at any given time. (4) Any vessel transiting through the RNA must make a direct passage. No vessel may stop, fish, moor, anchor, or loiter within the RNA at any time. (5) Vessels may not pass (overtake) another vessel within the RNA. (6) Only one vessel is permitted to pass through the north span navigational channel of the bridge(s) at any given time. (7) Except when transiting through the north span navigation channel, no vessel or craft may operate within 20 feet of the bridge(s). (8) The operator of any vessel transiting in the RNA must comply with all lawful directions given to them by the COTP or the COTP's on-scene representative. (9) When a full enforcement period of the regulated area is activated, only vessel authorized by COTP may enter or remain within the RNA. (d) Enforcement. The following enforcement periods and requirements apply to this RNA. (1) This section enforced from 12:01 a.m. on 15Apr2026, to 11:59 p.m. on 30Jun2030. (2) The "Slow-No Wake" speed limit, south channel closure, and other restrictions-except for the limited full enforcement period prohibiting vessels from entering the regulated area-will be enforced throughout the entire enforcement period. (3) Full enforcement periods of the regulated area, prohibiting all vessel entry, will be enforced only during hazardous construction operations involving multiple tugs and large barges maneuvering in and obstructing the navigable channel for heavy lift, construction, or demolition activities. The USCG will issue information on full enforcement periods through LNM's, the CG Navigation Center at https://www.navcen.uscg.gov/msi , and BNM's via VHF CH 16 as soon as practicable. (4) Persons or vessels seeking to deviate from the restrictions described in section (c) of this section or to enter the regulated area during a full enforcement period must request authorization from the COTP or COTP's on-scene designated representative on VHF-16 or via (718) 354-4353. Enforcement periods prohibiting vessels from entering the RNA planned during the following approx. dates (subject to change): Jul-Aug2026, two separate 1-day full-chnl closures Jul2027-Jun2028, three, 7-day full chnl closures Jan-Sep2028, one 30-day full chnl closure Jul-Sep2029, one 14-day full chnl closure Dates/times provided when available.	
Raritan River Cutoff Channel - Raritan River/General/Bridges/Construction	Bridges	NEW JERSEY – RARITAN RIVER – Construction and demolition operations to replace the Raritan River Railroad Bridge will commence on April 1, 2026, and continue through January 18, 2030. During April-May 2026, A number of barges and support vessels will be moored outside the navigational channel. Due to ongoing construction activities, mariners will be unable to use the south navigational channel. Work hours for this project are 7:00a.m. to 3:30 p.m. Monday -Friday. Mariners are advised to exercise caution and reduce wake when transiting the area. Mariners with questions or concerns can contact the vessels on scene via marine radio VHF-FM Ch 13/16. Mariners may also contact Daniel Nola at 732-221-3815 or Email: Daniel.Nola@skanska.com with questions/concerns, and to request to receive regular construction updates. Georges Bank And Nantucket Shoals - Pollock Rip Channel/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	MA-NANTUCKET SOUND AND APPROACHES (Chart 13237)-POLLOCK RIP CHANNEL The entrance to Pollock Rip Channel from the East continues to have SEVERE shoaling East of Pollock Rip Lighted Buoy 4 (LLNR 13535). Mariners should not attempt to transit the area without local knowledge of the shoals and use the channel at their own risk. If transiting the channel, Mariners are urged to transit at their slowest safe speed and proceed with extreme caution.	

Sector Southeastern New England, Territorial Sea - Sector Southeastern New England, Submerged Lands Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Dredging From: 2026-05-13 To: 2026-05-28 Location: 41-39-39.240N/070-05-20.796W Barnstable County Dredge Department will be conducting dredging operations in Allen Harbor Approach & Entrance Channel, Harwich located in Nantucket Sound, in position 41-39.664N, 070-05.346W, from May 13, 2026, to May 28, 2026, Monday through Saturday, between 7:00am to 4:30pm. Dredging will take place in the channel with the dredge pipe running from the dredge to beaches on the east and west of the harbor entrance. The dredge Cod Fish II will be conducting dredging operations in the Allen Harbor Approach / Entrance Channel in the town of Harwich in Nantucket Sound. Mariners are advised to use extreme caution when navigating in this area and to give adequate clearance to the equipment at all times. Contact the dredge on VHF Channel 18 or Channel 16 for passing arrangements as needed. When dredging and on station, the Cod Fish II will have limited maneuverability. The dredge will remain on station 24 hours when weather permits and will display an anchor light at night. There will be cables extending on both the port and starboard side of the forward part of the dredge leading to anchors with floats marking their locations. The discharge pipe will be floating at times during dredging operations and may be blocking the channel. Yellow/Orange Poly-Balls will be marking the location of the submerged dredge pipe & anchors. When the dredge is not on station, the end of the dredge pipe will be secured on a yellow pontoon which will be lit with a yellow flashing light.	Lat: 41° 39' 39" Lon: -070° 05' 21"
