TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting Marine construction in the vicinity of Vallejo, California within the California State University Maritime Academy Boat Basin. The initiation of waterside operations for this project will entail the deployment of multiple crane barges secured by both anchors and spuds, along with a continuous rotation of material supply barges, tug tenders, "Linda T" workboat, and various small skiffs. Activities are scheduled to commence as early as September 12, 2025 to December 2027. Beginning with the mobilization of Crane Barge Kelso ("CB Kelso") and EM1106 ("Morty") barge fitted with appropriately sized crawler cranes. The designated vessels will be monitoring VHF-FM channels 9 & 16, with the working channels 68A or 80. All mariners are advised to use caution when transiting the area, for more information contact: Scott 707-333-5029	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will conduct continuous, 24-hour dredging and disposal operations at the Cal Maritime Boat Basin in the Carquinez Strait from July 6, 2026, through approximately September 30, 2026. Dredging will be performed by the clamshell dredges "DB 24" and/or "DB Beaver," supported by a fleet of four split-hull scows, the tender tug "Becky T," and the tow tug "Sarah Reed" (Call Sign: KX7468) or a similar vessel. Maintenance sediment from the Legacy Dredge Area (LDA) will be transported for disposal at the SF-09 site, while sediment from the New Dredge Area (NDA) will be disposed of at the MWRP site. All working vessels will actively monitor VHF-FM channels 13, 14, and 80. Mariners are advised to exercise extreme caution, maintain a safe distance from all working equipment, and proceed at a safe speed when transiting the Carquinez Strait. For operational questions or passing arrangements, contact the dredge superintendent, Mr. Dennis Salyers, at (415) 497-5289, or the project office at (415) 218-6739.	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Construction operations will be conducted at the Benicia Marina Breakwater, Benicia, from September 28, 2026, to December 17, 2026, in the vicinity of 38.04381, -122.15739. Vessels involved in the operation include DB Pacific and DB Alameda. DB Pacific will monitor VHF-FM Channel 69, and DB Alameda will monitor VHF-FM Channel 71. Mariners are requested to transit the area with caution. For more information, contact Bennett Clegg at (415) 559-0089. All mariners are advised to transit the area with caution.	

Del Mar Boat Basin

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Oceanside - Del Mar Boat Basin/General/Miscellaneous	Miscellaneous	The U.S. Coast Guard has received a report of shoaling in the vicinity of the Oceanside Harbor entrance near Oceanside South Jetty Light 2, located at approximately 33.20583° N, -117.40138° W. Mariners are advised that vessels with a draft of 10 feet or greater should remain to the west side of the channel during tides of less than +1 foot, as there is a risk of grounding on the east side of the channel during negative tides for drafts of 10 feet or greater. All mariners are urged to transit the area with caution. The relevant chart numbers for this area are US5CA77M (Del Mar Boat Basin) and US4CA73M (Gulf of Santa Catalina, Del Mar Boat Basin-Camp Pendleton). Questions or concerns can be directed to marineeventssd@uscg.mil

Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. will conduct dredging operations within Newport Bay Harbor, California. The scope of operations includes dredging activities with disposal occurring at the LA-3 Ocean Dredged Material Disposal Site and the Port of Long Beach Pier G facility. Pre-dredge surveying and diving operations began on October 23, 2025, and are ongoing. Equipment mobilization is scheduled to start on December 8, 2025, with dredging expected to commence on or about December 10, 2025. Equipment demobilization is anticipated to be completed by October 28, 2026. The center of the dredging area is located at coordinates 33.60898° N, -117.90689° W (degree decimal format) and is referenced on NOAA Chart No. 18754. A temporary mooring buoy will be placed on a rotating basis at one of three locations: 33.61126° N, -117.90715° W 33.60857° N, -117.91713° W 33.60733° N, -117.91232° W Vessels involved in the project include the DB Point Loma, Jeanie R push boat, John Drake work boat, RES Survey Boat, Tug Killeen, Tug Sagittarian, and disposal scows Rob P. and Mike J. All equipment will monitor VHF-FM Channel 16. Mariners are advised to stay at least 300 feet away from equipment, transit at their slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made. For additional information, please contact: Dalton Elzey, R.E. Staite Engineering, Inc.: 925-822-6775 Jose Rocha, U.S. Army Corps of Engineers: 909-253-9921

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Francisco Oakland Bay Bridge West Crossing - Oakland Inner Harbor/General/Bridges/Lighting and Other Signals	Bridges	NORTHERN CALIFORNIA-OAKLAND INNER HARBOR-FRUITVALE AVE RAIL BRIDGE-The lift span of the rail bridge is kept in the partially opened position providing 80 feet of vertical clearance at mean high water. The lift span can be raised to its fully open position upon request to the drawtender at the Miller Sweeny (Fruitvale Ave) bridge. The following is the new navigation lighting configuration at the rail bridge. 1. When the bascule span of the highway bridge is in the closed-to-navigation position and the lift span of the railroad bridge is in the partially open position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show a red 180-degree center span light on the upstream and downstream lower edge of the span. 2. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the partially opened position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show one solid 360-degree green light and one flashing 360-green light on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. 3. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the fully opened position, providing 135 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show two solid 360-degree green lights on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-TOWER BRIDGE-The lift span of the bridge will be secured in the closed-to-navigation position for electrical rehabilitation from August 3 through October 18, 2026. When closed the bridge provides 29 feet of vertical clearance at mean high water. Vessels able to transit the bridge while closed can continue to do so at any time. The span will not be able to open for any reason during this time. Temporary underdeck platforms will be installed east of the east tower and west of the west tower and will be higher than the lowest hittable portion of the bridge at those sites. The upriver and downriver lower edges of the platform will be lighted at night with steady burning red lights. At no time will the temporary platforms be installed beneath the main (lift) span. For on-site conditions contact Caltrans at 916-869-0600 or the contractor at 925-250-2027. For further information contact the Coast Guard Bridge Office at 510-219-4366.	Lat: 38° 34' 50" Lon: -121° 30' 30"
Sacramento River/General/Bridges	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-FREEPORT BASCULE BRIDGE-The bridge will be secured in the closed to navigation position from November 1 through November 30, 2026 to conduct urgent repairs in order to maintain the reliable operation of the bridge. When closed the bridge provides 29' of vertical clearance at Mean High Water. Vessels able to transit the bridge while closed can continue to do so at any time. For further information contact the Coast Guard Bridge Office at 571-607-2207 or at D11Bridges@uscg.mil.	Lat: 38° 27' 20" Lon: -121° 30' 07"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Contractors for the U.S. Army Corps of Engineers will conduct marine operations for levee rehabilitation along the Sacramento River between River Miles 47.3 and 53.5 . Waterside work is scheduled to begin July 6, 2026, and will continue through approximately November 30, 2026. Operations will involve up to three crane barges (including Crane Barge #12, measuring approximately 140' x 50'), a tugboat, two workboats, and a rotation of flat deck barges. Work will occur during daylight hours; however, barge maneuvering outside the construction area may occur 24 hours a day. Flat deck barges will transit between the job site and the San Rafael Rock Quarry, utilizing pre-existing moorings along the Sacramento River, including locations at River Miles 26 and 27 near Walnut Grove, CA. At the end of each shift, barges will be spudded in place and marked with steady burning white lights on all corners. Mariners are advised to use extreme caution, transit at their slowest safe speed to minimize wake, and maintain a safe distance. Project vessels will monitor VHF-FM channels 9, 16, and 68A, and can be contacted directly at (707) 333-5029.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CAL-NEVA Construction Services will conduct marine operations to install the Bio-Acoustic Fish Fence (BAFF) at position 38.239444, -121.518333 from October 5, 2026, through October 9, 2026. Operations will be conducted using the derrick barge "DB Steadfast" along with an accompanying flat barge. The barges will be either spudded down or anchored using a four-point mooring system marked with 5-foot crown buoys, which will be lighted at night with flashing white strobes. Mariners are requested to transit the area with caution. All vessels and equipment on-scene will monitor VHF-FM channels 8, 13, and 14. For more details or comments, contact Mohammed (Shahid) Anwar at 916-288-2129.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Dutra Group will conduct material placement operations for the California Department of Fish & Wildlife at the Liberty Island Ecological Reserve in Sacramento County, CA, from May 1, 2026, to no later than October 15, 2026. Operations will involve anchoring Crane Barge 12 via spuds along the perimeter of Liberty Island, supported by a tugboat and material barge. The crane barge and tugboat will mobilize from Dutra's Rio Vista Yard, with work occurring at various locations within and around the construction area. Barges will be spudded in with steady burning lights at the end of each shift, and all marine equipment will monitor VHF-FM channels 9, 16, and working channel 68A. For more information, please contact (707) 333-5029. All mariners are advised to transit the area with caution and at their slowest safe speed to minimize wakes.

Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Marinship Development will commence dredging operations for the San Francisco Marina West Basin, City and County of San Francisco. The scope of operations includes dredging activities west of the marina entrance, centered at approximately 37.80889° N, -122.43998° W Operations are scheduled to begin on or about March 20, 2026, and will continue through November 30, 2026. Vessels involved in the project include the self-contained dredge/dump barges "DB2" and "Alaska," and tugboat "Harvey." All vessels will monitor VHF channels 13, 14, and 77. For more information regarding the operation, please contact: 415-601-1024. All mariners are advised to use extreme caution when transiting these areas.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Sevenson Environmental Services and PGE will be conducting environmental dredging and installing steel piles from 19 May, 2026 - 30 November, 2026. Operation times will be five to six days per week, with hours of operations 5am to 7pm(local). This operation will include the use the following vessels and equipment: 40x80 PC650-01, 40x80 PC650-02, Crane Barge MICHEAL LIND, Staging barge STELLA LIND, Tug CASSIE LIND, Tug ARCHIE LIND, SEVENSON 01 and 02 work boats. The project location is centered at approximately at the San Francisco Pier 41 to Pier 43, in position: 37°48'35.20"N; 122°24'46.41"W. All vessels and equipment on site will monitor VHF-FM Channels 13, 14 and operating on 11. Sevenson will utilize two 40x80 barges with PC650 excavators on them to perform environmental dredging and capping via clam shell bucket and conventional buckets. Sevenson has hired Lind marine to subcontract out work including the transloading operations via E-Crane "Greta Jean Lind". The Michael Lind (Crane Barge) will be in the area for support, along with another spud barge "Stella Lind" for staging room. Steel pipe pile will be installed roughly up to 400 ft offshore to hold the turbidity curtain. During the project, we will also install 504 wooden piles for slope stability. The PC650 will load into 6x – 100CY (30' x 40') scows and pushed to the edge of the curtain. From there the E-Crane will take the material and transload into large Jumbo Hoppers. Lind Marine will use the Cassie Lind (1200 HP tug) to push the scows up to Birds Landing, CA to an offload facility. At the offload facility there will be an E-Crane to offload the material from the scows onto land. Lind Marine will use the Cassie Lind (1200 HP tug) to push the scows up to Birds Landing, CA to an offload facility. At the offload facility there will be an E-Crane to offload the material from the scows onto land. Lind Marine will also use the Cassie Lind to push scows to Redwood City, CA to an offload facility. All mariners are advised to use caution when transiting the area. For further comments or details, please contact SEVENSON ENVIROMENTAL project manager at (716) 807-1937. Alternate contacts: Jake Wood (607) 794-1654 and Terry Templeton (716) 476-6790.	
Golden Gate Bridge - San Francisco Bay/General/Marine Events/Boat Parade	Marine Events	The Coast Guard will enforce the regulations in 33 CFR 100.1105 establishing regulated areas in the navigable waters of San Francisco Bay for the annual U.S. Navy and City of San Francisco sponsored Fleet Week Parade of Ships and Blue Angels demonstrations from October 8 through October 11, 2026. Regulated Area Alpha, for the Navy Parade of Ships, includes all navigable waters from the surface to the seafloor encompassed by the following coordinates: 37.81111, -122.47722; 37.81944, -122.47806; 37.82528, -122.42167; 37.81833, -122.40222; 37.79806, -122.37833; 37.76667, -122.36667; and 3 7.76667, -122.38528 Regulated Area Alpha will be enforced from 10 a.m. to 12 p.m. on October 9, 2026. Regulated Area Bravo will be enforced from 12 p.m. to 5 p.m. on October 8 through October 11, 2026. Under 33 CFR 100.1105, vessels may not enter the regulated areas without permission from the Captain of the Port. Additionally, no person or vessel may enter or remain within 500 yards ahead of the lead Navy parade vessel, within 200 yards astern of the last parade vessel, or within 200 yards on either side of all parade vessels. No person or vessel may anchor, block, loiter in, or impede the transit of ship parade participants or official patrol vessels. Please see additional notices for information regarding other marine events. All mariners are advised to transit the area with caution.	

Golden Gate Bridge - San Francisco Bay/General/Marine Events/Other	Marine Events	The Coast Guard will enforce the regulations in 33 CFR 100.1105 establishing regulated areas in the navigable waters of San Francisco Bay for the annual U.S. Navy and City of San Francisco sponsored Fleet Week Parade of Ships and Blue Angels demonstrations from October 8 through October 11, 2026. Regulated Area Bravo, for U.S. Navy Blue Angels activities, includes all navigable waters from the surface to the seafloor encompassed by the following coordinates: 37.80764, -122.40111; 37.82528, -122.40500; 37.81667, -122.46444; and 37.80528, -122.46111 Regulated Area Bravo will be enforced from 12 p.m. to 5 p.m. on October 8 through October 11, 2026. San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Curtin Maritime (CMC) will conduct maintenance dredging from on or about September 30, 2026, through on or about November 30, 2026, within the South San Francisco Ferry Terminal basin and the Oyster Point Marina Dock 11 and Guest Dock areas. Operations will be conducted seven days a week from 0700 to 2200. Mechanical dredging will be performed by clamshell dredge DB Ironbound (150 feet x 54 feet x 9 feet), with dredged material loaded into scows and transported to an approved disposal or beneficial reuse location, including the Montezuma Wetlands Restoration Project (MWRP). Vessels involved include scows Arrow Point and Long Point, each with a 1,400-cubic-yard capacity, and support tugs Emma C, Seanna C, Navy Bean, and Gretchen C. All manned equipment will monitor VHF-FM channels 13, 14, and 16. For more information, contact Project Manager Alexandro Rodriguez at (562) 241-2350. Mariners are urged to proceed with caution after passing arrangements have been made. All mariners are advised to transit the area with caution.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Dredging operations will be conducted at the Chevron Long Wharf, Richmond, beginning on or about July 1, 2026, and ending before November 30, 2026. The clamshell dredge "DB 24" will carry out dredging operations, and a fleet of three split hull scows with capacities of 2,000 CY and 3,000 CY will be utilized for all disposal operations to SF-10, SF-11, or MWRP. The tow tug "Sarah Reed" will serve as the tow tug during disposal operations, with support from the tender tug "Phyllis T." All equipment will monitor VHF channels 13, 14, and 80A. Operations will be conducted 24 hours a day, 7 days a week, between the Richmond Long Wharf Dredge Sites located at approximately 37.92191, -122.41122 and disposal sites. For more information, contact Operations Manager Dennis Salyers at (415) 497-5289. Mariners are advised to use extreme caution while transiting the dredge area. All mariners are advised to transit the area with caution.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting wharf demolition operations at Pier 90 in San Francisco from August 12 to September 30, 2026. Operations will occur at approximately 37.74716, -122.38363. The Crane Barge 2 (Call Sign: CB2), Zaccor I (Call Sign: Zaccor 1), and Zaccor VII (Call Sign: Zaccor 7) will be involved in the operations. On-scene vessels will monitor VHF-FM Channels 13 and 14 when near deep-draft traffic, and Channel 16 otherwise. Mariners are requested to use caution when transiting near the demolition site. For more details or comments, contact Matt Bramlett at (925) 818-2324 or Mbramlett@silveradocontractors.com. All mariners are advised to transit the area with caution.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Curtin Maritime will be conducting maintenance dredging operations for the San Francisco Bay Area Water Emergency Transportation Authority and the San Mateo County Harbor District from September 25, 2026, to November 30, 2026. Operations will be conducted daily from 6:00 a.m. to 6:00 p.m. The work will occur near Oyster Point Channel in the South San Francisco Ferry Terminal basin and the Oyster Point Marina Dock 11 and Guest Dock areas. Mooring for scow barges will be established at approximately 37.66644, -122.37811. The dredge DB Ironbound, scows Arrow Point and Long Point, and support tugs Emma C, Seanna C, and Navy Bean will be on scene. A tug will be stationed on-site 24 hours a day to monitor moored vessels. All manned equipment will monitor VHF-FM Channels 13, 14, and 16. Mariners are urged to proceed with caution after passing arrangements have been made. For more details or comments, contact Alexandro Rodriguez at (562) 241-2350 or arodriguez@curtinmaritime.com. All mariners are advised to transit the area with caution.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Power Engineering Construction will conduct construction operations at Pier 80, San Francisco, in the vicinity of 37.74961, -122.37292. Operations are scheduled to begin on September 21, 2026, and continue through October 2, 2026. The DB California will be involved in the operation and will monitor VHF-FM Channel 69. Mariners are requested to transit the area with caution. For more information, contact Allen Deaver at (510) 932-7752. All mariners are advised to transit the area with caution.

Sector Humboldt Bay, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Pacific Maritime Group will conduct underwater operations, including commercial diving, in the Point Arena area off Manchester, California, from October 7 through October 30, 2026, near position 38.98444, -123.71778. The Clean Ocean, a 150-foot diving support vessel with a blue hull and white deckhouse, will be moored using a four-point anchor system marked by buoys, with assistance from a tugboat. When divers are in the water, Code Alpha and Diver Down flags will be displayed on the barge and diving support vessel. All project vessels will monitor VHF-FM Channel 16. Mariners are requested to transit the area with caution. Vessels approaching the moored work vessel must receive radio permission from the diving supervisor or vessel captain before passing within 1,000 feet of the diving support vessel. For questions or comments, contact Scot Anderson at scot@pmgus.com or 805-796-1235. All mariners are advised to transit the area with caution.	
Sector Humboldt Bay, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The Coastal Data Information Program (CDIP) has deployed a moored wave buoy, CDIP ID 94 (Cape Mendocino, CA), NDBC WMO ID 46213, on June 3, 2026. The buoy is located at 40.291500, -124.747500, approximately 17.5 nautical miles southwest of Cape Mendocino, at a depth of 346.0 meters. The buoy is a Datawell Directional Waverider 4 model and measures waves, sea surface temperature, air temperature, and surface current speed and direction. The new position is within 500 yards of the previous position. The buoy is described as a 3-foot diameter sphere with an attached telemetry whip antenna and a nighttime yellow warning flashing light. The light sequence consists of 5 flashes at 1-second intervals, with a period of 20 seconds between each series, and a visual range of one kilometer. The buoy is painted yellow and marked "Wave Buoy," with the URL cdip.ucsd.edu and phone number 858-534-3032. All mariners are advised to transit the area with caution.	Lat: 40° 17' 29" Lon: -124° 44' 51"
Sector Humboldt Bay, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Mertech Marine Projects BV will conduct subsea cable recovery operations offshore of Manchester, California, utilizing the vessel CRV Grace (Call Sign: V2ZV5). The CRV Grace is a 260-foot cable vessel with a blue/red hull and a white deckhouse. Operations are scheduled to run from October 7, 2026, through October 30, 2026, within a 100-meter wide corridor centered around position 39.007500, -123.728333. Due to the nature of cable recovery, the CRV Grace will have a severely restricted ability to maneuver. Pursuant to the U.S. Submarine Cable Act (47 U.S.C. section 25), all anglers must avoid deploying gear within 1 nautical mile of the cable vessel and within 0.25 nautical miles of any buoy marking a cable location. All vessels intending to pass within 500 feet of the CRV Grace must establish radio contact on VHF-FM Channel 16 and obtain clearance from the vessel Master prior to approaching. For questions or comments, contact Mertech Marine Projects at mmp.ops@mertechmarine.co.za, or call the local contact number at 805-796-1235.

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Autonomous Vessel Operations	Autonomous Vessel Operations	Fathomwerx Proving Ground (FPG) will conduct unmanned vessel operations in the Santa Barbara Channel on the following dates: September 1–4, September 7–11, September 14–18, September 21–25, and September 28–October 2, 2026, daily between 0700 and 1900 hours. Approximately 12 vessels will be involved in the exercise. Operations will be confined to a 5x5 nautical mile box defined by the following coordinates: 34.31478, -119.41681; 34.25559, -119.31968; 34.17480, -119.39084; and 34.23406, -119.48813 (Chart: US3CA69M). Mariners are requested to maintain a safe distance from the testing area and the FPG Support perimeter security vessel. Communications can be made via VHF Channel 16 (hail "FPG Support Vessel Water Lead") or by phone at 805-837-7468. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Autonomous Vessel Operations	Autonomous Vessel Operations	Anduril Industries will conduct Autonomous Surface Vehicle (ASV) operations from September 8 to September 30, 2026, in the vicinity of Area 1. Operations will be conducted aboard the manned vessel Blair C within the area bounded by the following coordinates: 33.54760, -118.12720; 33.55930, -117.85260; 33.43110, -117.82290; and 33.39060, -118.06120. The Blair C will monitor VHF-FM Channel 16. All vessels are requested to maintain greater than a 2.5 nautical mile separation to ensure safety during ASV operations. For further comments or details, contact Adam Potwora at +1-949-841-6583. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Autonomous Vessel Operations	Autonomous Vessel Operations	The Motor Vessel Limit Stalker will be conducting submerged Unmanned Underwater Vehicle (UUV) operations for The University of Texas at Austin off the coast of California from September 28 to October 4, 2026. Depending on weather and operational tempo, operations will be conducted within one of the following areas: A 3.0 nautical mile radius of approximately 33.69232, -119.14744. A 6.0 nautical mile radius of approximately 33.70751, -119.95306. The M/V Limit Stalker will be monitoring VHF-FM Channels 16 and 13 during these operations. For more details or comments, contact Michael Wooten at (512) 835-3160 or Paul Simmons at (512) 888-7511. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Autonomous Vessel Operations	Autonomous Vessel Operations	Fathomwerx Proving Ground (FPG) will conduct unmanned vessel operations in the Santa Barbara Channel on the following dates: October 5–9, October 12–16, October 19–23, and October 26–30, 2026, daily between 0700 and 1900 hours. Approximately 12 vessels will be involved in the exercise. Operations will be confined to a 5x5 nautical mile box defined by the following coordinates: 34.31478, -119.41681; 34.25559, -119.31968; 34.17480, -119.39084; and 34.23406, -119.48813 (Chart: US3CA69M). Mariners are requested to maintain a safe distance from the testing area and the FPG Support perimeter security vessel. Communications can be made via VHF Channel 16 (hail "FPG Support Vessel Water Lead") or by phone at 805-837-7468. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Hazards To Navigation/Wrecks	Hazards To Navigation	A 30' foot Pleasure craft has sunk in 50 feet of water in the Port of Los Angeles off Pier 400 in position 33°42.95N 118°15.142W. Mariners are advised to transit the area with caution and contact the U.S. Coast Guard on channel 16 with any concerns.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/LAA/RNA/Safety Zone	LAA/RNA	The 2026 Pacific Airshow will take place in Huntington Beach, CA, from October 1 to October 4, 2026. A temporary safety zone will be enforced for this event, encompassing all navigable waters within a 12,000 by 3,000-foot box bounded by the following coordinates: 33.63342, -117.98645; 33.65303, -118.01815; 33.65965, -118.01223; and 33.64002, -117.98055. The safety zone will be enforced during the following dates and times, including practice periods prior to the event: September 29, 2026, from 12:30 p.m. to 2:30 p.m.; October 1, 2026, from 10:30 a.m. to noon and 3 p.m. to 4:30 p.m.; October 2, 2026, from 9:30 a.m. to 5 p.m.; October 3, 2026, from 10 a.m. to 5 p.m.; and October 4, 2026, from 10 a.m. to 5 p.m. During enforcement periods, vessels will be prohibited from entering, transiting through, or loitering within the safety zone unless authorized by the Captain of the Port, Los Angeles – Long Beach, or a designated representative. The Sector Los Angeles - Long Beach Command Center Duty Officer may be reached on VHF Channel 16 or at (310) 521-3801 during the event. For more details or comments, contact Ken Ashmore at (714) 783-6156. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/LAA/RNA/Safety Zone	LAA/RNA	A temporary safety zone has been established for the 2026 Pacific Airshow in Huntington Beach, California, bounded by the following coordinates: 33.63342, -117.98645; 33.65303, -118.01815; 33.65965, -118.01223; 33.64002, -117.98055; and returning to the beginning. Vessels will be prohibited from entering, transiting through, or loitering within the safety zone during the following enforcement periods without permission from the Captain of the Port, Los Angeles–Long Beach, or a designated representative: 1930Z to 2130Z on September 29, 2026; 1730Z to 1900Z and 2200Z to 2330Z on October 1, 2026; 1630Z on October 2, 2026, to 0000Z on October 3, 2026; 1700Z on October 3, 2026, to 0000Z on October 4, 2026; and 1700Z on October 4, 2026, to 0000Z on October 5, 2026. The USCG Sector Los Angeles–Long Beach Command Center can be reached on VHF-FM Channel 16 or by phone at (310) 521-3801. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Pacific Maritime Group will conduct underwater operations, including commercial diving, in the Montana de Oro area off Morro Bay, California, from October 7 through October 30, 2026, near position 35.30667, -120.88333. The Clean Ocean, a 150-foot diving support vessel with a blue hull and white deckhouse, will be moored using a four-point anchor system marked by buoys, with assistance from a tugboat. When divers are in the water, Code Alpha and Diver Down flags will be displayed on the diving support vessel. All project vessels will monitor VHF-FM Channel 16. Mariners are requested to transit the area with caution. Vessels approaching the moored work vessel must receive radio permission from the diving supervisor or vessel captain before passing within 1,000 feet of the diving support vessel. For questions or comments, contact Scot Anderson at scot@pmgus.com or 805-796-1235. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Aqueos Corporation will be conducting underwater inspection and maintenance work off of Whites Point from September 16 to October 14, 2026. The operations will involve the Offshore Supply Vessel Loren C using an underwater remote operated vehicle (ROV) and will be conducted on a 24-hour basis. The vessel will be in a "live boat mode" and not anchored. The work will be conducted within the area bounded by the following coordinates: 33.71945, -118.33094; 33.71249, -118.31218; 33.69098, -118.30628; 33.68075, -118.31639; and 33.70149, -118.34799. The vessel will monitor VHF Channel 16. For more details or comments, contact Greg Garnett at (808) 476-1556 or the vessel at (805) 895-9005. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Manson Construction Co., under contract with the Port of Long Beach, will conduct clamshell dredging of the Western Anchorage Sediment Storage Site (WASSS), with offloading at Channel 2 between Berths B82 and B83 via dredge bucket. Operations will take place at approximately 33.7248308, -118.2194517 and are expected to begin on or about September 18, 2026, and continue through approximately October 1, 2026, 24 hours a day, 7 days a week. Vessels involved include dredge DB Vulcan (Call Sign WDE5434), survey boat Bayou Bengal (Call Sign WDP5413), and scows Southport and Eastport. Vessels will monitor VHF-FM channels 13, 16, and 67. For more information, contact Project Manager Jack Fernandez at (904) 495-4835, Superintendent Jon Denison at (904) 896-8216, or Lead Engineer Will Ferrell at (904) 477-2060. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. All mariners are advised to transit the area with caution.	

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The City of Santa Barbara's Water Resources Department, with support from IDE America Inc. and Danny C of Castagnola Tug Services, will conduct nearshore marine construction operations using divers and a crane to replace two offshore intake pumps for the Desalination Plant in Santa Barbara, CA. Operations will take place at approximately 34.408167, -119.681503. Work will occur during daylight hours between August 26, 2026, and September 30, 2026. Mariners are requested to transit the area with extreme caution at a minimum safe speed to minimize wake, and maintain a minimum of 500 feet of clearance from all project vessels (abiding by the USCG 500-meter Safety Zone if possible).	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	Gregg Drilling and Testing will conduct drilling operations from August 31 through October 10, 2026, in the vicinity of Long Beach Outer Harbor Anchorage B at approximately 33.72940, -118.21522. The R/V QUIN DELTA will be on scene monitoring VHF-FM channels 16, 13, and 74. Mariners are advised to use caution when transiting the area. For further comments or details, contact Captain Tim O'Donnell at (949) 254-5190 or by email at BEARatSEA@gmail.com. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Aqueos Subsea will conduct underwater pipeline inspection work using an ROV from the OSV Loren C (Official Number 9383792, Call Sign WDP 2092) along the Sable SYU State pipelines to shore in the Santa Barbara Channel off Gaviota. Operations are expected to begin on or about September 21, 2026, and continue through September 30, 2026, for approximately 10 days. The work will include live-boat ROV pipeline inspections and will be conducted 24 hours per day within the area bounded by the following coordinates: 34.45837344, -120.048378; 34.45481015, -120.0330558; 34.38081238, -120.1142989; and 34.41165606, -120.1043412. The OSV Loren C is a 225-foot offshore supply vessel with a red hull and white superstructure and will monitor VHF-FM Channel 16. The vessel can also be reached by cell phone at (805) 895-9005. For more information, contact Aqueos Subsea. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Occidental College will conduct sonar survey operations in the vicinity of Malibu east of Point Dume, the east end of Santa Cruz Island, and the east end of Santa Rosa Island from September 21, 2026, to October 31, 2026. Operations will be conducted using the 21-foot Boston Whaler "Neoclinus" and the 76-foot aluminum vessel "Yellowfin." Vessels on scene will monitor VHF-FM channels 16 and 72. Mariners are requested to transit the area with caution. For more information, contact Jonathan Williams, Occidental College, at 323-259-2891. Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Aqueos Corporation will be conducting underwater pipeline inspection work for Exxon Mobil from September 27 to October 27, 2026. Operations will be conducted at Platform Holly and the Seep Tents at approximately 34.38986, -119.90604. The operations will be conducted on a 24-hour basis by the OSV Loren C (Call Sign: WDP 2092) using a Remote Operated Vehicle (ROV) in "live boat" mode. The vessel is 225 feet LOA with a red hull and white superstructure, and will monitor VHF Channel 16. Mariners are requested to use caution when transiting near the operation. For more details or comments, contact Greg Garnett at (808) 476-1556 or the vessel directly at (562) 768-8282. All mariners are advised to transit the area with caution.	

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Alamitos Bay Yacht Club will sponsor the 505 Worlds Test Event Regatta from October 2 to October 4, 2026, from 1 p.m. to 5 p.m. each day. Approximately 10 to 14 sailing dinghies will race on a course east of the Long Beach Harbor breakwater, centered at 33.719, -118.126. Mariners are requested to transit the event area with caution. For more details or comments, contact Grant Hill at (562) 434-9955. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Alamitos Bay Yacht Club will sponsor the U.S. Sailing Youth Championship from October 9 to October 12, 2026, from 1 p.m. to 5 p.m. each day. Approximately 150 sailing vessels of various types will race on courses in the vicinity of Island Chaffee, Island Grissom, and Island Freeman in the Long Beach Outer Harbor, centered at 33.744, -118.150. Mariners are requested to transit the event area with caution. Safety personnel can be contacted at (213) 446-3206 or via VHF Channel 68 during the event. For more details or comments, contact Gregory Naiman at (323) 314-8700. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Boeing will be conducting Autonomous Underwater Vehicle (AUV) operations from 14 January 2026 to 31 December 2026 within the following positions: Area 1: 33.694N -118.307W 33.648N -118.336W 33.687N -118.411W 33.73N -118.38W 33.717N -118.389W 33.730N -118.420W 33.724N -118.424W 33.712N -118.393W Area 2: 33.44267N -118.44865W 33.42597N -118.39972W 33.42657N -118.35533W 33.48736N -118.30997W 33.52635N -118.39197W 33.46963N -118.44865W Host vessel AMERICAN ISLANDER will be within 1,000 yards, the UUV will have a very low surface profile. Mariners are requested to transit the area with caution and to maintain 1 nautical mile range separation from the host vessel. AMERICAN ISLANDER will be monitoring VHF-FM Chan. 13, 14, & 16. For more details or comments, contact Joe Beauchesne at 714-642-3781.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The Coast Guard has received a report of possible unexpended historical ordnance on the ocean floor south of San Miguel Island in the vicinity of Tyler Bight at position 34.02917, -120.41083. All mariners are strongly advised to maintain a 2000-yard or 1 NM distance from the area and transit with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Los Angeles County Sanitation District (LACSD) will conduct surface-supplied diving operations on the AK Warren Effluent Outfalls off White's Point from September 28, 2026, to October 3, 2026, for approximately 6 days. Operations will be conducted 12 hours per day, Monday through Saturday, using the Derrick Barge Salta Verde (Official Number 622241, Call Sign WDF 9705) and tug Sarah C. The Derrick Barge Salta Verde will be in a 4-point moor while conducting diving operations to perform inspections on the LACSD outfalls and will follow the outfall path during the project. The barge is described as a 185-foot by 50-foot black derrick barge with a deck-mounted crane. The operation area includes the following coordinates: 33.719453, -118.325383; 33.712494, -118.312178; 33.701489, -118.347986; 33.690978, -118.306283; and 33.680753, -118.316394. The vessel will monitor VHF-FM Channel 16 and can be reached by cell phone at (805) 570-2642. For more information, contact Los Angeles County Sanitation District. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Mertech Marine Projects BV will conduct subsea cable recovery operations offshore of Morro Bay, California, utilizing the vessel CRV Grace (Call Sign: V2ZV5). The CRV Grace is a 260-foot cable vessel with a blue/red hull and a white deckhouse. Operations are scheduled to run from October 7, 2026, through October 30, 2026. The vessel will begin recovery at a depth of 1000 fathoms and transit toward shore within an approximately 100-meter-wide corridor between the coordinates 35.375831, -121.867867 and 35.322167, -120.884331. Due to the nature of the cable recovery and subsea support activities, the CRV Grace will have a severely restricted ability to maneuver. Pursuant to the U.S. Submarine Cable Act (47 U.S.C. section 25), all anglers must avoid deploying gear within 1 nautical mile of the cable vessel and within 0.25 nautical miles of any buoy marking a cable location. All vessels intending to pass within 500 feet of the CRV Grace are requested to establish radio contact on VHF-FM Channel 16 and obtain clearance from the vessel Master prior to approaching. For questions or comments, contact Mertech Marine Projects at mmp.ops@mertechmarine.co.za, or call the local contact number at 805-796-1235	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	MARINERS ARE ADVISED THAT REPORTS OF GLOBAL POSITIONING SYSTEM (GPS) DISRUPTIONS HAVE BEEN RECEIVED IN THE VICINITY OF VANDENBERG SPACE FORCE BASE AND SURROUNDING WATERS. THE PRECISE AREA AND EXTENT OF THE DISRUPTION CANNOT BE CONFIRMED AT THIS TIME. MARINERS OPERATING IN THE AFFECTED OR POTENTIALLY AFFECTED AREA ARE ADVISED TO EXERCISE CAUTION AND USE ALL AVAILABLE MEANS OF NAVIGATION, INCLUDING VISUAL AND RADAR NAVIGATION, AND OTHER INDEPENDENT POSITIONING METHODS. MARINERS SHOULD BE PREPARED FOR POSSIBLE LOSS OR DEGRADATION OF GPS SERVICE.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Global Marine will conduct an ROV survey (video only) of a fiber optic cable in California using the Cable Innovator from September 30 through October 6, 2026. Survey operations will occur between approximately 35.12155, -120.65041 and 35.29762, -121.87201. Mariners are advised to use caution when transiting in the vicinity of the Cable Innovator. All mariners are advised to transit the area with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION

Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Autonomous Vessel Operations	Autonomous Vessel Operations	The Air-Sea Interaction Laboratory (AIR-SEA) at Scripps Institution of Oceanography (SIO), UC San Diego, will conduct continuous autonomous, unmanned maritime vehicle operations from August 3 to approximately September 30, 2026. One SV3 Wave Glider vehicle will operate within the area bounded by the following coordinates, while staying outside of the San Clemente Island Safety Exclusion Zones: 32°45'N, 117°15'W (32.75 ; -117.25) 33°00'N, 117°15'W (33.00 ; -117.25) 33°30'N, 117°15'W (33.50 ; -119.00) 34°11'N, 120°00'W (34.18 ; -120.00) 34°24'N, 121°00'W (34.40 ; -121.00) 34°24'N, 123°00'W (34.40 ; -123.00) 33°00'N, 123°00'W (33.00 ; -123.00) 33°00'N, 118°30'W (33.00 ; -118.50) Operations consist of scientific ocean data collection. The Wave Glider carries no fuel, lubricants, or hydrocarbons; it is wave-powered, moves at speeds of around 0.5 kt, and is remotely attended from the Air-Sea Interaction Laboratory. The vehicle is surfboard size, dark brown in color, with a contact plaque and mast extending 1 meter above the water surface supporting a flag, radar reflector, and light (ON from sunset to sunrise). It is equipped with an AIS transmitter/receiver, broadcasting its position every 5 minutes (MMSI: 338465527). Mariners are requested to transit the area with caution. Reference chart 18740 for more information. For further comments or details, contact Luc Lenain at (858) 534-2061 (w), (858) 366-8798 (c), llenain@ucsd.edu, or Laurent Grare at (858) 230-1669 (c), lgrare@ucsd.edu. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Autonomous Vessel Operations	Autonomous Vessel Operations	Anduril Industries will be conducting Autonomous Underwater Vehicle (AUV) operations in the vicinity of Dana Point, California. The scope of operations includes deployment and recovery activities supported by the research vessel RV Zephyr (IMO 8992845, MMSI 338142000). Operations are scheduled to take place from January 23, 2026, through December 31, 2026. The operational area is defined by the following coordinates: Top Left: 32.79972° N, -117.56750° W Bottom Left: 32.75306° N, -117.55861° W Top Right: 32.80083° N, -117.29639° W Bottom Right: 32.76250° N, -117.28639° W This operation is referenced on NOAA Chart 18740. The RV Zephyr will be on scene and monitoring VHF Channel 16. All mariners are advised to transit the area with caution when near the RV Zephyr. For further information or details, please contact Josh Knaak at +1-949-512-1312 or +1-949-841-9239.	
Sector San Diego, Submerged Lands Act (SLA)/General/Bridges	Bridges	ARIZONA-COLORADO RIVER-LOWER CIBOLA BRIDGE-. The two middle spans of the bridge have collapsed into the river due to a brush fire and are marked from dusk to dawn with red lights. The BLM reports span six, the main navigation span, is stable and open. Span six piers are marked with red lights, and the center is marked with green lights. Temporary buoys have been deployed to mark the area. For updates, contact the Coast Guard Bridge Office at 510-219-4366 or SWDBridges@uscg.mil.	Lat: 33° 18' 12" Lon: -114° 40' 42"
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Southern California Edison (SCE) will perform maintenance on the existing SONGS revetment (riprap) by restacking the existing rock and adding new rock fill material along 1,470 linear feet of shoreline to restore the riprap to its original, permitted design. Work activities will occur within the SONGS walkway area in San Diego County, at 33.3689, -117.5556, and rock placement and stacking will extend 27 feet out from the pedestrian walkway. The project will begin on 01 June 2026 and run through the end of December 2026. For more information, contact Southern California Edison. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Events/Swim	Marine Events	KOZ Events will sponsor the Mission Bay Triathlon on October 11, 2026, from 6:30 a.m. to 9:00 a.m. The event will involve approximately 1,200 participants swimming in Ventura Cove, Mission Bay. Mariners are advised to exercise due caution while transiting the area. For more information or comments, contact Tobias Panek at 858-255-9709. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Events/Other	Marine Events	A Mass Rescue Operation exercise will be conducted outside Point Loma in the vicinity of position 32.6801, -117.2499 on October 5–6, 2026, from 6:00 a.m. to 4:00 p.m. each day. Eight government organizations will participate in the exercise. Mariners are advised to use due caution when transiting near the event area. For more details or comments, contact 619-454-9027. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Miscellaneous	Miscellaneous	The Marine Corps Tactical Systems Support Activity (MCTSSA) will conduct oceanographic surveillance operations to support training area safety at Camp Pendleton for the 3rd Amphibious Assault Battalion, 1st Recon Battalion, and Assault Craft Unit 5. Operations will involve the deployment and quarterly maintenance of in-water oceanographic data collection buoys at the following positions: Spotter 1 at 33.2965225, -117.4729195; Spotter 2 at 33.2900481, -117.4677166; and Spotter 3 at 33.2853513, -117.4626498. The operation will occur between May 6, 2026, and May 6, 2027, utilizing up to two boat teams and a maximum of eight personnel. For more information, please contact Capt Keo, Daniel at MCTSSA at 760-725-0533 or 404-509-7690. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Naval Activity/Military Operations	Naval Activity	A military training exercise will be conducted on October 5th through October 20th, 2026. The exercise will occur within the following coordinates: 32.637789 -117.205475, 32.638081 -117.17225, 32.605336 -117.205353, 32.605344 -117.172072. Mariners are requested to give 1000 yards of clearance of the operational box that was given. For more details or comments, contact Lieutenant Allen Lewis at 808-473-8473

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/Autonomous Vessel Operations	Autonomous Vessel Operations	Sofar Ocean Technologies will be conducting autonomous surface vessel (ASV) testing and survey operations in Half Moon Bay from September 23, 2026, to October 7, 2026. The operations will be conducted 24 hours a day within the area bounded by the following approximate coordinates: 37.427597, -122.560808; 37.405781, -122.561378; 37.404806, -122.594411; and 37.427933, -122.593147. The ASV Online Oceans Scout (CF 7447 TR) and a 19-foot support vessel (CF 3571 SX) will be on scene. The on-scene operator will monitor VHF-FM Channel 16. Mariners are requested to transit the area with caution and maintain a safe distance. For more details or comments, contact Cameron Dunning at (415) 912-6858. All mariners are advised to transit the area with caution.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	The Scripps Institution of Oceanography research vessel ROGER REVELLE (Call Sign KAOU) will conduct surface to floor oceanographic operations from October 8 to November 5, 2026, in the vicinity of the following waypoints: 36.958736, -122.599167; 36.958736, -121.077666; 35.439742, -121.077666; and 35.439742, -122.599167. The exact timing and location of each station will depend on operational concerns and weather conditions. During over-the-side operations, the vessel will be restricted in its ability to maneuver; all traffic is requested to give ROGER REVELLE a wide berth. The R/V ROGER REVELLE will monitor VHF-FM channels 16 and 13. Mariners are advised to use caution when transiting the area. For further comments or details, contact Heather Galiher at 858-226-8761. All mariners are advised to transit the area with caution.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Rock barrier construction will be conducted in the channels of Middle River, Old River, and Grant Line Canal, San Joaquin County. The scope of operations includes excavators from the levee dropping rock in the channels to build barriers across to the opposite levee. No barges will be used for the installation of the barriers. Operations are scheduled as follows: Construction: May 1, 2026, through the first week of June 2026 Barrier in place: First week of June 2026 through end of October 2026 Removal: November 1, 2026, through November 30, 2026 The channels will be blocked until approximately November 30, 2026. DWR will provide boat portage at Old River and Grant Line Canal, but not at Middle River, which is not navigable due to shallow depth. Locations of operation: Middle River near Victoria Canal: 37.8857° N, -121.4822° W Old River near Tracy: 37.8103° N, -121.5428° W Grant Line Canal near Tracy Boulevard Bridge: 37.8199° N, -121.4483° W No vessels are involved in the operation. This activity is referenced on Chart US4CA46M. For additional information, please contact the Area Control Center at (209) 833-2180 (24-hour phone). All mariners are advised to transit the area with caution and observe all navigation restrictions and portage instructions.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The City of Pacifica has indefinitely closed the Pacifica Municipal Pier, located approximately 0.80 nautical miles north of Mori Point and 2.33 nautical miles north of Point San Pedro at coordinates 37.633389, -122.496198, due to a recent structural damage event at the pier abutment and first span. Effective immediately as of July 31, 2026, falling debris and material entering the water present a significant hazard to navigation. Mariners and the public are strongly advised to remain clear of the pier structure, maintain a safe distance, and exercise extreme caution when operating in the vicinity. For further information or updates, contact City of Pacifica Public Works Engineering at (650) 738-3767 or via email at engineering@pacificagov.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	Snelson Companies will be performing pipeline removal operations for Pacific Gas and Electric (PG&E) on the San Joaquin River near the city of Dos Palos from August 24, 2026, to September 30, 2026. The operations will occur at approximately 36.98226, -120.49985. These operations are not anticipated to impact navigation of the river. For more details or comments, contact Kelvin Qiu at (925) 404-3723 or Jorgen Miller at (360) 624-5043. All mariners are advised to transit the area with caution.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Open Ocean Robotics will be operating one Uncrewed Surface Vehicle (USV) at a time for a one-year period within a 10 NM radius centered on NOAA Buoy 46012 (37°21'20" N, 122°52'51" W), approximately 24 NM SSW of San Francisco, CA (Figure 1). One USV will remain on station at a time and will be replaced by a second USV when battery levels require a swap. During a swap, there will be a brief period when two USVs are on the water: one holding station and the other transiting from Half Moon Bay to the operational area. Once the replacement USV arrives on station, the original USV will transit back to Half Moon Bay for recharging. The USVs are broadcasting on AIS under the names "DATAEXPLOER016" (MMSI 316058968) and "DATAEXPLOER018" (MMSI 316059415). They are equipped with radar reflectors and small-craft navigation lights. Each vessel is approximately 12 ft long, 3 ft wide, and 4 ft high, and is colored red and white (Figure 2). The USVs will transit from Half Moon Bay to the operational area and will be operated remotely 24 hours a day by trained personnel. For more information, please contact Madeleine Bouvier-Brown at 604-347-0036 madeleine@openoceanrobotics.com or Sebastian Deggan at 250-667-2586

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Joaquin River - Stockton Channel/General/Hazards To Navigation/Obstructions	Hazards To Navigation	The U.S. Coast Guard has received a report of a submerged piece of concrete or rock located between Walter’s Island and Morrison Island in the vicinity of Black Slough Landing, in approximate position 37.99638, -121.42030. Mariners are advised to transit with caution.	
San Joaquin River - Stockton Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group and Camenzind Dredging, Inc., under contract with the City of Stockton, will conduct maintenance dredging within Buckley Cove, Stockton, California, including marina slips, fairways, and the boat-launch area, with placement at the Roberts Island Dredged Material Placement Site (DMPS), located across the San Joaquin River from Buckley Cove. Operations will use a 14-inch hydraulic cutter-suction dredge and floating/submerged pipeline. Work is expected to begin on or about October 1, 2026, and be completed on or before November 30, 2026. Operations will be conducted up to 12 hours per day, 6 days per week, Monday through Saturday. The dredging area is located at approximately 37.97474, -121.38094, and the Roberts Island DMPS disposal area is located at approximately 37.97453, -121.38331. Vessels involved include Dredge Paul Vincent, work boat Fester, additional work boats, an excavator barge, and skiffs. Vessels will monitor VHF-FM Channel 16 and operate on Channel 68. This work is authorized under Army Corps Permit No. 2024-00684. Floating/submerged pipeline will be marked with 30-inch diameter spherical yellow floats; anchors will be marked with 30-inch diameter spherical white buoys. Lighted “Danger” buoys with reflective tape and radar reflectors will be used where the dredge pipeline poses a navigational hazard. Mariners are advised to use extreme caution when transiting the area. For more information, contact CDI Project Manager Kurt Camenzind at (650) 424-0367 or (650) 444-8453, Dutra Project Superintendent Dennis Salyers at (415) 497-5289, or call (415) 218-6739. All mariners are advised to transit the area with caution.
