Lower Old River - Atchafalaya River/General/Bridges/Temp Deviation	Bridges	Atchafalaya River - Bridge Repairs --- From: 2025-09-02 To: 2026-06-30 --- The Krotz Springs Railroad Bridge crossing the Atchafalaya River, Mile 41.5, is undergoing repairs to the swing span and eastern fixed span of the bridge. While repairs are conducted, the Union Pacific Railroad Drawbridge will have scheduled closures and operational deviations (see below for the 2026 schedule). The western fixed spans of the bridge will remain open for vessel traffic throughout construction. The bridge operator can be contacted at (337) 566-3713 or on VHF-FM Channel 13. The bridge will operate with the following schedule: • 01JAN2026 – 30JUN2026: 6-hours notice will be required for vessels transiting the area between 6:30 p.m. and 6:30 a.m., the following day. The bridge will operate as normal between 6:30 a.m. and 6:30 p.m., with the following additional exceptions: • 29APR2026 – 08MAY2026: The swing span and eastern fixed span of the bridge will be closed to marine traffic. • 09MAY2026 – 10MAY2026: 6-hour notice for marine openings from 12:00 a.m., 09MAY2026, through 11:59 p.m., 10MAY2026.	Lat: 30° 32' 20" Lon: -091° 44' 46"
Lower Old River - Atchafalaya River/General/Miscellaneous	Miscellaneous	Atchafalaya River - Stouts Pass - Channel Conditions --- Reported: 2026-05-15 --- Multiple groundings have been reported in the vicinity of Stouts Pass on the Atchafalaya River between Miles 113.0 and 117.0. The most recent grounding occurred with a River Gauge of 3.9 ft and the vessel drafting 10 ft 3 in. Tows drafting more than 9 ft 6 in are urged to use extreme caution and slow to bear steerage way. For more information, mariners can contact the U.S. Coast Guard Marine Safety Unit Morgan City Waterways Management Division at (985) 397-3300 or U.S. Coast Guard VTS Berwick Bay at (985) 380-5322.	
Lower Old River - Atchafalaya River/General/Miscellaneous	Miscellaneous	Atchafalaya River - Little Island Pass - Stouts Pass - Temporary ATON Discontinuation --- Reported: 2026-05-18 --- Little Island Pass has undergone a phased discontinuation as a transitible waterway. The pass has been utilized as a dredged material placement area and has extremely shallow water. The two temporary white buoys at the north and south entrances to Little Island Pass have been permanently removed from the waterway. Two virtual AIS aids to navigation will remain in the area until July 20, 2026. Mariners are advised that the water depths for Little Island Pass may not be accurately reflected on the NOAA ENCs. Little Island Pass should not be utilized by any vessel. Mariners are urged to follow the federally marked channel through the Atchafalaya River/Stouts Pass when transiting the area.

Hopper barges and tugboats will be in the area and operating 24-hours a day, 7-days a week. Mariners should transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. POC: (225) 347-4339 or (337) 519-2759	
Sector Houston-Galveston, Submerged Land Act (SLA) - Calcasieu Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Calcasieu Channel - Calcasieu Loop - Dredge Operation --- From: 2025-01-25 To: 2027-02-01 --- The Dredges GENERAL ARNOLD and GENERAL BRADLEY will be conducting dredging along the Calcasieu Channel near the Calcasieu Loop. The dredge will operate along Monkey Island and pump dredged material via subline to the Booster Barge CAL 2109, located in the northeast portion of the Calcasieu Loop. A combination of steel and HDPE pipeline, floating rubber hoses, submerged pipe and shore pipe will be used in the project area. Additional on-scene vessels will include the T/Vs CHARLES J. CENAC and GYSGT BASILONE, Barge CALLAN 2111, Anchor Barge CALLEN 2104, Crane Barge CBR768, Survey Vessel CONSTITUTION I, and the Crew Boat LOWYN MARIE . Vessels are requested to avoid fishing or trawling within the area of the dredge pipeline, to avoid damage to nets, vessels, and project equipment. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution. VHF-FM Channel: 13, POC: (630) 207-5196	
Sector Houston-Galveston, Submerged Land Act (SLA) - Calcasieu Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Calcasieu Channel - GIWW - Dredge Operation --- From: 2026-03-10 To: 2026-09-26 --- The Dredge OHIO will be dredging along the Calcasieu River near the intersection with the GIWW, approximate River Mile 22.5, for the Louisiana Woodside LNG project. Approximately 8.5 miles of pipeline and booster pumps have been installed and staged from the dredging area along the Calcasieu Channel, routed through Choupique Bayou, and into the GIWW, along the northern edge and outside of the navigable limits. Floating and submerged pipelines along with a series of Boosters are located between GIWW Miles 241.0 and 252.0, WHL. A subline crossing is located between GIWW Miles 249.0 and 250.0, WHL, near the Booster ERIN. On-scene vessels include the Boosters TEXAS JR, JESSIE, BUSTER, REGGIE, CAPTAIN BARNEY, and ERIN C, Anchor Barges 112 and 120, Derrick Barges 66 and 72, T/Vs SMITH BUCCANEER, KJ LEBOEUF, CAPTAIN EDDIE, and EMILY A HERBERT, and the Crew Vessels TARPON 1, TARPON 3, JOHN NEWMAN, and COLUMBIA RIVER. All dredge pipeline will be marked with buoys and lighted accordingly. Barges and vessels are requested to avoid staging on the north side of the GIWW between the project limits. Mariners are urged to use caution in the area and transit at their slowest safe speed to minimize wake after passing arrangements have been made. VHF-FM Channels: 13 and 16, POC: (630) 247-6207	
Sector Houston-Galveston, Submerged Land Act (SLA) - Calcasieu Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Calcasieu Channel - Calcasieu Loop - Dredge Operation --- From: 2025-04-20 To: 2026-06-04 --- The Dredge GENERAL MACARTHUR will be conducting dredging along the Calcasieu Channel near the Calcasieu Loop. The dredge will operate along the east side of the channel at the CP1 Berth and pump dredged material via subline to the Booster Barge CAL 2109, located in the northeast portion of the Calcasieu Loop. A combination of steel and HDPE pipeline, floating rubber hoses, submerged pipe and shore pipe will be used in the project area. Additional on-scene vessels will include the T/Vs CHARLES J. CENAC, SGT HARRELL and GYSGT BASILONE, Barge CALLAN 2111, Anchor Barge CALLEN 2104, Survey Vessel CONSTITUTION IV, and the Crew Boat LOWYN MARIE . Vessels are requested to avoid fishing or trawling within the area of the dredge pipeline, to avoid damage to nets, vessels, and project equipment. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution. VHF-FM Channels: 13, 16 and 82, POC: (630) 207-5196

South Pass - Head Of Passes To New Orleans/General/LAA/RNA/Security Zone	LAA/RNA	Mississippi River - Southwest Pass - Security Zone --- From: 2026-05-24 To: 2026-06-01 --- To ensure security for visiting vessels during the Sail 250 New Orleans events, the Captain of the Port (COTP) New Orleans has designated all Sail 250 participating vessels as Vessels of Particular Interest or U.S. Naval Vessels. Under the authority of the Ports and Waterways Safety Act (USCG-2026-0592), the COTP is enforcing moving Security Zones around these vessels from 12:01 a.m., on May 24, 2026, through 11:59 p.m., on June 1, 2026. These moving Security Zones apply to all navigable waters from the Southwest Pass Entrance Lighted Buoy SW (LLNR-12680) to Mississippi River Mile 96.0, AHOP. All vessels and spectators are strictly prohibited from entering the following areas unless explicitly granted permission: • Within a 500-yard radius of U.S. Naval Vessels. • Within a 300-yard radius of all Vessels of Particular Interest. Vessels requesting permission to transit through these moving zones must contact the pilot onboard a Vessel of Particular Interest/U.S. Naval Vessel to make passing arrangements. A full list of all Sail 250 New Orleans participating vessels can be found at: www.sail250neworleans.com . For additional information, mariners can contact one of the following U.S. Coast Guard Departments: Vessel Traffic Service-LMR (24 Hour): (504) 365-2514 or VHF-FM Channels 1005 (05A), 12, or 67, Sector New Orleans Command Center (24 hour): (504) 365-2545, or Sector New Orleans Waterways Management: WWWNOLA@uscg.mil

The dredge will work 24-hours a day, 7-days a week. Dredged material will be deposited through a combination of floating and submerged pipelines into designated placement areas at the West Bay Disposal Sites. A combination of marked and lighted submerged and floating pipelines will be utilized for the placement of dredge materials to the various designated areas. A subline has been installed near Mile 1.3, AHOP. Temporary buoys have been installed across the river, marking the subline location from the LDB to the RDB. Additional on-scene vessels will include the Dredge TEXAS, T/Vs SEA CYPRESS, TEX B TREGRE and JACKIE M, the M/Vs MISS GWEN and TARPON IV, and the Survey Vessel HOLLIE BELLE. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. Galveston Bay Entrance Channel - Houston Ship Channel/General/Bridges/Construction	Bridges	Houston Ship Channel - Bridge Construction --- From: 2025-07-24 To: 2026-11-01 --- The Harris County Toll Road Authority (HCTRA) and a contractor will commence over-the-water construction of the new Beltway 8 (Sam Houston Tollway Ship Channel Bridge) over the Houston Ship Channel. Construction on areas outside the navigable channel will continue through May 2026. The U.S. Coast Guard Captain of the Port Houston-Galveston has established Safety Zones for the waters outside the federal channel surrounding the existing pillars. Vessels transiting this area are directed to utilize the marked federal channel and should remain clear of transiting beneath the overhead work. Channel closures to support work over the federal channel are expected to commence July 2026. Overnight closures, likely in the 8 to 10 hour range, every other night for a week will be needed. Following a round of overnight closures, the U.S. Coast Guard VTS will schedule 2-3 hour blocks of no traffic in daylight hours to allow for deck placement. A pattern of these closures are expected to continue for 3-4 months. Additional planning meetings focused on minimizing disruptions will be held with Port Partners as the closure dates approach. Mariners are urged to transit this area with extreme caution and check updated notices regarding closures prior to transiting the area.	Lat: 29° 44' 10" Lon: -095° 08' 45"
Galveston Bay Entrance Channel - Houston Ship Channel/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Houston Ship Channel - Shoaling --- Reported: 2024-12-11 To: Until Further Notice --- Shoaling has been reported in the Upper Houston Ship Channel, reducing water depths from the red side of the channel to the center line, between the Texas Beltway 8 Toll Bridge and a quarter mile above Houston Ship Channel Light 146 (LLNR-25790). Deep draft vessels are advised to proceed with caution. Vessels with a draft of 35 feet or greater should avoid the red side of the channel in this area. USACE surveys can be found at the following: https://www.swg.usace.army.mil/Missions/Navigation/Hydrographic-Surveys/	
Galveston Bay Entrance Channel - Houston Ship Channel/General/LAA/RNA/COTP Restriction	LAA/RNA	Houston Ship Channel - VTS Restriction --- From: 2026-05-20 To: 2026-05-22 --- Commencing at 10:00 p.m., May 21, 2026, and continuing through 4:00 a.m., May 22, 2026, the U.S. Coast Guard Vessel Traffic Service Houston-Galveston DIRECTS no vessel movements in the Houston Ship Channel between Houston Ship Channel Lights 117A/118 (LLNRs 25430/25425) and Houston Ship Channel Lights 121/122 (LLNRs 25445/25455), due to dredge pipeline operations. Vessels will not be allowed to stop or push in along the Houston Ship Channel during the closure. For updates regarding the work, the on-scene dredge pipeline project vessels will monitor VHF-FM Channels 13, 16, and 79.	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Barbours Terminal Channel - Marine Construction and Dredging --- From: 2025-04-07 To: 2027-07-01 - -- Dredging and marine construction will be taking place along the Houston Ship Channel and the Barbours Terminal Channel, 24-hours a day, 7-days a week. Dredging and demolition will take place along Morgans Point and transition into concrete bulkhead construction. An additional bulkhead wall will be built along Spilmans Island. Dive operations may take place intermittently throughout the project. On-scene vessels will include the T/Vs MOONEY and EVERLINE, the Work Boat SCULLY, the Crane Barge CB01 and the Barge GD-2013. Mariners are urged to transit the area at their slowest safe speed, observe all day shapes and dive flags, and proceed with caution. VHF-FM Channels: 13 and 16

Dive operations may take place intermittently throughout the project. On-scene vessels will include the T/Vs MOONEY and EVERLINE, the Work Boat SCULLY, the Crane Barge CB01 and the Barge GD-2013. Mariners are urged to transit the area at their slowest safe speed, observe all day shapes and dive flags, and proceed with caution. VHF-FM Channels: 13 and 16	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dock Construction --- From: 2025-09-04 To: June 2026 --- Dock construction is being conducted along the Houston Ship Channel at City Docks 20 and 21. Work will consist of demolishing and rebuilding of the fendering system and bulkhead construction. Operations will be conducted Monday through Friday. Workers will operate at the waterline and under the dock on skiffs. Divers may be present intermittently throughout the project. Mariners should transit the area with caution and at their slowest safe speed to minimize wake. POC: (832) 926-2215	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dock Construction --- From: 2026-01-05 To: Until Further Notice --- Dock construction is being conducted along the Houston Ship Channel at City Docks 13 and 14. Operations will be conducted from 7:00 a.m. to 5:00 p.m., Monday through Friday. Mariners should transit the area with caution and at their slowest safe speed to minimize wake. VHF-FM Channels: 12, 21 and 66A, POC: (713) 249-7118	

Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Bayport Ship Channel - Dredge Operation --- From: 2026-05-01 To: 2026-10-01 --- The Dredge MAGDALEN will be working in the Houston Ship Channel and Bayport Flare, between Houston Ship Channel Light 50 (LLNR-24125) and Houston Ship Channel Light 92 (LLNR-24600). The T/V BREAK OF DAWN will conduct drag bar operations in the Bayport Flare work area through June 30, 2026. Operations will be conducted 24-hours a day, 7-days a week. Dredged material will be deposited in the ocean dredged material disposal site (ODMDS) charted west of the Galveston Entrance Channel. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. VHF-FM Channels: 13 and 16, POC: (985) 237-9667 or (985) 705-1477
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Barbours Cut - Barbours Terminal Channel - Dredge Operation --- From: 2026-05-05 To: 2026-06-30 --- The Dredge GENERAL BRADLEY will be dredging in the south and north flares of Barbours Cut. Operations will be conducted 24-hours a day, 7-days a week. A subline will be used during the project location between Houston Ship Channel Light 91 (LLNR-24595) and Houston Ship Channel Light 92 (LLNR-24600). Dredged material will be pumped through a combination of floating and submerged pipelines to the disposal area at Atkinson Island. On-scene vessels will include the Anchor Barge CM2006 and T/Vs DOUGLAS B. and CAPT BRENNAN. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channels: 11, 13, 16 and 71
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dredge Operation --- From: 2026-05-13 To: 2026-05-26 --- The Dredge MBI-08 will be conducting dredging operations along the Houston Ship Channel in the vicinity of the OneOK MVP/Magellan Valero Pasadena Terminal. Dredged material will be loaded into regulation hopper barges and transported to an unloader barge located at Adloy along the San Jacinto River. On-scene support vessels will include the T/Vs ASHLEY ANN, LILY C., GRAND ANN and JACKSON FOSTER. The dredge is requesting 30-minutes notice for traffic to and from ship dock 3 and 1. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channels: 76 or 78, POC: (228) 213-0600
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dredge Operation --- From: 2026-05-08 To: Until Further Notice --- The Dredge CONSTELLATION is working in the Houston Ship Channel from the Barbours Terminal Channel to the Lynchburg Ferry Landing. The dredge is currently working between Houston Ship Channel Light 124A (LLNR-25500) and Houston Ship Channel Light 122 (LLNR-25455). Operations will be conducted 24-hours a day, 7-days a week. Staged floating pipeline is located outside of the channel in vicinity of Houston Ship Channel Light 126 (LLNR-25515) and subline has been laid across the bottom of the San Jacinto River. The dredge will utilize floating pipe and subline to discharge dredged material to placement sites at Alexander Island and Lost Lake. Additional on-scene vessels include the T/Vs DAVID LUNDIN, CHARLIE B, and COMMODORE, a supply barge, two anchor barges, a crane barge, the Crew Boat CHAMPION, and the Survey Vessel GALILEO. The dredge requests no meeting or overtaking and wake/surge considerations in the area. Additionally, tows are requested to coordinate with the dredge 30-minutes in advance and ships are requested to coordinate 45-minutes in advance. Mariners are urged to transit the area with caution. VHF-FM Channels: 13, 17 and 79, POC: (713) 913-7208
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dredge Operation --- From: 2026-05-09 To: Until Further Notice --- The Dredge MBI-12 will be conducting dredging operations along the Houston Ship Channel in the vicinity of Cargill Ship Dock 1. Dredged material will be loaded into regulation hopper barges and transported to an unloader barge located at Adloy along the San Jacinto River. On-scene support vessels may include the T/Vs ASHLEY ANN, LILY C., GRAND ANN and JACKSON FOSTER. The dredge requests a 1-hour notice for ship dock 1 vessel traffic. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channels: 76 or 78, POC: (409) 277-5775
Galveston Bay Entrance Channel - Houston Ship Channel/General/Miscellaneous	Miscellaneous	San Jacinto Bay Barge Channel - USI Canal - Aid to Navigation Discontinuation --- Reported: 2025-08-19 --- The private aids to navigation marking the San Jacinto Bay Barge Channel (USI Canal), from San Jacinto Bay Barge Channel Daybeacon 5 (LLNR-25120) to San Jacinto Bay Barge Channel Daybeacon 28 (LLNR-25200) have been discontinued. Vessels should avoid meeting or overtaking throughout the channel and should exercise extreme caution when transiting at night or during reduced visibility. Mariners accustomed to utilizing these private aids when navigating the San Jacinto Bay Barge Channel (USI Canal) should transit the area with caution.
Galveston Bay Entrance Channel - Houston Ship Channel/General/MSIB	MSIB	Houston Ship Channel - Morgans Point - VTS USI Canal/San Jacinto Bay Channel Directive --- The USI Canal/San Jacinto Bay Channel has become increasingly trafficked over the last 2 years. For various reasons, many tows attempt to reconfigure between Morgans Point and Exxon to go into or come out of the USI Canal. This practice has resulted in several near miss situations between Morgans Point and the Exxon Terminal in the Houston Ship Channel. In order to fulfill the VTS mission of reducing risk of collision, allision, damage, pollution, and injury, the following Directive is in effect and will be written as policy in documentation updates to the U.S. Coast Guard VTS Houston-Galveston User Guide: • Vessel Traffic Service Houston-Galveston Directs no barge work in the Houston Ship Channel between Morgans Point and Exxon for purposes of going into/out of the USI Canal. •

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Head Of Passes To New Orleans - Inner Harbor Navigation Canal/General/LAA/RNA/Safety Zone	LAA/RNA	Inner Harbor Navigation Canal - GIWW - Safety Zone --- From: 2026-04-20 To: Until Further Notice --- The 54-inch damaged sewer main has a temporary repair that has secured the discharge of sewage into the waterway as of April 27, 2026. While the health threat has been mitigated, the 54-inch sewer main remains damaged and is undergoing a multi-week repair process. The U.S. Coast Guard COTP New Orleans will enforce a Safety Zone for all navigable waters from Mile 6.5, EHL, to Mile 10.0, EHL, in the GIWW and Inner Harbor Navigation Canal with the following vessel traffic restrictions: 1. All vessels shall transit at their slowest safe speed. 2. All vessels shall avoid meeting or overtaking in this area. Daily daylight dive assessments of the damaged sewage line will take place from 8:00 a.m. to 7:00 p.m. The on-scene dive operations supervisor, Josh Lambert, may be contacted via VHF-FM Channel 67, or at (985) 273-1756. Divers can access the work location from shore and will need an approximate 70-foot work area from the bank. The dive work area is located in approximate position 29-58-49.18N 090-01-21.60W. For further information, mariners can contact the U.S. Coast Guard Sector New Orleans Command Center at (504) 365-2545 or the Sector Waterways Management Division at: wmmnola@uscg.mil.	

General/Miscellaneous	Miscellaneous	Inner Harbor Navigation Canal Lock - USACE Navigation Bulletin Reissue --- * MARINERS ARE ADVISED THAT THIS POLICY NOTICE FOR THE INNER HARBOR NAVIGATION CANAL (IHNC) LOCK REMAINS IN EFFECT INDEFINITELY. * Due to the limited mooring space between the Florida Avenue Bridge and the Inner Harbor Navigation Canal Lock, it is required that all tows contact the Lock on VHF-FM Channel 14 for locking information prior to navigating through the Florida Avenue Bridge. Towboat Captains are reminded that if a tow has to be broken for locking operations, this shall be done prior to coming through the Florida Avenue Bridge and the barges shall not be left unattended in the canal for any reason. Towboat Captains must use the mooring buoys and tend the wheelhouse at all times. To prevent bank erosion, Tow Captains are also reminded not to push the head of their tow into the banks on the river or canal end of the lock for any reason while waiting for their locking. The Lockmaster, Richard McKinzie, can be reached at 504-945-2157. The points of contact with the New Orleans District are Robert Swayze at 504-862-2060, Jesse Adams at 504-862-1061 and Brandon Keck at 504-862-2630.	Lat: 29° 57' 53" Lon: -090° 01' 38"

Head Of Passes To New Orleans - New Orleans Harbor/General/LAA/RNA/Security Zone	LAA/RNA	Mississippi River, Mile 92.7 to 96.0, AHOP - New Orleans Harbor - Security Zone --- From: 2026-05-24 To: 2026-06-01 --- The U.S. Coast Guard will enforce a Temporary Security Zone for all navigable waters within 500 yards of the LDB, between Miles 92.7 and 96.0, AHOP, for the Sail 250 New Orleans Event. The Security Zone will be active from 12:01 a.m., May 24, 2026, through 11:59 p.m., June 1, 2026, with strict enforcement from May 27 - June 1, 2026. Entry of vessels or persons into this zone is prohibited, unless specifically authorized by the U.S. Coast Guard Vessel Traffic Service Lower Mississippi River (VTS-LMR). Recreational vessels requesting entry must contact the U.S. Coast Guard on-water asset on VHF-FM Channel 12, or for emergencies, VHF-FM Channel 16. During the strict enforcement of the Temporary Security Zone, and at the Algiers Point Special Area, vessels shall not meet, cross, or overtake any other vessel without prior approval from U.S. Coast Guard VTS LMR. Once the VTS approval is granted, vessels must communicate intended movements on the designated bridge-to-bridge radiotelephone frequency to finalize safe passing arrangements before executing any maneuvers. For additional information, mariners can contact one of the following U.S. Coast Guard Departments: Vessel Traffic Service-LMR (24 Hour): (504) 365-2514 or VHF-FM Channels 1005 (05A), 12, or 67, Sector New Orleans Command Center (24 hour): (504) 365-2545, or Sector New Orleans Waterways Management: WWMNOLA@uscg.mil	
Head Of Passes To New Orleans - New Orleans Harbor/General/LAA/RNA/Security Zone	LAA/RNA	Mississippi River, Mile 94.0 to 95.0, AHOP - New Orleans Harbor - Security Zone --- On: 2026-05-30 --- The U.S. Coast Guard will enforce a Temporary Security Zone for all navigable waters between Mississippi River Miles 94.0 and 95.0, AHOP, for the Sail 250 New Orleans Fireworks Display. The Security Zone will be active from from 8:45 p.m. to 9:30 p.m. Entry of vessels or persons into this zone is prohibited, unless specifically authorized by the U.S. Coast Guard Vessel Traffic Service Lower Mississippi River (VTS-LMR). Recreational vessels requesting entry must contact the U.S. Coast Guard on-water asset on VHF-FM Channel 12, or for emergencies, VHF-FM Channel 16. During the enforcement period of the Temporary Security Zone, and at the Algiers Point Special Area, vessels shall not meet, cross, or overtake any other vessel without prior approval from U.S. Coast Guard VTS-LMR. Once the VTS approval is granted, vessels must communicate intended movements on the designated bridge-to-bridge radiotelephone frequency to finalize safe passing arrangements before executing any maneuvers. For additional information, mariners can contact one of the following U.S. Coast Guard Departments: Vessel Traffic Service-LMR (24 Hour): (504) 365-2514 or VHF-FM Channels 1005 (05A), 12, or 67, Sector New Orleans Command Center (24 hour): (504) 365-2545, or Sector New Orleans Waterways Management: WWMNOLA@uscg.mil

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sabine Pass - Port Arthur Canal/General/LAA/RNA/Security Zone	LAA/RNA	Port Arthur Canal - Security Zone Reminder --- With the resumption of marine operations at Golden Pass LNG in Sabine Pass, Texas, mariners are reminded that a federal permanent Security Zone is established in accordance with 33 CFR § 165.819. As stated in 33 CFR § 165.819, when a LNG carrier is moored at the Golden Pass LNG mooring basin, a security zone is activated for all waters south of a line connecting the following coordinates: 29-45-58.0N 093-55-40.0W, east to 29-45-52.8N 093-55-20.8W, and bearing 120° T to the shoreline at 29-45-50.0N 093-55-17.0W. Entry into or remaining within the security zone is prohibited for all vessels except: 1. Commercial vessels operating at waterfront facilities within the zone. 2. Commercial vessels transiting directly to or from waterfront facilities within the zone. 3. Vessels providing direct operational or logistical support to commercial vessels within the zone. 4. Vessels operated by the appropriate port authority or by facilities located within the zone. 5. Vessels operated by Federal, State, county, or municipal law enforcement agencies. All other persons or vessels must request permission to enter the security zone from the Captain of the Port or their designated representative. To request permission, vessels can contact U.S. Coast Guard Vessel Traffic Service Port Arthur on VHF-FM Channel 01A or 65A, or by telephone at (409) 719-5070. For more information, mariners should refer to 33 CFR § 165.819 for the full regulatory text and additional details.

General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Port Mansfield Channel - Shoaling --- Reported: 2025-03-12 --- Extreme shallow water and shoaling has been reported throughout the Mansfield Cut/Port Mansfield Channel. Mariners should exercise caution when navigating through this area and pay close attention to tide levels when departing and returning through the cut.	
Sector Corpus Christi, Submerged Land Act (SLA) - Port Mansfield Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Port Mansfield Channel - Dredge Operation --- From: 2026-01-19 To: 2027-02-11 --- The Dredges GENERAL BRADLEY and GENERAL MARSHALL will conduct dredging operations in the Port Mansfield Channel, from just east of the jetties, through the entire inland portion of the Port Mansfield Channel, and into the Port Mansfield Harbor. The Dredge GENERAL MARSHALL will start working near Port Mansfield Channel Daybeacon 18 (LLNR-29360) with anchors set on either side of the channel. A combination of steel and HDPE pipeline will be used with floating rubber hose, floating pipe, submerged pipe and shore pipe leading to the placement areas at Bird Island and along the Padre Island Beach. Submerged pipelines will be placed across the channel in locations that provides sufficient depth and will be marked with lights and buoys. No fishing or trawling activities should take place along or within the area of pipeline, to avoid damage to nets, vessels, and the dredge equipment. Mariners are requested to coordinate passing arrangements 1-hour in advance and transit the area with extreme caution. VHF-FM Channels: 13 and 79, POC: Dredge (409) 739-6508

Sector Mobile, Exclusive Economic Zone (EEZ)/General/MSIB	MSIB	<p>Marine Safety Alert 02-24 - Inspections and Compliance Directorate --- DANGEROUS BYCATCH FROM DISCARDED MUNITIONS REMAINS A PRESENT DAY HAZARD --- This Safety Alert is being issued to raise awareness of lurking hazards caused by discarded munitions, which often contain active explosives or chemical agents. Although the practice of dumping munitions into the sea ceased in 1970, a significant amount remains hidden in coastal waters, posing a safety hazard to commercial fisherman, dredge operators, and others who trawl and work the ocean floor. Recently, a deckhand on a clamming vessel was severely burned when a canister was dredged up and brought onboard with clams and other debris. The canister likely contained mustard gas or another blistering agent, but did not display any obvious visual, audible, or odor indicators of discharging content. A member of the crew discovered the canister and threw it back overboard. Several hours later he developed a severe rash that required professional medical treatment. Mustard gas is a chemical weapon developed during World War I. Millions of pounds of this product, other chemical weapons, bombs, torpedoes, artillery shells, and munitions were routinely disposed of and remain in U.S. coastal waters. Although many munition dump areas are well marked on navigation charts, numerous areas where munitions were discarded remain unmarked. There is also evidence suggesting that munitions were frequently "short dumped," meaning dumped outside of the designated areas by contractors hired to take them to the intended locations. The Coast Guard previously issued Safety Alert 11-16 and Safety Alert 6-10 on this same topic and continues to strongly recommend that persons involved in the fishing and dredging industries: Review their navigational charts to ensure the areas in which they are trawling or dredging are not near labeled "Explosives Dumping Areas." Such areas must be given wide berth and seafarers should recognize that surface bottoms change and that objects can move significant distances from their original disposal areas. Review and follow recommendations from the Maritime Industry 3Rs Explosive Safety Guide. Carefully record the position of any munitions encountered and returned to the sea. Immediately report discovery to the National Response Center, at (800) 424-8802 to ensure a proper response and potential recovery. Alternatively, the local U.S. Coast Guard unit may be notified via VHF-FM Channel 16. This Safety Alert is provided for informational purposes only and does not relieve any domestic or international safety, operational, or material requirement. Developed by the Office of Commercial Vessel Compliance (CG-CVC) and distributed by the Office of Investigations and Casualty Analysis (CG-INV). Questions may be submitted to HQS-SMB-CGINV@uscg.mil.</p>
Sector Mobile, Exclusive Economic Zone (EEZ)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	<p>Gulf of America - U.S. Navy Testing --- From: 2026-05-25 To: 2026-06-18 --- The U.S. Navy will be conducting naval system testing in the Gulf of America. Operations will be conducted 24-hours a day, 7-days a week. The operating area will be bound by the following approximate positions: 29-50-08.14N 086-09-36.11W, 29-53-03.11N 086-17-30.29W and 29-47-20.63N 086-22-59.45W. On-scene vessels will include the M/V VIKING or PATRIOT and the PSC-1. Mariners should maintain a 1 nm closest point of approach from all U.S. naval craft. Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Alabama River - In accordance with Section 7-11 of the ACT Master Water Control Manual dated April 2022, full navigation channel availability on the Alabama River is dependent upon channel maintenance, seasonal flow conditions, and basin status. Flows for navigation are most needed in the unregulated portion of the lower Alabama River below Claiborne Lock and Dam. Alabama Power Company (APC) operates its reservoirs on the Coosa and Tallapoosa Rivers to provide a minimum navigation flow target in the Alabama River at Montgomery, Alabama. Basin status criteria are correlated to APC Drought Operations (ADROP) updates which monitors drought triggers related to basin inflow, state line flow on the Coosa River between Georgia and Alabama, as well as composite storage availability within the APC projects. These updates are provided monthly on the first and third Tuesday. Below is the most recent ADROP update provided by Alabama Power Company: *ADROP UPDATE* - Low Basin Inflow: FALSE - Low State Line Flow: TRUE - Low Composite Storage: FALSE - Montgomery Flow Target: 4640 cfs daily average - Current Operations: Drought Intensity Level 1 - Currently, based on profile survey conducted on 04JUN2024, a 10 ft tailwater elevation near Claiborne Lock is required to provide a 9 ft navigation channel on the lower Alabama River. A modified depth of 7.5 ft navigable draft can be provided with a tailwater elevation of 8.5 ft at the Claiborne Lock and Dam. Commercial mariners should check water levels daily and schedule lockage appointments by calling the Claiborne Lock Supervisor at (251) 282-4575. Tailwater elevations below Claiborne Lock and Dam can be viewed at: https://waterdata.usgs.gov/monitoring-location/USGS-02428401	Lat: 31° 36' 54" Lon: -087° 33' 06"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Aquaculture Platform Installation --- From: 2025-11-24 To: 2029-08-30 --- An aquaculture platform with a mooring system will be deployed as a temporary demonstration project in approximate position 30-12-06.73N 087-57-53.89W. The platform will feature yellow lights at night with yellow mooring buoys deployed nearby marking the subsea moorings. The M/V SPINNER will be on site intermittently for feeding and aquaculture operations. Mariners are urged to transit the area with caution. POC: (256) 415-3534	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Unmanned Aerial System Tests --- From: 2026-05-26 To: 2026-05-29 --- An Unmanned Aerial System (UAS) will be tested from Santa Rosa Island to nearshore portions of the Gulf of America. Tests will take place from sunrise to sunset and will include the evaluating of takeoff and landing of the UAS in the maritime environment. The UAS will operate for 15-minutes at a time and travel up to 55 miles per hour. Operations will be conducted Monday thru Saturday, from sunrise to sunset. On-scene vessels will include the M/Vs KELLY RAE and BIG KAHUNA. Support craft will display a dive flag and will monitor VHF-FM Channel 16. Mariners are urged to avoid the testing area.	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/MSIB	MSIB	MSIB 32-26 - Potential Unexploded Ordnance (UXO) Hazard Gulf of America - Fort Pickens, FL --- The U.S. Army Corps of Engineers (USACE) is conducting feasibility studies under the CERCLA process to assess hazards associated with historical munitions to include potential unexploded ordnance (UXO) in the vicinity of Fort Pickens, Pensacola, FL. Due to historical usage of this area, the U.S. Coast Guard advises mariners of potential UXOs located within the Gulf of America and Pensacola Bay, near Santa Rosa Island, Fort Pickens, FL. UXOs should be considered extremely dangerous. If touched, moved, or disturbed, these items may detonate, causing severe injury, death, or property damage. Mariners are strongly urged not to anchor or conduct any bottom-disturbing activities within High Use Areas (HUA) and should exercise caution when conducting activities in the Low Use Areas (LUA). Reference diagrams, provided in the hard copy version of MSIB 32-26, identify Low Use Areas (LUA) in green and High Use Areas (HUA) in orange. If a mariner encounters a UXO, please contact 911 to report the location that it was found. Concerned parties may report any hazardous conditions to the U.S. Coast Guard Sector Mobile Command Center at (251) 266-5888. Additional information is available at: https://www.saj.usace.army.mil/FortPickens/	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	Gulf of America - U.S. Navy Operation --- From: 2025-09-03 To: 2026-05-31 --- The U.S. Navy will operate an unmanned surface vehicle (USV) towing underwater equipment in the Gulf of America, in the offshore waters of Panama City Beach, FL. The operating area will be bound by approximate positions: 30-07-58.59N 085-55-19.54W, 30-07-58.63N 085-50-42.76W, 30-03-56.30N 085-50-42.75W and 30-03-56.27N 085-55-19.44W. Two U.S. Naval support vessels will be on-scene during the USV operation. Mariners should maintain a wide berth from all U.S. Naval craft and are requested to avoid the area. VHF-FM Channel: 16

General/MSIB	MSIB	MSIB 01-26 - State Highway 35 Bridge - Victoria Barge Canal - Issued: 2026-01-05 --- The U.S. Coast Guard Captain of the Port Corpus Christi has received reports of tug and barge allisions with the State Highway 35 Bridge and its accompanying fendering system near position 28-31-06.48N 096-48-16.92W. Due to the narrow nature of transiting under the bridge, the U.S. Coast Guard requests all mariners exercise caution when transiting the bridge, utilize side lights and appropriate lookouts for better visibility at night, and report any allisions with the bridge or its fendering immediately to the U.S. Coast Guard. Vessels can report allisions to the U.S. Coast Guard Sector Corpus Christi Command Center at (800) 874-2143. For non-urgent questions and concerns, mariners may email the U.S. Coast Guard Sector Corpus Christi Waterways Management Department at: CCWaterways@uscg.mil.	Lat: 28° 31' 08" Lon: -096° 48' 17"
