Lat: 40° 17' 11" Lon: -073° 38' 17"
Sector New York, Submerged Lands Act (SLA) - Ambrose Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Dredging From: 2025-10-23 To: 2026-01-01 The cable lay vessel CALYPSO will be conducting cable installation and survey operations with a remotely operated vehicle. The work will be performed along the OCS-A 0512 submarine export cable corridor between the State water boundary (3 nautical mile limit) north of the Ambrose channel to the lease area in the New York/New Jersey Bight. The work is performed adjacent to the Ambrose channel, within the precautionary area for traffic, within a traffic separation zone, and crossing the Ambrose to Nantucket Traffic Lane. CALYPSO will also perform cable jointing operations at approximately the State water boundary (3 nautical mile limit) north of the Ambrose channel where it will remain stationary for approximately 1 week. Operations will commence on or about October 23, 2025 until approximately December 31, 2025 and will be conducted 7 days per week, 24 hours per day. The vessel will be restricted/limited in its ability to maneuver. During operations, the remotely operated vehicle may operate as far as 150m (500 feet) away from the host vessel with a power and communications umbilical running between the vessel and the remote vehicle. CALYPSO (cable lay vessel) will be restricted in its ability to maneuver during cable installation operations. Operations will be conducted along the submarine export cable corridor, Waypoints along the submarine export cable corridor: 40°29'39.17"N, 73°54'11.26"W (State water boundary / 3 nautical mile limit) 40°26'57.60"N, 73°40'44.80"W, 40°25'19.95"N, 73°29'35.59"W, 0°22'40.18"N, 73°29'03.51"W, 40°20'26.44"N, 73°26'51.58"W (Lease areas in New York/New Jersey Bight)The vessel's speed during cable installation will be approximately 0.5 knots or less, and will also be stationary for significant periods. Mariners are advised to use caution when transiting near CALYPSO and to make all inquiries on VHF-FM CH 13 and 14.	
General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Survey Operations From: 2025-12-30 To: 2026-01-16 Starting approximately 30 December 2025 and continuing until approximately 15 January 2026, the survey boat "Christina" will be performing survey operations in the Ambrose Channel between the following GPS coordinates: 40°30'11.39N, 073°56'43.37W 40°28'55.83N,073°53'29.68W 40°28'35.85N, 073°53'43.03W 40°29'53.92N, 073°56'55.62W Once underway, survey operations will be conducted during daylight only (6-8 hours per day). The survey boat will be displaying 3 sets of yellow/red safety strobe lights, a large visible ball-diamond-ball and will monitor marine VHF channels 13, 14 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
North Channel Saybrook To New Haven - Connecticut River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2025-05-08 To: 2029-12-31 Location: 41.31087778° N / 72.34920833° W Bridge Name: Amtrak Railroad Bridge CONNECTICUT – CONNECTICUT RIVER – From July 7, 2025, through December 30, 2029, AMTRAK will have moored barges in place during the construction and demolition of the Amtrak Connecticut River Bridge. Due to the placement of a temporary fendering system, the horizontal clearance of the bridge in the navigation channel will be reduced to 115 feet. Similarly, the placement of temporary signal cables overhead of the navigation channel will reduce vertical clearance to 100 feet above MHW when the bridge is in the open position. From October 1, 2025 to November 15, 2025, contractors will be performing dive operations to remove submarine cables from 0630-1830 Monday through Friday. From October 30, 2025 through October 31, 2025, dive operations are scheduled to take place in the navigational channel. Barges will be placed along the bridge fenders blocking the channel. Mariners are encouraged to avoid the channel while dive operations are taking place. However, mariners requiring passage must contact Michael King at (617) 653-7987 with a 2 hour advance notice to arrange transit through the work area. Mariners are advised to exercise caution and reduce wake when transiting the area. Mariners with questions or concerns can contact the contractor via marine radio VHF-FM Ch 13/16 or call Patrick Finley at (860) 806-2365 or Bob Nardi at (203) 496-7353. Newark Bay - Hackensack River/General/Bridges/Modification	Bridges	General/Bridges/Modification From: 2024-12-10 To: 2027-02-08 Location: 40.79992778° N / 74.07591389° W Bridge Name: Berry's Creek Canal New Jersey Turnpike Bridge Replacement – Installation of temporary trestle to the New Jersey Turnpike Bridge (W112.72B) over Berry's Creek Canal at mile .05 will commence on or about December 16, 2024. Hours of operation are from 6 a.m. to 4 p.m. weekdays. There will be a safety boat operating IVO the bridge. A 84ft navigation channel free of obstruction will be maintained at all times. For construction details please contact Jed Fitz, superintendent at 267-907-5932 or via marine radio VHF-FM 13/16. This project is to be completed by February 8, 2027. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 47' 60" Lon: -074° 04' 33"
Newark Bay - Hackensack River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2024-05-24 To: 2027-10-22 Location: 40.75346° N / 74.095153° W Bridge Name: Portal (N) Bridge Portal (N) Bridge Bridge replacement to the Portal Bridge North, across Hackensack River at mile 5.04 is in progress. Hours of operations are from Monday to Friday between 6:30 a.m. to midnight. There will be waterborne equipment blocking one draw of a swing bridge at a time and the other draw will be free and clear of any equipment for the passage of vessels. Mariners can contact one of the three (3) provided telephone numbers/emails or via marine radio VHF-FM CH 13/16 advising of travel through the channel (including possible return trips): 1. Martir Ortiz – Main Span Project Manager – (562) 307- 4916, mortez@traylor.com 2. Jack Phillips – Main Span Superintendent – (347) 924-5635, john.h.phillips@skanska.com 3. Jim Hummel – Main Span Area Lead - (917) 417- 4885, Jim.Hummel@skanska.com Skanska Traylor PNB JV has been awarded the construction of the New Portal North Bridge Project (NJT Contract No. 20-083X, WBS No. GC.02) with a Notice to Proceed of April 7, 2022. Specific to the Hackensack River work, mile 5.0, the project consists of constructing two bridge piers, demolition of the existing center pier north fender, erecting three tied-arch spans of approximately 400 LF (1,200 LF overall), and demolition of the existing bridge once railroad traffic is switched to the new bridge. The current status of the channels: East Channel – Open West Channel – Close The Coast Guard is modifying the operating schedule that governs the Amtrak Portal Bridge across the Hackensack River, mile 5.0, at Little Snake Hill, New Jersey. This action is necessary to facilitate the construction of the new replacement Portal Bridge North, as designed by Amtrak as the owner of the bridge, adjacent to the current Amtrak Portal Bridge. This final rulemaking limits the extent of the opening of the Amtrak Portal Bridge in the horizontal position to prevent the swing span from striking the new Portal Bridge North during construction as follows: The draw shall only open to 55 feet horizontal clearance in the east channel and the west channel will be closed to all navigation while the draw is open. Whenever any bridge opening is needed, contact one of the three (3) provided telephone numbers/emails above with 24-hour advance notice to allow the removal of any waterborne equipment from the East Channel that restricts the horizontal clearance to less than 55 feet. The draw need not open for the passage of vessel traffic from 5 a.m. to 10 a.m. and from 3 p.m. to 8 p.m. Additional bridge openings shall be provided for tide restricted commercial vessels between 7 a.m. and 8 a.m. and between 5 p.m. and 6 p.m., if at least a two-hour advance notice is given by calling the number posted at the bridge. At all other times the bridge shall open on signal if at least a 2-hour advance notice is given. Please be advised that the existing Portal Bridge east channel horizontal clearance (temporary fender) will be maintained at approx. 55ft and west channel horizontal clearance at 91ft until it's demolished, both with a closed swing bridge vertical clearance of 23ft. With a swing bridge opening, the vertical clearance increases to 50ft with the existing Portal Bridge east channel horizontal clearance (temporary fender) being maintained at approx. 55ft and west channel being closed. Mariners are advised to exercise caution when transiting the area. This project will be completed by October 22, 2027.	Lat: 40° 45' 12" Lon: -074° 05' 43"

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Northern New England, Submerged Lands Act (SLA) - Hampton Harbor/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2025-04-29 To: 2026-04-29 Location: 42.899° N / 70.8203° W 42.89746° N / 70.81608° W 42.89488° N / 70.80814° W 42.89251° N / 70.81105° W 42.89471° N / 70.817° W 42.8953° N / 70.82135° W 42.899° N / 70.8203° W Bridge Name: Hampton River New Hampshire 1A State Route Bridge Mariners are urged to exercise extreme caution when exiting or entering Hampton Harbor. All vessel traffic is restricted to the center span of the bridge due to work trestles which have been constructed alongside the existing Hampton Harbor Bridge, blocking the side channels. Mariners should anticipate strong currents in the marked navigation channel coupled with very shallow water just outside the marked channel and plan their transits accordingly. One way vessel traffic is strongly recommended with vessels transiting with the tidal current having priority. Larger vessels will be limited in their maneuverability and once committed to the passage will not be able to stop. Mariners unfamiliar with the area are encouraged to contact the Harbor Master on VHF-FM Channel 16 for transit guidance, as well as making a radio broadcast of their transit to facilitate safest passage.	
Sector Northern New England, Submerged Lands Act (SLA) - Hampton Harbor/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	General/LAA/RNA/Temporary Regulated Navigation Zone From: 2025-07-08 To: 2030-12-31 The Coast Guard is establishing a temporary regulated navigation area (RNA) and a safety zone on the Hampton River at the inlet to Hampton Harbor, Hampton, NH, in response to hazardous conditions created by construction activities for the Neil R. Underwood Seabrook-Hampton Harbor Bridge replacement project. This rule is necessary to provide for the safety of life in the areas undergoing demolition and construction. The RNA will be enforced from July 1, 2025, through December 31, 2030, and will establish the following operating restrictions on vessels: Nothing in this regulation relieves any vessel, owner, operator, charterer, master, or person directing the movement of a vessel, from the consequences of any neglect to comply with this part or any other applicable law or regulation (i.e. the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) or 33 CFR part 84—Subchapter E, Inland Navigation Rules) or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case. Entry and movement within the RNA is subject to a “Slow-No Wake” speed limit. All vessels may not produce a wake and may not attain speeds greater than five (5) knots unless a higher minimum speed is necessary to maintain bare steerageway. Any vessel transiting through the RNA must make a direct passage. No vessel may stop, fish, moor, anchor, or loiter within the RNA at any time. Vessels may not pass (overtake) another vessel within the RNA. Only one vessel is permitted to pass through the center span navigational channel at any given time. Except when transiting through the center span navigation channel, no vessel or craft may operate within 20 feet of the bridge(s). The operator of any vessel transiting in the RNA must comply with all lawful directions given to them by the COTP or the COTP’s on-scene representative. viii) One-way traffic will flow northbound between the eastern side of the shallow waters and the Seabrook-Hampton Harbor Bridge. The northern side of the shallow area will accommodate one-way traffic moving west. The Safety Zone, includes all navigable waters within a 50-yard radius of the center point of the bridge, will be effective from July 1, 2025, through December 31, 2030, but will only be enforced during active construction within the main span navigational channel or other instances which may cause a hazard to navigation as determined by the COTP. The COTP will make notification of the exact dates and times in advance of each closure period of the safety zone to the local maritime community through the Local Notice to Mariners and will issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency. The complete rulemaking is available under Federal Register docket number USCG-2025-0389 and can be accessed through the federal portal at <a href="https://www.regulations.gov/document/USCG-2025-0389-0001">https://www.regulations.gov/document/USCG-2025-0389-0001</a> We invite your comments on this rulemaking. To submit your comment online, go to <a href="https://www.regulations.gov">https://www.regulations.gov</a> , and insert “USCG-2025-0389” in the “search box”. Click “Search” and then click “Comment.” We will consider all comments received on or before October 6, 2025. If the project is completed before December 31, 2030, enforcement of the safety zones will be suspended, and notice given via Local Notice to Mariners. The First Coast Guard District Local Notice to Mariners can be found at: <a href="https://www.navcen.uscg.gov/msi">https://www.navcen.uscg.gov/msi</a> . For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapiejko, Waterways Management at First Coast Guard District, telephone (571) 607-6314, e-mail: <a href="mailto:craig.d.lapiejko@uscg.mil">craig.d.lapiejko@uscg.mil</a> . This project is scheduled to start on, or about the 8th of December 2025, with a completion date of approximately 31Dec25. This dredge project is a "Move on Demand" dredge project. Donjon will have a tending tug on site should any vessels need to be moved for vessel traffic. Equipment on scene will be the dredge, Oyster Bay or Delaware Bay, monitoring VHF-FM CH 13. 16. & 78.	Lat: 40° 46' 02" Lon: -074° 00' 06"
General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Boring and Core Samples From: 2025-12-05 To: 2026-01-04 Location: 40-58-23.592N/073-54-28.512W 40-58-21.864N/073-53-29.544W	
General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Dredging From: 2025-12-17 To: 2026-01-05 Caldwell Marine International, LLC will be conducting river remediation on the Hudson River from position 41.71239N, -073.944125W, to 40.972749N, -073.89461W, from December 4, 2025, to January 4, 2026, seven days a week, during daylight hours. Equipment on scene will be the Crew Transfer Vessel: 'Maren' (32' length x 10' beam) Crew Transfer Vessel: 'Joury' (30' length x 10' beam) Support Tug: 'Foxy 3' (65' 7" length x 26' 3" beam) Support Tug: 'Austin' (25ft 6" length x 14' beam), monitoring VHF-FM CH 13, 16, and 73. The on scene vessels are requesting mariners to stay 500 feet away from the barge and 100 feet from the set anchors and to not enter the anchor spread. There may be divers in the water so mariners are advised to transit the area with minimal wake and to contact the on scene vessels when operating in the area.	
Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Dredging From: 2024-11-24 To: 2027-01-20 Weeks Marine will conduct soil mixing within a 110' Wide x 600' Long cofferdam for the Hudson River Ground Stabilization Program located West of Pier 66 from October 10th, 2024, to January 20th, 2027. The four corners of the cofferdam structures will be marked with flashing white lights at 4S. Additional white flashing lights will be added at every 30 feet of the structure. White reflective tape 6" Wide x 4" Long Minimum will be installed above the MHHW marker every 50 feet on the structure. Hours of operation are currently 12 HRS x 5 Days a week Monday through Friday. The Weeks 263 barge will be on the southern side outside of the cofferdam to support drilling operations within. The Weeks 263 barge has limited maneuverability and requires a tugboat to move the vessel. 24 Hour Minimum notice is required to facilitate the barge move. Weeks Marine is requesting all Mariners to use extreme caution and transit the working area at their slowest safe speed and use the western side of the navigable channel. Marine VHF Channel 13 / 16 / 67 will be monitored while onsite. Class A AIS will be set up on the Weeks Marine 263 Barge: AIS Vessel Name (WEEKS 263). 2 Material barges – the Weeks 244 and the Weeks 295/2900 – will be onsite tied up alongside the Weeks 263. The 263 Barge and Material Barges will be marked with Steady White Lights on all four corners of the barge. The Weeks 526 and material barges will return to site around December 15, 2025. The Weeks 526 barge will continue to be on the north side of the cofferdam to advance the cofferdam East. The 526 will continue remove piles from the west end, lay them down on a deck barge, shift to the east, and reinstall them. The hours of operations are 12 HRS x 6 Days a week Monday through Saturday. The Weeks 526 Crane Barge has limited maneuverability and will require a Tugboat to move the vessel. Marine VHF Channel 13 / 16 / 66 will be monitored while onsite. Class A AIS is set up on the Weeks 526 Crane Barge: AIS Vessel Name (WEEKS 526). 2 Material barges – the Weeks 2221 and the Weeks 2225 – will be onsite tied up alongside the Weeks 526. The Weeks 526 Crane Barge and Material Barges will be marked with Steady White Lights on all four corners of the barge. The Weeks 61 barge will be on the south or north side of the cofferdam to place sand inside the cofferdam as well as remove obstructions ahead of the drilling operations. The hours of operations are 12 HRS x 6 Days a week Monday through Saturday. The Weeks 61 barge has limited maneuverability and requires a tugboat to move the vessel. 24 Hour Minimum notice is required to facilitate the barge move. Weeks Marine is requesting all Mariners to use extreme caution and transit the working area at their slowest safe speed and use the western side of the navigable channel. Marine VHF Channel 13 / 16 / 68 will be monitored while onsite. Class A AIS will be set up on the Weeks Marine 61 Barge: AIS Vessel Name (WEEKS 61). 1 Dump Scow will be onsite tied up alongside the Weeks 61. All barges will be marked with Steady White Lights on all four corners of the barge. Aids to Navigation: Two white hazard/danger buoys ¼ mile north of the cofferdam and two white hazard/danger buoys ¼ mile south of the cofferdam are installed and will be removed for the winter season.	

Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Boring and Core Samples From: 2025-08-14 To: 2027-01-20 Location: 40.75485° N / 74.01421° W 40.75461° N / 74.00842° W 40.75182° N / 74.00859° W 40.75206° N / 74.01402° W 40.75485° N / 74.01421° W Weeks Marine will conduct soil mixing within a 110' Wide x 600' Long cofferdam for the Hudson River Ground Stabilization Program located West of Pier 66 from October 10th, 2024, to January 20th, 2027. The four corners of the cofferdam structures will be marked with flashing white lights at 4S. Additional white flashing lights will be added at every 30 feet of the structure. White reflective tape 6" Wide x 4' Long Minimum will be installed above the MHHW marker every 50 feet on the structure. Hours of operation are currently 20 HRS x 5 Days a week Monday through Friday and 12 hours on Saturday. The Weeks 263 barge will be on the southern side outside of the cofferdam to support drilling operations within. Hours of operation are 20 HRS x 5 Days a week Monday through Friday. The Weeks 263 barge has limited maneuverability and requires a tugboat to move the vessel. 24 Hour Minimum notice is required to facilitate the barge move. Marine VHF Channel 13 / 16 / 67 will be monitored while onsite. The work will be performed along the entire Lease Area OCS-A 0512 submarine export cable corridor between Gowanus Bay in New York Harbor and the lease area in the New York/New Jersey Bight. A portion of the work will be performed in the Narrows east of the Ambrose/Anchorage channel in proximity to the Verrazano-Narrows bridge tower. Outside of New York Harbor, the work is performed adjacent to the Ambrose channel, within the precautionary area for traffic, within a traffic separation zone, and crossing the Ambrose to Nantucket Traffic Lane. Operations will commence on or about August 4, 2025, until approximately December 31, 2025 and will be conducted 7 days per week, 24 hours per day. The vessels will be restricted/limited in their ability to maneuver. During jet trenching operations, the remotely operated jet trencher vehicles may operate as far as 150m (500 feet) away from their host vessel with a power and communications umbilical running between the vessel and the remote vehicle. The vessels Bella Marie, Razor Cat, and Yeti, and Sea scout will additionally be sent to the field during this time to perform Sturgeon Monitoring starting on October 1s, 2025.

Under this temporary deviation, the Glen Island Temporary Bridge will remain in the closed position from October 2, 2025 through April 29, 2026. Mariners that can pass without a bridge opening may do so and are advised to exercise caution when transiting the area.	Lat: 40° 53' 21" Lon: -073° 46' 57"
New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	New Rochelle, NY - Long Island Sound – Safety Zone – Bridge Construction Mariners are advised that a safety zone will be enforced for construction work on the Glen Island Approach Bridge. The safety zone will be enforced from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The Safety Zone encompasses all waters within a line beginning at 40° 53' 18.58"N 73° 46' 56.26"W; thence to 40° 53' 22.08"N 73° 46' 59.39"W; thence north along the shore to 40° 53' 23.8"N 73°46' 57.51"W; thence to 40° 53' 19.15"N 73° 46' 52.54"W and thence south along the shore back to the point of origin (WGS 84). Vessels may not enter, remain in, or transit through the Safety Zone during the enforcement period unless authorized by the Coast Guard Captain of the Port. Other Federal, State and local agencies may assist these personnel in the enforcement of the Safety Zone. Mariners are urged to exercise caution while in the area. The anticipated dates for the windows of full channel closures: Date December 2, 2024, through December 20, 2024 February 3, 2025, through May 22, 2025 October 2, 2025, through April 29, 2026 Tentative Full Channel Closure Dates August 11, 2026, through August 17, 2026 October 2, 2026, through October 29, 2026	

New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/COTP Restriction	LAA/RNA	General/LAA/RNA/COTP Restriction From: 2024-12-16 To: 2027-05-31 The Coast Guard is establishing a temporary safety zone for certain waters of Long Island Sound in the vicinity of the Glen Island Approach Bridge, New Rochelle, NY, for construction vessels and machinery involved in the rehabilitation project of the bridge. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards associated with the bridge construction between December 2, 2024, through May 27, 2027. When enforced, this regulation prohibits persons and vessels from being in the safety zone unless authorized by the Captain of the Port New York or a designated representative. DATES: This rule is effective without notice from December 3, 2024, through 5 p.m. on May 27, 2027. For the purposes of enforcement, actual notice will be used from midnight on December 2, 2024, until December 3, 2024. This rule will only be enforced during periods when construction operations at the bridge are in progress. Comments and related material must be received by the Coast Guard on or before March 3, 2025. ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <a href="https://www.regulations.gov">https://www.regulations.gov</a> , type USCG-2024-0956 in the search box and click "Search." Next, in the Document Type column, select "Supporting & Related Material." FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email Jeffrey Yunker, Waterways Management Division, U.S. Coast Guard Sector New York; telephone 718-354-4195, email <a href="mailto:Jeffrey.M.Yunker@uscg.mil">Jeffrey.M.Yunker@uscg.mil</a> . IV. Discussion of the Rule This rule establishes a safety zone from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The anticipated dates for the windows of full channel closures are from 7 a.m. on December 2, 2024, through 5 p.m. on December 20, 2024; from 7 a.m. on February 3, 2025, through 5 p.m. on May 22, 2025; and from 7 a.m. on October 2, 2025, through 5 p.m. on April 29, 2026. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in advance of these scheduled closures. All these dates are tentative and subject to change due to weather, supply chain delays, or other unforeseen circumstances. This rule remains effective through May 27, 2027, in case the project is delayed due to unforeseen circumstances. The area regulated by the safety zone will encompass the waters around the Glen Island Bridge and will cover all navigable waters, from surface to bottom, within the area formed by connecting the following latitude and longitude points in the following order: 40°53'18.58" N 73°46'56.26" W; thence to 40°53'22.08" N 73°46'59.39" W; thence north along the shore to 40°53'23.8" N 73°46'57.51" W; thence to 40°53'19.15" N 73°46'52.54" W and thence south along the shore back to the point of origin. This area is intended for the vessels and machinery being used by personnel for the Glen Island Bridge rehabilitation project. The duration of the zone is intended to ensure the safety of personnel, vessels, and these navigable waters during the bridge construction. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency or hazardous condition.

New Jersey Pierhead

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Main Channel - New Jersey Pierhead/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	General/Hazards To Navigation/Shoaling Reported From: 2025-02-13 To: 2027-02-28 Claremont Terminal Channel Shoaling – The Harbor Safety, Operations and Navigation Committee of the Port of NY and NJ – Deep Draft Working Group: The need to immediately restrict the deep draft of vessels transiting Claremont Terminal Channel has come to our attention. Based on the latest available surveys conducted by the Army Corps of Engineers, November 4, 2024, shoaling has occurred in the channel. The shoaling has minimized the available depth of water to 15 feet near the centerline of the channel. Based on this data, vessels will be restricted to a draft of 13 feet, plus the rise in tide, with a maximum draft of 18 feet. On 11/04/2024, the shoal area was bound by the following approximate coordinates: 40° 41'11"N, 074° 04' 41"W; thence to 40° 41' 17"N, 074° 04' 33"W; thence to 40° 40' 14"N, 074° 03' 06"W; thence to 40° 40' 10"N, 074° 03' 13"W.

General/MSIB	MSIB	General/MSIB From: 2025-12-22 To: 2026-02-17 Notice of Proposed Rulemaking - Special Local Regulation, Temporary Anchorage Ground Suspension, and Security Zones: Sail 4th 250, International Naval Review 250; Port of New York and New Jersey This bulletin addresses a Notice of Proposed Rulemaking – “Special Local Regulation, Temporary Anchorage Ground Suspension, and Security Zones: Sail 4th 250, International Naval Review 250; Port of New York and New Jersey.” 1. The Coast Guard is proposing to establish temporary special local regulations and multiple security zones, and to temporarily suspend certain anchorage grounds in New York Harbor, Sandy Hook Bay, and the Hudson River before, during, and after Sail 4th 250 events, the U.S. Navy’s International Naval Review 250 and International Aerial Review, Independence Day fireworks displays, and U.S. Navy Fleet Week events to be held between July 1, 2026, and July 9, 2026. 2. Due to a high concentration of expected spectator vessels and the series of events, the Coast Guard Northeast District Commander and the Captain of the Port, New York, have determined these regulations are necessary for the safety of Sail 4th 250 participants, International Naval Review 250 participants, spectator vessels, non-participant and non-spectator vessels operating in and around Port of New York and New Jersey, and life and property. 3. The complete rulemaking is available under Federal Register docket number USCG-2025-0903 and can be accessed through the federal portal at <a href="https://www.regulations.gov/search?filter=uscg-2025-0903">https://www.regulations.gov/search?filter=uscg-2025-0903</a> . 4. We invite your comments on this rulemaking. To submit your comment online, go to <a href="https://www.regulations.gov">https://www.regulations.gov</a> , and insert “USCG-2025-0903” in the “search box”. Click “Search” and then click “Comment.” We will consider all comments and material received on or before February 17, 2026. 5. For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapiejko, Waterways Management at Coast Guard Northeast District, telephone (571) 607-6314, e-mail <a href="mailto:craig.d.lapiejko@uscg.mil">craig.d.lapiejko@uscg.mil</a> . Vessels VIKING NEPTUN and ECO LIBERTY will be supporting cable installation and surveying within the Lease Area. Vessel C PIONEER will be supporting transition piece servicing. Local fishing vessels will also support this work to promote communication and safety on the waterway. Potential vessels include: PAMELA ANN, GABRIELLE ELIZABETH, TRIUNFO, BARBARA ANN, ITALIAN PRINCESS, REDEMPTION, ENFORCER, FLEET KING, FLEET QUEEN, OCEAN QUEEN, NEW HORIZON, and JO ANN V.	
Sector New York, Submerged Lands Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2025-05-30 To: 2025-12-31 ASCO Applied Sciences, in support of Empire Wind will be deploying up to 5 Sound Field Verification (SFV) buoys concurrently with monopile and offshore substation foundation installation, from May 30, 2025, to December 31, 2025, and will remain on site for 2-3 days until they are retrieved and moved to a new location. Temporary SFV surface buoys will mark the location of underwater, autonomous recording devices placed on the seabed for brief duration (3 days maximum) during pile driving. The location of the recording devices and their surface buoys is relative to the wind turbine generator monopile foundations or offshore substation foundation being installed. All temporary SFV surface buoys are red, round, polyform A-6 surface floats (350 kg buoyancy), 34 inches, with tethered highflyer including radar reflector and nighttime strobe light. The highflyer is 15 feet high with approximately 7 feet above water. The radar reflector is a standard 6 corner aluminum reflector approximately 1 foot in diameter. Each SFV buoy has a red strobe light that flashes 3 strobes in rapid succession (quick flashing) every 1.5 seconds. Buoys will be deployed from the R/V Danielle Miller.	
Sector New York, Submerged Lands Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Survey Operations From: 2025-09-03 To: 2026-03-02 Stony Brook University and Monmouth University with funding from the Hudson River Foundation will be deploying and maintaining, fish monitoring, oceanographic instruments in New York Rockaway area. To reduce the risk of entangling protected species, receivers have no surface buoys and are connected to a mooring system weighing approximately 150 pounds that extends about 2 meters (6 feet) off the sea floor. There will be multiple ships used for the downloading, recovering, and redeploying all of the gear such as Monmouth's R/V Heidi Lynne Sculthorpe and R/V Ocean Hawk ( <a href="https://www.monmouth.edu/school-of-science/vessels-equipment-and-field-activities">https://www.monmouth.edu/school-of-science/vessels-equipment-and-field-activities</a> ) as well as Stony Brook's R/V Seawolf and R/V Paumanok ( <a href="https://you.stonybrook.edu/somas/about/facilities/researchvessels">https://you.stonybrook.edu/somas/about/facilities/researchvessels</a> ). Equipment will be serviced throughout the month of September 2025 and will be deployed at these locations until further notice. For information please contact Michael Frisk (Professor Stony Brook University University) michael.frisk@stonybrook.edu; Oliver Shipley (Associate Professor Stony Brook University) oliver.shipley@stonybrook.edu; Keith Dunton (Associate Professor Monmouth University) kdunton@monmouth.edu.	
General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Survey Operations From: 2025-11-93 To: 2026-01-10 DEME Offshore will be conducting cable installation works and associated planned operations for the installation of array cables at the OCS-A 0512 Lease area, in NY Bight, from November 9, 2025, to January 9, 2026, 24 hours a day. Equipment on scene will be the CLV Viking Neptun, monitoring VHF-FM CH 16.

General/LAA/RNA/COTP Restriction	LAA/RNA	General/LAA/RNA/COTP Restriction From: 2025-12-24 To: 2026-01-01 A 500-meter Safety Zone may be enforced around Ørsted Northeast Program operations from 8:00am, December 24, 2025, to 8:00am, December 31, 2025. Mariners are to avoid transiting within 500 meters of the following positions: Revolution Wind Lease Area 486 Offshore Substations (OSS): AF08: 41-12-36.00N, 071-07-42.120W, AL11: 41-07-41.15N, 071-03-32.6W. Sunrise Wind Lease Area 487 Offshore Converter Station (OCS): AU08: 40-59-36.262N, 071-07-16.954W. Ørsted Northeast Program Revolution Wind, LLC, and Sunrise Wind, LLC are complying with the Director’s Order issued by the Bureau of Ocean Energy Management (BOEM) on Monday, December 22, 2025, and suspending activities on the outer continental shelf related to their respective projects in a manner that prevents impacts to health, safety, and the environment. The Director’s Order states that the projects “may perform any activities that are necessary to respond to emergency situations and/or prevent impacts on health, safety and the environment.” Accordingly, a limited number of vessels may be in the Revolution Wind and Sunrise Wind lease areas for certain limited activities, in compliance with the Order. There are exposed cables on the seafloor in the Revolution Wind Lease Area and along the Sunrise Wind nearshore cable route. Safety Vessels are on scene. Mariners, please operate with caution. Please be advised, there is a circular seafloor obstruction approximately 9’ off the seafloor and over 30’ in diameter at 41-07-41.1478N, 071-03-32.5954W. Vessels should be advised of potentially exposed cable in the vicinity of 40-50-52.8N, 074-28-26.4W and use caution if operating gear making bottom contact.	

General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	General/LAA/RNA/Temporary Regulated Navigation Zone From: 2025-12-31 To: 2026-01-08 A 500-meter Safety Zone will be enforced around Vineyard Wind, LLC., operations from 8:00am, December 31, 2025, to 8:00am, January 07, 2025, Mariners are to avoid transiting within 500-meters of the following positions: AM37: 41-07-12.22N, 070-29-06.60W; AP38: 41-05-13.14N, 070-27-46.00W; AR39: 41-02-14.02N, 070-26-22.72W; AT34: 41-01-08.84N, 070-32-57.77W; AR37: 41-03-12.04N, 070-29-02.65W; AQ39: 41-04-14.10N, 070-26-25.34W; AR40: 41-03-15.04N, 070-25-04.71W; AS42: 41-02-16.92N, 070-22-24.83W; Mariners are strongly encouraged to operate with extreme caution and to maintain a safe distance from construction vessels and associated equipment when not located within one of the above-mentioned safety zone locations. Construction vessels include SEA INSTALLER and WIND PACE. Construction will be supported by support vessels –C FIGHTER, C-PIONEER, GO GLORY, WINDEA ENTERPRISE, WINDEA COURAGEOUS, WINDEA INTREPID, GATEWAY ENDEAVOR, WINDSERVE FRONTIER, PATRIOT LEADER, tugs NICOLE FOSS, HAWAII FOSS, & EARL REDD, and the barges PREVAILING WIND and MARMAC 400. There will be several safety and scout vessels from the local fishing fleet operating in the area, all monitoring VHF FM CH 13 and 16 for any concerned traffic. All Mariners are requested to give a 0.5 NM wide berth to the construction vessel and their equipment as they are extremely limited in their ability to maneuver. Passing arrangement can be made via VHF with any construction vessels. To view a diagram of the active safety zones and current construction progress, please visit: <a href="https://www.vineyardwind.com/offshore-wind-mariner-updates">https://www.vineyardwind.com/offshore-wind-mariner-updates</a>	
General/LAA/RNA/COTP Restriction	LAA/RNA	General/LAA/RNA/COTP Restriction From: 2025-12-31 To: 2026-01-08 A 500-meter Safety Zone may be enforced around Ørsted Northeast Program operations from 8:00am, December 31, 2025, to 8:00am, January 7, 2025. Mariners are to avoid transiting within 500 meters of the following positions: Revolution Wind Lease Area 486 Offshore Substations (OSS): AF08: 41-12-36.00N, 071-07-42.120W, AL11: 41-07-41.15N, 071-03-32.6W.
