Black Warrior River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Black Warrior River, Mile 347.0 - Modified Lock Schedule --- From: 2026-01-12 To: 2026-09-01 --- The Holt Lock will be periodically closed and operate under a modified schedule to perform repairs on a damaged lock monolith. The modified lock operation schedule will be as follows: • Closed to navigation, from 6:00 a.m., Mondays, to 6:00 a.m., Saturdays. • Open to navigation, from 6:00 a.m., Saturdays, to 6:00 a.m., Mondays. • Open to navigation all day on Monday, April 6, 2026. This operation schedule is expected to last until September 2026. Waterway user calls will be held throughout the repair process to update stakeholders. A waterway users call is scheduled for April 9, 2026, at 2:00 p.m. (CDT), to provide information regarding the closure. For further information regarding this work, mariners can contact Holt Lock at (251) 276-3293. For additional details regarding the waterway users calls, mariners can access USACE Navigation Bulletins at: https://ndc.ops.usace.army.mil/orders/?p=107:1	Lat: 33° 15' 10" Lon: -087° 26' 57"

General/MSIB	MSIB	MSIB 18-25 --- North Calcasieu River Navigational Considerations --- Due to several documented near miss situations investigated by U.S. Coast Guard MSU Lake Charles, this Marine Safety Information Bulletin (MSIB) is to bring heightened awareness to all commercial vessels with anticipated voyages to the unique waterway features in the north Calcasieu Ship Channel. Specifically, the northeast sections of Mile Marker 16.0, and the area southeast of the Calcasieu Saltwater Barrier leading to applicable commercial waterfront facilities. Mariners are advised that this waterway features sharp winding turns, shoaling along the banks, and the presence of private docks and residential structures along the shoreline. These characteristics, particularly near the Saltwater Barrier and southward, may present navigational challenges for transiting vessels and tows. For all commercial vessels transiting through this area, consideration should be given to the voyage plan and navigational assessments, provision of suitable lookouts, and awareness of shoals, private docks and residential structures. Consider the assessment of safe speed to enable timely and effective maneuvers to mitigate the risks of collision, allision, or grounding. These considerations are not exhaustive and do not supersede navigation rules, sound mariner judgment, or good seamanship. Compliance with a vessel's Towing Safety Management System (TSMS), where applicable, remains essential. All commercial vessel operators are strongly encouraged to share this MSIB with their vessel crews during voyage planning for transits through this area. For questions about this MSIB, mariners should contact the MSU Lake Charles Casualty Investigations Division inbox at: LakeCharlesIO@uscg.mil.

Houston Ship Channel - Cedar Bayou Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Cedar Bayou Channel - Marine Construction --- From: 2026-04-01 To: 2026-05-31 --- The Dredge GENERAL EISENHOWER will be digging two floatation access channels from the Cedar Bayou Channel to the berm construction and shore protection sites near Atkinson Island. Work will take place 24-hours a day, 7-days a week. The dredge will pump discharged material inside the berm perimeter. A temporary sheet pile wall will be installed in the first floatation access point to provide equipment access for shore protection work at the berm. Additional on-scene vessels will include the Anchor Barge CAL2002, T/Vs BATTLE OF THE BULGE and IWO JIMA, a 140 ft x 40 ft crane barge, two standard excavators and bulldozers. Mariners are urged to transit the area with caution and at their slowest safe speed to minimize wake. VHF-FM Channels: 11, 13 and 16, POC: (307) 256-2558 or (850) 714-4311

Sector Houston-Galveston, Submerged Land Act (SLA) - Freeport Entrance/General/Bridges/Temp Deviation	Bridges	Old Brazos River - Temporary Bridge Deviation and Proposal --- From: 2026-02-13 To: 2026-04-10 --- The regulation to contact the Union Pacific Railroad (UPRR) Drawbridge across the Old Brazos River to open for boats on signal will temporarily change. The bridge tender will temporarily relocate to the UPRR train yard in Freeport, TX. Boats will continue to contact the UPRR bridge tender by radio, telephone or sound signals according to U.S. Coast Guard regulations; however, the bridge will be opened and closed by a remote bridge tender. UPRR has requested to permanently operate the drawbridge with a bridge tender in Freeport, TX. This temporary change will be used to collect data and information on this change to evaluate the impact to vessel traffic. During this change, UPRR will keep a bridge tender onsite to operate the bridge if needed. Specific information on this temporary regulation change can be accessed at the Federal Register, https://www.federalregister.gov/ , under Docket No. USCG-2025-0309. TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Galveston Bay - Galveston Channel/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Galveston Harbor Channel - Port of Galveston - Draft Restrictions --- From: 2024-10-25 To: Until Further Notice --- Draft restrictions of 44 ft or less are in place at the Port of Galveston. Waivers for vessel drafts may be granted based on the state of tides and transit plans. All deep draft vessels should transit the channel with caution and reference recent USACE channel surveys at: http://www.swg.usace.army.mil/Missions/Navigation/Navigation-Projects-Contracts/	
Houston Ship Channel - Galveston Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Galveston Channel - Dredge Operation --- From: 2026-02-06 To: 2026-06-10 --- The Dredge MISSOURI H will be working in the Galveston Channel, 24-hours a day, 7-days a week. Dredged material will be pumped via floating, pontoon, and submerged pipeline to the disposal site on Pelican Island. On-scene vessels will include tender boats, survey vessels, and supply barges. Mariners should coordinate passing arrangements with the dredge 1-hour in advance and are urged to transit with caution. VHF-FM Channels: 13 and 16, POC: (337) 302-2355	
Houston Ship Channel - Galveston Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Galveston Channel - Dredge Operation --- From: 2026-04-04 To: 2026-07-16 --- The Dredge LORRAINE HOOKS will be working in the Galveston Channel starting near the west end of the Galveston Harbor near the lift bridge. Operations will be conducted from 6:00 a.m. to 6:00 p.m., daily. The dredge will work in the center of the channel and move for vessel traffic, as needed. Dredged material will be pumped via floating, pontoon, and submerged pipeline to the disposal site on Pelican Island. On-scene vessels will include the M/Vs GODS GRACE, RONNIE, and ANDI B. Mariners should coordinate passing arrangements with the dredge 1-hour in advance and are urged to transit with caution. VHF-FM Channels: 13, 16 and 80, POC: (337) 244-3911	
Galveston Bay - Galveston Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Galveston Channel - Marine Construction and Dredging --- From: 2026-02-26 To: 2027-04-30 --- Dredging and marine construction will take place at Texas A&M University at Galveston (TAMU-G) Dock No. 1, in the Galveston Harbor along the Galveston Channel. Work will be conducted 10-hours a day, 6-days a week, unless otherwise directed. Operations will include dredging, the rehabilitation of approximately 300 ft of the main bulkhead and approximately 400 ft of return wall, and the construction of approximately 350 ft of a new concrete pier deck. On-scene vessels will include approximately two crane barges, material barges, the T/V EVERLINE and an additional towing vessel, and ancillary support craft. Dive operations may take place intermittently throughout the project. Mariners are urged to transit the area at a safe distance and at their slowest safe speed, observe all day shapes and dive flags, and monitor bridge-to-bridge communications. VHF-FM Channels: 13 and 16, POC: (346) 617-8019 or (832) 405-0628	Lat: 29° 18' 43" Lon: -094° 48' 57"

Mariners are urged to coordinate with the project vessels prior to transiting the area.	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Buffalo Bayou - Dredge Operation --- From: 2026-04-01 To: 2026-04-02 --- The Dredge MBI-12 will be working along the Houston Ship Channel at the Woodhouse Docks. Operations will take place 24-hours a day, 7-days a week. Dredged material will be loaded into hopper barges and transported to an unloader barge at a placement area along the Houston Ship Channel. Additional on-scene vessels will include the T/Vs ADMIRAL and CHUCK BOONE. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with	

		caution after passing arrangements have been made. VHF-FM Channels: 76 and 78, POC: (228) 213-0600	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Miscellaneous	Miscellaneous	San Jacinto Bay Barge Channel - USI Canal - Aid to Navigation Discontinuation --- Reported: 2025-08-19 --- The private aids to navigation marking the San Jacinto Bay Barge Channel (USI Canal), from San Jacinto Bay Barge Channel Daybeacon 5 (LLNR-25120) to San Jacinto Bay Barge Channel Daybeacon 28 (LLNR-25200) have been discontinued. Vessels should avoid meeting or overtaking throughout the channel and should exercise extreme caution when transiting at night or during reduced visibility. Mariners accustomed to utilizing these private aids when navigating the San Jacinto Bay Barge Channel (USI Canal) should transit the area with caution.	
Galveston Bay Entrance Channel - Houston Ship Channel/General/MSIB	MSIB	Houston Ship Channel - Morgans Point - VTS USI Canal/San Jacinto Bay Channel Directive --- The USI Canal/San Jacinto Bay Channel has become increasingly trafficked over the last 2 years. For various reasons, many tows attempt to reconfigure between Morgans Point and Exxon to go into or come out of the USI Canal. This practice has resulted in several near miss situations between Morgans Point and the Exxon Terminal in the Houston Ship Channel. In order to fulfill the VTS mission of reducing risk of collision, allision, damage, pollution, and injury, the following Directive is in effect and will be written as policy in documentation updates to the U.S. Coast Guard VTS Houston-Galveston User Guide: • Vessel Traffic Service Houston-Galveston Directs no barge work in the Houston Ship Channel between Morgans Point and Exxon for purposes of going into/out of the USI Canal. •	
Galveston Bay Entrance Channel - Houston Ship Channel/General/MSIB	MSIB	Houston Ship Channel - Channel Dimensions Navigation Advisory (MSIB 11-25) --- The Houston Ship Channel dimensions have changed, impacting channel dimensions between Houston Ship Channel (HSC) Light 83 (LLNR-24535) and Houston Ship Channel Light 92 (LLNR-24600). The red side barge lane now ends at HSC Light 92. The green side barge lane remains the same, beginning at HSC Light 89 (LLNR-24565). Surveys have been successfully completed, extending the channel from Houston Ship Channel Light 83 to Houston Ship Channel Light 90 (LLNR-24575) to the following dimensions: 700 ft wide by 46 ft deep in the main channel and barge lanes measuring 235 ft wide by 12 ft deep on either side of the main channel. The aids to navigation along the Houston Ship Channel have been relocated based on the new channel dimensions. Mariners should proceed with caution as they accustom themselves to the new dimensions and note where the old channel dimensions meet the new channel dimensions. The new HSC width (700 ft) tapers into the previous existing channel width (530 ft) near HSC Lights 89/90. To promote safety, mariners are highly encouraged to update electronic charting systems on a regular basis to ensure chart accuracy and visibility of new changes. For additional information, mariners can contact the U.S. Coast Guard Sector Houston-Galveston Waterways Management Department at houstonwwm@uscg.mil.

The Rigolets - Lakes Pontchartrain And Maurepas/General/LAA/RNA/Safety Zone	LAA/RNA	Lake Pontchartrain - Powerboat Grand Prix - Safety Zone --- From: 2026-04-10 To: 2026-04-12 --- The New Orleans Powerboat Grand Prix will take place on Lake Pontchartrain from April 10, 2026, through April 12, 2026. The U.S. Coast Guard Captain of the Port New Orleans will establish a Safety Zone for the race area between the Bonnabel Boat Launch and the New Orleans Municipal Yacht Harbor. All vessels are prohibited from entering the Safety Zone, between 8:00 a.m. and 6:00 p.m., daily, on the event days. The Safety Zone will be bound by the following positions: 30-01-43.11N 090-06-07.32W, 30-02-55.95N 090-06-15.54W, 30-02-54.44N 090-08-55.88W and 30-01-18.78N 090-09-13.97W. Only predesignated vessels participating in the event will be permitted within the Safety Zone. All other vessels are prohibited from entering this zone unless they have been granted permission by the COTP New Orleans or the designated representative. Vessels requesting permission to enter or transit within the Safety Zone must contact the designated representative on VHF-FM Channel 9. The designated representative will evaluate vessel transits through the zone on a case-by-case basis. Additionally, no spectator vessel will be allowed to anchor, block, loiter, or impede the through transit of participants or a designated representative in the regulated area during the effective dates and times. Patrol boats from the New Orleans Powerboat Grand Prix will be posted near the entrance to the New Orleans Municipal Yacht Harbor to help guide recreational boating traffic through the Safety Zone. A lane for vessel traffic will remain open from the entrance of the Orleans Marina and Southern Yacht Club. Bonnabel Boat Launch, Bucktown Marina, and West End Boat launch will be occupied by the New Orleans Powerboat Grand Prix during the event dates. For further race information, please visit: www.IHRA.com	
The Rigolets - Lakes Pontchartrain And Maurepas/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Lake Pontchartrain - Tchefuncte River - Breakwater Construction --- From: 2026-03-09 To: 2026-08-03 --- Breakwater construction will be conducted in Lake Pontchartrain at the mouth of the Lower Tchefuncte River, near approximate positions 30-22-30.16N 090-09-34.78W and 30-22-32.61N 090-09-26.74W. Operations will be conducted daily, from 7:00 a.m. to 5:30 p.m. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution. Sabine Pass - Port Arthur Canal/General/LAA/RNA/Security Zone	LAA/RNA	Port Arthur Canal - Security Zone Reminder --- With the resumption of marine operations at Golden Pass LNG in Sabine Pass, Texas, mariners are reminded that a federal permanent Security Zone is established in accordance with 33 CFR § 165.819. As stated in 33 CFR § 165.819, when a LNG carrier is moored at the Golden Pass LNG mooring basin, a security zone is activated for all waters south of a line connecting the following coordinates: 29-45-58.0N 093-55-40.0W, east to 29-45-52.8N 093-55-20.8W, and bearing 120° T to the shoreline at 29-45-50.0N 093-55-17.0W. Entry into or remaining within the security zone is prohibited for all vessels except: 1. Commercial vessels operating at waterfront facilities within the zone. 2. Commercial vessels transiting directly to or from waterfront facilities within the zone. 3. Vessels providing direct operational or logistical support to commercial vessels within the zone. 4. Vessels operated by the appropriate port authority or by facilities located within the zone. 5. Vessels operated by Federal, State, county, or municipal law enforcement agencies. All other persons or vessels must request permission to enter the security zone from the Captain of the Port or their designated representative. To request permission, vessels can contact U.S. Coast Guard Vessel Traffic Service Port Arthur on VHF-FM Channel 01A or 65A, or by telephone at (409) 719-5070. For more information, mariners should refer to 33 CFR § 165.819 for the full regulatory text and additional details.

General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Port Mansfield Channel - Shoaling --- Reported: 2025-03-12 --- Extreme shallow water and shoaling has been reported throughout the Mansfield Cut/Port Mansfield Channel. Mariners should exercise caution when navigating through this area and pay close attention to tide levels when departing and returning through the cut.	
Sector Corpus Christi, Submerged Land Act (SLA) - Port Mansfield Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Port Mansfield Channel - Dredge Operation --- From: 2026-01-19 To: 2027-02-11 --- The Dredges GENERAL BRADLEY and GENERAL MARSHALL will conduct dredging operations in the Port Mansfield Channel, from just east of the jetties, through the entire inland portion of the Port Mansfield Channel, and into the Port Mansfield Harbor. The Dredge GENERAL MARSHALL will start working near Port Mansfield Channel Daybeacon 18 (LLNR-29360) with anchors set on either side of the channel. A combination of steel and HDPE pipeline will be used with floating rubber hose, floating pipe, submerged pipe and shore pipe leading to the placement areas at Bird Island and along the Padre Island Beach. Submerged pipelines will be placed across the channel in locations that provides sufficient depth and will be marked with lights and buoys. No fishing or trawling activities should take place along or within the area of pipeline, to avoid damage to nets, vessels, and the dredge equipment. Mariners are requested to coordinate passing arrangements 1-hour in advance and transit the area with extreme caution. VHF-FM Channels: 13 and 79, POC: Dredge (409) 739-6508

Santa Rosa Sound Entrance - Santa Rosa Sound/General/LAA/RNA/COTP Restriction	LAA/RNA	Santa Rosa Sound - Pensacola Bay - Safety Zone --- From: 2026-03-18 To: 2026-04-12 --- The U.S. Coast Guard will enforce a Safety Zone for all navigable waters within a 1 mile radius of position 30-20-50.26N 087-12-55.81W, in the Santa Rosa Sound. The Safety Zone will be active for the 2026 GL52 Southern Series/WASZP Race, from 10:00 a.m. to 5:00 p.m., March 18th through March 28th, and April 8th through April 12th. Three Safety Zones have been established for this event. Race vessels will operate within one of the three established Safety Zones, with the specific zone selected daily based on wind conditions and race course requirements. These Safety Zones do not include any waters of the GIWW or Pensacola Bay Channel and no impacts to navigation within federal channels are anticipated. Entry of vessels or persons into the active Safety Zone is prohibited unless specifically authorized by the U.S. Coast Guard Captain of the Port or the designated representative. All vessels requesting permission to enter or transit through this zone must contact the U.S. Coast Guard or the designated representative on VHF-FM Channel 16. Mariners can contact the project sponsor at (312) 560-1168, during the event for further information.	
Santa Rosa Sound Entrance - Santa Rosa Sound/General/Miscellaneous	Miscellaneous	The Department of the Air Force will enforce the charted Restricted Area found in 33 CFR 334.730. This area includes certain navigable waters of Santa Rosa Sound adjacent to Eglin Air Force Base Property on Santa Rosa Island. All entry, transit, anchoring, or drifting of any persons, vessels, and other craft (including unmanned craft) within the Restricted Area for any reason is not allowed without the permission of the U.S. Air Force (96 TW/CC). Permitted access to the Restricted Area may be granted, in certain circumstances, by contacting the 96 TW/CC at (850) 882-2000.	Lat: 30° 24' 05" Lon: -086° 43' 01"

Sector Mobile, Exclusive Economic Zone (EEZ)/General/MSIB	MSIB	Marine Safety Alert 02-24 - Inspections and Compliance Directorate --- DANGEROUS BYCATCH FROM DISCARDED MUNITIONS REMAINS A PRESENT DAY HAZARD --- This Safety Alert is being issued to raise awareness of lurking hazards caused by discarded munitions, which often contain active explosives or chemical agents. Although the practice of dumping munitions into the sea ceased in 1970, a significant amount remains hidden in coastal waters, posing a safety hazard to commercial fisherman, dredge operators, and others who trawl and work the ocean floor. Recently, a deckhand on a clamming vessel was severely burned when a canister was dredged up and brought onboard with clams and other debris. The canister likely contained mustard gas or another blistering agent, but did not display any obvious visual, audible, or odor indicators of discharging content. A member of the crew discovered the canister and threw it back overboard. Several hours later he developed a severe rash that required professional medical treatment. Mustard gas is a chemical weapon developed during World War I. Millions of pounds of this product, other chemical weapons, bombs, torpedoes, artillery shells, and munitions were routinely disposed of and remain in U.S. coastal waters. Although many munition dump areas are well marked on navigation charts, numerous areas where munitions were discarded remain unmarked. There is also evidence suggesting that munitions were frequently "short dumped," meaning dumped outside of the designated areas by contractors hired to take them to the intended locations. The Coast Guard previously issued Safety Alert 11-16 and Safety Alert 6-10 on this same topic and continues to strongly recommend that persons involved in the fishing and dredging industries: Review their navigational charts to ensure the areas in which they are trawling or dredging are not near labeled "Explosives Dumping Areas." Such areas must be given wide berth and seafarers should recognize that surface bottoms change and that objects can move significant distances from their original disposal areas. Review and follow recommendations from the Maritime Industry 3Rs Explosive Safety Guide. Carefully record the position of any munitions encountered and returned to the sea. Immediately report discovery to the National Response Center, at (800) 424-8802 to ensure a proper response and potential recovery. Alternatively, the local U.S. Coast Guard unit may be notified via VHF-FM Channel 16. This Safety Alert is provided for informational purposes only and does not relieve any domestic or international safety, operational, or material requirement. Developed by the Office of Commercial Vessel Compliance (CG-CVC) and distributed by the Office of Investigations and Casualty Analysis (CG-INV). Questions may be submitted to HQS-SMB-CGINV@uscg.mil.

Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Gulf of America - Subline Installation --- From: 2026-03-05 To: 2026-05-10 --- Dredge subline has been installed in the Gulf of America for the St. Joseph Peninsula Beach Renourishment and Coastal Structures Project. The pipeline corridor is bound by the following approximate positions: 29-41-14.44N 085-23-39.32W, 29-40-21.81N 085-23-00.42W, 29-40-57.85N 085-22-05.22W and 29-41-50.15N 085-22-38.51W. Mariners are urged to transit the area with caution.	
Sector Mobile, Submerged Land Act (SLA) - Mississippi Sound/General/Miscellaneous	Miscellaneous	The Department of the Air Force will enforce the charted Restricted Area found in 33 CFR 334.730. This area includes certain navigable waters of Santa Rosa Sound, the GIWW (Miles 204.6 to 216.4, WHL), and the Gulf of America (Gulf of Mexico) adjacent to Eglin Air Force Base Property. All entry, transit, anchoring or drifting within the restricted area for any reason is not allowed without permission from the U.S. Air Force (96 TW/CC), except to navigate the Gulf Intracoastal Waterway. Such vessels	Lat: 30° 23' 03" Lon: -086° 48'

		and other watercraft shall confine their movements to the waters within the limits of the GIWW and shall make the passage as promptly as possible under normal vessel speed. Other permitted access to the Restricted Area may be granted, in certain circumstances, by contacting the 96 TW/CC at (850) 882-2000.	24"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Temporary Research Buoy --- From: 2025-04-21 To: 2026-04-20 --- A lighted spotter research buoy displaying a flashing 2.5 second amber light at night has been temporarily established in approximate position 30-19-27.498N 087-08-39.684W.	Lat: 30° 19' 27" Lon: -087° 08' 40"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Research Buoy --- Established: 2025-09-24 --- A lighted yellow Ocean Data Acquisition System (ODAS) research buoy will be established in position 30-10-09.2N 088-01-18.8W. The buoy is 3.9 ft tall and features a flashing yellow light at night (FI(5)Y 20s). Mariners are urged to transit the area with caution.	Lat: 30° 10' 09" Lon: -088° 01' 19"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Horn Island Pass - Research Buoy --- Established: 2025-09-24 --- A lighted yellow Ocean Data Acquisition System (ODAS) research buoy will be established in position 30-11-42.5N 088-32-38.8W. The buoy is 3.9 ft tall and features a flashing yellow light at night (FI(5)Y 20s). Mariners are urged to transit the area with caution.	Lat: 30° 11' 42" Lon: -088° 32' 39"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Alabama River - In accordance with Section 7-11 of the ACT Master Water Control Manual dated April 2022, full navigation channel availability on the Alabama River is dependent upon channel maintenance, seasonal flow conditions, and basin status. Flows for navigation are most needed in the unregulated portion of the lower Alabama River below Claiborne Lock and Dam. Alabama Power Company (APC) operates its reservoirs on the Coosa and Tallapoosa Rivers to provide a minimum navigation flow target in the Alabama River at Montgomery, Alabama. Basin status criteria are correlated to APC Drought Operations (ADROP) updates which monitors drought triggers related to basin inflow, state line flow on the Coosa River between Georgia and Alabama, as well as composite storage availability within the APC projects. These updates are provided monthly on the first and third Tuesday. Below is the most recent ADROP update provided by Alabama Power Company: *ADROP UPDATE* - Low Basin Inflow: FALSE - - Low State Line Flow: FALSE - - Low Composite Storage: FALSE - - Montgomery Flow Target: 4680 cfs daily average - - Current Operations: Navigation Support, 9 ft Channel - Currently, based on profile survey conducted on 04JUN2024, a 10 ft tailwater elevation near Claiborne Lock is required to provide a 9 ft navigation channel on the lower Alabama River. A modified depth of 7.5 ft navigable draft can be provided with a tailwater elevation of 8.5 ft at the Claiborne Lock and Dam. Commercial mariners should check water levels daily and schedule lockage appointments by calling the Claiborne Lock Supervisor at (251) 282-4575. Tailwater elevations below Claiborne Lock and Dam can be viewed at: https://waterdata.usgs.gov/monitoring-location/USGS-02428401	Lat: 31° 36' 54" Lon: -087° 33' 06"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Aquaculture Platform Installation --- From: 2025-11-24 To: 2029-08-30 --- An aquaculture platform with a mooring system will be deployed as a temporary demonstration project in approximate position 30-12-06.73N 087-57-53.89W. The platform will feature yellow lights at night with yellow mooring buoys deployed nearby marking the subsea moorings. The M/V SPINNER will be on site intermittently for feeding and aquaculture operations. Mariners are urged to transit the area with caution. POC: (256) 415-3534	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	Gulf of America - U.S. Navy Operation --- From: 2025-09-03 To: 2026-05-31 --- The U.S. Navy will operate an unmanned surface vehicle (USV) towing underwater equipment in the Gulf of America, in the offshore waters of Panama City Beach, FL. The operating area will be bound by approximate positions: 30-07-58.59N 085-55-19.54W, 30-07-58.63N 085-50-42.76W, 30-03-56.30N 085-50-42.75W and 30-03-56.27N 085-55-19.44W. Two U.S. Naval support vessels will be on-scene during the USV operation. Mariners should maintain a wide berth from all U.S. Naval craft and are requested to avoid the area. VHF-FM Channel: 16

Sector New Orleans, Territorial Sea - Sector New Orleans, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Grand Lake - Dredging and Marsh Creation --- From: 2025-09-15 To: 2026-07-31 --- Amphibious and barge mounted excavators will be building marsh creation areas on the southern shoreline of Grand Lake. Dredges will pump material from the middle of Grand Lake into five marsh creation sites. Work will take place 24-hours a day, 7-days a week. On-scene vessels include the Dredges GRAND TERRE and GRAND GOSIER, tugs and barges. Three dredge pipeline segments will be floating in the area, with 1,000 ft sections submerged and marked. Access dredging may take place in Grand Lake and in the surrounding bodies of water, including Bayou Gentilly, Petit Lake and Alligator Pass. Mariners are urged to transit the area with caution and at their slowest safe speed to minimize wake. VHF-FM Channels: 16 and 71

General/MSIB	MSIB	MSIB 01-26 - State Highway 35 Bridge - Victoria Barge Canal - Issued: 2026-01-05 --- The U.S. Coast Guard Captain of the Port Corpus Christi has received reports of tug and barge allisions with the State Highway 35 Bridge and its accompanying fendering system near position 28-31-06.48N 096-48-16.92W. Due to the narrow nature of transiting under the bridge, the U.S. Coast Guard requests all mariners exercise caution when transiting the bridge, utilize side lights and appropriate lookouts for better visibility at night, and report any allisions with the bridge or its fendering immediately to the U.S. Coast Guard. Vessels can report allisions to the U.S. Coast Guard Sector Corpus Christi Command Center at (800) 874-2143. For non-urgent questions and concerns, mariners may email the U.S. Coast Guard Sector Corpus Christi Waterways Management Department at: CCWaterways@uscg.mil.	Lat: 28° 31' 08" Lon: -096° 48' 17"
