The dredge will work 24-hours a day, 7-days a week. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channel: 13 or 16, POC: (504) 862-2971 and (337) 529-7510	
General/MSIB	MSIB	MSIB 18-25 --- North Calcasieu River Navigational Considerations --- Due to several documented near miss situations investigated by U.S. Coast Guard MSU Lake Charles, this Marine Safety Information Bulletin (MSIB) is to bring heightened awareness to all commercial vessels with anticipated voyages to the unique waterway features in the north Calcasieu Ship Channel. Specifically, the northeast sections of Mile Marker 16.0, and the area southeast of the Calcasieu Saltwater Barrier leading to applicable commercial waterfront facilities. Mariners are advised that this waterway features sharp winding turns, shoaling along the banks, and the presence of private docks and residential structures along the shoreline. These characteristics, particularly near the Saltwater Barrier and southward, may present navigational challenges for transiting vessels and tows. For all commercial vessels transiting through this area, consideration should be given to the voyage plan and navigational assessments, provision of suitable lookouts, and awareness of shoals, private docks and residential structures. Consider the assessment of safe speed to enable timely and effective maneuvers to mitigate the risks of collision, allision, or grounding. These considerations are not exhaustive and do not supersede navigation rules, sound mariner judgment, or good seamanship. Compliance with a vessel's Towing Safety Management System (TSMS), where applicable, remains essential. All commercial vessel operators are strongly encouraged to share this MSIB with their vessel crews during voyage planning for transits through this area. For questions about this MSIB, mariners should contact the MSU Lake Charles Casualty Investigations Division inbox at: LakeCharlesIO@uscg.mil.

Sector Houston-Galveston,	Bridges	Old Brazos River - Temporary Bridge Deviation and Proposal --- From: 2026-02-13 To: 2026-04-10 --- The regulation to	Lat:

Submerged Land Act (SLA) - Freeport Entrance/General/Bridges/Temp Deviation	contact the Union Pacific Railroad (UPRR) Drawbridge across the Old Brazos River to open for boats on signal will temporarily change. The bridge tender will temporarily relocate to the UPRR train yard in Freeport, TX. Boats will continue to contact the UPRR bridge tender by radio, telephone or sound signals according to U.S. Coast Guard regulations; however, the bridge will be opened and closed by a remote bridge tender. UPRR has requested to permanently operate the drawbridge with a bridge tender in Freeport, TX. This temporary change will be used to collect data and information on this change to evaluate the impact to vessel traffic. During this change, UPRR will keep a bridge tender onsite to operate the bridge if needed. Specific information on this temporary regulation change can be accessed at the Federal Register, https://www.federalregister.gov/ , under Docket No. USCG-2025-0309.	28° 57' 17" Lon: -095° 21' 15"

Cat Island Pass -	MSIB	U.S. Coast Guard Captain of the Port Houma MSIB 04-26 --- NAVIGATION ALERT: UPDATE TO OIL RECOVERY OPERATIONS OFFSHORE	

Houma Navigation Canal/General/MSIB	PORT FOURCHON --- The Coast Guard has been notified of oil recovery operations involving multiple vessels west of Timbalier Island near Isles Dernieres barrier islands. There has been shoreline impact to the barrier islands in the vicinity of the Houma Navigation Canal. These conditions and operations may impact vessels transiting in and out of the Houma Navigation Canal. Vessels transiting in and out of the Houma Navigation Canal should establish communications with the M/V BRENTON ISLAND for current environmental conditions. Mariners are advised to maintain their slowest safe speed in the listed areas, avoid oiled waterways, and plan their voyages accordingly. For further information on this bulletin or to report any concerns regarding the status of waterways contact one of the phone numbers below: Marine Safety Unit Houma Waterways Management: (985) 665-2449, M/V BRENTON ISLAND: (281) 840-5806, Louisiana Offshore Oil Port Vessel Traffic Center: (985) 632-1423

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Galveston Bay Entrance Channel - Houston Ship Channel/General/Bridges/Construction	Bridges	Houston Ship Channel - Bridge Construction --- From: 2025-07-24 To: 2026-11-01 --- The Harris County Toll Road Authority (HCTRA) and a contractor will commence over-the-water construction of the new Beltway 8 (Sam Houston Tollway Ship Channel Bridge) over the Houston Ship Channel. Construction on areas outside the navigable channel will continue through May 2026. Work over the Houston Ship Channel is projected to begin May 2026 and finish by November 2026. Mariners are urged to transit this area with extreme caution.	Lat: 29° 44' 10" Lon: -095° 08' 45"
Galveston Bay Entrance Channel - Houston Ship Channel/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Houston Ship Channel - Shoaling --- Reported: 2024-12-11 To: Until further notice --- Shoaling has been reported in the Upper Houston Ship Channel, reducing water depths from the red side of the channel to the center line, between the Texas Beltway 8 Toll Bridge and a quarter mile above Houston Ship Channel Light 146 (LLNR-25790). Deep draft vessels are advised to proceed with caution. Vessels with a draft of 35 feet or greater should avoid the red side of the channel in this area. USACE surveys can be found at the following: https://www.swg.usace.army.mil/Missions/Navigation/Hydrographic-Surveys/	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Houston Ship Channel - Pipeline Operation --- From: 2026-02-09 To: 2026-06-30 --- The T/V MISS BEVERLY is conducting pipeline demolition operations underneath the docks at Enterprise Products Channelview at Docks 1, 4, 5, 6 and 7. Operations will be conducted daily, from 7:00 a.m. to 5:30 p.m. Mariners are urged to transit the area with caution. Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dredge Operation --- From: 2026-01-26 To: 2026-07-20 --- Mechanical maintenance dredging will be conducted in the Houston Ship Channel, from the Barbour's Cut Terminal to Boggy Basin. Operations will be conducted 24-hours a day, 7-days a week. The dredge is currently operating near the Pemex Crude Terminal. Dredged material will be transported in scows to the east side of Lost Lake where an offloading barge will pump dredge spoils inside the island. On-scene vessels will include the Dredge DB CATALINA, T/Vs CORRINE C., MABEL C., COLUMBIA, and KAREN KOBAY, three scows, the Crew Boat MISS LEIGHTYN and MONICA C., a survey vessel, and an offloading barge. The dredge will work within the channel and may reduce the channel limits by approximately 150 ft. Vessels should coordinate with the dredge 30-minutes in advance. Mariners are urged to transit at their slowest safest speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channel: 81,

Operations will be conducted from 7:00 a.m. to 5:00 p.m., Monday through Friday. Mariners should transit the area with caution and at their slowest safe speed to minimize wake. VHF-FM Channels: 12, 21 and 66A, POC: (713) 249-7118	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dock Construction --- From: 2025-09-04 To: June 2026 --- Dock construction is being conducted along the Houston Ship Channel at City Docks 20 and 21. Work will consist of demolishing and rebuilding of the fendering system and bulkhead construction. Operations will be conducted Monday through Friday. Workers will operate at the waterline and under the dock on skiffs. Divers may be present intermittently throughout the project. Mariners should transit the area with caution and at their slowest safe speed to minimize wake. POC: (832) 926-2215	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Pipeline and Debris Removal --- From: 2026-02-26 To: 2026-03-04 --- The M/V LADY ELLE and Crane Barge CCC-2 will conduct pipeline and debris removal on the red side of the Houston Ship Channel, near the barge lane between Houston Ship Channel Light 84 (LLNR-24540) and Houston Ship Channel Light 92 (LLNR-24600). Operations will be conducted from 6:00 a.m. to 6:00 p.m., Monday through Saturday. The U.S. Coast Guard VTS Houston-Galveston directs no meeting or overtaking of vessels within a half-mile of the operation during operating hours and will close the barge lane on the red side of the channel to all traffic in the immediate vicinity of the operation. Vessels are requested to coordinate with the project vessels 30-minutes in advance. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channels: 11, 13 and 68, POC: (281) 910-7784	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Miscellaneous	Miscellaneous	San Jacinto Bay Barge Channel - USI Canal - Aid to Navigation Discontinuation --- Reported: 2025-08-19 --- The private aids to navigation marking the San Jacinto Bay Barge Channel (USI Canal), from San Jacinto Bay Barge Channel Daybeacon 5 (LLNR-25120) to San Jacinto Bay Barge Channel Daybeacon 28 (LLNR-25200) have been discontinued. Vessels should avoid meeting or overtaking throughout the channel and should exercise extreme caution when transiting at night or during reduced visibility. Mariners accustomed to utilizing these private aids when navigating the San Jacinto Bay Barge Channel (USI Canal) should transit the area with caution.	
Galveston Bay Entrance Channel - Houston Ship Channel/General/MSIB	MSIB	Houston Ship Channel - Morgans Point - VTS USI Canal/San Jacinto Bay Channel Directive --- The USI Canal/San Jacinto Bay Channel has become increasingly trafficked over the last 2 years. For various reasons, many tows attempt to reconfigure between Morgans Point and Exxon to go into or come out of the USI Canal. This practice has resulted in several near miss situations between Morgans Point and the Exxon Terminal in the Houston Ship Channel. In order to fulfill the VTS mission of reducing risk of collision, allision, damage, pollution, and injury, the following Directive is in effect and will be written as policy in documentation updates to the U.S. Coast Guard VTS Houston-Galveston User Guide: • Vessel Traffic Service Houston-Galveston Directs no barge work in the Houston Ship Channel between Morgans Point and Exxon for purposes of going into/out of the USI Canal. •	
Galveston Bay Entrance Channel - Houston Ship Channel/General/MSIB	MSIB	Houston Ship Channel - Channel Dimensions Navigation Advisory (MSIB 11-25) --- The Houston Ship Channel dimensions have changed, impacting channel dimensions between Houston Ship Channel (HSC) Light 83 (LLNR-24535) and Houston Ship Channel Light 92 (LLNR-24600). The red side barge lane now ends at HSC Light 92. The green side barge lane remains the same, beginning at HSC Light 89 (LLNR-24565). Surveys have been successfully completed, extending the channel from Houston Ship Channel Light 83 to Houston Ship Channel Light 90 (LLNR-24575) to the following dimensions: 700 ft wide by 46 ft deep in the main channel and barge lanes measuring 235 ft wide by 12 ft deep on either side of the main channel. The aids to navigation along the Houston Ship Channel have been relocated based on the new channel dimensions. Mariners should proceed with caution as they accustom themselves to the new dimensions and note where the old channel dimensions meet the new channel dimensions. The new HSC width (700 ft) tapers into the previous existing channel width (530 ft) near HSC Lights 89/90. To promote safety, mariners are highly encouraged to update electronic charting systems on a regular basis to ensure chart accuracy and visibility of new changes. For additional information, mariners can contact the U.S. Coast Guard Sector Houston-Galveston Waterways Management Department at houstonwwm@uscg.mil.	
Galveston Bay Entrance Channel - Houston Ship Channel/ATON/Proposed Notice of Change	Proposed Notice of Change	In order to provide a more efficient and effective Aids to Navigation signal, the Coast Guard is proposing the following Aids to Navigation Changes: Change Lower Galveston Bay Outer Range Front Light (LLNR-23970) in approximate position 29-20-52.852N/094-47-31.444W from showing FI G 2.5s, 39ft (NIGHT), and FI W 2.5s, 42ft (DAY), On piles, Visible 2° each side of range line, to show FI G 2.5s, 39ft (NIGHT), On piles, Higher intensity on range line, FI W 2.5s, 39ft (DAY), Visible all around higher intensity on range line. Mariners should avoid the area during the closures. POC: Lockmaster (504) 945-2157	Lat: 29° 57' 55" Lon: -090° 01' 37"
General/Miscellaneous	Miscellaneous	Inner Harbor Navigation Canal Lock - USACE Navigation Bulletin Reissue --- * MARINERS ARE ADVISED THAT THIS POLICY NOTICE FOR THE INNER HARBOR NAVIGATION CANAL (IHNC) LOCK REMAINS IN EFFECT INDEFINITELY. * Due to the limited mooring space between the Florida Avenue Bridge and the Inner Harbor Navigation Canal Lock, it is required that all tows contact the Lock on VHF-FM Channel 14 for locking information prior to navigating through the Florida Avenue Bridge. Towboat Captains are reminded that if a tow has to be broken for locking operations, this shall be done prior to coming through the Florida Avenue Bridge and the barges shall not be left unattended in the canal for any reason. Towboat Captains must use the mooring buoys and tend the wheelhouse at all times. To prevent bank erosion, Tow Captains are also reminded not to push the head of their tow into the banks on the river or canal end of the lock for any reason while waiting for their locking. The Lockmaster, Richard McKinzie, can be reached at 504-945-2157. The points of contact with the New Orleans District are Robert Swayze at 504-862-2060, Jesse Adams at 504-862-1061 and Brandon Keck at 504-862-2630.	Lat: 29° 57' 53" Lon: -090° 01' 38"

Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Marine Events/Fireworks	Marine Events	East Pass Entrance Channel - Fireworks Display --- Regularly scheduled barge-based fireworks displays will take place southwest of the East Pass Entrance Channel near Eglin Beach Park. A 700 ft fallout radius will exist around the barge located in approximate position 30-23-14.42N 086-30-53.95W. Fireworks are scheduled to take place for the Harborwalk Village Fireworks 2026 Season on the following dates: -- February 13 -- March 13, 20 and 27 -- April 3 -- May 24 and 28 -- June 4, 11, 18 and 25 -- July 2, 3, 5, 9, 16, 23 and 30 -- September 6 -- October 3, 10, 17 and 24 -- December 13 and 31 -- Fireworks displays will start at 9:00 p.m., from February through September, and 8:00 p.m., from October through December. On December 31, 2026, two fireworks displays will take place at 8:00 p.m. and 11:59 p.m. Mariners are urged to use extreme caution while transiting this area.	Lat: 30° 23' 14" Lon: -086° 30' 54"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The Department of the Air Force will enforce the charted Restricted Area found in 33 CFR 334.730. This area includes certain navigable waters of Santa Rosa Sound, the GIWW (Miles 204.6 to 216.4, WHL), and the Gulf of America (Gulf of Mexico) adjacent to Eglin Air Force Base Property. All entry, transit, anchoring or drifting within the restricted area for any reason is not allowed without permission from the U.S. Air Force (96 TW/CC), except to navigate the Gulf Intracoastal Waterway. Such vessels and other watercraft shall confine their movements to the waters within the limits of the GIWW and shall make the passage as promptly as possible under normal vessel speed. Other permitted access to the Restricted Area may be granted, in certain circumstances, by contacting the 96 TW/CC at (850) 882-2000.	Lat: 30° 23' 03" Lon: -086° 48' 24"
General/Miscellaneous	Miscellaneous	Alabama River - In accordance with Section 7-11 of the ACT Master Water Control Manual dated April 2022, full navigation channel availability on the Alabama River is dependent upon seasonal flow conditions and channel maintenance. Based on a profile survey conducted on 04JUN2024, a 10 ft tailwater elevation at Claiborne Lock is required to provide a 9 ft channel on the Alabama River to Montgomery, AL. A modified depth of 7.5 ft can be provided with a tailwater elevation of 8.5 ft at Claiborne Lock. The tailwater elevations at Claiborne have been consistently below the 8.5 ft elevation, providing a modified navigation depth due to no substantial rainfall events impacting the ACT Basin. Channel availability is typically higher during the months of December through May; however, with the seasonal outlook for the winter expected to be mild, below normal conditions may persist. Water Management provides multiple weekly Claiborne tailwater forecasts to stakeholders for navigation and other purposes. To be added to the distribution list for the Alabama River forecasts, mariners can contact: water-sam@usace.army.mil. Tailwater elevations below Claiborne Lock and Dam can be viewed at the following web address: https://waterdata.usgs.gov/monitoring-location/USGS-02428401	Lat: 31° 36' 54" Lon: -087° 33' 06"

Sabine Pass - Port Arthur	LAA/RNA	Port Arthur Canal - Security Zone Reminder --- With the resumption of marine operations at Golden Pass LNG in Sabine	

Canal/General/LAA/RNA/Security Zone

Pass, Texas, mariners are reminded that a federal permanent Security Zone is established in accordance with 33 CFR § 165.819. As stated in 33 CFR § 165.819, when a LNG carrier is moored at the Golden Pass LNG mooring basin, a security zone is activated for all waters south of a line connecting the following coordinates: 29-45-58.0N 093-55-40.0W, east to 29-45-52.8N 093-55-20.8W, and bearing 120° T to the shoreline at 29-45-50.0N 093-55-17.0W. Entry into or remaining within the security zone is prohibited for all vessels except: 1. Commercial vessels operating at waterfront facilities within the zone. 2. Commercial vessels transiting directly to or from waterfront facilities within the zone. 3. Vessels providing direct operational or logistical support to commercial vessels within the zone. 4. Vessels operated by the appropriate port authority or by facilities located within the zone. 5. Vessels operated by Federal, State, county, or municipal law enforcement agencies. All other persons or vessels must request permission to enter the security zone from the Captain of the Port or their designated representative. To request permission, vessels can contact U.S. Coast Guard Vessel Traffic Service Port Arthur on VHF-FM Channel 01A or 65A, or by telephone at (409) 719-5070. For more information, mariners should refer to 33 CFR § 165.819 for the full regulatory text and additional details.

Operations will be conducted 24-hours a day, 7-days a week. Dredged material will be disposed in offshore disposal sites. On-scene vessels may include the Dredge DODGE ISLAND, AMELIA ISLAND, ELLIS ISLAND or GALVESTON ISLAND. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channels: 13 and 16	
Sector Houston-Galveston, Submerged Land Act (SLA) - Sabine Pass/General/MSIB	MSIB	Marine Safety Information Bulletin 08-26: Notice of Proposed Rulemaking (NPRM) - Sabine Pass Safety Fairway Anchorages - On February 17, 2026, the Coast Guard published a NPRM (Docket Number USCG-2024-0893) with proposed regulations to establish two new fairway anchorages adjacent to the existing safety fairway approaches to Sabine Bank and Sabine Pass, Texas. These two additional fairway anchorages would be in deeper water than the existing anchorages along the Sabine Pass fairway to accommodate vessels, primarily petroleum tankers, with deeper drafts. The Coast Guard is requesting comments from the public regarding the proposed rule. Comments on these proposed changes will be taken until May 18, 2026. Please use the following link to review the NPRM and submit comments: Regulations.gov - https://www.regulations.gov/document/USCG-2024-0893-0001	Lat: 29° 40' 24" Lon: -093° 49' 58"

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Mobile, Exclusive Economic Zone (EEZ)/General/MSIB	MSIB	Marine Safety Alert 02-24 - Inspections and Compliance Directorate --- DANGEROUS BYCATCH FROM DISCARDED MUNITIONS REMAINS A PRESENT DAY HAZARD --- This Safety Alert is being issued to raise awareness of lurking hazards caused by discarded munitions, which often contain active explosives or chemical agents. Although the practice of dumping munitions into the sea ceased in 1970, a significant amount remains hidden in coastal waters, posing a safety hazard to commercial fisherman, dredge operators, and others who trawl and work the ocean floor. Recently, a deckhand on a clamming vessel was severely burned when a canister was dredged up and brought onboard with clams and other debris. The canister likely contained mustard gas or another blistering agent, but did not display any obvious visual, audible, or odor indicators of discharging content. A member of the crew discovered the canister and threw it back overboard. Several hours later he developed a severe rash that required professional medical treatment. Mustard gas is a chemical weapon developed during World War I. Millions of pounds of this product, other chemical weapons, bombs, torpedoes, artillery shells, and munitions were routinely disposed of and remain in U.S. coastal waters. Although many munition dump areas are well marked on navigation charts, numerous areas where munitions were discarded remain unmarked. There is also evidence suggesting that munitions were frequently "short dumped," meaning dumped outside of the designated areas by contractors hired to take them to the intended locations. The Coast Guard previously issued Safety Alert 11-16 and Safety Alert 6-10 on this same topic and continues to strongly recommend that persons involved in the fishing and dredging industries: Review their navigational charts to ensure the areas in which they are trawling or dredging are not near labeled "Explosives Dumping Areas." Such areas must be given wide berth and seafarers should recognize that surface bottoms change and that objects can move significant distances from their original disposal areas. Review and follow recommendations from the Maritime Industry 3Rs Explosive Safety Guide. Carefully record the position of any munitions encountered and returned to the sea. Immediately report discovery to the National Response Center, at (800) 424-8802 to ensure a proper response and potential recovery. Alternatively, the local U.S. Coast Guard unit may be notified via VHF-FM Channel 16. This Safety Alert is provided for informational purposes only and does not relieve any domestic or international safety, operational, or material requirement. Developed by the Office of Commercial Vessel Compliance (CG-CVC) and distributed by the Office of Investigations and Casualty Analysis (CG-INV). Questions may be submitted to HQS-SMB-CGINV@uscg.mil.	
Sector Mobile, Exclusive Economic Zone (EEZ)/General/Naval Activity/Naval Gunnery Exercises	Naval Activity	Gulf of America - U.S. Air Force Weapons Testing --- From: 2026-03-10 To: 2026-03-18 --- The U.S. Air Force will conduct munition launches and weapons testing from Cape Saint George to Tampa, FL, from 8:00 a.m. to 4:00 p.m., daily. The hazard area will be bound by the following approximate positions: 29-06-54N 085-00-43W, 28-08-03N 083-56-46W, 27-50-04N 084-18-00W and 28-48-46N 085-21-59W. All vessels are required to remain clear of the operation/hazard area during the mission periods. Hot range advisories and broadcast notice to mariners will be transmitted via VHF-FM Channel 16 and on HF Upper Sideband 2182 KHZ, by the Eglin Joint Test and Training Operations Control Center (call sign: Wolfcall).	
Sector Mobile, Exclusive Economic	Naval Activity	Gulf of America - U.S. Air Force Munition Operation --- From: 2026-03-02 To: 2026-03-04 --- The U.S. Air Force will conduct munition launches off Santa Rosa Island, from 7:00 a.m. to 5:00 p.m., on March 2, 2026, with back-up dates on March 3 and 4, 2026. The hazard	

Zone (EEZ)/General/Naval Activity/Naval Gunnery Exercises	area will be bound by the following approximate positions: 30-10-46N 086-47-57W, 30-00-21N 085-49-22W, 28-48-50N 084-32-54W, 28-08-25N 085-13-40W and 28-33-06N 086-47-57W. Three naval support vessels will be in on-scene throughout the operation. All vessels should maintain a 1 nm closest point of approach during the mission period. VHF-FM Channels: 13, 16, 81 and 82A	Lat: 30° 19' 06" Lon: -086° 33' 05"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	Gulf of America - U.S. Navy Operation --- From: 2025-09-03 To: 2026-05-31 --- The U.S. Navy will operate an unmanned surface vehicle (USV) towing underwater equipment in the Gulf of America, in the offshore waters of Panama City Beach, FL. The operating area will be bound by approximate positions: 30-07-58.59N 085-55-19.54W, 30-07-58.63N 085-50-42.76W, 30-03-56.30N 085-50-42.75W and 30-03-56.27N 085-55-19.44W. Two U.S. Naval support vessels will be on-scene during the USV operation. Mariners should maintain a wide berth from all U.S. Naval craft and are requested to avoid the area. VHF-FM Channel: 16	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	Gulf of America - Unmanned Aerial System Tests --- From: 2026-03-02 To: 2026-03-13 --- An Unmanned Aerial System (UAS) will be tested from Santa Rosa Island to nearshore portions of the Gulf of America. Tests will include the evaluating of takeoff and landing of a UAS in the maritime environment. The UAS will operate for 15-minutes at a time and travel up to 55 miles per hour. Operations will be conducted Monday thru Saturday, from sunrise to sunset. On-scene vessels will include the M/Vs KELLY RAE and BIG KAHUNA. Support craft will display a dive flag and will monitor VHF-FM Channel 16. Mariners are urged to avoid the testing area.	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Naval Activity/Naval Gunnery Exercises	Naval Activity	Gulf of America - Santa Rosa Sound - U.S. Air Force Weapons Testing --- From: 2026-03-10 To: 2026-03-18 --- The U.S. Air Force will conduct munition launches and weapons testing off Santa Rosa Island, from 8:00 a.m. to 4:00 p.m., daily. The hazard area will be bound by the following approximate positions: 30-24-18N 086-48-23W, 30-24-09N 086-43-22W, 30-21-57N 086-32-55W, 30-12-09N 086-27-17W, 30-05-20N 086-35-25W, 30-08-28N 086-46-42W, 30-19-30N 086-49-47W and 30-23-29N 086-49-21W. All vessels are required to remain clear of the operation/hazard area during the mission periods. Hot range advisories and broadcast notice to mariners will be transmitted via VHF-FM Channel 16 and on HF Upper Sideband 2182 KHZ, by the Eglin Joint Test and Training Operations Control Center (call sign: Wolfcall).

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Tombigbee River/General/Bridges/Temp Deviation	Bridges	Tombigbee River - Temporary Bridge Deviation --- From: 2026-03-16 To: 2026-03-20 --- The Norfolk Southern Railroad Bridge will be repairing steel and installing scaffolding on the railroad drawbridge across the Tombigbee River, Mile 89.9. The drawbridge will not open to vessels from 6:00 a.m. to 6:00 p.m., each day, from March 16, 2026, through March 20, 2026. The drawbridge will operate as normal from 6:01 p.m. to 5:59 a.m., during those dates. Vessels that do not need the draw to open may pass beneath the bridge. The scaffolding will reduce the vertical clearance by 6 ft in the raised and lowered positions. For additional information or updates to the schedule, mariners may contact the Norfolk Southern Railroad Bridge, at (717) 673-2751.	Lat: 31° 29' 40" Lon: -087° 54' 25"
Tombigbee River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Tombigbee River - Marine Construction --- From: 2026-02-23 To: 2026-08-10 --- Marine construction will be conducted along the Tombigbee River, in the vicinity of Mile 60.0. Work will consist of pile driving, underwater welding, and diffuser installation. Operations will be conducted from 6:00 a.m. to 4:30 p.m., Monday through Friday. On-scene vessels will include a crane barge and a material barge. The channel may be obstructed or partially obstructed during certain stages of the operation. Mariners should coordinate passing arrangements 2-hours in advance by hailing GAWest on VHF-FM Channel 13 and transit the area with caution.	Lat: 31° 15' 26" Lon: -087° 59' 13"

New Orleans Harbor - Via Mississippi River And Harvey Canal/General/Miscellaneous	Miscellaneous	Harvey Canal - GIWW - Harvey Locks Closures --- From: 2025-10-02 To: Until Further Notice --- As the river level falls, the Harvey Lock could be closed for extended periods of time with little or no warning, due to insufficient head pressure and low water. Mariners are urged to check lock statuses prior to transiting the area to avoid delays. Vessels can contact the Lock at (504) 366-5187 or verify lock statuses online at: https://www.mvn.usace.army.mil/LockStatus/	Lat: 29° 54' 36" Lon: -090° 05' 03"
New Orleans Harbor - Via Mississippi River And Harvey Canal/General/Miscellaneous	Miscellaneous	Mississippi River, Mile 98.5, AHOP - Harvey Canal - GIWW - Harvey Canal Waterway Conditions --- From: 2026-02-18 To: Until Further Notice --- Vessels are requested to maintain a slow bell and minimize wake when transiting in the vicinity of the Harvey Lock Forebay. An increase in vessels transiting in the vicinity of the Harvey Lock Forebay has created hazardous conditions. This precaution ensures the safety of lock personnel and prevents damage to critical infrastructure from excessive wake during low water conditions.	Lat: 29° 54' 36" Lon: -090° 05' 03"

Vessels should exercise extreme caution when transiting under the bridge.	Lat: 28° 37' 07" Lon: -096° 56' 05"
General/MSIB	MSIB	MSIB 01-26 - State Highway 35 Bridge - Victoria Barge Canal - Issued: 2026-01-05 --- The U.S. Coast Guard Captain of the Port Corpus Christi has received reports of tug and barge allisions with the State Highway 35 Bridge and its accompanying fendering system near position 28-31-06.48N 096-48-16.92W. Due to the narrow nature of transiting under the bridge, the U.S. Coast Guard requests all mariners exercise caution when transiting the bridge, utilize side lights and appropriate lookouts for better visibility at night, and report any allisions with the bridge or its fendering immediately to the U.S. Coast Guard. Vessels can report allisions to the U.S. Coast Guard Sector Corpus Christi Command Center at (800) 874-2143. For non-urgent questions and concerns, mariners may email the U.S. Coast Guard Sector Corpus Christi Waterways Management Department at: CCWaterways@uscg.mil .	Lat: 28° 31' 08" Lon: -096° 48' 17"
